America's Negro Workers Victims of "Discrimination With a Union Label"-Velie

America's Negro worker is getting a raw deal.

He's being excluded from many kinds of skilled jobs, held down in other kinds—and by the very unions that should be doing the most to help him. Industries and government agencies too have joined what amounts to a three-way conspiracy to keep Negroes in the lowest jobs at the poorest pay with the least chance of promotion.

Look Far and Wide

These charges are made in the May Reader's Digest by veteran labor reporter Lester Velie, who cites a long list of unions that automatically exclude Negroes from membership. Says Velie:

You'd look far and wide before finding a Negro electrician or sheet-metal worker, stone cutter or steamfitter, bricklayer or printer. Negroes are equally rare in dozens of other skilled crafts, where hiring is done through the unions and where the unions don't admit Negroes.

Double Weapon

Exclusion from unions is a double-barreled weapon against the Negro. It affects him now because it slams doors leading to better jobs. It affects him for the future because he can't get into many of the 7800 registered apprentice programs, which act as training grounds for tomorrow's craftsmen. In a hangover from medieval days apprentice-

Cedar Rapids Group Has Non-Segregated Area for Housing

Cedar Rapids, Ia.—Housing opportunities for Negroes in Cedar Rapids in non-segregated areas of the city are being provided by the joint efforts of the NAACP Housing Committee and the Housing Committee of the Human Relations Council of Cedar Rapids and Marion.

File of Houses

The committees maintain a file of houses available to Negroes and visit the new neighborhood after a sale has been concluded. Listings of owners and realtors willing to sell on a non-discriminatory basis are obtained through a Want-ad in the local newspaper sponsored by the Human Relations Council, and through informal contacts. Response to the Want-ad has been excellent, according to James Broadston, chairman of the Council's Housing Committee. The committees also help families move, and obtain volunteer legal and financial advice when necessary.

Panelists

Recently Mr. Broadston and Wilburt Mitchell, Chairman of the NAACP Housing Committee appeared on a panel discussion sponsored by the Mayor's Committee for SEE PAGE TWO

Edward Day of Washington, D.C. will be in Des Moines on Saturday, April 28th, according to Democratic State Chairman Lex Hawkins, to speak at the second annual NEW FRONTIER DINNER. It will be at the Veterans Auditorium.

Postmaster General Day will conduct a Press Conference at 3:00 p.m. in the Grand Ballroom of the Savery Hotel, followed by a reception in his honor given by the members of the NEW FRONTIER CLUB.

Bus Driver Calls Police When Army Vet Refused To Move from His Seat

Taylorville, Miss.—The NAACP called for firing of the Trailways bus driver involved in the malicious killing of Cpl. Roman Duckworth this week as 2,000 attended his funeral, conducted here with full military honors.

Roy Wilkins, NAACP executive secretary, also earlier asked President Kennedy to intercede and "enlist every appropriate resource at your command to see the Cpl. Duckworth's murderer is brought to justice."

Shot Thru Heart

The handsome young military policeman was slain by a local peace officer, summoned by the Trailways bus driver, R. H. Vickers, when the 27-year-old passenger failed to respond to an order to move. He was shot through the heart by Policeman William Kelly on April 9. The funeral was held, April 16.

An interstate passenger, Cpl. Duckworth was entitled by rulings of the Interstate Commerce Commission and the United States Supreme Court decisions to sit wherever he chose in the bus.

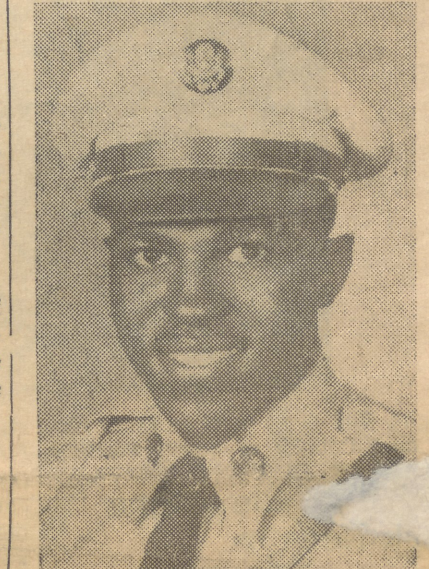

Honor Guard

Indicating its esteem for Cpl. Duckworth, the Army sent an integrated honor guard and pallbearing unit from Fort Rucker, Ala. Grave-side rites were conducted by an Army chaplain.

