### For States Refusing To Assist Passage of Civil Rights Bill

New York—NAACP Executive Secretary Roy Wilkins said here today that "if the South remains stubborn on Negro disfranchisement, disadvantaged northern states ought to insist on a cut in Congressional representation" from Southern states denying Negro voting rights.

"This step would decrease Dixie House members by 20 to 25 per cent and clothe them, so to speak, in the proper size britches," Wilkins added.

The NAACP chief executive spoke on "Freedom, Franchise and Segregation" at a forum celebrating the centennial of the founding of Cooper Union for the Advancement of Science and Art. He spoke in the same Great Hall that housed the mass meeting 51 years ago, that helped bring the NAACP into being. It is also the hall in which Abraham Lincoln made his famous address on Feb. 27, 1859 vindicating the principles of the new Republican party.

## CORE Council Maps Plans To Help Eliminate Bias from Domestic Airline Crews

Washington, D. C.—The CORE National Council initiated steps for "every CORE group, in every section of the country, to take immediate, effective, and coordinated action to end discrimination against Negroes as members of flight crews" by major domestic airlines.

CORE's Interracial Action Institute, designed to train community leaders in nonviolent action techniques to end discrimination, has been set for Aug. 14-Sept. 5. An evaluation of the 1959 Miami Institute indicated that at least three weeks were needed to accomplish the aims of the Institute.

#### Gandhi Award

A Gandhi Award to be given to the individual or group who has made "the most outstanding contribution to improved race relations through non-violent direct action methods" was authorized by the Council. The Award is to be presented annually at the CORE Convention.

The Council affiliated new CORE groups in Rock Hill, South Carolina and in Portland, Oregon. Reports from the field indicated that organizing committees are active in Columbia, Missouri; Tallahassee, Florida; Chicago and Evanston.

#### Jet Age Not Here

The Council resolution on the airlines said: "The jet age has not yet arrived for America's major domestic airlines. At least it has not yet arrived so far as their hiring policies are concerned. Of the major airlines only TWA, New York Airways, and Seaboard and Western have hired Negroes as members of flight crews."

"Continued discrimination against Charles Smith, Mrs. A. P. Trotter, and Mrs. Robert Whalen.

The annual dinner meeting of the board will be held Feb. 16 at 6:30 p.m. at Willkie House. The president of Grand View College, will be guest speaker and will discuss "The Role of Community Centers." Other guests from foreign countries are expected to attend.

### Court Enjoins Norfolk CORE From Picketing

Norfolk, Va.—Virginia Circuit Judge Clyde H. Jacob enjoined seven members of Norfolk CORE from picketing the Be-Lo Super Market. The injunction is effective only until March 20.

The CORE group had been picketing daily since Dec. 21 to end discrimination against hiring Negroes. CORE had also provided a car pool so that those who wished to shop in a store with a more democratic hiring policy could do so.

#### Negro Needs Jobs

One leaflet passed out to patrons by CORE says: "Insist that Be-Lo Super Market employ Negroes in higher paying jobs . . . Please do your part to bring about a change. The storekeeper may be a 'nice fellow' and ever so courteous but the Negro needs more jobs and better paying jobs."

The Norfolk CORE picket line has been interracial. The injunction named both white and Negro picketers.

### Wife of Publisher Frank Stanley Sues for Divorce

Louisville, Ky.—Charging mental cruelty, Mrs. Ione G. Stanley, wife of Frank L. Stanley, publisher of the Louisville Defender, has filed suit for an absolute divorce.

Without any fault on her part, Mrs. Stanley alleges that her husband, who is nationally prominent in journalistic and fraternal circles, "has treated her in a cruel and inhuman manner" for a period of not less than six months.

His treatment of her, she said in her complaint, indicated that he had "such a settled aversion to her as to permanently destroy her peace and happiness."

Mrs. Stanley asked the court to award her the family home and furnishings, alimony of \$100 a week, custody of one child, a lump sum settlement of \$3,000 and attorney fees.

## City to Appeal Decision Restoring Fired Police Detective After Suspension

The case of Detective James Allen is not over yet. The city announced intentions of filing an appeal with the district court from the civil service commission decision restoring Allen to his position as police detective after a five month suspension.

Allen, a veteran detective of nearly 22 years was discharged by Police Chief Howard Eide on Nov. 2 and was fired by City Manager Elder Gunter 14 days later. His discharge grew out of his actions during the investigation of the \$40,000 safe robbery on Oct. 5 of the Hilland Potato Chip company. Three men have been subsequently convicted and sentenced for the robbery.

