Mrs. Bayles Tells Highlights Of Delta Sponsored Tour Of African Nations, Europe

By Frances E. Hawthorne

"It was the trip of a lifetime," enthused Mrs. Clara Bayles, referring to her recent completed tour of Africa and Europe on a trip sponsored by Delta Sigma Theta sorority of which she is a member.

Mrs. Bayles toured Africa and four European countries with 44 women and three men between July 26 and Aug. 27, visiting Senegal, Liberia, Ghana, Nigerian Sudan, Kenya, Ethiopia and Egypt and Greece, Italy, France and England.

Beautiful

"The country is so beautiful," she said of Africa. "Many of them have a lot in common but each one is different. Cairo is the biggest with its teeming population. And Nairobi is as pretty and clean as any city in the United States."

"The tour, also educational and goodwill tour, was endorsed by the U. S. State Department, but each of us paid our own expenses. The embassies of each country were alerted, we had contact with our own government all the way, and many of the ambassadors received us with receptions, cocktail parties and other courtesies."

Kenya

"In Kenya I had my biggest thrill

where we met Kenyatta and his daughter, Margaret. The Deltas, headed by our president, Dr. Jean Noble of New York City, took with us a \$5,000 check for the establishment of a maternity wing to Reruta clinic in Nairobi. Kenyatta signed autographs and spoke to us, and asked us to sing a Negro spiritual.

"Another thrill for me came when I saw the Pope in Rome. He was

Here is an opportunity for Des Moines residents to see an outstanding movie and especially such outstanding stars as Sidney Poitier and Eartha Kitt, well known to moviegoers everywhere.

The movie will appear at the Brotherhood center (see ad on page two) and is the first showing in the

New York — The appointment of Randolph Risley Dent, Jr., as Brooklyn director of the Rent and Rehabilitation Administration was announced. He will supervise the borough's 545,000 rent-controlled housing units, receiving a salary of \$13,000.

Humphrey, Ark. — An 84-year-old white woman died beneath the wheels of a 104-car freight train last week despite the efforts of a young Negro man to save her. The would-be hero was Clodis McCullen, 24.

Gaiveston, Tex. — Policeman John Sanderson, former Southern university All-American football star, was suspended indefinitely from the police force here when he failed to investigate a burglary as ordered and was found "dead asleep" in his parked patrol car by a fellow officer.

New York — The wife of former middleweight champion Sugar Ray Robinson has apparently taken over where her husband left off as a knockout puncher. Mrs. Edna Mae Robinson, the flamboyant ex-champion's estranged wife, floored a shapely blonde with a well-timed right uppercut to the jaw after the latter made an insulting remark about her as Mrs. Robinson was kissing her husband goodbye here last week.

San Juan, P.R.—Rep. Adam Clayton Powell, Jr., flew here from Spain Sept. 6 to join his wife and their infant son in their \$70,000 San Juan cottage.

Miami—The University of Miami produced its first two Negro graduates last week, one of whom had been studying for a degree for 12 years. Sandy Hughes, Mrs. Curry's first name was incorrectly stated in last week's paper.

Cleveland, Ohio—A Cleveland probate judge who has refused to approve the adoption of a white child by a mixed couple was overruled here last week.

JFK Signs Bill Making Douglass Home A Shrine

Washington — President Kennedy signed legislation making the home of Frederick Douglass, once a slave, a part of the park system in the National Capital last week.

The Douglass home is in the Anacostia section of southwest Washington.

In signing the bill, President Kennedy called Douglass "an outstanding leader of the movement for the abolition of slavery and a champion of the oppressed."

Among those witnessing the signing in the President's office were a great grandson of Douglass, Dr. Joseph K. Douglass; members of the National Association of Women's Clubs, and a delegation from Congress.

Files Job Complaints of Racial Discrimination in Hiring, Promotion Policies

Washington — The NAACP this week filed complaints of racial discrimination against five major industrial firms, two AFL-CIO trade unions and two U.S. Army installations. All the alleged offenders, except two, are located in deep south states.

The NAACP complaints were filed with the President's Committee on Equal Employment Opportunity by Herbert Hill, the Association's labor secretary. Mr. Hill has filed 500 complaints with this agency. This week's complaints were gathered by NAACP field staff who, in some instances, risked their lives to secure the necessary data.

Firms Cited

The industrial firms cited hold several million dollars in Federal Government contracts. They are: the General Motors Corp., Chevrolet Division, Kansas City, Mo.; Ingalls Shipyard Co., Pascagoula, Miss. Also the International Paper Co., Moss Point, Miss.; Hercules Powder Co., Magna, Utah; and the BVD Co., also of Pascagoula, Miss.