Attending the funeral were his parents, 11 older brothers and sisters, and a few local whites. However the massive gathering was predominantly Negro, including many relatives and friends of the slain soldier, a veteran of 10 years' service.

Outstanding Record

Cpl. Duckworth, according to military spokesmen, is said to have had an outstanding service record. He was a military policeman assigned to security duty. Clarence Mitchell,

DUCKWORTH

director of the NAACP's Washington Bureau, called for an investigation by the U.S. Justice Department.

Enroute to Bedside

Cpl. Duckworth was enroute from Camp Ritchie, Md., to his wife's bedside in a Laurel, Mississippi, hospital. SEE PAGE TWO

Survey by NAACP Reveals Western School Jim Crow

New York—An exploratory survey of the educational facilities in 10 Far West cities revealed the existence of segregated public schools in each of them, Robert L. Carter, NAACP general counsel, reported on his return to New York City after completion of a three-week tour.

Accompanying the NAACP lawyer on the trip was Miss June Shagaloff, the Association's special assistant for education.

Local Situation

"In no city where discussions were held with officers of NAACP branches and school officials was it found that segregated schools were not in operation," Mr. Carter reported.

"And in no place was it found, on the limited examination possible within the short period, that the peculiar local situations made the solution of the problem of desegregation impossible."

Cities Surveyed

Included in the survey were San Francisco, Berkeley, Oakland, Los Angeles, Pasadena, San Diego and surrounding cities in Southern Cali-

fornia; Portland, Oreg.; Seattle, Wash.; Phoenix, Ariz.; and Salt Lake City, Utah.

Mr. Carter and Miss Shagaloff presented a full memorandum to the California State Board of Education citing various methods used to achieve desegregation in other northern states and urging their use in California cities where applicable.

National Representatives

In conferences with officers of local units of the National Association for the Advancement of Colored People, the two national office representatives explained the NAACP program for desegregation of de facto Jim Crow schools in non-southern communities. The NAACP branches were asked to conduct intensive surveys of school practices and facilities in their respective cities.

They were further asked to present their findings to the local school boards and to make proposals for elimination of school segregation, discrimination against Negro teachers, and exclusion of Negro students from apprenticeship training.

Employment Bias: Two Firms Lose Contracts with U. S.

Washington—Two companies have been barred from receiving further Government contracts until they comply with the Federal policy of non-discrimination in employment.

Announcement of the ban on the two companies was made on April 16 by the President's Committee on Equal Employment Opportunity. It came 11 days after NAACP Labor Secretary Herbert Hill had charged that the Committee had been "ineffectual" in enforcing compliance with the non-discrimination provisions included in all government contracts.

First Action

In the first action of the kind taken, the Committee named the Danly Machine Specialists, Inc., of

Cicero, Ill., and the Comet Rice Mills, Inc., with plants at Houston, Beaumont and Bay City, Texas, Stuttgart, Ark., and New Orleans.

In the production department of the Comet plants, the highest paid job open to Negroes paid less than the lowest paid job assigned to white workers, an investigation by the Committee revealed. The company maintains two separate employment groups relegating all Negroes to unskilled jobs with no opportunity of promotion. Three different sets of restroom and other facilities are maintained by the company—one each for Negroes, Latin Americans and Anglo-Americans.

The Danly company was charged with discriminating against Negroes in hiring.

NEGRO WORKERS

SEE FRONT PAGE

ships are handed down by sponsors, often from father to son to grandson. Unemployed outsiders are not permitted. Because there are so few Negroes in skilled craft unions, there are obviously no sponsors for Negro would-be apprentices.

