Old Houses Must Be Torn Down, Repaired Or City Will Sue

At its meeting Monday the Des
Moines City Council voted to sue
nine more owners of sub-standard
houses and buildings unless they are
torn down or repaired.

The action is part of a city effort
to step up enforcement of state and
city standards for housing in Des
Moines. City officials said the nine
buildings flagrantly violates the
housing code and that the owners
have ignored numerous notices to
correct violations.

Violations

Among the nine listed were a
house at 835 14th street and owned

Ministers Form Plan To Peacefully Combat White Owners Protests

Waterloo, Ia.—A group of minis-
ters were attempting to form a plan
whereby they could combat peace-
fully racial feelings which cropped
up sharply when a Negro mother
and her seven children moved to the
West Side.

It has been long traditional here
that Negroes live on the East side
and whites on the west side and
during the past years the pattern
has seldom been broken.

However, Mrs. Kuzie Jones, 29,
divorced, moved last month because
an urban renewal project took their
old home. United Services, because
it holds a contract with the Urban
Renewal Board to aid in relocations
of displaced families, has been iden-
tified with the Negro family's move.

Children Happy

Mrs. Jones said when they first
moved, a white woman came over
and told her "to go back to the East
Side where she belonged." She also
reported that three eggs were
thrown against the back of the
house one night.

"But, the kids get along, and as
long as they do, I'm happy", she
said.

Criticism

Criticism for and against the
United Services has heaped up since.
Some Negro leaders have asked the
agency to go on record as favoring
non-biased housing in Waterloo.
Whites have soundly denounced the
group as trying to "lower property
values."

Since the move of the first Negro
family to the west side, several
other west-side properties have
been offered for Negro occupancy.

Haskins Found Innocent of Beer Sale to Minor

John Lee Haskins, 30, of 1219
15th place, operator of Basin Street
West at 1310 Keosauqua Way, Mon-
day was found innocent of permit-
ting a minor in a tavern.

He testified that during one of
the three months he has operated
his business his income was \$3,450
from food sales and \$2,500 from
beer sales.

Under Iowa law, a place is not
classified as a tavern unless more
than 50 per cent of its income is
from beer sales. Minors are pro-
hibited from entering taverns, but
not from places otherwise classified.
Haskins appeared before Municipal
Judge Ray Harrison.

Dr. T. R. Howard Still Faces 7 Indictments

Chicago, Ill.—Although Dr. T. R.

defraud insurance companies, he still
faces trial for seven other charges.

After last week's trial, Dr. How-
ard said, "I feel this verdict is a
verdict of faith that my fellow

Association, have had in me."

paign agency.

A financial report for 1961 showed
a surplus of \$2,593 after total dis-
bursements for the year of more
than \$32,000. The surplus was at-
tributed to a period when the staff
was short one full-time worker, and
"unanticipated donations."

Speaker

Guest speaker for the meeting was
John Caswell, director of the urban
renewal relocation committee, who
spoke to about 40 persons living in
the area, who braved the snow and
cold, about plans for the project.
Caswell, especially emphasized that
letters sent out to persons living in
the area were seeking information,
not urging anyone to move immedi-
ately.

Caswell, said the information was
needed for a city plan to present to
the federal committee, which has a
deadline of four months.

Appreciation

For the first time, retiring board
members were presented certificates

Claims Husband, 52, Beat Her with Flashlight in Apartment Home Sunday

A squabble that began at a card party at the home of friends
Saturday night may have triggered the alleged shot-gun slaying of Jesse
Williams, 52, by his wife, on Sunday afternoon in their apartment, at
930 18th street.

Being held in Polk County jail on an open murder charge ever since
is Mrs. Francis Eliza Williams, 46.
She pleaded innocent at her ar-
raignment before Municipal Judge
Ray Harrison Monday morning. Her
preliminary hearing will be held
Friday (Mar. 2) at 1:30 p.m.

