CORE LEADER FEARS VIOLENCE:

Requests U.S. Federal Marshalls

Charges Ia. Employment Commission with Bias

Will Also Investigate Complaints of Ipalco Job Discrimination

The Iowa Employment Security commission was accused of fostering job discrimination by not sending Negroes to a company when they (commission officials) know that he doesn't stand a chance of being hired.

The statement was made a week ago by Edward E. Shelton, executive secretary of the Des Moines Commission on Human Rights at a meeting of the organization. Shelton said he wrote George Moore, the employment service director. Moore was out of town but his assistant chief, Maurice Toothman denied the discrimination saying, "We refer applicants to employers without respect to color, race and so forth," he said. "However, we can't dictate that an employer must hire the person we send."

"We don't go out of our way to place Negroes," Toothman said, "but we don't accept an employer's order for an employee when there are restrictions connected with the order."

Ipalco Jobs

Two day later Shelton disclosed that complaints of job bias by either the Iowa Power and Light company or the electrical workers union will be investigated by the Commission. "On the surface there is discrimination. I don't know if it is because of Ipalco policy or because of the union. An employer can hire a lot of Negroes and still practice discrimination by keeping them in low level jobs. We want to know at what level the Negroes are kept."

Spokesmen Denies

Spokesman for both the union and the company denied any discrimination in Ipalco employment practices, pointing out there are seven Negroes in the union.

"Shelton has a perfect right to investigate," Perry Greenwood, Ipalco personnel manager, said. "He feels there is something wrong here and we are willing to co-operate fully with him."

Donald Huffman, the union's business manager, said the union definitely is not practicing discrimination against Negroes.

Asks President to End Color Bar in National Guard

New York—In light of the Berlin crisis, the continued exclusion of Negroes from National Guard units in southern states "comes very close to being sabotage of the national interest," NAACP Executive Secretary Roy Wilkins warns in a letter to President Kennedy.

The letter, dispatched to the White House on Aug. 3, urges that "appropriate steps be taken without delay to insure the inclusion, on a non-discriminatory basis, of all citizens in all aspects of the spiritual and physical mobilization you have ordered."

Spot Tenable

Recalling the President's declaration: "Any dangerous spot is tenable if brave men will make it so," in his July 25 address to the nation, Wilkins pointed out that "Negro Americans ask simply that they be given the opportunity to fit themselves, in honor, to join the company of brave

40 PICKETS MARCH WHILE CITY COUNCIL MEETS

An interracial group of 40 pickets marched outside city hall Monday while the city council held its regular meeting inside. The pickets representing the Des Moines branch of

the National Association of Colored People, and the Des Moines Improvement Association, carried signs urging the council to adopt fair housing practices ordinance for city. Signs

carried by pickets also criticized recent Iowa attorney general's ruling that it is illegal for cities to enact such ordinances. Photo courtesy of Des Moines Register and Tribune.

Picket City Council Meeting, Urges Fair Housing Ordinance

Signs urging the passage of a fair housing practices ordinance were carried by about 40 pickets Monday marching in front of city hall while the city council met inside. Signs also carried criticized the ruling handed down by the Atty Gen. Evan L. Hultman.

The pickets represented the Des Moines branch of the NAACP and the Des Moines Improvement Association. After 2½ hours of marching the pickets disbanded and most of them went inside the city council chambers where Atty. J. B. Morris, Jr., NAACP president, urged to the council to act despite the ruling of Hultman, declaring that cities had no right to enact such an ordinance.

90 Per Cent

Morris said the Improvement association and the Des Moines NAACP represent "about 90 per cent" of the city's Negro population of some 17,000.

Similar Situation

"We view Mr. Hultman's ruling for what it is—an opinion that may or may not be upheld in court," Morris said.

Morris said a similar situation existed a few years ago when "some of the people in your own legal department and in the attorney general's office" doubted the legality of a fair employment practices ordinance, which was adopted.

'Intestinal Fortitude'

He said it took "intestinal fortitude" on the part of council members to go ahead at that time, asking that the present council take the same course of action on the fair housing practices proposal.

