Two National Guards From Detroit, Mich., Resign as Delegates

Detroit, Mich.—Two Negro Michigan national guard officers resigned as delegates to the National Guard Association conference in San Antonio, Tex., when they were informed by the adjutant general that they would have to observe racial segregation laws.

Both veterans of World War II and Korea, the officers are Lt. Col. William M. Womack, 43, commander of the state's 1st missile battalion 77th artillery and Maj. Marvin L. Green, 42, battalion officer. Both are teachers in the Detroit public school system.

The two officers said they had previously planned to observe the Texas segregation laws but when the Texas adjutant general pointedly spelled out the restrictions, they decided to resign.

GEORGE COOPER

Seeks Quick Action in Dollarway School Unit

Little Rock—The United States District Court has been asked to require the Dollarway school board to act within 10 days upon the request of three Negro students for admission to the all-white school.

Robert L. Carter, NAACP general counsel, and George Howard of Pine Bluff filed a motion in the federal court here on behalf of the children who previously had been ordered admitted to the Dollarway school only to have the lower court's decision overruled by the U. S. Court of Appeals.

Re-assignment

The motion, filed on Sept. 28, asked that the school board be ordered into court should it fail to act upon the applications for re-assignment within 10 days. Under the pupil placement law, any student dissatisfied with his assignment may apply for re-assignment. The law requires the school board to hold a hearing within 30 days and give a prompt decision.

Schools in Dollarway had remained closed until after Sept. 21 when the Court of Appeals rescinded a ruling by District Court Judge Axel J. Beck ordering the admission of three Negro pupils to the white school. The schools were re-opened on a segregated basis. The present action seeks the re-assignment of the three pupils to all-white Dollarway schools.

No Teenage Gangs in Africa Says Noted Artist; Youths Too Busy Trying to Advance

New York City—During a time when teenage killings and gangs are headline news over the nation—a spokesman who has just returned from Africa states there is no teenage delinquency there.

"The kids in Africa are too busy planning to better themselves and get an education—they don't have time to get into mischief," stated Earl Sweeting, American Negro artist who recently returned from that country to take part in the African Heritage Exposition held here last month.

"The youth do not hang around the streets at night—do not belong to gangs and do not carry weapons," Sweeting says emphatically. "The country itself has greatly expanded. You would never think this is the Africa you've been reading about and seeing in the movies. American TV has a tendency of giving the viewer a distorted viewpoint. Too few of the 'Reports on Africa' have been authentic."

Mau Mau

"For instance," Sweeting pointed out, "the Mau Mau still exists but they are not fighting for evil—they

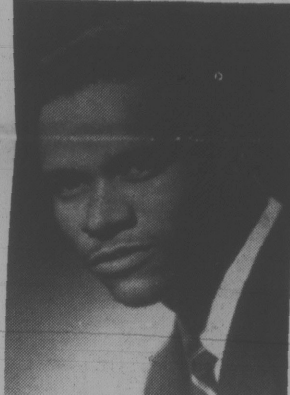

Kaiser, One of Three Policemen Suspended

Patrolman Frank Kaiser, 39, was one of three Des Moines policemen recently suspended by City Manager Elder Gunter for failing to allow a prisoner to make a phone call.

Gunter ordered the suspension Sept. 21 after investigating the complaint of Angelo Joseph Mazza, 35, of 3709 Merle Hay road. The other two suspended were Patrolmen George Schinkel, 32 and Richard Lamb, 25, (suspended one day each) who arrested Mazza about 1 a.m. Sept. 8 and charged him with impersonating an officer. Kaiser (suspended two days) was the jailer at the police station where Mazza was brought there for booking. The patrolmen worked days off without pay to remove their suspensions.

Speaking before the conference of the Iowa Welfare association Sunday evening, Mrs. Edith Sampson, noted Chicago attorney, lecturer and traveler, warned of the danger of American overlooking and minimizing the one of two immense world revolutions.

"We recognize easily enough—the Communist revolution. We are aware of the might of the Soviets," she said.

"But, this second revolution, which has taken place among the once-subject colored people of the world, we too often overlook or minimize," she continued.

"These peoples have come awake, thanks to the advances of in communications and in technology, to their own potentials. They have come to realize what some Americans still have not—that the colored people of the world, far from being minorities, constitute a real majority on this shrunken globe of ours," the former United Nations delegate asserted.