Card Party

Detective James Thompson said
Mrs. Williams told this story: She
and her husband had gone to a card
party at the home of friends. She
and he were card partners and a
quarrel later developed over a bid
she made. About 11:30 p.m. Mrs.
Williams said her husband insisted
they leave, and they did, but when
they arrived outside their apartment
home, he told her to get out and
that he wasn't coming in yet.

Asleep

Mrs. Williams then told police
that she did not see her husband
until about 1:30 p.m. Sunday. How-
ever, he after saying nothing, went
out again and she lay down in the
bedroom to sleep, she said. Her
husband returned about 4:50 p.m.,
she said, and asked where his cigars
were. She said she told her husband
she did not know and he began to
beat her severely with his fists and
a flashlight.

Frighten Him

Mrs. Williams said a struggle en-
sued, and when she finally managed
to escape she ran to the bathroom,
and attempted to get through a
door to the hallway. She said she
saw the gun, and picked it up, in-
tending to frighten him with it, but

ing of the Des Moines Committee

Married 9 Months

The couple had been married nine
months and lived at the present
address only three months. Mrs.
Williams was his fifth wife. Neigh-
bors in adjoining apartments called
police when they heard the distur-
bance.

Police Officer Gene Battani who
answered the call said that when he
arrived at the apartment Mrs. Wil-
liams was sitting on a bed, crying
and talking about how much her
husband had beaten her. Her hus-
band's body was lying in the door-
way between the bedroom and liv-
ing room.

.410 Shotgun

Dr. Leo Luka, medical examiner,
said Williams died of a .410 shotgun
wound just above his heart. His
death was instantaneous. Mrs. Wil-
liams was taken to Broadlawn Polk
County hospital where she was
treated for facial bruises and then
taken to the city jail.

Freedom Riders Win;
Court Rules All State
Travel Bias is Illegal

Washington, D. C.—A far-reaching decision by the U. S. Supreme Court Monday will be hailed by civil rights leader and especially "Freedom Riders" in the South. The nine justices ruled unanimously that state laws requiring racial segregation in any kind of public transportation facilities are unconstitutional.

Mississippi

It strikes down any efforts in southern states to regulate intrastate travel on a segregated basis and also regulates seating on city bus lines.

The decision was made in a case from Mississippi where some 220 freedom riders have been arrested. The court's ruling as to racial segre-

gation of transportation facilities was a brief one that took the position that the issue was not open to argument. The court said the question had been settled by its previous decisions and is no longer open to litigation.

Orders Disposal

It directed the U. S. District Court in Mississippi to rule on protests by freedom riders who were arrested in Jackson, Miss., and told the district court to dispose of the case expeditiously "in the light of this (Monday's) ruling."

Northwestern Bell
Construction Total
\$2 Million for Iowa

Northwestern Bell Telephone Company carried out a \$109 million construction program in 1961 including \$32,600,000 for Iowa. The program included record expenditures to enlarge and further modernize Northwestern Bell's services, according to the Company's annual report released today by President A. F. Jacobson.

Northwestern Bell's plant investment has doubled in the last eight years. It reached \$933 million at year end with \$260,000,000 in Iowa. Mr. Jacobson points out that this is a reflection both of continued strong demand for the Company's services and the higher costs of plant construction. The report notes that \$25 million went to replace worn out or obsolete plant during the year and costs involved were about double the original cost of the plant replaced.

645 Local Areas

The Company provides telephone and other communication services in 645 local areas in Iowa, Minnesota, Nebraska, North Dakota and South Dakota. It furnishes most of the intercity circuits which interconnect all points in the region, including those served by several hundred other telephone companies.

Employment

The Company provide employment for some 23,000 men and women. 7100 of whom are in Iowa. "Altogether," Mr. Jacobson said, "Northwestern Bell's payrolls, construction expenditures, purchases of materials and services, state and local taxes put some \$275 million into the economy of the five state region."

Average

According to the report, the Company's services were used about 12 million times in an average business day during last year. Northwestern Bell added 101,000 telephones in 1961, bringing the total served at year end to 2,618,000. Iowa added earnings of the Company for the year were \$2.13 per share of Company stock emocompared with \$2.11 per share for 1960.