#### Reprimands

Allen then appealed his discharge to the city civil service commission, which on Jan. 14 overruled Gunter's discharge order of Allen and ordered the detective suspended for five months without salary and restored to duty Apr. 1. He was also instructed to pay back the \$62 he admitted taking from one of the burglars. Allen said he spent it on the burglar in an effort to gain his confidence and get information to crack the case. The commission also cited extenuating "circumstances" in the case and reprimanded the detective bureau of the police department for some of its "practices."

#### Challenge Criticism

City Corporation counsel Robert J. Spayde, who made last week's announcement of appealing to the district court, said that the city's appeal would challenge the commission's "censureship and criticism of the (police) detective bureau, inasmuch as we believe that such criticism was unwarranted by the facts in the case."

Walker, president of the National Newspaper Publishers Association and editor of the Cleveland Call and Post became a life member of the Association in 1959. Distinguished List The New York Amsterdam News, the New York Amsterdam News Welfare Fund, and Dr. C. B. Powell, president and editor of the publication, are all life members. Likewise, C. C. UNDERSTANDING IOWA CHILDREN SPONSORED BY THE IOWA CHILD WELFARE RESEARCH STATION

CHILDREN NEED EXERCISE OUTSIDE SCHOOL, TOO A great physical activity, restlessness and a certain amount of venturousness characterize the school child. His muscular control is growing and he delights in physical skills and in making things. As parents we are apt to be acutely aware of this constant, driving activity. Developing Shoulders Recently school personnel responsible for the physical growth of the schoolage child have been giving attention to exercises that develop shoulders and upper arms. So many types of equipment used earlier in the child's life provide development of lower extremities—tricycles, bicycles and all the running games. But few pieces of play equipment tended to develop muscles of the shoulders and arms. Parents can cooperate in this movement and provide home equipment. Basketball rings in the back yard, ring toss, and all kinds of balls are useful. The so-called indoor baseball set is a good thing for the younger child. Tether Ball Another type of apparatus that parents and grandparents can provide is tether ball. The equipment for this can be found in sporting goods stores. It includes a tether-ball pole, tether-ball bats and tether ball, complete with cord. Of course, rules and directions for playing come with each set. It provides excellent exercise for shoulders and upper arms. Again, even though there is a good manual training department in his school, the child enjoys and profits by having a place at home where he can make things. Tools and materials with which to work will yield much satisfaction. We should not expect to load all responsibility for children's physical development onto the school. Children love to play at home and in neighborhood groups and growth and development can be encouraged there.

# SEE IN STARS

New York City—New Star in Our Midst . . . You can say a lot of things about Mickey Rooney, the actor, that he's got a big mouth and many times says the wrong thing—that he's running a close race, matrimonially, with Tommy Manville—but one thing you've got to add: he's a little guy with a big heart—and proved it when he insisted little Carolyn Strickland appear on his Revlon Revue TV show—going out of his way to make her feel wanted and comfortable—and pushing her in front of the cameras every minute . . . He just wanted to be sure nobody missed her—and how could they—a little Negro girl with star billing and a beautiful voice . . . Of course we found her awkward and badly dressed in a too-plain outfit with flat heels and no makeup . . . Teenagers these days look like little dolls—not awkward skinny little misfits . . . but besides those bad points, her voice was so refreshing and vital, it brightened up the entire show . . . Her feature numbers were gems—and she proved herself a right good actress and dancer too . . . This child will go far with a little polishing and we'd suggest she shorten her name to Carol as Carolyn Strickland is too hard to pronounce . . . If some bright agent could shorten Helena to Lena Horne, there's nothing wrong with doing the same for Carolyn.

### Sammy Davis, Jr.

Leave it to Sammy Davis, Jr. and his gang of friends to really set Las Vegas on its gambling heels—as they opened the Sands Hotel with 12 Copa Girls—5 of the biggest stars anywhere and only a \$3 minimum . . . As we reported before—the audience wouldn't know which star would appear, whether it would be Sammy, Frank Sinatra, Dean Martin, Peter Lawford or Joey Bishop—for 4 straight weeks the "entertainment menu" will be subject to change without notice . . . All are in town to appear in filming "Oceans Eleven", a picture about paratroopers . . . The first night all 5 showed up and did a grand 80 minutes of clowning and mocking each other . . . A finale, where the group read cue cards carried by the Copa cuties was hilarious, with even the manager, famous Jack Entratter, getting into the act . . . Seems each night the boys will draw the straws to see who performs—it's a wonderful idea and they're having as much fun as the people who pay to see them.

### Josh White

Josh White appearing at the Village Gate and introducing daughter Beverly—who sings with him . . . They did a few benefits last season and a continental tour which proved very successful—now Beverly is on her own, but under pop's wing.