Cities Cited

Investigations have shown not one Negro in apprentice programs in Fort Wayne, Milwaukee, Minneapolis, Washington, Baltimore and Atlanta, among other cities. In Newark, N.J., only two of 3500 apprentices were Negroes. Fewer than one percent of Chicago's 2680 apprentices are Negroes. Detroit has not one Negro among 370 in an apprentice program conducted jointly by the Automotive Tool and Die Manufacturers Association and the United Auto Workers Union.

Federal

Federal and state agencies help to promulgate the discrimination by financial support of vocational training programs, now totaling more than 200 million dollars.

Federal officials estimate some five million craftsmen will be needed by 1970, says Velle. By barring Negroes from their fair share of these jobs we are not only practicing rank discrimination but are depriving the nation of a valuable potential source of skilled manpower.

END TO JOB BIAS PLEDGED

Detroit — Charles Williams, city treasurer, promised the NAACP here this week that there will be an end to job discrimination practices within his department. In a conference with the city official, Edward M. Turner and Arthur L. Johnson,

branch president and executive secretary, respectively, charged that Negro employees have been concentrated in four out of nine units in the city treasurer's offices.

Commits Suicide In Train Leap

Salina, Kansas—The Saline County coroner said that a man, Willis Talley, about 65, from Los Angeles, Calif., committed suicide Apr. 19, when he leaped from an eastbound Union Pacific passenger train, which passed the spot about 5 a.m.

His body was found by sheriff's officers. They had begun the search after members of the train crew discovered a broken window in a wash room and were unable to locate a passenger who had been acting strangely.

and was in critical condition. The deceased was given a 16-gun salute, according to NAACP field secretary Medgar Evers who is conducting the Association's on-the-scene investigation.

Meanwhile, Robert Saunders, the Association's Florida representative, succeeded in locating a Negro woman who had witnessed the bus incident while en route to her Tampa home.

Protests

Mr. Wilkins protested the killing to M. W. Walker, general manager of Trailways-Continental Southern Lines, and called for dismissal of the driver who summoned the Mississippi peace officer. Secretary Wilkins cited the ICC ruling and reminded Mr. Walker that the driver "was the agent of the Company in these circumstances."

Other panel members were Ed Sears, President of the Human Relations Council, Jay Hess Jr., Executive Director of United Good Neighbors, and James Caswell, Director of Urban Renewal Relocation in Des Moines.

Relocation

The Committees are beginning work on relocation plans, and are asking that Negroes displaced by Urban Renewal projects be provided equal choice, price, and opportunity in housing. Mr. Broadston has been named Chairman of the Mayor's Committee on Relocation and Minority Housing.

The Human Relations Council was formed last May in response to an invitation sent to organizations by the Cedar Rapids NAACP and the Friends' Meeting.—By Mrs. Russell Nash, NAACP Publicity Committee

UNDERSTANDING
IOWA CHILDREN
SPONSORED BY THE IOWA
CHILD WELFARE RESEARCH STATION

Written by May P. Youtz, SUI Associate Professor

ARE YOU EXPECTING
TOO MUCH OF YOUR CHILD?

A school teacher wrote not long
ago saying she was puzzled about
herself, not as a teacher, but as a
parent. She taught second grade
and was considered a good teacher.
She had lots of patience, was pleas-
ant and effective. But when she
got home to her own two little girls,
ages 7 and 9, she found herself im-
patient, demanding, and snappy.
Why?

Not Realistic

It isn't realistic to try to help
this teacher find the answer to her
"Why?" without knowing a great
deal about her and her children.
But her problem does bring up a
question that many parents have
asked about themselves. Is it true
that parents generally have more pa-
tience with other children than with
their own? If so, why?