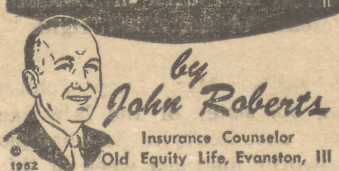

BALTIMORE NAACP
JOB DRIVE GAINS

Baltimore, Md. — Sixty Negroes have been hired by the gas and telephone companies since the "selective buying" drive was launched by the NAACP here last Easter.

Announcement was made this week by Mrs. Juanita Jackson Mitchell, counsel for the local NAACP, who added that the newly employed Negroes have a combined annual salary of \$180,000.00. The NAACP drive, backed by clergymen of the Association's local church committee, is still under way.

Mrs. Mitchell added that the NAACP "will continue to picket until Negroes receive a fair share of skilled employment in these utilities, proportionate to their one-third ratio in the general population of Baltimore."

Family Finances

If you're planning to borrow money or buy on time, be sure you're familiar with the following points:

- No matter what interest rate is quoted, find out the actual cost in money.
- Before signing any papers, check the figures as to their accuracy and don't leave spaces to be filled in later.
- Question extra charges that would increase the total cost of the loan.
- If you're to owe a firm other than the dealer you're buying from, find out if they are reputable.
- Find out what the penalties are for late payments.
- Don't skip the fine print. Read and be sure you understand.
- What does the contract say about repossession?
- Understand what security you are giving.
- Do not sign away legal rights or guarantees such as the right to refuse merchandise which is not as promised.
- Is there a provision for refund of interest on payments ahead of schedule?

Plan Employment
Survey of Negroes

The Commission on Human Rights is conducting an Employment Survey of Negroes in the age group of 18 to 35 years.

The questionnaires which may be obtained from any of the ministers in the community, as well as in the barber shops and beauty establishments, are particularly concerned with the educational backgrounds of the interviewees.

When the survey is completed, the Commission plans to use the facts when talking to Des Moines employers. Armed with information from the questionnaires, they hope to prove that Negroes represent a vast untapped resource in the area of employment.

On Canvas

Patterson, incidentally, has been on the canvas in most of his championship fights, although he has gotten up to win in all except one bout; his knockout loss to Ingemar Johansson in their first fight.

Discussing Patterson here last week, Tunney praised Floyd for being "fine citizen and athlete", but then went on to explain the champion's weakness.

Alabama Court Given
5-Days to Act by
U.S. Supreme Court

Washington, D. C. — Alabama courts have only two more days to act upon or ignore, a request for release on bail by the Rev. F. L. Shuttleworth, who is appealing his conviction on a charge of breach of the peace. In its unanimous action Monday the United States Supreme Court gave the Alabama courts five days to act on its order. If the state courts ignore the order or fail to grant Rev. Shuttleworth bail, he can take his case into the Federal District Court at Birmingham.

From Jail Cell

Rev. Shuttleworth and the Rev. J. S. Phifer are carrying on the struggle for integration in Birmingham from their cells in the City Jail. The two Negro minister, president and vice president of the Alabama Christian Movement for Human Rights, were jailed Jan. 25 after the U.S. Supreme Court refused to review their 1958 convictions for defying Birmingham bus segregation. Rev. Shuttleworth is under a 90-day sentence and Rev. Phifer, a 60-day sentence.

Since they went to jail, they have initiated petitions to city and county officials for desegregation of all courthouse facilities—water fountains, restrooms, and courtroom seating—and for an end to discrimination in city and county jobs. They

have also led the continuing struggle, initiated last fall by the Alabama Christian Movement, for integration of the University of Alabama Hospital in Birmingham.

Thousands of Birmingham citizens have joined in signing the various petitions the two leaders have initiated. W. E. Shortridge, chairman of the Legal Redress Committee of the Alabama Christian Movement, said court action would soon be taken to force a showdown on the petitions for justice that have been filed.