### Johnny Mathis

A big station wagon to take Lloyd Price and his band on tour parked in front of the Hotel America near Broadway while the boys noisily piled in . . . Our boy, Johnny Mathis, has a new beautiful album out—

"Faithfully" with soft and low numbers comparable to his last sensational album, "Heavenly".

### Billy Daniels

Hazel Scott is back on the scene—with a date at Mister Kelly's in Chicago for 3 weeks beginning March 14th . . . Billy Daniels was hailed anew for his appearance at the Copa—and is finally being recognized as a great star . . . only because his present behavior is demanding it . . . We hope he will refrain from public brawls and other unfavorable publicity while the critics and public are honoring him . . . The women really go for the greying temples which adds a very distinguished look.

### Pearl Bailey

Pearl Bailey, who dragged that ermine stole all around the stage of Dinah Shore's Chevy Show—has a new album out for Roulette called "More Songs for Adults only 55 and its clearly marked "restricted from radio and TV play" . . . Pearl does these naughty songs with great wit and charm—such numbers as "One Man Is Good Enough For Me" and "The Duchess Threw Her Crutches Away".

## Birchette Appointed College Fund Controller

New York—Mark G. Birchette was named controller of the United Negro College Fund, W. J. Trent, Jr., executive director, announced here today. Mr. Birchette has served as chief accountant since joining UNCF in 1956.

Prior to 1956, Mr. Birchette was an executive in the business administration of two College Fund member institutions—Morehouse College (Atlanta) and Dillard University (New Orleans). He was assistant bursar at Morehouse from 1953 to 1956. Earlier he served as business manager and associate professor of business administration at Dillard.

Birchette is also an alumnus of Morehouse, graduating with a B.A. in business administration in 1938. He later received an M.A. in economics and business administration from Atlanta University (Atlanta), also a UNCF member college.

### MATTRESS

For the mattress which has become lumpy and uncomfortable, there's a cushioning pad which does double-duty—it protects while providing new comfort. This "Mattressette"—white percale, quilted generously with Dacron fibrefill—is machine washable and dryable, and remains soft after repeated launderings in soap or detergent suds.

## \$5,966,000 Tax Lien Filed Against Estate Of Bishop Daddy Grace

Washington, D. C.—One of the largest federal tax liens ever filed against an individual was claimed against the estate of Bishop Charles M. (Sweet Daddy) Grace Monday by the Internal Revenue Service. Liens were filed against properties that the well-known evangelist owned in 14 states and the District of Columbia in the sum of \$5,966,000.

The value of Grace's estate has been estimated at up to 25 million dollars, most of it in gifts from his followers in 350 churches in 60 cities.

### Funeral Procession

The last earthly journey of the evangelist came to an end, Saturday, Jan. 23, after a series of wakes in five cities. His body was returned to New Bedford, Mass., where a throng of 2,000—some reverent, some curious—watched quietly as the 20 car cortege bearing the mortal remains of the religious leader pulled up slowly in front of the House of Prayer for All people here.

### \$19,000 Hearse

The procession, with the body of the aged evangelist in a \$19,000 hearse, took eight hours to travel through New York City and Connecticut, from Newark, N. J.

When the procession arrived at the church here, two groups of men, clad in red and blue gold band uniforms, carried the glass covered bronze casket into the little church.

Grace lay in state there until he was buried Tuesday, Jan. 27 in his family plot in Pine Grove cemetery. He came to New Bedford from Cape Verde Islands, where he was born an estimated 75 or 80 years ago. He died Jan. 15 in Los Angeles.

### "The Last Saviour"

He established a multi-million dollar nationwide religious organization and was known to his devoted followers as "the last Saviour on earth."

## CUT IN DIXIE

SEE FRONT PAGE allows Southern congressmen and senators to be elected and re-elected through their one-party system.

Their resulting "seniority gives them a disproportionately powerful influence on the nation's legislative business," Wilkins said.

"When the Democratic party is in control of Congress, they become chairmen of most of the committees, as they are in this session.

"Not content with protecting their own brand of apartheid back home, they are not hesitant to demand extension of their racial philosophy and

practices to the rest of the nation," Wilkins said.

"In general," Secretary Wilkins continued, "the Negro tends to vote according to his interest as a citizen and only secondarily (barring a hot racial issue) as a Negro.

### Negro Interests

"Negro citizens are interested in national defense, foreign affairs, taxes, health and welfare, cost of living, education, jobs and wages, as are other Americans.

"They are also interested in civil rights, in attacking prejudice and bigotry in American life," Wilkins said.

As of today, he asserted, "no one can predict exactly what the Negro voter will do on election day." However, "he does not like much of what he sees in the behavior of either party."