Internal Relations

Touching on internal race relations, Mrs. Sampson stated, "We have come a long, long way in relatively little time. In no other nation in history has an oppressed minority made the strides that the Negro has made in these United States in the past 96 years."

SUI to 'Go into Orbit' in Homecoming Fetes, Parade

Iowa City, Iowa—State University of Iowa achievements will "go into orbit" this coming weekend on the traditional Homecoming Corn Moqueum being built by student engineers.

Designed to resemble a rocket 25 feet high, the monument will carry the words "Research, Education, Progress" on a section which will revolve about four times a minute. The tribute to Professor James Van Allen's space research and other University achievements will stand on the west approach to Old Capitol, where it will be visible to thousands of SUI alumni and friends of the University who will return to the campus for Homecoming festivities.

Reunions

Decorations at fraternities, sororities and dormitories will give Iowa City a festival atmosphere for the many reunions and open houses planned for the Homecoming crowd. The traditional Homecoming Parade Friday at 7 p.m. will get the weekend off to a gala opening. An open house in Iowa Memorial Union will follow.

Urges Mississippi to Use FBI Report on Parker Lynching

Atlanta—Gov. J. P. Coleman of Mississippi and the Pearl River County district attorney have ignored an NAACP request that the evidence gathered by the FBI in the Mack Parker lynching case last April be submitted to the grand jury, Mrs. Ruby Hurley, the Association's southeast regional secretary, reported this week.

Following announcement by District Attorney Vernon Broom on Sept. 11 that he would not submit the FBI report to the grand jury, Mrs. Hurley sent a telegram to him charging that "failure to ask court action on FBI evidence is inexcusable." Citing a newspaper report of

Guilty Parties

Moreover, the NAACP regional secretary pointed out, "the State of Mississippi has been grossly negligent in its protection of the rights of Negroes and is evidently unwilling to bring to justice the guilty parties."

The 367-page FBI report was submitted to the district attorney by Gov. Coleman for presentation to the grand jury hearing scheduled for Nov. 2. Mr. Broom dismissed the report as "mostly hearsay" and an-

Here's a new easy way of making a traditional elegant dessert, peach melba. You only need a peach, ice cream and powdered sugar, doughnuts, from your grocer's ready-to-eat cake department. Mrs. Sampson, who takes a trip abroad each year in a personal attempt to determine what is hampering U.S. diplomatic relations, reported that instances of failure of race relations in this country have been thrown up to her when she asked about problems in other nations.

Iowa Indian

In one case Mrs. Sampson said she was asked "whether it was true, as reported that here in Iowa an American Indian, distinguished veteran of our armed forces, had been denied burial because of his race." "Granted, these instances in many cases assume—out of context—a seeming importance beyond their real size. This I have said time and again in my travels, whenever I've had the slightest opening."

Faubsus

"Every Orval Faubus, I've pointed out, has a Harry Ashmore ranged against him—usually many Harry Ashmores. Every present instance of prejudiced oppression of the Negro, or the Mexican of the southwest or the Chinese and Nissi of the West Coast must be viewed in a perspective of very real advance," she said.

Mrs. Sampson is a former social worker and assistant corporation counsel for the city of Chicago, where she is active in numerous civic and community affairs. The Iowa Welfare conference, which convened Sunday closed its sessions Wednesday at Hotel Savary.

Welcoming Letter
"One of the first human incidents that happened within the plant concerned the first Negro woman who was employed as a secretary. Soon after her arrival she received a fine letter from another secretary welcoming her to Latex and stating how pleased she was to see the com-

pany hiring all qualified citizens. To me, this type of friendliness appearing in a newly integrated situation in southern Delaware was worthy of note."

Less than a month before Dr. Holland gave the President's Committee the benefit of his observations on the Dover situation, the Latex corporation had never employed a single Negro, in any capacity.

Nothing Derogatory
"I have made a number of telephone calls to key persons in the community who have stated that they have heard nothing derogatory of the change and, in the main, have found most people expressing a sense of pride and satisfaction. They have praised management for the positive way in which it has handled and willingly supported the program."

Dr. Holland went on to relate to the Committee members several instances of warm receptions accorded the newly-hired Negroes by plant employees.