The Mississippi complaints were gathered by Edgar Evers, NAACP field secretary in that state. Unions cited in the NAACP complaints are the Brotherhood of Pulp Sulphite and Paper Mill Workers of America and the Metal Trades Department of the AFL-CIO.

Charges

The Association charged that the Ingalls Shipyard and the Metal Trades unit of the AFL-CIO, conspired to limit all Negro employees to menial and unskilled jobs by:

Including separate racial seniority lines in union contracts,

Refusing to admit Negroes into apprenticeship training programs,

Violating the seniority rights of Negro workers, and

Maintaining a rigid pattern of racial segregation within shipyards.

Hill, in his complaint against the

Armed Guards

Turnpseed was escorted out of the yard by armed guards, after he protested exclusion of Negroes from the apprenticeship program.

The complaint against the International Paper Company and the Pulp Sulphite Workers, charged that all Negroes are limited to unskilled jobs under separate racial seniority lines in the union contract, wage differentials and segregated locals.

Army Bases Cited

The BVD charge cited collusion between the firm and the U.S. Employment Service in Mississippi. This has been achieved by racially designating persons on job referrals.

The two army bases cited are Fort Jackson, S.C. and Presidio, San Francisco, Calif. The NAACP complaints alleged that Negro civilian workers were subjected to harassment and reprisals by white military and civilian supervisors after they filed complaints with the President's Committee.

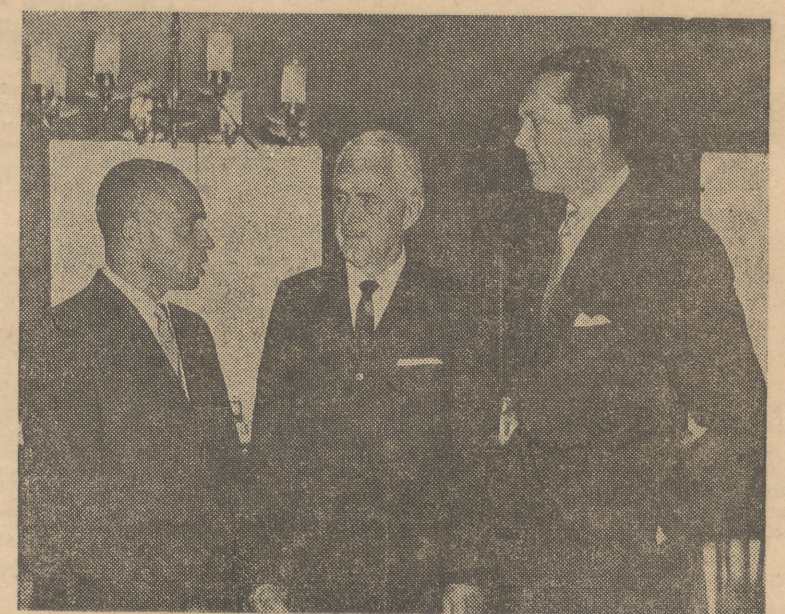

Negro Pupils Outnumber Whites In Philadelphia

Philadelphia—Over half of Philadelphia's school children are colored, according to a study made by the city board of education.

The report said that last June, that 120,782 of the city's 238,744 pupils—or 51 per cent—were colored.

If the pattern of a 2 per cent per year increase continues, colored pupils will comprise 53 per cent this year. In 1960, however, only 26.4 per cent of Philadelphia's population was colored.

to Rome, Dr. Jackson said it was the first time the Roman Catholic church had extended such an invitation to non-Catholic observers.

Basic Step

"We accepted because we believe that Christian fellowship is the basic step today toward world brotherhood and universal peace," he added.

Dr. Jackson said he had been invited to the Vatican council personally by Pope John XXIII when he visited the pontiff while returning from the New Delhi assembly of the World Council of Churches last

December.

Also on Saturday the convention sent a telegram to Moscow asking about 500,000 Baptists in Russia to join the American Baptists in prayer for the termination of tensions and threats to peace. It was addressed to Jacob Zhidkov, head of the Baptist Union of Russia.

Iowa Registers Rise In Beer Consumption

New York—Consumption of beer and ale by Iowa citizens increased last year over 1960 levels, it was reported in the Centennial edition of the Brews Almanac, the annual fact book of the brewing industry published by the United States Brewers Association and just released here.