### Other Devices

He reported that "only five Southern states still retain the poll tax as a prerequisite to voting—Virginia, Alabama, Arkansas, Texas and Mississippi.

"But," he added, "other devices are effective in barring Negro citizens from the ballot box.

"No wonder," Secretary Wilkins added, "that on a South-wide basis, only 25 per cent of the Negro citizens of voting age are registered.

"There are wide variations between states and still wider variations between counties within states.

In response to an appeal filed on Nov. 23 last by attorneys of the National Association for the Advancement of Colored People on behalf of B. T. Shelton, a school teacher, and the Arkansas Teachers Association, the Court, on Jan. 25, agreed to review a lower court judgment upholding the validity of the statute.

### Designed to Cripple

Through Robert L. Carter, NAACP general counsel, of New York City, and J. R. Booker and Thad Williams of Little Rock, Shelton and the Teachers Association contended that the Arkansas law was designed to cripple the NAACP and is in violation of the equal protection and due process clauses of the Fourteenth Amendment to the Constitution.

The statement as to jurisdiction filed with the Supreme Court raised the question as to whether a state

may require public school teachers to file affidavits listing all of the organizations to which they have belonged or contributed for the last five years "without contravening those safeguards to academic freedom and freedom of association protected against state interference by the Fourteenth Amendment to the Constitution of the United States."

### Longtime Service

Despite his 25 years of service, Shelton, a longtime NAACP member, was dismissed last May 5 because he refused to sign the required affidavit. No complaint had been made about his teaching and his annual contract has been renewed the previous May before enactment of the statute in August, 1958.

### SLIPPER SOCKS

Now your tiny infant can have slipper socks just like his big brothers and sisters. Made of nylon, with knit tops and tricot soles, they are completely washable—even the cute animal applique—and they keep little feet warm and comfortable while baby plays in his crib.

## TAX FACTS

MILLIONS OF MOTORISTS NOW HAVE TO FORK OVER \$1.50 OR MORE FOR A DOLLAR'S WORTH OF GASOLINE. THE LATEST ONE-CENT A GALLON INCREASE IN FEDERAL GASOLINE TAX BALLOONS THE COMBINED STATE-FEDERAL TAX UP BEYOND 50% OF ACTUAL RETAIL GASOLINE PRICE IN 20 STATES

ON A NATION-WIDE AVERAGE GASOLINE TAXES HAVE HIT THE 47% LEVEL (10¢ PER GAL.) MAKING IT ALMOST FIVE TIMES HIGHER THAN THE TAX ON DIAMONDS OR MINK COATS

IN THE DECADE ENDING 1959 THERE WERE 58 SEPARATE GASOLINE TAX INCREASES IN 41 STATES PLUS TWO FEDERAL INCREASES—A 37% JUMP IN TAXES. BY CONTRAST, ALL RETAIL PRICES WERE UP 21%. THE PRICE OF GASOLINE ITSELF UP ONLY 6%

MOTOR FUEL REVENUES IN THE U.S. ROLL IN AT THE RATE OF MORE THAN \$14,000,000 A DAY. IT IS ESTIMATED THAT THIS YEAR ALONE MOTORISTS WILL PAY WELL OVER \$5,400,000,000 IN MOTOR FUEL TAXES

### CARPETS

The latest carpets of man-made fibers combine new heights in easy care with new depth in deep pile. These rugs, deeply sculptured in a frosted, fur-like fabric, have a deceptively lush look because they aren't a bit fragile. Spills and smudges of an emergency nature, as

well as general soil, can be wiped away with a sudsy sponge.

## the Camera Guild

Here's proof that a camera is an exciting gift for a youngster.

### YOUNGSTERS SHOULD HAVE THEIR OWN CAMERAS

Maybe the younger members of the family have been taking an occasional turn at using the family camera, but that's no substitute for brother or sister with his or her own camera.

At what age should a child be given his first camera? It all depends on the child. With most of them, eight is about the right age. To an eight-year-old, a camera is an exciting gift, one that ushers in a whole new world of experience and pleasure. Start him off with one of the inexpensive modern day versions of the old familiar box camera. It's easy on your budget, easy for him to use. He'll find countless subjects that he'll want to snap—pets, playmates, parents, and things you'd never think about. And

that brings us to point which we feel is very important. Remember that to the average youngster a camera is just a toy. Try to think of it that way yourself and don't make him afraid of using it. You shouldn't expect much more of him in handling a \$5 camera than if it were a toy fire truck at the same price. He'll have a lot more fun and be much more inclined to use the camera if you keep your supervision to a minimum.

