### NAACP Asks Rockefeller To Investigate Bias in N.Y. State Housing Programs

New York — The NAACP has charged the New York State Division of Housing with pursuing administrative policies which perpetuate widespread discrimination and segregation in housing throughout the state.

At the same time, the Association asked Governor Rockefeller to "initiate a thorough examination of the program and policies" of the Division of Housing.

The NAACP's allegation and request were expressed in a letter from Roy Wilkins, its executive secretary, to the Governor, dated June 19, but just released.

NAACP survey of 21 communities with building programs already approved by the Division of Housing and by the Federal Urban Renewal Administration "indicates that the non-white displacement averages 54 per cent of the total."

#### Present Law

Under present law, the State of New York is partner with each local community carrying out an urban renewal plan, in that it assumes one-half the local cost. The federal government pays for the other half.

The NAACP asserts that the New York State Division of Housing "has been content to administer its urban renewal program under the extremely limited provisions of the Federal Urban Renewal Administration" when it comes to minority rights and privileges.

#### Thousands Displaced

"Thousands of Negro families already have been displaced from their homes by local programs underwritten in part by the Division of Housing," the NAACP letter declared.

"Some programs have resulted in forcing Negro families out of their

cities and towns in their search for decent housing. In other localities, there is a consistent pattern of non-white displacement to adjoining deteriorating areas or to Negro ghettos."

#### Study

The NAACP study revealed an array of factors combining to create the state's housing crisis. It concluded with the offer of NAACP assistance to the proper authorities in documenting the trend and recommending remedial action.

Among factors cited:

—The Division of Housing has failed to impress the State's policy of nondiscrimination upon all municipalities engaged in planning or operating state-aided low rent housing projects.

—The continuous prejudicial efforts by local municipalities to proscribe areas in which low income and Negro families reside are known within the Division of Housing.

—Despite this knowledge the Division has established no formal policy affecting the acceptance or rejection of local proposals in terms of compatibility with the state objective of nondiscrimination.

—This laxity has encouraged localities to ignore or circumvent the state's policy of nondiscrimination.

—New methods are being devised to restrict the housing opportunities of Negro families.

—Some authorities are establishing five-year residency requirements for project eligibility in order to combat nonwhite migration.

—In some areas having both state and Federal low-rent projects, the lack of a firm policy by the Division has encouraged local authorities to concentrate Negro families in Federal projects and white families in state units.

## On The Integration Front

#### Delaware Wins

Wilmington, Del.—U. S. District court Monday upheld the state's board of education "short range" plan of school desegregation this fall for all Negroes who want it—if the school districts can handle the transfers. Judge Caleb M. Wright also upheld the board's "long range" plan of total desegregation by 1970.

#### Negroes Reject

Farmville, Va.—Prince Edward County Negroes have decided in effect that if they can't have the use of public school buildings in September, they don't want them in July. The county school board's offer to open the closed schools for the emergency program was rejected by Negro leaders, and classes will meet in private buildings instead.

strated his devotion to the cause of human freedom.

#### Testimony

He gave invaluable testimony as to the damaging effects of Jim Crow public education upon the minds of both white and Negro pupils in the legal cases leading to the historic Supreme Court school desegregation decision of May 17, 1954.

Dr. Clark contributed unstintingly of his time and ingenuity in the preparation of the cases for the Supreme Court, and also assembled a formidable array of social scientists whose clear and forceful presentation made possible the formulation of the historic legal principle invalidating the old "separate but equal" doctrine. The group's findings were concurred in by the Court and cited in its written edict.

### In Fraternity Ouster on SUI Campus Involving De-pledging of Negro

Iowa City, Ia.—Following an official investigation President Virgil M. Hancher of the State University of Iowa reported Friday that there was ousted as the result of outside pressure.

He referred to the case of Andrew J. Hankins, who was pledged last Mar. 17 to Delta Chi, a nationally affiliated white social fraternity, marking the first time any white social fraternity here had pledged a Negro. At a meeting May 1, the Delta Chi members voted to "de-pledge" Hankins, an action which resulted in the resignation

of the chapter's president and national headlines.

Hancher said he was consulted by someone from Delta Chi before the Negro student was pledged and said it was a matter for the chapter to decide. He said the investigation was conducted by M. L. Huit, S.U.I. dean of students and director of student affairs.

Hancher also pointed to the fact that the university has adopted a policy against discrimination in off-campus housing, requiring landlords to pledge and practice non-discrimination.