New York City-New "Copper Door" expensive. The customers love the new Cab Calloway show at the newly decorated Copper Door, only nightspot in the area featuring Negro entertainment—but the patrons are complaining that \$5.50 minimum for weeknights and \$7.50 for weekends is just too steep. Minimum rates most places are \$2.50.

You can either eat or drink it—and the food is delicious—but still knowing there's such a minimum dampens the spirit of many who would go there. The management, on the other hand, insists they do it to keep out Broadway riff-raff and catch the moneyed clients they're looking for. Another note: usually you can view the show from the bar but at the Copper Door soon as the show goes on (at 10 p.m., midnight and again at 2 a.m.) the curtains close and only those with reserved tables can enjoy it.

IPALCO Representative Presenting Checks For Over \$1,000,000 for Property Taxes

Wednesday, Sept. 30, was the deadline day for paying the last-half property taxes in Iowa without penalty. The Polk County Courthouse was a busy place. County Treasurer V. L. Browner was on hand to greet Al D. Carlson, district manager in Des Moines for Iowa

Power and Light Co., whose semi-annual visits on deadline day are always significant.

That's because Carlson, at left in photo, carries checks from Polk County's largest single property taxpayer. When he appeared Wednesday, Carlson carried checks totaling

Diann Carroll

We've always managed to say the nicest things about lovely Diann Carroll—and only because she's a lovely girl inside and out beautiful to look at and a beautiful personality. And now she's the talk of Los Angeles, after making a big openin' there at the Cloister. Her style of singing is on the Lena Horne side—but she's got very many original mannerisms only she can do. And too she's a singer who never relies on past glories—she's forever keeping her repertoire up to date. Choosing songs that really fit her is her secret—and changing her pace—as doing a medley from "Porgy and Bess"—then a comedy song "I Enjoy Being A Girl" from "Flower Drum Song" on Broadway—really shows her great talent. We hope the west coast will love this girl as we do here.

Michigan's Doctor of the Year Has Delivered More Than 4,000 Babies

Grand Rapids—Dr. Archer A. Claytor, 65-year-old Saginaw doctor, was honored by the Michigan State Medical Society, as "Michigan's Foremost Family Physician." The society presented an award to Dr. Claytor, son of slave parents, during its 94th annual session held here last week.

In his 23 years of practice, Dr. Claytor estimates he has delivered more than 4,000 babies. Dr. Claytor said that opportunities for Negro interns are not yet wide open in the state. Saginaw, for example, does not have any Negro interns.

However, the situation nationally and statewide is improving. Dr. Claytor said, just as opportunities for Negroes to attend medical schools are increasing, Dr. Claytor and his wife, Marie, the daughter of a physician, have two teen-age daughters. Elinor Marie, 18, is a freshman at Michigan State University. Carol Ann, 16, is considering

over \$1,000,000, representing Ipalco's second-half checks for taxes. One for \$979,574.81 was the Company's general property taxes in the County. The other for \$20,826.03 represented taxes on the Ipalco Building at 9th & Walnut.

This brings Ipalco's total property taxes paid in Polk County this year to \$1,959,149.10. This is over half of the total property tax they pay in the state for power plants, lines, sub-stations and gas distribution equipment within the state.

11 District Managers

Eleven Ipalco district managers in central and southwest Iowa were making similar calls on 23 other county treasurers. They delivered checks which, with the Polk County check, totalled \$1,738,019.88. In the 24 counties of the company's principal operation they pay the largest property taxes. The second half payments made Wednesday brought Ipalco's total Iowa property tax payments for the year to \$3,476,800.16.

City Government

Of the total paid in Polk County this year, \$398,677.90 goes to the support of City government in Des Moines; \$646,711.81 is earmarked for the Des Moines Independent School District; and \$506,026.91 goes into the Polk County general funds.

During the past 5 years Ipalco's property tax payments have increased over 69 per cent, while the assessed valuation of its property in Iowa has gone up 39 per cent.

Some Think Floyd Patterson Finished

Norfolk, Va.—The big boys can't get together on any future for Floyd Patterson.

Some thing Patterson will make a comeback, others say he is just about finished. Some crystal-ball gazers who predicted that Patterson would take the fight against Sweden's Ingemar Johansson and missed their bet, still feel their man has a chance to stage a comeback.