Impatient

If you seem to be an impatient
parent, you might be wise to ask
yourself whether you expect more
of your children than you do of
other people's. Many of us do this
partly because we want our off-
spring to reflect honor and glory to
us. We want people to note how
well behaved they are, how clean
and how smart they are, because
this is a way of saying what good
parents these children must have.
And when our children misbehave,
we get upset because this leaves us

open to criticism.
We may expect more of our chil-
dren than we do of other children
because we simply expect everything
of ours to be bigger and better than
anyone else's. We may have such
expectations for ourselves and try
desperately to live up to them. Or
we may be expecting more of our
children because we simply don't
know what is reasonable to expect
of a 9-year-old or a 7-year-old.

Disabled Workers and Families Can Get Funds From Social Security

If your wages had stopped and your family needed money, would you disregard a source of income that might be "yours for the asking"? This may sound like a ridiculous question, but that is exactly what many families are doing, according to Leo W. Smith, Manager of the Des Moines Social Security District Office.

No Application
Many disabled workers and their families are not receiving social security disability benefit payments because an application has not been filed by the disabled worker or by someone on his behalf. If you are totally disabled and have worked under social security for at least five years of the ten-year period ending when you were disabled, you should

Alabama County Attorney Begins to See the Light

Talladega, Ala.—At least one prosecuting attorney in Alabama sees the handwriting on the wall so far as segregation at the lunch counters is concerned. He is City Counsel Byron Boyett of Talladega.

Eighteen students and a professor at Talladega College were being tried for sitting in at downtown drugstores. Their attorney argued that a case decided last December by the U.S. Supreme Court barred prosecution for trespass.

Similar Case
Boyett noted that a similar case was recently decided in favor of the store owner by the Alabama Supreme Court. He said: "It may not be the law tomorrow and it may not be the law next year, but it's the law in Alabama today."

Whereupon Judge Joseph Ganey fined the students and Dr. Everett MacNair \$100 and costs. They were freed on bond pending appeal of their cases to the higher courts.

Whites
Dr. MacNair is dean of the chapel and professor of religion at the college. He and one of the students involved are white. The student is Miss Carol Bross, daughter of Dr. John R. Bross, secretary of the Southern Conference Educational Fund, New Orleans.

apply for benefits, Smith said.

If Approved
If a disabled worker's claim is approved, his wife and dependent children under 18 may also get checks. A disabled son or daughter over 18 may be eligible for benefits on his or her parent's account if his or her disability began before age 18, and is so severe that he or she is unable to do a substantial job for pay.

Time
Workers with disabilities which began before 1961 have only until June 30, 1962 to apply for disability benefits. Workers who have been disabled for several years and who do not make their application for benefits before June 30, 1962 may lose all rights to present and future benefits for themselves and their families.

Smith urges all people in this area who feel that they might qualify to contact his office located at 205 12th street, Des Moines, Iowa.

While the trial was in progress, 200 students from the college tried to march into the downtown area in protest. They were turned back by city and state police equipped with tear gas, fire hoses, and clubs.

Leaders of the student movement said there will be more action to break down segregation, including selective buying at stores. They work closely with the Student Nonviolent Coordinating Committee, Atlanta.

Democrats Hail Fla. Victory 1st Negro to Win Post in State

Washington, D.C.—Attorney F. Malcolm Cunningham, Democratic leader, was elected to the City Council of Riviera Beach, Florida last week and became the first Negro to win such a post in the state in this century.

The victory was hailed by the Negro Democrats of Florida as the beginning of an upsurge of political power which is being stimulated by intensive registration campaigns.

Public Offices
Henry Arrington, Democratic Party leader in Miami, stated that "Negro Democrats are winning public offices in North Carolina, Georgia, Alabama and Tennessee, but Florida will set the pace for all the South before long."

Cunningham defeated the incumbent John A. Flaherty in a tight contest, winning by a margin of fifty-four votes.

Inspiration

The victory of Cunningham is expected to inspire greater registration efforts in many areas where Negroes have new opportunities to win political recognition and power. Over five thousand new registrants were reported in Dade County (Miami) in the past month.

Shirley Allen, Harry Southers Participate

In Speech, Play Contests Sponsored by W.C.T.U.