## ENCOURAGE YOUR CHILD'S INTERESTS

While other ten-year-olds were playing ball, Burt Lamberson collected butterflies. While they read comics, he poured over a nature magazine. His only real friend was the boy down the block who was "different" in the same sort of way.

## Force

The Lambersons were worried. To them, being one of the gang was of top importance. Mr. Lamberson, particularly, thought Burt should be forced to be a "good fellow". But forcing didn't seem to work.

Finally, not knowing what else to do, Mr. Lamberson showed some interest in Burt's activities. The boy was delighted. Every night when his dad came home he would talk about

some of the things he had discovered while exploring his scientific interests.

## Interest

Finding his dad an interested friend led Burt to broaden his interests, too. Though science remained his main love, he liked to hear about his father's bowling team and, on several occasions, went with him to a ball game.

It's hard for us not to try to make our children into the image we have of what a child should be. But it is altogether natural that they often are different. And unless these differences are so great that they are likely to be unhappy, it is the better course to accept and encourage the things that seem to mean most to our boys or girls.

## 35 PUPILS APPLY FOR CHARLOTTE TRANSFERS

Charlotte, N. C.—An NAACP campaign urging parents to press for change of pupil assignment from Negro schools to white schools has resulted in 35 such applications for the 1961-62 school term. The action seeking admission of Negro pupils to seven white schools in Charlotte and Mecklenburg County is considered outstanding, a Charlotte NAACP spokesman said. School authorities here have held to a policy of only limited school integration. Under the plan only two Negroes have graduated from white high schools in Charlotte. At the present time one Negro child, a second grader at Bethune Elementary School, is the only Negro in a white school in Charlotte.

## One Man Crusader

By Staff Writer

There is a man in our community (Waterloo) who has begun a one

KNUDSIEN

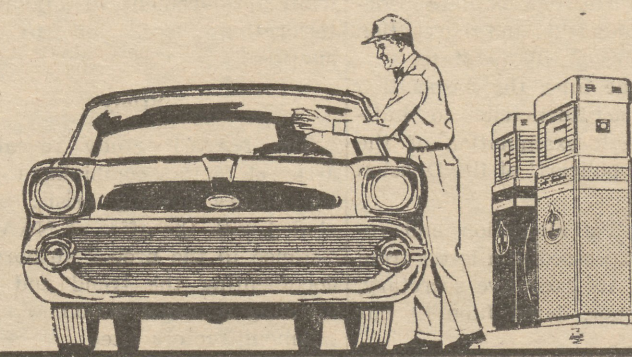

man crusade for the rights of the minority. Born in Harmony, Minne-

sota, this man knew nothing of the discrimination existing in today's world. His first taste of discrimination was upon entrance into the military service in 1951. He then decided to take a stand against such practices in every way that he could despite various comments from relatives, friends and fellow-workers.

This man, Dewey Knudsen, 47 Zuma Street, now an employee of the Rath Packing Company and an active member of the Civil Rights Committee, is the editor and publisher of a paper called the Freedom Press. Organized recently, with no profit to himself, Mr. Knudsen distributes these papers in large numbers throughout the community. Using as its motto, "Dedicated to the Equality of Mankind", Mr. Knudsen stated to your columnist that he hopes that his paper will be one of the small bricks in the building of a better understanding between races.

## Genevieve Answers Beauty Questions

by Genevieve Young

Q. Is there any way to avoid skin blemishes on my face?

A. Blemishes are usually caused by faulty diet, skin not cleansed well or an emotional condition. For minor blemish problems, reduce the starches, fats and carbohydrates in your diet; and always cleanse your face of all make-up before sleeping. To assure thorough cleansing, first splash your face with very warm water to open the pores. Use your fingertips, working in a circular motion, to apply a facial soap containing cleansing cream. After rinsing away soap, use cold water to splash your face, which closes the pores. Pat it dry with a soft towel. For a cool, soothing finish apply an astringent lotion.

Q. What determines the tightness of curl in my hair?

A. A loose, casual curl can be achieved with large wire type rollers. Clips, bobby pins and tiny rollers will give a tighter curl. After deciding on a hair style, select the type of curlers for each area that will give the desired effect. I recommend the use of a permanent-type hair straightener to control hair that is unruly or too tightly curled.