Children are sent to Sunday School or Sabbath school without their parents. At a slightly later hour parents may or may not attend church. If the children also attend, quite often they sit with their friends rather than with the family. "Team work isn't developed on the football field. It first comes to life in the home, where responsibilities, pleasures and experiences, spiritual or otherwise, are shared." Sabbath, Feb. 6 at the 11 a.m. service the Home Missionary department program theme will be Christian Home and Family Altar."

# A.M.E.s Around World Celebrating Bi-Centennial of Richard Allen

## St. Paul Honors Birth Of Religious Leader With Banquet Tonight

By Helen D. Wimberly  
St. Paul A.M.E. church is one of thousands of churches which is celebrating the birth of Richard Allen. Locally the celebration will take the form of a banquet in the church dining hall tonight (Thursday), at 7:30 p.m.

Throughout the nation, in Africa, South America, the Islands, wherever there is an A.M.E. Church or mission, 1960 has been proclaimed the Bi-Centennial year celebrating the 200th anniversary of the birth of Richard Allen, one of the founders and bishops of the African Methodist Episcopal church. Richard Allen was born, Feb. 14 in Philadelphia, a slave of Benjamin Chew.

The Establishment of the A.M.E. church came shortly after the birth of the Republic of the United States of America. Both were born out of the agony of suppression and oppression to achieve their aspirations and their dreams. Like the New Republic, a church was founded in which all men may have freedom and equality at the altars of religion.

Richard Allen, as a minister, rode the circuits with Bishop Ashbury, Rev. Peter Morath and many others of the cloth. But Richard Allen constantly realized from what he had seen and experienced, the need for a meeting place and organization among his own people.

Richard Allen, with many other Negroes of that city worshipped at St. George church in Philadelphia. One Sabbath morning they entered the sanctuary, approached their accustomed seats and were told to sit elsewhere. They sank on their knees to pray and were told to move; they pleaded to be allowed to finish their prayers, but they were dragged from their knees. They left St. George church and never returned.

The seed of the African Methodist Episcopal church was planted, little "African" churches sprang up. The first General convention was held in the spring of 1816 with delegates from Baltimore, Philadelphia, Wilmington, Del, Pittsburgh, Pa., and assembled were handed down to posterity. The men most distinguished at the convention were Richard Allen, Daniel Coker, and Stephen Hill. A resolution which was adopted stated:

"The People of Philadelphia, Baltimore, and all other places who should unite with them shall become one body under the name and style of the African Methodist Episcopal church." On April 9, 1816 Rev. Daniel Coker was declared Bishop-elect.

Thus, poor and lonely, the A.M.E. Church feebly entered into being but with a manifest destiny of greatness which has been unmistakably developing for almost 150 years. As Martin Luther nailed his 95 theses on the door of Wittenberg to protest against the oppression and persecution of the Roman Catholic church, so Richard Allen and his followers rose from their knees in St. George church in Philadelphia in order to establish ecclesiastical independence, freedom and equality.

## Emergency Safety Reflectors Made From Aluminum

Don't be caught at night without a signal for oncoming cars. These easily made reflectors always work even when your car lights are out. The base is removed for easy trunk storage. To make 4 reflectors cut a 6 ft. length of 3/8" Do-It-Yourself Aluminum rod into four equal lengths.

Form a tube of paper, fastening it together with paste. Now slip it over one leg, cutting off the tube at the exact tip of the leg as the other end rests on the rug. To assure getting each leg the identical length, slip the tube over each other one in turn, marking them to the same length. Now adjust the length of the tube to the shortest leg and mark all others for cutting.

How to Even Up Chair Legs  
WHEN a chair is out of level, one method of evening the legs is to trim the legs which are too long. A simple method of performing this tricky operation is described in Family Handyman.

Form a tube of paper, fastening it together with paste. Now slip it over one leg, cutting off the tube at the exact tip of the leg as the other end rests on the rug. To assure getting each leg the identical length, slip the tube over each other one in turn, marking them to the same length. Now adjust the length of the tube to the shortest leg and mark all others for cutting.

**CHAMOIS**

Most cleaning jobs in and around the house and garage are easier when you use a chamois. A new synthetic chamois, made of nylon and nitrile rubber, is said to be even stronger and more pliable than the nitrile rubber, is said to be even rigors of oil, grease, kerosene, and

carbon tetrachloride—in fact, soap or detergent suds will wash just about anything out of this synthetic chamois.

**Personally Yours - By - Frances Hawthorne.**

Well, Old Man Groundhog didn't see his shadow, so you know what you Iowans are in for, don't you? You can tentatively look forward to an early spring. Many Iowans, especially, are of the belief that it doesn't mater if the hibernating four legged wild hog does or does not see his shadow, because they will have weeks and weeks of more hard winter, anyway. It isn't that they are fatalistic. They are just realistic about Iowa's capricious weather, hat's all.