By Frances E. Hawthorne

Two very deserving youngsters received high praise from their supervisors when they participated in contests sponsored by the Polk County Women's Christian Temperance Union Monday night at Trinity Methodist church.

They are Shirley Allen, daughter of Mrs. Betty Frazier of 1061 9th street and Harry Southers, son of Mr. and Mrs. Jerome Southers, of 1051 12th street.

Shirley, 13, had won first place for her flawless presentation of her speech in the preliminaries and in the finals Monday, won a prize, a lovely scarf. Harry, 12, had participated in a play and had also won in the preliminaries and took a prize Monday, and was presented a white figured cross. While the judges were out Shirley also played the piano.

Their supervisor, Mrs. Rosa L. Wilson, 844 15th street, had high praise for the two youngsters. "They should have won first place; they were that good."

Mrs. Wilson pointed out that the

two deserved encouragement and praise because of what they had done to participate in the contest.

"It is a very busy time now for the youngsters. They are busy with school and it was Easter vacation, and they had to practice and then participate. Many would not have taken the time. I believe they deserve all the credit anyone can give them," she said.

At the finals Monday night Shirley's mother was present to give her moral support. Both of Harry's parents work at night and were unable to attend but three of his sisters sat proudly in the audience. It was less than two weeks ago that an older brother had competed and won in the local oratorical contest sponsored by Elks.

Both youngsters attend Washington Irving junior high school and are active members of Corinthian Baptist church. Mrs. Wilson is a member of Frances Ellen Harper union of W.C.T.U., and a group leader for children in the County W.C.T.U.

Miss Davis then showed the kitchen display and talked briefly on controlled heat, demonstrating some food and candy.

During a social hour the members enjoyed a repast, provided by the social committee of the club, which was arranged attractively from a tray, arranged like a nest, with a large chocolate rabbit in the center and surrounded by decorated cakes.

Guests

Jam Streusel Coffee Cake—serve it warm with butter or margarine some morning soon.

Send your youngsters off to school with a good, nourishing breakfast that stars Jam Streusel Coffee Cake. This breakfast treat is simple to make, but the jam and streusel topping gives it an elegant touch. A coffee cake such as this is not only a morning favorite. You can serve it with afternoon tea or as a dessert as well.

What puts this coffee cake in the good nourishment class? The enriched flour with which you make it. Enrichment adds three B-vitamins and food iron.

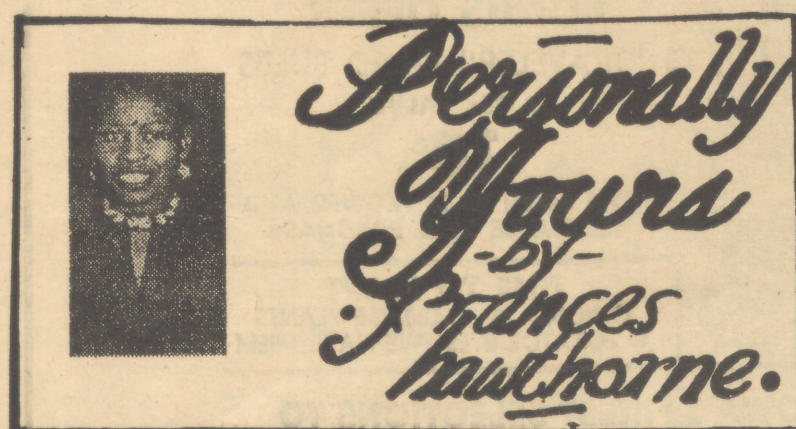

Serve a different enriched breakfast bread every day of the week. You can make every breakfast you serve an event when you spark them with tempting rolls, variety breads and coffee cakes chosen from your favorite bakery.

JAM STREUSEL COFFEE CAKE

1 1/2 cups sifted enriched flour 1 egg, beaten
2 teaspoons baking powder 1/2 cup milk
1/2 teaspoon salt 3 tablespoons melted shortening
1/2 cup sugar Streusel

Sift together flour, baking powder, salt and sugar. Combine egg, milk and shortening. Add to flour mixture, stirring until smooth. Pour into greased 8-inch square pan. Sprinkle Streusel over batter to form squares. Fill squares with jam and bake in moderately hot oven (400° F.) 25 minutes.