MRS. VAELETTA FIELDS
816 Sumner Street

Special guest at the Black Hawk County Social Welfare Foster Mothers' tea held at the Y.W.C.A. was William March of the State Department for Foster Child Care, of Des Moines.

A discussion included such points as:

1. What is your reward for being a foster parent?
2. Should a small child be placed in a home of middle aged people who have never had children?
3. If your child has done wrong, trying your patience, is this where you feel the difference if this child is your own or a foster child?

Discussion also included plans for a foster parent study group and a recognition program. Mrs. Clister Smalley, 154 Harrison, attended and was glad that she went.

Miss Olivia Garrison, 619 Sumner Street, after spending 10 days in the hospital, is able to be back to work.

Mr. James Tanner and his sister, Mrs. Tommie Green, were in Chicago over the week end and on business.

Funeral services for Moses Nelson Terry were held at Antioch Baptist Church Saturday, Feb. 24. Mr. Terry resided at 339 Adams Street and died of pneumonia. Rev. Eugene Williams, pastor of Antioch, officiated.

The baby sitter business is booming. Baby sitting is a job, and likes every job, it carried definite responsibilities, and you need certain qualifications to do it well. Consult the Waterloo Y.W.C.A. concerning the class for grown-ups starting next month.

Mrs. William Hoosman 212 Bates Street, is much improved after a three week siege of influenza.

Mrs. Al Wilson, 211 Oneida, continues to improve.

Mrs. Ray Smith of 304 Sumner, is still a patient at St. Francis Hospital.

Remember the sick and shut-ins with a visit or a card.

A Room for Two Children
WHEN two youngsters occupy the same room, ordinarily they have little privacy. However, by using a bit of imagination and ingenuity, the fix-it-them-selves family can create a room that has two of everything, plus built-in privacy.

First, the room is divided by means of an extra-wide divider desk and closets. This way, there'll be a separate study and clothes

storage area for each child. The separation of the space is completed by a sliding door.

Other features may include a radiator enclosure, fluorescent lighting, spacious drawers in the desks and an attractive soffit.

Use of Masonite hardboards for the closet walls, desks, soffit and as underlayment for the flexible floor covering makes such a room improvement both economical and easy. A large variety of hardboards for these purposes are available at lumber yards.

Hardboards made by Masonite Corporation, the pioneer producer, are made by exploding clean wood chips in huge guns and then compressing the fibers into thin, strong panels under extreme heat and pressure. Being all wood, these panels may be worked and finished like wood.

For a free plan detailing how to create a youth room for two, write The Home Service Bureau, Suite 2037, 111 West Washington St., Chicago 2, Ill., requesting Jan No. AF-265.

UNDERSTANDING IOWA CHILDREN

SPONSORED BY THE IOWA CHILD WELFARE RESEARCH STATION

CHILDREN NEED TO FEEL USEFUL

Life in school isn't always easy for children in the pre-teens. They have trouble overcoming and understanding their restlessness, their need to rebel occasionally in the classroom. Many teachers naturally find this rebellion hard to take.

Cannot Solve All

The school cannot be expected to solve all of a child's difficulties, but understanding teachers can help children handle and overcome many problems. Good schools have standards of conduct that children can live up to—they do not consider as undesirable behavior that is natural in the pre-teens. Thoughtful teachers know that children at this age are more enthusiastic about school if they have had a part in the selection and planning of activities.