Miss Mease Booker, 1959 winner of the national Golden Girl contest, displays her "Golden" golden statuette awarded to the girl selected to personify the finest qualities in charm, beauty, and graciousness by Royal Crown Hair Dressing and Beauty Products.

Q. How does a girl get to be a model?

A. Many have asked for information on becoming a model. It takes hard work and rigid self-control to be successful in this exacting field. Watch for my next column for more specific details.

Miss Young will answer your letters on "beauty problems." Be sure to enclose a stamped, self-addressed envelope and send to Miss Genevieve Young, R. C. Beauty Institute, P. O. Box 2841, Memphis 2, Tenn.

## JORDAN IN HISTORY

Jordan, situated in the heart of the Arab World, has since ancient times, witnessed the impact of successive civilizations which have greatly influenced human progress. It has seen the empires of Egypt, Assyria and Persia; it was the battlefield of the Romans and their Byzantine successors, and Christianity was born within its borders.

In April 1950, after the end of hostilities between the Arabs and Israelis, the Jordanian Parliament, representing Central Arab Palestine and Trans-Jordan proper, approved the union of these two regions into the new country called the Hashemite Kingdom of Jordan.

The total area of present-day Jordan is 37,500 square miles, slightly larger than the state of Indiana. The population of 1,500,000 is predominantly Arab in race and Moslem in religion with about 12 per cent Christian Arabs and a great variety of other distinct groups and cultures. This mixture of cultures adds a picturesque diversity of dress and customs.

Jordan contains most of the sacred shrines of Christianity. Within its borders lie Bethlehem; Jericho, the site of the oldest walled city in the world; Hebron, where Abraham is buried; the River Jordan; the Dead Sea, the Mount of Olives and the ancient walled city of Jerusalem.

The country offers a great variety of climate and scenery—from the temperate heights of the rugged mountains of Moab, to the gently rolling hills of Judea, to the tropical Jordan Valley with its luxuriant vegetation; the Dead Sea, the fantastic, sandstone mountains of Wadi Rum and, finally, the dry arid desert of the eastern plateau.

Winter often brings snow to the mountains and Spring carpets the countryside with myriads of beautiful wild flowers. Rainfall occurs only in Winter, from November to April, so for the rest of the year the people of Jordan rarely see a cloudy day.

## The CAMERA GUILD

Your photo dealer will be glad to explain anything you don't understand about your camera's operation.

### Cameras Respond to Good Treatment

TODAY'S column is one of advice—to new camera owners. But one we feel will also be of value to owners of not-so-new cameras.

When you look that new camera out of the box, there was an instruction book with it, we're sure. It tells you in detail how to operate your camera—and under varying circumstances. It's designed to help you get the best possible pictures. But, of course, it can't do a thing for you if you don't read it carefully. Do that before you take your first pictures. They'll be better pictures. Knowing how your camera operates—and what its limitations are—is a good way to avoid disappointment.

Since all new cameras are carefully inspected before packing, yours should work fine. However, if it is the exception to the rule and shows any inclination to stick, don't force it. Take it to your photo dealer, find out what is wrong and the proper remedy

from someone who understands the mechanism involved.

These days cameras travel far and wide. Inevitably, they are going to suffer a certain number of bumps and shocks. On the whole they are rugged, and will take an amazing amount of punishment. However, it seems foolish to risk damaging a camera when a field case will protect it and are so low in price.

When traveling by car, you face the unfortunate problem of the most convenient places for carrying cameras being the very places that aren't good for it—the glove compartment and the back window ledge. In both spots you find heat and dust, the worst enemies of cameras and film. You don't want to pack it away in a suitcase. So, the best idea is to put the camera in a field case and keep it on the seat beside you—ready for picture taking at all times.

## Summer Peach Treat

Peach-upside down cake is a perennial family favorite but it reaches new heights of flavor and popularity when fresh peaches form the golden fruit topping. So for a perfect summer treat let's serve fresh peach shortcake with a snowy crown of fluffy whipped cream. The basis for the upside-down cake must equal the perfection of the sun-ripened peaches, so select the cake ingredients with care. A good tested recipe, the finest of ingredients and following instructions exactly will give you the velvety-textured cake you desire and your friends envy.

### PEACH UPSIDE-DOWN-CAKE

WHY PUT OFF  
THE ELECTION?

When the bill, which would authorize participation in federal low cost housing by Iowa cities, was before the legislature the city council and the urban renewal board urged its passage to speed up the Urban Renewal project in Des Moines. In fact the board said it would be stymied without the measure.