2 tablespoons butter or margarine 1/4 cup sugar
Combine butter or margarine, sugar and flour. Mix until crumbly. Makes 1 coffee cake.

Iowans basked, almost sweltered in the balmiest Easter Sunday in many 'light' years. Churches were jammed as many pastors extended greetings to their audiences, and thanks to the benign weatherman, Americans were able to show off annual Easter outfits to their best advantage, sans raincoats, umbrellas and overcoats.

While our sons were at a local barbershop last Thursday morning getting their Easter haircuts, we dropped in on the Mother's Coffee hour at Willkie House for a brief visit, where more than a half dozen mothers were busy trying out knitting instructions, given ably by Mrs. Harold (Inez) Morrow.

Indicative of Mrs. Morrow's skill in the "knit and purl" profession was a pastel green baby's sweater with matching booties, that could be displayed along similar commercial outfits and pass with flying colors without blemishes.

We listened as Mrs. Morrow explained what could be achieved with various size needles and matching knitting yarn to the size of needles used. She also demonstrated what could happen if larger needles are

used than the directions call for. People bemoan the fact that things aren't like they used to be, and in a sense, the same slogan goes for people. However, there are occasions when the slogan is the exact opposite. For instance, you will find a person who once he or she gives her word, will stick to it no matter what, barring emergencies.

A good example of this is Mrs. Frances Brent of 1109 8th street, who is one of the more than 50 women employees at the Des Moines postoffice. We ran into her downtown last Saturday and asked her would she consider doing some block solicitation for the Blank Memorial Guild. However, when we called her Monday to confirm the area in which she would work, it turned out she had not understood that she would be in a different area, but because she had given her word to help, she held to her promise because she had "given her word."

We had a good laugh with Mrs. Lena Mae Henderson of 912 E. 14th street, when she called in to report that the Henderson singing group would appear in a recital Sunday. When we asked Mrs. Henderson

EDITORIALS + FEATURES SPORTS

REPUBLICANS MUST TAKE THE OFFENSIVE

Iowa voters will find little choice in the spring primaries since, in a great many instances, but one candidate will appear on the ballot for each of the major parties. Somehow, public office must be made more desirable in order to attract more candidates in the primaries and thus a more thorough discussion of the issues.

However, in the fifth congressional district, there is no lack of candidates for the Republican nomination. Congressional seats are more desirable and in view of the fact that the incumbent, Neal Smith, has carried two elections, Republicans must name a candidate who is formidable and fully capable of swapping punches with him all the way.

Al Cloud, one of the candidates, has come out swinging, launching a vigorous attack upon Smith's record rather than engage in personal scraps among Republicans.

This is a smart move on Cloud's part. He has had experience in the office of an Iowa congressman in Washington and knows his way around as to what must be done to get nominated and elected. He operates his own business and knows what business is up against in order to survive. He rings true on the civil rights question—a position no candidate can duck successfully. He is a fighter, is courageous, and that's what Republicans need to regain control of Congress this fall.

LABOR MUST HELP ITS WEAKER GROUP

In the North, Negroes have made great headway in the campaign for civil rights, while the opportunity to make a decent living has slipped miserably to the point where it has become the most persistent enemy.

This becomes more glaring every day for with the advance of the machine age and automation, the common labor jobs get less and less and thus this type of work goes to the white worker who has not qualified himself for the skilled trades.

Writing in the Readers Digest for May, Lester Velle covers the problem well in his article, "Race Discrimination With a Union Label."

He says "Of all the battlegrounds on which the Negro fights for equality, the unions, which control his daily bread, frustrate him most."

Again he reminds that "Union constitutions proclaim liberty, equality and fraternity. Union lobbyists battle for civil-rights laws. But most unions in the building trades—the electricians, plumbers, sheet-metal workers and others—exclude Negroes. So do the printers and engravers, and many locals of the machinists." (This is not correct as to the printers union in Des Moines—editor).