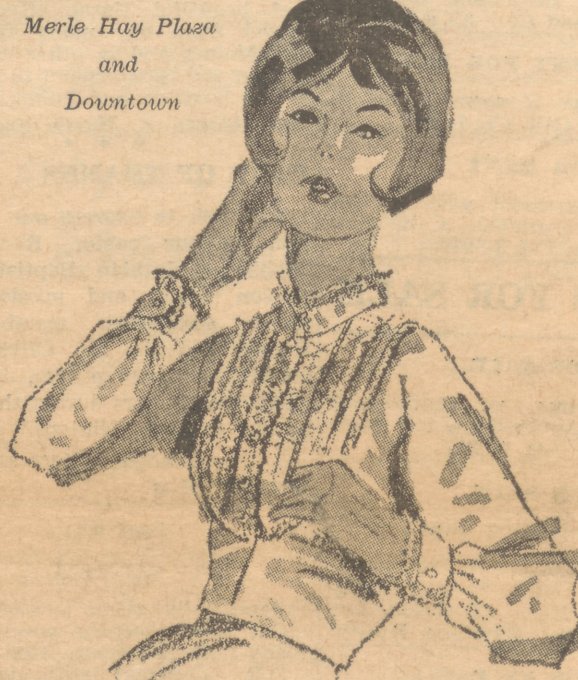

Put Into Practice
School-agers have a great desire to be useful and important. They are interested in many things and

eager for knowledge. Parents and operatively with others.

Problems
Parents who are active in school affairs can help their children a great deal as they learn to know the teachers can capitalize on these qualities and provide stimulating opportunities for children to put into practice many of their ideas, to assume responsibility, and to work co-school and its special problems. They learn through cooperation to cope with these problems, since they feel more in touch with the situation generally. Working with other parents and school personnel, parents can help to bring about necessary changes.

No Comparison
Above all, parents should not compare a child's abilities with those of another child, or with an older sibling. Each child needs a chance to develop his own particular set of abilities, not to live up to another's pattern that might be impossible for him to follow.

Screen for Nursery

A FOLDING screen is mighty handy to have in the nursery, where it can be used to keep drafts off the crib and as a shield against light, noise and activity.

Like the one in the illustration, the screen may be made in the home workshop and neatly decorated by means of decalcomanias or stencils. Panels without the nursery characters may be finished with blackboard slating material, so the pre-school child will have a place to draw.

Materials for this simple device may be obtained in any lumber yard—1 by 2-inch lumber for the framing and crossbars, Masonite

Tempered Duolux, a durable hardboard that's smooth on both sides, and the hardware. The panels, after being cut to size, are inserted in grooves which have been cut in the framing with a power saw.

The stick-on pictures are available at paint and hardware stores, which are sources also for stencils used in hand-painted work. Major paint companies make slate surfacing material, which simply is brushed on the Masonite Duolux with a brush after the panel has been prepared with two coats of clear sealer.

PRE-FREEZE FOR ANGEL PIE

When the freezer is put to use the best of the season's crops can be preserved for later enjoyment. One of the most eagerly awaited is the strawberry. Home frozen strawberries retain the fresh, juicy taste of newly picked ones for months when packed in approved freezing containers like Vapocans, square, waxed-board containers with rigid plastic lids.

Strawberries to use later in dessert recipes should be prepared in a dry, sweetened pack before freezing. This is all you have to do. After they are washed, drained, and hulled, tumble berries in sugar, ½ cup per quart. Pack in square, waxed-board containers and freeze immediately.

STRAWBERRY ANGEL PIE

Here is a way to put a container of home frozen strawberries to mouth-watering use. Add ¼ teaspoon salt and ¼ teaspoon cream of tartar to 4 egg whites. Beat until stiff. Beat in 1 cup granulated sugar. Beat in ½ teaspoon vanilla. Spread in well-buttered, 9-inch pie plate, having mixture higher round the edge to make a rim. Bake 1 hour at 275° then cool. Spread with ½ cup whipped cream. Let stand several hours. Spread a layer of 1½ pints thawed strawberries over cream. Cover with second layer of whipped cream.

It's Desk or Dresser!

DON'T let the high cost of furniture prevent you having a desk or dressing table! By following a free plan, you can build one that will serve as either. The plan also describes construction of a three-legged stool, in the event you want a dressing table. Features of this piece are the removable top, the drawers without pulls, and the durable, smooth surfaces—

Masonite Tempered Presdwood. An interesting alternative, for the top, is Masonite Leatherwood, the embossed hardboard which makes an unusually attractive surface for a dresser. Leatherwood is stain and burn-resistant.