We have heard many comments that there is no use of buying spring clothes, because you almost have to wear winter ones right through the officially spring months right up to the opening date of summer or just use change overs like from fall to winter.

Whether you realize it or not but we have already had three months of cold winter. Now, that the long month of January is over and most of Christmas and holiday bills are behind us, thank goodness, we can breathe a little easier, with February. Do you realize that there is a holiday almost every weekend in February? Plenty of opportunity for party themes and entertainment. And of course, it is a short month (only two days shorter than January this year) and it will seem to go faster and before you know it you will be strolling gingerly around your soaking yard to catch the first peeping buds of spring.

We had several nice compliments about the magazine section to the Bystander. Mrs. Lillian Clark of Keokuk wrote a note saying: "Wanted to tell you that Monty had a lot of compliments on the new magazine section. It is quite a nice addition to the paper. Thought you ought to know. Keep up the good work."

Mrs. Clark is the regular correspondent for Keokuk and Monty is her son, who is a Bystander newsboy.

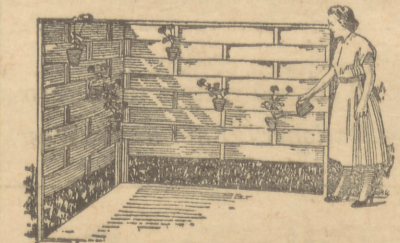

Another compliment came from Miss Charlene Wharton, director of Willkie House. She wanted to tell us how she enjoyed it and is looking forward to the next edition. Last week she was ill also and had to

miss a day or so from the center. Speaking of the next edition of the magazine section look down the list of contents on page one and you will see what's in store for this month.

As usual we plan to run the pictures and writeups of mid year high school graduates in the Bystander. We have it scheduled for Feb. 18. In order to meet the deadline, please have all pictures into the paper no later than Feb. 12.

**Basket Weave Fence**  
A NEW idea in fencing can provide privacy to your patio or it may be used as a law divider. Some families have used this attractive basket weave design to screen an unsightly corner.  
Built in units 6 feet long and 5 feet high, the fence may be set up to form a corner enclosure. It may be set up also as a straight or a staggered fence.

Pliable but strong Masonite Tempered Presdwood is used for weaving this fence between lumbe supports. Available at lumbe yards, the panels may be cut readily with a cross-cut saw. They take a beautiful paint job which with the unusual basket weave design, will enhance the appearance of any lawn.

Flower pots may be hung on holders formed from wire coat hangers that are hooked over the Tempered Presdwood near a post. The plan may be obtained by sending 20 cents in coin to Craft Patterns, Elmhurst, Ill., and requesting pattern No. 436.

**RHYME and REASON for the SWEATER SEASON**

**WASHING**  
A frequent bath in mild suds and lukewarm water will actually help preserve the life and softness of your nice sweaters. Before washing: turn the sweater inside out; button cardigans and open-necked lines to retain shape. Then follow washing instructions on hang-tags attached to the sweater when you buy.

**WEARING**  
A tip for that Tailored-Look popular this season: turn the cuff on your long sleeves under at the wrist—it's a neat, trim effect. To keep sweaters fresh and ready-to-wear, an effective deodorant is essential. Mum cream deodorant, safe for you and your nice cashmeres, is a good choice.

**AIRING**  
Because sweaters cling to the body, and fit close to the underarm area—give them a good airing after each wearing. First shake out, then air overnight if possible. Wear shields and use a good deodorant like Mum for full protection. Put sweaters away separately; give them room to breathe in an uncrowded space.

**CARING**  
Care in folding a sweater helps retain its shape: lay front down, fold sleeves back at shoulder line and parallel behind, smooth out creases, then fold sweater neatly in half and slip into its own case. Taking off a pullover, avoid stretched necklines; remove arms from sleeves, ease sweater over head with hands.

## SILLY DEBATE OVER DEFENSE

There was a time when America had military secrets which excluded its own citizens as well as those of other nations from them. This enabled the defense forces to prepare surprises for any would be enemies. Nobody complained about it seriously. It was felt to be necessary for the defense of the country.

Old army and navy men would be exasperated if they had been in the midst of the brawl over defense which goes on today between the ins and outs of the government. The outs are yelling about what Russia has in the way of military preparation extolling their supremacy over everything America has. The ins are trying to answer without going any further than absolutely necessary to assure our citizens.

All of the debate points at Russia. It just does not make good sense. On the other hand, Russia stands on the side looking on and no doubt having a big laugh over our silly debates.