Velle puts his finger on the real problem when he states that the inability of Negroes to secure apprenticeship training prevents them from becoming journeymen; that the apprentice committees, made up of labor unions and management, control who shall get an opportunity and thus Negroes are left out.

Citing some glaring instances, he states that in Chicago where Negroes constitute 25% of the population, out of a total of 2680 apprentices less than one per cent are Negroes; Newark, N.J. 2 out of 3500, with other towns with large Negro population indicating about the same proportion. And this in spite of the fact that the public schools and the U.S. Apprenticeship Service work with the committee in making the selections.

This is a problem in which public officials must take a hand. And to appoint a few Negro leaders to a big job here and there is no solution. It's more desirable to help solve this dilemma than place Negroes on relief rolls far out of proportion to their population.

Negroes have voted with and supported labor for years arguing that what is good for labor is good for the Negro. But instead, labor has used the Negro to help gain the power to say who shall work, and when work is available uses that power—and in some cases with the aid of management—to keep him unemployed.

Of course, Negro leaders themselves must do something tangible to help out. And this includes the minister, the doctor, lawyer or business man who, in many instances, can't make money unless Negroes do.

Twin Honors to Chicago Prep Star

Chicago—A Chicago high school star whose brilliant play in tournaments this season won him a scholarship to UCLA, last week was named Player of the Year and win-

By the time you have read this the Drake Relays will be under way with probably the greatest display of Negro school track talent ever seen, around here. Our local interest will be centered on the doings of the Taylor boys from Tech high who are running for Northeast Missouri at Kirksville. They really cleaned up at the State college relays last weekend and Bill Taylor is keeping his fingers crossed and hoping his boys can beat Southern Texas.

Texas Southern

It is a pretty well established fact that whoever wins the college races will set a record and Mr. Taylor would sure like to be in the stands and watch his boys do it.

Just about everyone who is interested in relays and some who are not knows what Texas Southern did at Kansas last week and there ought to be a big crowd to see what they do here.

Rounds of Hotels

We can recall when the late Everett Wadsworth and yours truly used to make the rounds of hotels on Saturday morning and talk with all of the Negro athletes. That always made for a good story. But, now if we tried that it would take a week to get around to all of them. There are so many now that one doesn't get a chance to talk to all of them at the Relays when we are down on the track.

We aren't making any guesses as to how things will turn out but we expect to see you there.

Boxing

We watched Joe Brown drop his world's lightweight boxing crown to a man 10 years his junior. We thought that at last those 35 years had caught up with Brown. His younger opponent never gave the veteran a chance to set any traps or do much of anything but try to get away from that constant left jab. It wasn't a good job, no snap wasn't even delivered properly but it was always there and Brown never got by the thing all night. A return bout would be just about like this one.

Soap Box Derby Clinic Date Changed

The fifth instructional clinic for Soap Box Derby boys has been postponed from April 28 until May 12 so as to avoid conflict with the Drake Relays.

Jim Calvert, winner of the 1961 Des Moines Soap Box Derby, will participate in the Drake Relays parade. He and his winning car will be featured on a Soap Box Derby float in the parade.

To date there are 85 boys registered for the 1962 Derby which is to be held July 4. Registration continues at the three Des Moines Chevrolet dealers, for boys between 11 and 15, and residents of Polk County.

HEALTH FOR ALL

Out of Breath?

Do you know someone who wheezes and puffs?

He may have a chest sickness that makes it hard for him to breathe out.

Normally, our lungs hold about two quarts of air. Each time we breathe, we let out a pint and take a new pint in. The air that remains is later exchanged for fresh air. But always—no matter how hard we blow—at least a quart remains.

Older People

If a person wheezes and puffs, it may be because too much air remains in his lungs and he can't get his breath out. This is a sickness called emphysema.

It is common among older people. Especially those who have had tuberculosis or chronic bronchitis. Glass blowers and trumpet players who have overworked their breathing muscles are also particularly susceptible.