As shown in the illustration, this desk-or-dressing table is neat and modern. The cost of materials used in its construction is comparatively small. The plan is easy to follow too. It may be obtained free by writing to Home Service Bureau, Suite 2039, 111 West Washington St., Chicago 2, Ill., and enclosing Drawing No. AE-170.

The honkers are coming!! The honkers are coming!!! No, we haven't gone stir crazy from the last week's snowstorms. The honkers we are referring to are our migrating feathered friends, ducks and geese that have already begun their annual trek to the Arctic, where they will spend the spring and summer. According to the Conservation commission, the geese flights will reach their peak in a couple of weeks. Thousands of the snows and blues will be spreading their wings across the sky. A welcoming sight for Iowans who are just hanging on until spring. Wild geese flying northward is a sure sign that spring is very near just as when they fly southward, it's a sure bet that the winter's blows are right behind. So cheer up everyone, it won't be long now before the roots of that other perennial enemy, crabgrass, will be snubbing its nose at you and daring you to do anything about it.

Despite the uncheerful weekend weather picture, yours truly had an enjoyable day, Sunday especially. It was my birthday, and it began with breakfast in bed, and later dinner out and a movie date, with my husband. I don't think words can really express the happiness of any parent, mother or father, when the rest of the family turn all out to make the loved one's day something special to remember, and cherish in the storehouse of wonderful memories.

The Mother's Coffee hour at Willkie House each Thursday morning are still going full fledged. Last Thursday they took over the gym and got a good work out playing basketball. This morning they were scheduled to see a demonstration of Easter hats by Mrs. Hazel Wright. Prior to that they were to do some skating in the gym.

Baja California Film

Here is a thrill-packed color film adventure story about that little-known "other California," just across the Mexican border below San Diego. We will walk in the footsteps of Cortz and Coronado; watch pearl divers, and fishermen took fighting swordfish; and ride with the cowboys across America's oldest ranchos. Here is, indeed, gay humor, high adventure, in that unspoiled, seldom visited fabulous land of the Conquistadores. In editing this film Craig has included some of the most beautiful scenes from a previous film presented here some time ago.

This series is open to the public. Admission is 60 cents for adults and 25 cents for student through grade 12.

SWEEPING COURT

DECISION BALKS

SEGREGATION LEADERS

In a unanimous decision Monday, the U. S. Supreme Court declared the segregation in public travel is unconstitutional, both in interstate and intra state transportation. The decision struck down segregation laws in those states which took the position that state segregation laws transcend federal laws and Interstate Commission rules that forbid such practices.

The case, which was handled by the legal staff of the National Association for the Advancement of Colored People, grew out of the arrest of 20 freedom riders in Mississippi, who had been arrested.

The court took the same ground as it did in the 1954 school decision and this one further adds to the consistency in which it has struck down all types of segregation. It puts more heart, more strength in those who have fought these cases, at great expense, through the long tangle of legal machinery and have paid off in favorable decisions. It adds backing to those white people in the South who, while not particularly favoring integration, feel that obedience to law and order is the role of any good citizen.

Now that this blanket decision has been rendered, it now devolves upon law enforcing officials to carry it out. One weakness of the school decision has been the burden placed upon parents to initiate the movement of their children from segregated to unsegregated schools. They have been forced to pit their efforts against the power of the states which used the tax money in an attempt to uphold their way of life. Had the NAACP not come along to breach the gap, very little would have been accomplished in carrying out the pronouncements of the court.

While the decisions of the court are based on the law and the facts, it is with great satisfaction that its rulings have favored basic equal rights for the Negro and square with our declaration of equality for all people. It has not been true with the court in many instances prior to the last decade.

And the decision further emphasizes the brilliant job the NAACP has carried on by working intelligently and tenaciously in an orderly manner to unshackle many injustices suffered by Negroes throughout the country.