However, John Reed Kilpatrick, chairman of the board, Madison Square Garden, insists that Patterson is "all washed up." In a speech last week, Kilpatrick said the punch that licked Patterson "did something to him."

Never Recover?

"Patterson will never recover from that right hand in the mouth," Kilpatrick said. "He'll never be the same again."

Despite this pessimistic statement, some sports aces feel Patterson will take care of his interests the next time he meets the Swede. They evidently think it will be a comeback similar to that Joe Louis pulled in his celebrated second match with Max Schmeling on June 22, 1938.

Gov. Loveless Issues Proclamation Announcing National Potato Chip Week in Iowa.

PROCLAMATION: Whereas, the great State of Iowa leads the nation and world in agricultural production and annually has many thousands of acres devoted to the growth of potatoes; and whereas, millions of bushels of potatoes, 22% of the United States potato crop, are processed into potato chips; and whereas, it is proper that we recognize the importance of this great crop, now, therefore, I Herschel C. Loveless, Governor of the State of Iowa, do hereby proclaim the period of October 4-10, 1959, as Potato Chip Week, in the State of Iowa.

Potato chips take a wide variety of forms in the kitchen—usually based on regional tastes.

For example, in New England and in the Mid-West farm belts, where large sumptuous breakfasts are the rule, potato chips are a morning must. These regions have produced such new breakfast recipes as "chip n' Egg Scramble," "Potato Chip Pancakes" and "Potato Chip Waffles."

In the melting pots of the large metropolises, old-world dishes are being combined with potato chips to provide a new world flavor. Shiskel-bob and Potato Chips are a Near East contribution to America. And from the "Little Italys" in these same teeming cities have come Potato Chip Pizzas.

The devout Mennonites of Pennsylvania like to fancy up their ice cream with potato chips. Potato Chip Brownies originated on the West Coast and potato-chip-coated Southern Fried Chicken has caught on in the South.

Here's a brand new recipe that promises to be very popular.

ISLAND MEAT LOAF CHIP SURPRISE

Prepare meat loaf according to your favorite recipe, using soaked potato chips instead of bread crumbs. Arrange in a square cake pan and with the palm of your hand make a deep well in the center of the loaf. Fill this well with one package of frozen mixed vegetables and cover thickly with broken potato chips. Bake in a hot oven, 450 for ten minutes; reduce heat to 375, and bake 20

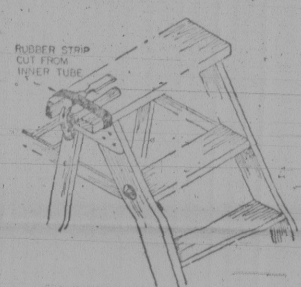

minutes more or till loaf is of preferred firmness. Serve with mustard sauce made as follows:

- 1 cup beef stock, or bouillon cube dissolved in 1/2 cup water
 - 1 tsp. dry mustard
 - 1 tbsp. flour
 - 1 tsp. tarragon
 - 1 pinch marjoram
 - 3 tbsps. crushed crisped potato
 - 1 tbsp. red wine vinegar
- chips. Mix all together and heat till sauce thickens, simmer for five minutes and serve.

Fasten Tools for Safety

HOW to keep tools secure while they rest on top of a step-ladder is shown in the illustration, reproduced through courtesy of

American Builder, authoritative magazine for the building industry. Fasten a piece of old inner-tube as shown. Slip tools under the band, which will prevent them from falling off. Also, both hands will be free when moving the ladder, and there will be no need to put down the tools every time a move is made.

Welcoming Foreign Students to City

Officially greeting foreign students at the first annual "Welcome Day for Students from Abroad" last Thursday evening was Mayor Charles F. Iles. Gathered around Iles are (from left) Soon Chun, Korea; John Uzodimma, Nigeria; Dr.

Philippe Meister, Germany; Yuksei Sivrioglu, Turkey; and Antonio Prieto, Colombia.

About 50 students from 32 countries attended the affair held at the YWCA sponsored by the Des Moines Association for International Education. Iles paid tribute to Mrs. Elinor

D. Robinson, Des Moines, co-ordinator of the Iowa Board of International Education, who has been active for years in bringing foreign students to Des Moines to study. James F. Swift, president of the Des Moines association, presided.—Photo courtesy of Des Moines Register.