Emphysema is serious and uncomfortable. But it can be arrested.

the end of the 1959-60 season.

Landslide Vote

Russell was selected by the Chicago Prep Writers association, in a landslide vote after leading Carver to the Chicago Public League title, runner-up in the state tournament, and to the city championship two weeks ago.

A great all-arounder, Russell is a deadly shooter, great rebounder and out-standing defensive artist. He also has a fine jump shot that is almost impossible to stop.

In some respects, Russell moves like Oscar Robertson, the Cincinnati Royals famed "Big O", particularly as a playmaker.

Russell led Carver to a 32-5 record this year.

Sugar Ray Signs

For Paris Bout

Ignores Moyer Loss

Paris, France—Despite his recent loss to Danny Moyer of Portland and widespread appeal that he quit the ring, retirement seems to be furthest from the mind of Sugar Ray Robinson.

The Sugar Man, ending speculations that he was secretly bowing out of the fight game, last week was reported to have signed for a 10-round bout in Paris June 6 against one Hippolyte Annex, a 29-year-old nondescript middleweight.

The signing was reported by Paris Promoter Charley Michaelis. According to the report, the fight is to be staged outdoors in the Parc des Princes Stadium. Terms of the agreement were not announced.

Loses Out On Downes Deal
Robinson reportedly had another deal going, but that one well through April 7. Britisher Terry Downes, who was dethroned by Paul Pender in Boston Saturday night, was planning to fight in London before taking on NBA middleweight titlist Gene Fullmer.

Widow Awarded \$76,000

New York—A Bronx widow has been awarded a \$75,000 verdict against the City of New York growing out of the death of her husband who was killed in an auto crash on Christmas morning, 1957, when a city ambulance struck his auto. The verdict was handed down by an all-white jury last week in Bronx Supreme Court before Acting Court Justice Darwin W. Telesford in favor of Mrs. Marie Hayes and her 7-year-old child.

Doctors

Doctors can help people live with it for a long time. They use different treatments, including some of the "wonder drugs." Trained physiotherapists can often teach elderly emphysema patients who have had trouble moving around to walk about—even down the street. The physiotherapist gives them breathing exercises.

Men who have emphysema in the early stages should stop smoking. They should also change jobs if they work in dusty or smoky places. Active workers who lift and strain will probably have to do something less taxing physically.

If you have a chronic cough or are short of breath, don't blame it on cigarettes and forget about it. Your lungs may slowly be filling with too much air. See your doctor. Early attention can keep emphysema from becoming a cripple.

TO TALK HEALTH, HAPPINESS AND PROSPERITY to every person you meet.

TO MAKE ALL YOUR FRIENDS FEEL that there is something in them.

TO LOOK AT THE FUNNY SIDE OF EVERYTHING and make your optimism come true.

TO THINK ONLY OF THE BEST, TO WORK ONLY FOR THE BEST, and expect the best.

TO BE JUST AS ENTHUSIASTIC about the success of others as you are about your own.

TO FORGET THE MISTAKES OF

THE PAST and press on for greater achievements of the future. TO WEAR A CHEERFUL COUNTER-ENANCE at all times and give every living creature you meet a smile.

TO GIVE SO MUCH TIME to the improvement of yourself that you have no time to criticize others.

TO BE TOO LARGE FOR WORRY TOO NOBLE FOR ANGER, TOO STRONG FOR FEAR, and TOO HAPPY to permit the presence of trouble.

—From the scrapbooks of Geo. A. Gibbs

Thoughts for Today

The state university is many things to many people. To some, of course,

special training for a job is the all-important objective—very often just a better paid and more interesting job than any to which they could attain with low-cost college education or professional training. But others see the university in terms of its research and public services—better farming through agriculture research—better health through better trained doctors—larger payrolls and profits through industrial and business research. These purposes and scores more—the university is expected to serve.—J. L. Morrill

"Perfect freedom is reserved for the man who lives by his own work and in that work does what he wants to do." —R. G. Collingwood