It is further embarrassing that all this talk about defense against Russia should be going on when plans are being made to sit down with the Russians in an effort to assure peace between nations.

## THIS PROPOSAL ON VOTING HAS MERIT

Federal Judge J. Shelly Wright of Louisiana, who heard the recent voting rights cases wherein Negro registrants were removed from the poll books on orders from the White Citizens Council, not only returned most of the stricken names but also retained jurisdiction of the case ordering the registrars to keep track of all challenges to registrants from now on. If the challenges to any one race reaches five per cent the registrars must report to him within 10 days on the basis of the challenge. Undoubtedly substantial relief will ensue.

This, of course, is a novel method of handling such cases and keeps the proceedings away from juries which can't be trusted to render justice when the rights of Negroes are at stake.

Attorney General Rogers was so impressed with the method used by Judge Wright that he has proposed a new system to guarantee citizens the full right to vote. His proposal would call for voting referees appointed by the federal court who would attend and see if certified electors are allowed to vote and that their vote is counted properly.

This suggestion has merit for it places everything out in the open and makes definite provisions for enforcement of the law.

President Eisenhower has approved the proposal. It is hoped that congress has the courage to pass such a measure.

## HELP PASS A CIVIL RIGHTS BILL

As the situation points up at this time, congress will pass a civil rights bill during the present session. This being an election year, both parties are trying to show their friendship and concern for minorities. Unfortunately, the issue has been too deep in politics.

Senator Lynden Johnson, senate majority leader, has promised to take up a civil rights bill on February 15. It appears that the house bill, which has been bottled up in the rules committee, will be voted out during the next few days.

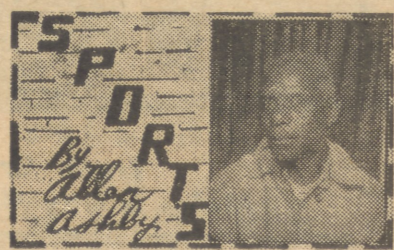

The NAACP and other organizations are urging individuals to write their senators and representatives urging that they support and vote for a civil rights bill when it comes up for consideration.

On another page of this edition is found an ad urging individuals to write their representatives in Congress that they want such a bill passed. This must be done if results are to be had. These fellows listen from the folks back home.

## Clennon King Says He's Candidate for President

Miami Beach—Clennon King, who tried unsuccessfully to enroll at the University of Mississippi and later asked Mexican authorities to grant him asylum from American race prejudice, has announced himself as a candidate for president of the United States.

King, who said he is the standard bearer for the independent Afro-American Unity and Liberation party, said he would like to have Vice President Richard M. Nixon as his running mate.

Was it news that Big O. broke nearly all the existing scoring records in his cage performance against Drake Monday night? They were just waiting for him to score his fifth point. Then according to the writers, everyone got excited except Oscar. He simply went out and made some more baskets. Before he graduates, the fellow will own all the scoring marks in basketball as played by colleges. Then, maybe next year, or surely some other year some guy will come along and break those marks set by Oscar, and we will have to look up in the record books to find out who Oscar was. Such is fame. Too bad Drake's Guydon isn't playing with a top ranked team. He would rate all star honors.

Ohio State looks like the team to beat for national honors. Bolstered by a half dozen Negroes, the Buckeyes are big, fast and have plenty of reserve talent. They can change the entire first lineup and still be fast and strong. Don't know who will beat them during the Big Ten season. They could go all the way, and are our pick for the national title in the playoffs.

Both Iowa State and Drake got it in the neck over the week-end. The Cyclones bowed to Colorado, and now will have to battle to hold only second place in the Big Eight race. Drake still has a slight edge over the loss side in their record, but that margin is getting smaller with Bradley and Cincinnati coming up. The Iowa Hawkeyes seem to have reached the end of their rope, and will have rough sailing from now on. Where will they finish? Your guess is as good as anybody else's.

Local High Schools  
Here in the high schools, things have become so rough that the school officials have scheduled a game in the afternoon, and we think if that one works out all right, there will be a lot of them in the future. Cuts down on the tendency of young fellows, many of whom don't even go to school, to ride around looking for fights after the games. We never did think much of that idea, although when we were in high school it was a common occurrence both before and after the games. Sort of part of the program. Used to be a lot of Negroes in them. Now we don't know of very many who go in for this sport if that is what it is.

A Football Note  
That Canadian league football game in Cedar Rapids next July 29 will have a special interest for some of the local football fans. Homer Lewis, a barber who has a shop on Twelfth and Crocker, has a nephew playing in the game. The lad played his college football at Lincoln, Mo. and has been selected on the all league team four straight years, according to Homer. His father, Jim Lewis, played his football at East High and with the old Maroon A. C. when semi-pro football was in its hey-day.