New Africa

tractively put up in colored postal cards. Each describes a famous scene in African history—such as "The Ghanaians defending their country from the enemy"—the science of Medicine originated by Africans in the ancient empire of Ghana. The cards are educational in that they

tell you that Africans taught the Greeks the alphabet—one picture shows Ham teaching his brothers Shem and Japhet the alphabet.

It was Tyro, African secretary to Cicero, who originated shorthand writing in 63 B. C. Architecture was originated by African mothers in laying foundations for building construction. Aesop was an African—and he imported the wisdom of Africa to the Greeks. The Science

of Chemistry was originated by Africans—and it was the Africans who taught Mathematics to the Greeks. All these are painted from facts from reliable and authentic ancient history books and records.

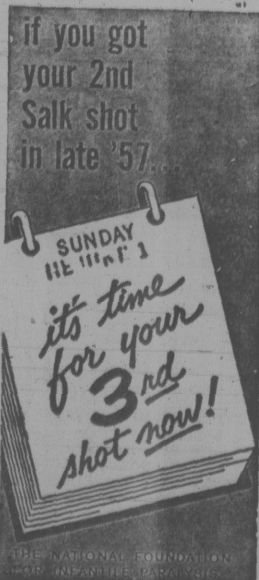

No Jungle

As an extra added attraction, Suetting beautifully painted the Madama and Child as Africans for Christmas greetings from the government to widen the international bond of peace at Christmastime.

"Never think of Africa as a jungle of natives and animals—these people are more than civilized—they are alert and ambitious and anxious to impart their knowledge—and learn more modern ways. It is amazing what they have done in Ghana in so short a time since gaining their independence. They realize what happens in Ghana sets the pace for other African countries struggling for freedom."

The driver of the automobile and Gipson's fishing partner, Orey Bishop, told police he thought the car was in reverse when he gunned the motor, causing the accident.

The minister who had gotten up early for the fishing expedition, became drowsy and decided to take a nap in the back seat of the car minutes before the mishap. Nearby fishermen managed to pull Bishop, from the water.

UNDERSTANDING IOWA CHILDREN

SPONSORED BY THE IOWA CHILD WELFARE RESEARCH STATION

Written by Lloyd Lovell, SUI Assistant Professor

PREPARATION FOR AGING SHOULD START IN CHILDHOOD

How well are you preparing your children for their old age? This may seem a funny question but it is meant seriously. The number of years your children may spend as old people increases constantly.

People are living longer. But people are not necessarily living longer and happier lives. Often the last years, which should be the harvest of life's experiences, are bitter, lonely and burdensome.

Attitude

Preparing for old age is not something you can do well in just the one year before you retire on your 65th birthday. Oddly enough, good preparation begins in childhood. This is because your reaction to old age depends in part on your attitude toward it.

Our society worships youth. No wonder we dread old age. In our

society we retire the old rather than use their experience. No wonder old age is viewed with misgiving.

The last years of life can be the fullest years—but in a different sense of fullness. They can be a period of reaping, quiet expansion, continued development and service, if they are considered positively.

Positiveness

When you talk about being old and about old people you are conveying an attitude toward these later years. If it is positive, your children will tend to view them positively. If it is negative, they will tend to view them negatively. Their attitudes will in part determine how they adjust to these later years.

Old age can hold and return the joy of a lifetime, or it can rob you of last happy years, depending upon how you view it. This is why preparation for old age can be said to begin during childhood.

HEALTH FOR ALL

Vacation All Year 'Round

Well, vacations are over for another year, so let's all relax and get flabby, pale, overweight, and tired again.

If that doesn't strike you as very smart, you'll be glad to know it needn't happen. You can retain some of the benefits you got from your vacation even when the old grind has got you again.

Wintertime Exercise

If you think only of push-ups and knee-bends when wintertime exercise comes to mind, it's no wonder you prefer to lie down and think of something else. But how about bowling? Or swimming in the indoor pools which can be found in many communities? Or just taking a short walk? The dog will be happy to accompany you.