"We hope and pray you do so," he said.

Morris told the council he admired the city's desire to be known as a friendly community, as expressed in a recent City Hall bulletin.

"Nothing could do more to realize this aim than to make Des Moines an open occupancy city," he said.

KENNEDY SENDS NEGRO PUBLISHER ON IVORY COAST MISSION

Chicago—President Kennedy sent a Negro publisher, John H. Johnson of Ebony and Jet Magazines, as a member of a four-man delegation headed by Atty. Gen. Robert F. Kennedy to represent him at the first independence anniversary celebrations of the Ivory Coast on Aug. 6 and 7.

Attorney General

Others of the delegation besides publisher Johnson were G. Mennen Williams, Assistant Secretary of State for African Affairs and R. Borden Reams, U. S. Ambassador to the Ivory Coast.

As chief of the delegation, the Attorney General carried with him a personal invitation from the President to Ivory Coast President Felix Houphouet-Boigny to pay a state visit to the United States next year.

The White House said President Kennedy was "particularly pleased that the Attorney General could undertake the mission." The Ivory Coast gained its independence in 1960.

Carl Rachlin, CORE general counsel, estimates that the mass trials will last for at least six months if Jackson officials force the trial of each defendant individually. Rachlin will be assisted in the trials by William Kunstler of New York and Jack Young of Jackson.

Mrs. Sadie E. Peters Leaves for California

Mrs. Sadie E. Peters, 1449 Buchanan street left Tuesday for Los Angeles, Calif., where she will spend two and half-weeks on business and pleasure. While there she will visit with her son, Robert E. Peters.

Personally Yours by Frances Mulhorne.

In a way August seems to be a sort of "catch-as-catch-can" month with residents making up their minds to take that well-deserved vacation out-of-town, and with others who have just returned from their refreshing ones, trying in vain to get children ready before the first dingdong bell ringings of school days. Of course, there are some, whose jobs do not permit them to leave until a lull in the activities of the organization or company. The whole plant or building shuts down for several closes down and staff members and employees all go off for their rest and recreation.

Such is the case of Wilkie House Staff members. Mr. Charles Jones, who is custodian, and his wife are spending a week in Kansas City, Mo., visiting relatives and friends. They make their home at 1227 10th street.

Mrs. William Rollison, staff secretary, her husband and family are planning also to vacation in Kansas City, Mo., to visit Mr. Rollison's mother, sister and brother. They also are looking forward to a fishing trip somewhere in Missouri before returning to their home at 1109 19th street.

Planning to make a trip to Denver, Colo., are the Kenneth Whitney family of 913 24th street. Mr. Whitney is athletic director at the center. It was reported also that he suffered his first illness in some nearly 15 years when he came down with a bad case of flu just the second day camp session was to end.

Also, planning to go to Denver, is Miss Charlene Wharton, executive director of Wilkie House, who will visit her father and wife, Mr. and Mrs. Fonda Wharton. After spending a few days there she will go on to California and visit the rest of the family in Los Angeles, and Santa Monica.

PICKETS PRESENT SHOW OF DISSATISFACTION

There comes a time when people must make strong protests to make those in authority realize that injustices exist and they want something done about them; that they wish the public to understand their position.

This is the moving force behind the NAACP and the Des Moines Improvements' program which included picketing at the city hall Monday. They were dissatisfied with the vacillating weak attitude which the city council has pursued with regard to public housing and the fair housing ordinance that they sponsored.

Well organized and orderly, the pickets, both white and Negro, conducted a show of sentiment which was impressive and left no doubt in the minds of the public that they want action and now.

The council proceeded to fix a date for the election on the public housing proposal and some members gave indication that they would support the housing ordinance.

As the Bystander has said all along, Des Moines is not plagued with some of the glaring injustices suffered in other communities. But it does have its problems. And while we have been fighting them for years, the technique of picketing has not been employed in any substantial degree as was the case in this instance.

These efforts take time and money which require the support generally of, not only those people who are immediately affected, but also all those who are working to make this a better city in which to live.