Homer was one of the pioneers of golf among Negroes around here. For years he used to tour the state with a bunch of white fellows playing team matches under the name of Lewis Brothers Barber Shop team. Homer would have to be said to have done his bit in the integration of golfers in Des Moines. He will be at the game and we hope to meet the boy and renew acquaintance with Jim who now resides in Minneapolis, we think.

GREASY STAINS  
Some greasy stains can be removed by regular washing in soap or detergent suds—either by hand or by machine. Other greasy stains need to be pre-rubbed with suds, then rinsed with hot or warm water.

PLASTIC RAINCOAT  
Hate to throw anything away? Here's an idea: when your plastic raincoat becomes too shabby for wear, cut it to waist length, shorten the sleeves, and use it as a "cosmetic cape" while you wash your hair, apply make-up, or do any chore which requires a bit of protection. Keep it clean by wiping with a sudsy sponge.

Is House Number Legible?  
IS YOUR house number doing its work? If it isn't visible, day or night, you're due for a change!

You can make a distinctive set of house numbers easily. The only materials needed are some Masonite Tempered Presdwood and a key hole saw, which cuts curves.

First, design the letters so the size of the correct size in proportion to the house and entrance—but large enough to be visible from the street. Transfer the design to the tempered hardboard, 1/4" thick, and start cutting.

Sand down any rough edges. The numerals may be mounted directly on the siding, using waterproof glue or finishing nails, or placed on a piece of shaped hardboard.

Paint the Tempered Presdwood on both sides, for weatherproofing seasons, before putting the numbers up. For a reflective surface, obtain from your hardware dealer tiny glass beads or a special tape.

Some families, particularly in outlying areas, like to identify their homes with nameplates. These may be similarly made and mounted on a board, which is fastened to a tree out in front or hung from a post. An even easier method, suitable for the summer cottage, is painting the name directly on a piece of primed Tempered Presdwood, either free-hand or with stencils.

Still another method is to mount decalcomanias on hardboard, using individual letters or numerals. Two or three coats of waterproof varnish or shellac will safeguard the plate and number for years.

### THIS BLESSED DAY

The thoughts that live in every heart  
And rise on high, become a part;  
That blends in othe harmony,  
And forms a sacred symphony:  
Our paen of praise for joy of living,  
That marks our season of Thanksgiving.  
How beautiful is the pageantry  
Of field and sky, each lovely tree,  
The colors deep, so rich and bold  
Those flaming reds and burnished gold,  
As if old earth intends to say,  
"We thank Thee Lord, this blessed day."

### KEEP THE FAITH

God helps the man who trusts, believes and all he prays for, he receives... God's guiding spirit never leaves; so keep the faith in Him.  
Just start out with a righteous plan, you're bound to win, you know you can! For He will help the godly man; who keeps the faith in Him.  
If you're in doubt... don't fail to pray—commune with Him... all through each day. The path is marked... so clear, His way; it pays to follow Him.  
And when your last long day is done... the last flag furled... the battles won... you'll hear Him say, "well done my son, now bring your harvest in."

### Thoughts for Today

The finest strategy is the telling of the simple truth at the right time and in the right way.—H. E. Russell.

Praphrasing the mighty Barnum, there's a customer born every minute.—B. J. Cain.

Anything that interferes with individual progress ultimately will retard group progress.—George H. Houston.

### Laugh Lines

About all any woman wants for her birthday, I reckon is not to be reminded of it.

Some folks say money won't solve any problems, but I've never seen a tax problem that money wouldn't cure.

## "Big Daddy" Liscomb Makes Wrestling Debut

San Francisco—The "bear hug," not the flying tackle was Gene "Big Daddy" Liscomb's feature hold when the 294-pound world champion Baltimore Colts tackle made his debut as a grappler here last week.

The 28-year-old pro footballer, a ball League season, appeared on a member of every All-Star team at the close of the 1959 National Football card promoted by Joe (Waffle Ear) Malcewicz.

High Praise  
Malcewicz, who has been tutoring Liscomb, had high praise of Liscomb's potentials as a wrestler. He

said: "He has such strong legs and such powerful arms that he's just going to squeeze the wind out of a lot of our top wrestlers."

Said "Big Daddy": "I've still got a lot to learn, but I'm strong, and I like to wrestle."

He said he thought of wrestling as far back as 1954 but was discouraged by Baltimore's segregation. He resides in Baltimore. Liscomb added: "Now they are hollering for me to break in back there (Baltimore). But I'm going to spend the next few weeks on the west coast."