The bill passed and was signed by the governor. It will be necessary that the matter be put to a vote and passed by a 60% majority before the city can proceed to take advantage of the law.

Recently, Mayor Carlson announced that the special election would not be called for sometime; possibly a year.

Why the delay? Have conditions changed from what they were last spring when the legislature was asked to pass the law? We think not.

A general city election is to be held this fall. It would be well to hold the special election before that time so as not to confuse the issue.

Powerful interests are fighting the proposed open occupancy ordinance. They are the same ones who opposed low cost housing in the legislature—they will be opposing it during any special election. To continue to put the vote off enables these people to build opposition, intimidate many of their members—some of whom the Bystander is surprised of their association in view of some of the reactionary positions they take on programs of interest to progress in Des Moines.

The Bystander hopes that those who worked for passage of low cost housing legislation have not succumbed to the violent real estate et al interests who, in the name of preservation of rights, block progress in the city of Des Moines.

SINGING IN THE  
DARK

Gov. Patterson of Alabama, who was one of the early supporters of President Kennedy, is sounding off at the governor's conference against Robert Kennedy asserting that the attorney general encouraged the freedom riders, had no business sending 400 marshalls in Alabama to protect them, all of which caused more ill will between the races in the south than ever before.

Well, maybe the ill will the governor talks about has existed all along. And as long as Negroes and their friends made little effort to exercise their constitutional rights everything was cordial and friendly. The exercise of civil rights challenges many of the politicians who get elected on the white supremacy issue. They see in the distance the day when votes of Negroes will be needed to get elected.

It is unfortunate that any of the dissatisfaction should arise over either school desegregation or the unrestricted use of public facilities in interstate travel. But the south has had its "way of life" in these matters so long that it hurts the diehards to see their absolute control of what goes on slip away. Most operations hurt the patient but if he is to get well painful periods come as he recovers.

That's about where the situation stands and Governor Patterson nor his friends will be able to block these changes.

LINKS TO RENEW XMAS  
FUND DRIVE FOR NAACP

New York—The Links, Inc., nationally noted social action club, will again aid the NAACP through their special Christmas Card Substitute Plan, according to Roy Wilkins, executive secretary. Launched last year for the first time, the project did not catch on until after Thanksgiving and the gross amount raised was under \$25,000. This year, the Links hope that the announcement in the summer will triple the 1960 total. The project is a chain-letter action, starting with members of the Links in 88 chapters in 27 states, and spreading to the general public.

We must admit that we were a bit surprised at the selection of the next opponent for heavyweight champion, Floyd Patterson. We don't think anybody but Patterson's handlers heard of the guy.

Now, Patterson isn't the first champion to select his opponent on a safety basis. Most of the heavyweight champs prior to Joe Louis did it. Louis was just about the first champion to take on all comers. Charles And Walcott never got a chance to, for fighting each other and Marciano did probably the best he could with the available opponents all of whom were well past their prime.

## Liston?

But, we recall Patterson saying he wanted to be recognized as a real champion. Saying that Liston is ruled out. Although we don't know why. There are the ranking heavies on the regular list of contenders to choose from, so the guy passes up this list and goes way out in left field and picks a fan out of the bleachers.

Such conduct would hardly merit recognition as a fighting champ. While we aren't sure that Sonny Liston could beat Patterson we would like to see him have a chance in spite of his numerous brushes with the law. We can think of quite a few fighters who ran afoul of the law but were still good fighters.

## High Regard

We always had a rather high regard for Patterson as a man and as a champion. But, if this proposed fight with a guy named Joe Gaer goes through we must revise our opinion of the champion part, even though we don't think it is Floyd's fault entirely.

## Tennis

There was some great tennis at Ames last week in the N.C.A.A. tournament there. We wondered if any Negroes were there but there weren't. Even so we enjoyed the meet and saw some first class tennis.

Arthur Ash, national Negro champ, won the national high school tennis championship last week. The guy will certainly be sought after by a number of schools; we hope he picks one with a good tennis picture. This guy could well become our first Negro Davis cupper. He will get a good spot in the nationals at Forest Hills if he decides to go.

The Hilltop open? August 3 to 6.