WHY SUPPORT ILLEGAL PROJECTS

The federal government partly subsidizes airports over the country. The courts have outlawed segregation in the facilities at the airports.

As congress is considering appropriations for these airports, an amendment was offered to the measure which would authorize withholding funds from those airports which insist on ignoring the law.

The NAACP supports this amendment but the leadership in congress insists that the law applies to the airport construction only and not the added facilities such as waiting rooms and restaurants.

How silly can men get when the rights of Negroes are at stake. This same situation prevails with reference to federal school aid. They are willing to condone law violations in these instances but not in others.

Either a law should be obeyed or should not be left in the statute books. As an exception is made to permit violation of one, its an excuse to those who violate others.

Once America decides to be consistent in these matters, there will be less difficulty adjusting relations between the races.

RUSSIA SCORES HEAVILY IN SPACE

Russia has done it again, and demonstrated that they are far out in front of other countries in the development of their space program.

Too many people are so prejudiced against Russia—and their unreasonable attitude toward international co-operation for peace partly justifies their position—that they have doubted their ability to accomplish the outstanding fetes they have performed. Reasonable men should applaud the good things even a criminal does. And for this reason, Russia should be applauded for its accomplishments.

No nation has a corner on science. But some seem to explore and develop it far ahead of others. We are spending almost untold millions in our program which must be ferried out. Otherwise, we shall continue to be second place in the great scientific developments as Russia has done in space accomplishments so far.

AE Dairy Gets Garden Club Award

The Men's Garden Club of Des Moines, according to its President, R. Glenn Raines, has selected the Anderson Erickson Dairy Co., as the winner of its 1961 Annual Award. A plaque is awarded by the club for the finest example of industrial beautification in the city of Des Moines.

In addition to lawns resembling a green carpet, flowers bloom in the gardens surrounding the dairy's plant during the spring, summer and fall months, with tulips in great variety starting off the season and petunias of many colors ending it. A year-round garden also beautifies the reception room of the Anderson Erickson Dairy office.

Iver Erickson, President of the dairy in accepting the award, said, "We have always considered outside beautification as important as inside plant attractiveness and cleanliness."

The 13th Hilltop Open tennis meet was just about a one man show but the Hilltoppers had reasons to be proud. Gene Nadig retired the Everett Mays trophy but we were still happy Nadig won the men's singles for the sixth straight time. He teamed with his brother, John to win the men's doubles and then returned to the court with Lena Walden to capture the mixed doubles crown in a match that was finished in almost total darkness.

Tom McCollum won the boys 18-years-old singles and two sets of brothers fought it out for the 15 and 13 year-old honors.

Esther Myers was our best show. The Mrs. Myers helped run the meet, do her household chores and found time to win the women's singles crown by beating Judy Axland, a Davenport blonde, 6-3, 6-4. Mrs. Myers tried hard to win the women's doubles with her partner, Armilla Bell, but the interracial team of Janet Holmes and Lena Walden won too experienced and pulled out 6-3, 6-4. Miss Bell carried off three trophies winning the 18 and under title, losing the 15 year old finals and finishing second in the women's doubles.

Lena Thompson
Lena Thompson who makes this meet a stop on the way to the Negro nationals was happy with two first places; she walked off with the women's doubles crown with Miss Janet Holmes and then the mixed doubles crown in a match that was feverish when it was too dark to see the ball from the sidelines. Seven trophies is a record for our club and speaks well for the long range program of Mrs. Myers.

Problems
We had several unusual problems, but nothing really serious. Our biggest trouble was coverage in the Des Moines Register; it seems they just can't get a reporter for our meet and pictures are just out. The meet is a 13-year-old affair, older than the Hawkeye open. In fact we have had some sort of tournament every year since 1930.

Interracial
Maybe this doesn't mean anything. Then we have interracial daubles teams, and four in the mixed doubles teams, and four in the mixed all around the state. What do we have to do to rate coverage? We would like to know.

But on the whole the meet was a success and we heard several out of town people say this was their favorite meet because they always feel so welcomed here. Maybe our efforts aren't wasted. Photo courtesy of Des Moines Register and Tribune.