HOUSING OF MINORITIES SHOULD BE MET WITH INTELLIGENCE

Most cities, North and South, are troubled with the housing problem as regards minority groups. As long as Negroes remain satisfied with the poor housing offered them, no problem arises. But when they attempt to improve their lot by moving into better neighborhoods, trouble arises.

Waterloo, Iowa, which is engaged in an Urban Renewal program, is the latest to arouse a few white people because a Negro dares to move on the west side of town where no Negroes have owned or rented homes before.

When cities undertake these programs, where the federal government foots most of the bill, local citizens either forget or ignore the fact that federal regulations require that adequate housing be found for those required to move in order to make way for the new development.

Undoubtedly, a large portion of those displaced people are Negroes, many of who occupy sub-standard houses. The federal government has attempted to help out in the situation by providing a low cost housing program. However, narrow minded citizens have succeeded in blocking some of these programs either because they wish to keep Negroes in ghettos or uphold the unproved argument that local people can provide for the housing themselves.

These objections go to the problem of offering all citizens the opportunity to buy where their economic standard permits and uprooting people who are already settled in a home for life and being required to go into the market and pay prices far out of line with the homes they occupied.

Nobody should be subjected to a neighbor, black or white, who does not keep his home up, whose mode of living is not conducive to good citizenship. These things should be considered as well as the buyer's credit and ability to pay for the

property.

But too often, simply because the buyer is a Negro, some people go into hysteria, throwing away their teaching of brotherhood and equality of opportunity for all people.

Recognizing the blackeye such conduct brings to a community, some levelheaded Waterloans are trying to organize the forces of law and order to bring a peaceful solution to the housing situation and to prove that good people, who stand for fair play and law and order, run the town rather than the voiceless rabble-rousers who thrive on ignorance and race prejudice.

The Anniversary of an old timers basketball game was handed to us by Bud Collins. We think ten percent of the gate is going to keep the oldsters in linament, bandages and crutches. There probably also will be a prize for the old timers able to walk off the floor after the game. But it ought to be a lot of fun to see some of those old guys try to turn back time.

Golden Gloves

The Golden Gloves has not attracted our attention for a number of years. We can't get excited over fellows we know who are not in shape taking their lumps. We watched some of them leave a work out and start smoking right after.

But it isn't Mel Barber's fault. But little bald headed fellows has done his level best to keep amateur boxing going. He took over after Dave Nemo died and practically carried the things on his shoulders. Most of the local kids who get anywhere in the gloves here owed their success to Barber. That is why it made us angry when the big show was on who got the credit and the newspaper space: Dave Fidler and Jim Ameoleo. They are nice guys but we do think Mel should have been given some recognition for his splendid work with the boxers.

Old Timers Play

Corinthian Comets

The old timers will play the Corinthian Baptist Comets basketball team in a benefit game for their athletic program, March 16. Admission, adults \$1.00, children 50c. Time 8:15.

Players for the old timers will be: Set shot artist, Cleo Johnson; pivot man, Bob White; slow motion, Art McQuire; show boat, Bud Collins; dead eye, John Estes, Sr.; jump shot artist, Jumbo Crowder; hook shot, Bubble Parson; slick passing, Jack Howard.

There will be a pre-game at 7:00 o'clock between Union Baptist and Corinthian Comets, Jr.

HEALTH FOR ALL

SPIRITS FOR THE FLU

With the sneezing season here, it's a good idea to check your spirits. But don't spend too much time looking over liquor supplies—the spirits that matter are your own. If your morale is generally good, chances are that if you get the flu, you'll get better faster than people who often have the blues.

Spirits

Johns Hopkins University School of Medicine says "depression-prone" people take longer to get over flu than fellow-sufferers with higher spirits. Their findings are based on a study of 26 Maryland flu victims who had been given psychological tests on their jobs before they got sick.

Shots

Twelve took three long weeks to get well. But they were not sicker in any physical way than the 14 who took only three days to two weeks.

FAMU Grider Signs With Houston Oilers

Tallahassee — William Wilson of this city signed a contract to play professional football for the Houston Oilers and became the eighth member of the 1961 Florida A&M University grid team to enter the professional ranks.