Though you probably use up more energy during your vacation, the chances are good that you actually eat less than you do during the rest

of the year. Those wintertime coffee breaks, TV snacks and beers, hot thick soups, extra bread, all add up to unneeded calories and unwanted poundage.

Alarm Clock

You probably get more sleep during your vacation, too. Many people never get enough sleep during the rest of the year. You can get a rough idea how many hours you need by dispensing with the alarm clock for one night. You'll awaken naturally when you've slept long enough. If you need that alarm to rouse you, you're not getting enough sleep.

Simple, isn't it? Some exercise and fresh air every day, the right amount of food, enough sleep, and you'll feel vacation-fit all year. But a word of caution: before you go in for exercise or dieting, get your doctors' okay. The fall is as good a time as any for that all-important annual checkup, anyway.

DELTA AWARDS \$13,268 SCHOLARSHIPS

Theta Sorority announced Thursday that it has awarded more than \$13,268 in scholarships and grants for the current school year. Of this total, \$5,000 was awarded to 10 recipients by the national Sorority and \$8,268 to 64 recipients by various Delta chapters.

Awarding the largest sums were Delta chapters in Berkeley, Calif. and Tampa, Fla., each of whom granted \$1,000. The next largest, \$900, was awarded by Delta's Los Angeles chapter. A breakdown of the \$5,000 awarded by the Sorority

reveals that \$1,000 went to the Referral and Supplementary Scholarship Service and Fund for Negro Students, an organization which selects and subsidizes students for training at interracial colleges and universities.

The national total includes also two \$250 scholarships awarded annually to women of India to study advanced social work at the Delhi School of Social Work, in Delhi, India. The remaining \$3,500 was awarded for study in the United States to ten women, five receiving scholarships and five grants.

Launching the fall social season into orbit will be the third annual "Autumn Splendor" style and dance show at the Val-Air Ballroom Sunday evening. This first fall big show, promises to be bigger and better. The weekend fate of Iowa's gridiron teams was as gloomy as the weather as SUI, Iowa State and Drake gridironers lost. Even though the sun smiled on Iowa intermittently Dame Fortune deserted the corn state fans for its competitors.

Gracing the Des Moines scene briefly Sunday was Atty. Edith Sampson, noted lecturer-traveler from Chicago and former UN delegate. Mrs. Sampson was guest speaker at the Iowa Welfare association meeting at Hotel Savery. She appeared on Gordon Gammack's television show on KRNT-TV later before flying back to Chicago.

When asked by her TV host about her opinion of women attorneys Mrs. Sampson answered, "We should have been practicing law a long time ago but you men wouldn't let us."

He then asked, "Do you think you can hold your own in a big case with an opposing male lawyer?"

She replied laughingly, "I've been doing it for years."

Fifteen youngsters from Willkie House were able to attend the Hope Grotto talent show at Hoyt Sherman place recently, thanks to friends of the center.

Scout troops, whose program is

directed by Mrs. E. P. Jackson, is getting underway. Mrs. Norma Jean Tenny is in charge of Brownies and Mrs. Laura Taylor of the Cub scouts. The help of mothers who are interested will be most welcomed.

A Minnesota couple vacationing in the Pacific northwest recently were called home with the news that their home had broken into their home. When they returned they found their home in a shambles, doors off hinges, furnishings upturned and askew. But, one of the most senseless was that jelly had been poured all over their clothing and over the floors and upturned furniture.

Bus chatter: A relief driver to one going off duty—"Isn't that your rain coat and umbrella?"

"Yes," answered the other, taking the pretty blue ladies' rain shelter.

"How do you like it? It's one I found on the bus, turned it in and it was turned back to me."

At that point a loud whisper was heard from midways of the bus, "I'll bet it never was turned in. If you ask me drivers just take things and keep them."

Jumbo Cereal Flake Hamburgers Hearty Fare for After-Game Buffet

Entertaining at a buffet supper after a football game is easy when the main course features Jumbo Cereal Flake Hamburgers. All ages enjoy juicy hamburgers served hot from a table grill in a toasted bun with favorite garnishes.

Cereal flakes are so quick to use in making hamburgers. They are easy to crush, thus eliminating the tedious job of crumbling bread. Juiciness and flavor are improved by the addition of cereal flakes. Main dishes are but one of the many ingredient uses of breakfast cereals. Cookies, confections, muffins, breads, and pies take on new flavors and textures by the addition of breakfast cereals. Cereals make important nutritional contributions of high-quality protein, essential B vitamins and minerals, in addition to food energy.