Moore Still  
Thinks He'll  
Defeat Floyd

Monticello, N. Y.—If the pre-fight plans of light heavyweight champion Archie Moore and his veteran manager, Doc Kearns, materializes, Archie's next bout will be against Ingemar Johansson of Sweden.

Then if he gets past Johansson—and Archie thinks he will—Moore will shoot for another title shot at the heavyweight title held by Floyd Patterson. Moore has lost title bouts to Patterson and Rocky Marciano. However, Kearns said Archie still thinks he can whip Patterson.

The plans for the fight with Johansson, and possible Patterson, were formulated by Moore and Kearns, the ring's most cagey two-some, prior to Archie's triumph over Giulio Rinaldi of Italy a week ago. Defending his title for the 10th time, Moore gave Rinaldi a boxing lesson in the nationally televised bout.

## HEALTH FOR ALL

The Des Moines-Polk County Health Department urges everyone to help in the Mosquito Control Program this summer.

Water allowed to remain in outdoor receptacles is one of our biggest problems in the breeding of the Mosquito, Dr. James F. Speers, City-County Health Director said Thursday.

Many people do not realize that Public Health is every body's business. To have the best and most effective program, we need the help of everyone, Dr. Speers said.

The Ten Commandments of Mosquito Control which appeared in the April 1961 issue of Pest Control Magazine would be most helpful for everyone to follow. They are:

1. Eliminate all standing water of any kind; 2. Flatten all tin cans or puncture both ends; 3. Screen all septic tank vents; 4. Clean clogged roof gutters; drain flat roofs so no

water stands; 5. Cover all standing receptacles; 6. Empty and refill outdoor bird baths daily; 7. Stock garden pools with goldfish; 8. Tilt wheelbarrows, etc., with containers to prevent holding water; 9. Be sure screens fit tightly; 10. Dispose of old tires or anything which holds water!

## Sprays

In Des Moines, the city sprays city parks and mosquito-breeding places in city property, but does not spray residential property. Since early April, health department crews have been treating breeding places in lowland areas to prevent the growth of mosquito larvae.

In addition to the above recommendation spraying your shrubbery and plants with any one of several good chemicals on the market to ruin the mosquito's day-time hiding place would be most helpful.

Banks Given  
Mel Ott Award

Chicago—Ernie Banks, recently converted to an outfielder by the Chicago Cubs after starring for many years as shortstop, is off to a slow start this season, but he is still one of the most feared and respected players in the National League.

The lanky tan slugger has also resumed a role he played with marked regularity last year: cashing in on awards for his performance on the diamond.

## Double-header

On Sunday, June 11, during a double-header between the Cubs and the Milwaukee Braves, Banks was awarded the Mel Ott award. The presentation was made by Warren Giles, National League president, while a huge crowd of 34,599 looked on.

Banks' bat was muffed in the opener, as he went 0-for-4. However, he shook the slump in the

Liston Sparmate  
Shot In Tussle

Seattle, Wash.—Elmer Hardy, an ex-sparring partner of heavyweight contender Sonny Liston, remained in serious condition at King County Hospital here late last week after he was shot in a gun fight with police a few days earlier.

## Battle

Hardy was shot in the head, legs and arm in the battle with the police when he was caught fleeing a department store where he had shot to death the manager, Ark Ying Chin, 44. Police said they spotted Hardy hurrying down the street about five blocks from Chin's store and called at him to halt. But instead of surrendering, he wheeled and fired at them. Police returned the fire and Hardy fell.

## Angered

According to the reports, Hardy was angered when Chin accused him of shop-lifting. An argument followed and Hardy stepped inside and fired two shots at Chin, without warning. Mrs. Joan Allen, a clerk in the store who witnessed the shooting, said Hardy fled out a side door. Chin was pronounced dead on arrival at the Hospital.

## WHEN

WHEN your portion of the bitter  
Is greater than the sweet,  
And all the dreams you've cherished,  
Are falling to defeat

WHEN—your fondest hopes of all  
the years  
Have faded, one by one;

WHEN—all the joy, the happiness,  
That should be shared by you,  
Has never stopped at your address,  
There's just one thing to do

WHEN—you know there is a remedy,  
A cure for everything,  
You use no witch's potion;  
Nor rub a magic ring

WHEN—you lift your heart and  
lift your mind  
Look up, and choose, and try,  
Try love, try kindness, brotherhood;  
Move nearer, to the sky

WHEN—your decision, you have made,  
You'll walk above the throng,  
You'll hear His choir, up there on