The signing of the Tallahassee halfback was announced by A. S. "Jake" Gaither, coach of the Rattlers, after Wilson had come to an agreement with John W. Breen, director of player personnel for the Houston club.

Coach Gaither has 15 ex-Rattlers under pro pacts.

from Veterans hospital last week and returned to his home in Mason City, Ia.

Their psychological tests showed why.

They have a day-by-day depression and morale loss much lower than the rapid recoverers. John Hopkins doctors concluded: people who habitually get depressed are more likely to feel low during an acute infection than people who aren't usually depressed.

Disposition

So if you're not the sort of person to let things get you down, you'll probably recover fairly fast if flu hits you. But don't count on your sunny disposition to protect you.

Ask your doctor to give you flu vaccine. Especially if you have tuberculosis, emphysema or other respiratory ills, heart disease, diabetes, or other chronic illnesses. The vaccine is also important for pregnant women and people over 65.

But with or without flu, try not to be blue!

"Ambition Is To Run 100-Yard Dash In 9.0 Flat: Hayes

By D. C. Collington

Tallahassee—"My ambition is to run the 100-yard dash in nine seconds flat," a 19-year old Florida A&M University sprint star beamed after tying the world record of 9.2 in an AAU meet last week in Miami.

Robert Hayes of Jacksonville may do just what he says, predicted his coach, Pete Griffin. Griffin went even further to predict that his track star will break the world record with a 9.1 in his next meet.

Against Wind

The record-tying feat was accomplished during the Florida Athletic Club meet on the University of Miami track. "This meet was as official as any in the world and Hayes had a four and one-half mile wind blowing against him," revealed Vince Lalley, chairman of track for the Florida Gold Coast AAU. "I am certain the time will be approved by the international body; we used accredited timers and the track was measured carefully by engineers."

Hayes is sluggish getting out the hole and really runs his race after 60 yards. He admitted that he was not in top shape during the Miami meet.

APPRECIATION

Thanks for reminding me that my subscription is due. After 20 years I have not been able to detach myself from Des Moines. I still have many friends there. All of the local happenings are of interest to me especially the news of the churches.

As editor, I think you have done an excellent job.

Gratefully yours,

SHE APPROVES

I want to commend Atty. J. B. Morris, Jr., for the stand that he is taking viz. The City Council not appointing members of the Negro Race to the Boards and Commissions and especially the Housing Commission.

I hope that he will always speak his convictions and stand for that which is right.

It makes sense to have representatives on the Boards and Commissions that know and understand problems of all peoples. For instance one of the members on the Housing Commission asked the question, why we have so many low income families. He has been eating from a silver spoon all his life I suppose and just doesn't know any better. Now I ask, how can he help make plans for any one except the ones that do not need help.

I am sure that it was just a slip of the tongue when the Council stated that Mrs. Edward Zerlin was not being re-appointed to the Human Right Commission because she is too enthusiastic about her work. We all make remarks sometimes without thinking because we are human. I hope that they will recon-

sider and re-appoint Mrs. Zerlin. She is what all the citizens of Des Moines need to help keep us good citizens.

I SIMPLY COULDN'T RESIST

By Tessie Sonlon

I simply couldn't resist
Trying to learn the "Twist"

Each movement violently wild,

Was done by the merest child.—
But when I arched my back,
Oh my sacroiliac!
And Doctor if you please,
Do something about my knees!
Now instead of learning the "Twist"
I've thought myself to resist
This wrecker of knees and backs
From here to Hackensack!

Thoughts for Today

Reason things out with your children—it is the best way to whip them into shape.

With the cost of living so high, many people find they cannot afford to work for what they are worth.

One cool judgement is worth a thousand hasty councils. The thing to do is to supply light and not heat. At any rate, if it is heat it ought to be white heat and not sputter, because sputtering heat is apt to spread the fire. There ought, if there is any heat at all, to be that warmth of the heart which every man thrust aside his own personal interest, and take thought of the welfare and benefit of others.