Hostesses who enjoy entertaining try to do as much advanced preparation as possible. Jumbo Cereal Flake Hamburgers can be prepared and shaped early in the day. A mold helps to make uniform-size hamburgers. For easy handling, place squares of waxed paper between each patty and refrigerate until time to grill. This recipe adapts itself to freezing. Simply prepare the individual patties, wrap in a moistureproof freezer paper and freeze.

The buffet table can be set before the game. Relishes can be prepared early in the day. After the game, heat the grill, cook the hamburgers, place potato chips and relishes in serving dishes, prepare a tray with mugs of instant cocoa and chilled milk and presto, supper is ready!

For a quick and easy dessert roll balls of ice cream in pre-sweetened rice cereal and serve with fruit or chocolate sauce.

Cook patties to the doneness desired, 3 to 8 minutes over medium heat, turning once. If preferred, broil until done on a rack 6 to 8 inches from a bed of glowing coals, turning once. SUPPORT THE 1959
UNITED CAMPAIGN

Citizens of Des Moines are asked to raise \$1,633,053 in the 1959 United Campaign of Greater Des Moines. This sum has been arrived at upon recommendation of the boards of the agencies whose representatives appear before a budgeting committee which revises the figures and determines whether their askings are justified.

Fortunately, Des Moines has maintained an excellent organization both in the collection and expenditure of these funds. The respective agencies do an creditable job generally serving each activity in which it works.

There was a time when many of the agencies under the greater Des Moines Campaign made separate drives for funds. Joining together, as the situation exists today, makes for (1) greater efficiency and less expense in raising the money and (2) less calls on subscribers for contributions which annoy some, at times.

Des Moines has been fortunate that less cutbacks and layoffs in industry have occurred here than in most places; thus, this presents another good reason why the campaign should succeed.

DON'T LET PERSONALITIES
KILL ATHLETICS

Whatever the grievances Forest Evashevski, head football coach at Iowa University, had against athletic director, Paul Brechler should well have been left until the season is over for no matter what course is taken nothing will be done for some weeks to come.

For some time, it has been rumored that the men did not see things eye to eye, but so far the "things" the public has heard about seem trivial and such that reasonable men ought to be able to settle by a little give and take on each side.

Evashevski has done a great job as head football coach at Iowa but it was Brechler who was smart enough to get him there. It must be remembered also that the coach is working under Brechler who has succeeded in placing athletics at Iowa high in the estimation of not only Iowa's but also people outsiders.

It is unusual that heads of such groups fall out when programs are flying high. Unusually, such incidents arise where failures are the rule and each side tries to blame the other for them.

The Bystander hopes that these men get down to earth and settle their differences to the best interest of the school and themselves afterwards; don't sacrifice Iowa's fine athletic program foolishly—a thing many of those who charge undue emphasis on athletics hurt the school would like to see.

AMERICANS HURT
DIPLOMACY ABROAD

Drawing on her experience abroad and as an official representative of the U. S. Government, Edith Sampson in a speech before the Welfare Association in Iowa, warned that America's prestige was being damaged by unscrupulous acts of its own people who deny first class citizenship to its non-white population.

This of course, we have heard before from no less authority than Vice President Nixon.

Fortunately, more people than ever are working in the field of human relations. Progress is being made toward the goal of equality.

But a group which does not believe in it speaks louder and commits crimes against non-whites simply for hate.

Singing out Gov. Faubus as a typical example she said that people abroad could not understand the inconsistency between our announced policy of equality, when governors and members of congress can get elected on a campaign pledged to deny the Negro his rights; how they become spokesmen for America as heads of key committees in congress.

This will change eventually but it will take a long time. It will change when Negroes are not molested in their right to register and vote against such people. It will come to a degree, sooner, when a congress is elected whose majority is not composed of the race haters who head the important committees by virtue of their seniority.

It is too bad that a lot of time, energy and money are spent trying to keep the Negro down which might very well be utilized to keep pace with Russia in its scientific achievements and ahead in industrial production.

White Sox Clamp

Down on L. A. Dodgers;
Series Back to Chicago

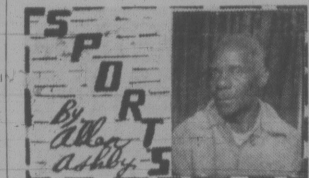

By Staff Writer

Los Angeles, Calif.—The embattled White Sox, baseball wonders of Chicago's southside, blanked the 'go . . . go . . . go' Los Angeles Dodgers Tuesday, 1-0, and sent the 1959 World Series back to the Pale Hose stomping ground.

A record-breaking crowd of 92,706 all but yelled their heads off for the City of Angels baseball favorites, who despite nine hits, couldn't buy a run across the homeplate.

After a record humiliating 11-0 opening loss at Comiskey Park, the Dodgers had come back to win three straight games, 4-3, 3-1 and 5-4 before their second loss in the fifth game.

Wednesday was an open date. Pitchers scheduled for today's (Thurs.) game are Early Wynn, who will be making his third start for Chicago and Johnny Podres, making his second starting appearance for Los Angeles.

Is there anyone in the state who doesn't know that Iowa lost to Northwestern on an intercepted pass? We were amused at the second guessers who would have called a different play. Of course, they would have because they saw what happened to that one. But, what would some of them have done under the same situation that quarterbacked someone find themselves? Hollis has the making of a real star in the next couple of years. When one thinks that even the pros make mistakes that cost them games one can excuse the kids who pilot college teams.

Staff Feud

Don't know what to think of the so called feud between the football coach and the athletic director. We suspected the differences are deeper and for more surprising reasons than are made public. We believe that if the coach should leave, it may mark the end of good Negro athletes in large numbers at Iowa.

Local

The Des Moines Dragons played the Fort Madison Bulldogs at the state prison last week and dropped a well-played game 8-6. They say it was raining all day and singled out several Des Moines guys on the prison team. We won't name names in fairness to the boys.

High School

East High got its usual upset at Waterloo at the hands of East Waterloo Look out for Tech. They really ran over North and could be city champs this year. North has something missing to make what ought to be a good team go. Hope they find it.

Baseball

Are you doing all right on the World Series? This is one time we are more or less neutral. We have always been a White Sox fan since the first major league team we ever saw was that team that threw the 1919 World Series. Called one of the all-time great clubs, they came to Des Moines the following spring and right there we became a Sox fan. Naturally, we were a Dodger fan in the National league; so we have to remain on the fence.

mark has disappeared. Anyone can afford the luxury of a daily bath in warm soapsuds. It's one of the most accessible and inexpensive means of helping yourself to more beauty, health, and relaxation.

Offensive Battle Does Not Materialize;
Wildcats Out-Defend Hawkeyes 14-10

By Staff Writer

The Iowa-Northwestern clash, which had been heralded by gridiron experts and fans alike as the offensive battle of the nation turned out, conversely, to be a mighty defensive fight that netted the Wildcats a 14-10 edge over the Hawkeyes before 39,000 fans.

That the game was soon to be

AUTUMN REVERIE

Summer sun has flown upon
Its ever-widening way.
Across the hills, in flaming shades
The fires of Autumn play.
Spring's half-remembered
As a dream, upon a fading screen
That tries, but fails to hold in view
Some bygone, lovely scene.
Soon the frosty touch of winter
Lays its hands upon earth's face:
Warning of a change of costume,
Ermine wraps of frigid lace.
As earth must rest beneath its robe

And, as time goes, break free:
So shall we all, if we have faith
Live on—eternally.

Thoughts for Today

The courage to get up after a
knockdown is a pretty good test of
any man.—Bert Barnes.

The man who reaches the top is
the one who is not content with
doing just what is required of him.

Laugh Lines

Have you heard about the maid
hired by a socially prominent dow-
ager to help at a big social affair?
"From seven to eight you are to
stand at the ballroom entrance and
call the guests' names as they ar-
rive," instructed the dowager.
Said the maid, "Oh, that will be
fun. I know a couple of gassers."

TIME-SAVING TIP

Indoor gardeners can save time
by placing several potted plants in
a galvanized steel tub and then wa-
tering them from above. The excess
water and dirt will collect in the
tub, easing the clean-up and water-
ing problem considerably.