The 1961 consumption reached 1,296,425 barrels last year, whereas Iowans consumed 1,295,265 barrels in 1960. The state's per capita consumption is 14.5 gallons, very near the national average of 15.0 gallons per person.

Countrywide, 1961 was the biggest year in sales and production in the history of the American brewing industry, and thus it fittingly marked the 100th anniversary of the United States Brewers Association. The Association, oldest incorporated trade organization in the nation was founded Aug. 22, 1862.

Sales in 1961, as represented by tax-paid withdrawals of malt beverages, reached an all-time high of over 89,000,000 barrels of 31 gallons each, a 1.3 per cent increase above 1960.

Claybrooks from Calif. To Visit in Des Moines

Rev. and Mrs. H. C. Claybrook, of Berkeley, Calif., will arrive in Des Moines on Oct. 6 where they will be house guests of their brother, and sister-in-law, Mr. and Mrs. James A. Claybrook, 223 E. 13th street. Rev. Claybrook and Mr. J. Claybrook are twin brothers.

HEALTH FOR ALL

TB Can Be A Family Affair

Father, mother and five children all ill with active tuberculosis. Surely that belongs in the last century. It ought to, but it happens today—too often. Take the Miller family. That isn't their right name, of course. Father, mother and their five children aged two to ten, had moved around a lot. Mr. Miller had a small army disability pension and no job. The family of seven finally settled in a shack outside the city. They got their water from an old pump in the abandoned schoolhouse across the road. Heat and cooking depended on an old coal stove. Coal was picked up by hand around the mine strips.

Nothing Done

The family did not call doctors for ordinary illness, not even for the birth of the children. So nothing was done about Mrs. Miller's loss of weight and growing weakness. Even when she began to spit up blood, nothing was done. But as the hemorrhages grew worse and more frequent, her husband finally took her to see the county health commis-

sioner.

Whole Family

The county health department went into action. The whole family was tested and x-rayed. The whole family had active TB. All are now in a TB hospital.

Tuberculosis still rages in families of low income, with substandard housing, with no doctor, and no knowledge of the public health services that are available to them.

Untended Bouts

Overcrowding, malnutrition, untended bouts of other illness, all contribute to breakdown with active tuberculosis. Though the fight against TB is gaining ground, the battle is far from won while there are cases like the Millers.

Though TB is most common under poor living conditions, it can strike anybody. To be on the safe side, everyone should get an annual tuberculin test and a chest X-ray if the reaction is positive.

THE GREATEST MISSION PICTURE OF OUR TIME!

MARK OF THE HAWK
85 minutes—L. D. A-1
In Technicolor

With Sidney Poitier, Juano Hernandez, John McIntire and Eartha Kitt

Here is one of the finest films ever produced for church as well as all non-theatrical showings. Highly acclaimed in leading church publications as a "must show" film. Filmed in Technicolor on actual location in Africa. The gripping story of faith clashing with fantastic witchcraft in modern Africa. A pastor's insistence on peace, and peaceful means to gain equality for his people, wins out in this dramatic adventure.

SUGGESTED USES:

All church programs emphasizing the work and needs of foreign missions. Motivating increased efforts in stewardship. Recruiting workers for full-time Christian service. Fostering a deeper understanding of the work of the church.

Excerpts from a sermon

Ours is the task of proclaiming far and wide to all men everywhere, the glorious news of their redemption—through the life and death of Jesus Christ our Lord! ... How much are we doing to fulfill the Savior's purpose here on earth? How much are we giving of our time, our talents, our possessions, of ourselves, in order that the unfinished task which he has placed before us may be carried forward? ... If only, like Him, we would hear that inner voice at the dawn of each new day, which says: "I must work the works of Him that sent Me." For He is saying to-you and me today, "As my Father hath sent Me, even so Send I you."

It is interesting to know that people in New York as well as those in California read "The Iowa Bystander." A line from Mrs. Cleo Lavelle in New York assures me of this. She has just returned from Los Angeles where she visited her brother and many friends from the home state.

Vote Workers Harassed By Louisiana Law Officials

Monroe, La.—Negroes working for increased voter registration were exposed to another Louisiana tactic this week—arrest on charge of "vagrancy."

Miss Sarah McCoy, a young worker with the NAACP's local branch was arrested here this week on such a charge after she defied a demand by local officials that she stay away from the registration place.

She was among NAACP workers escorting Negroes to the courthouse to register. Miss McCoy was warned the day before her arrest, "not to come back anymore."

When she did come back the next day with more Negroes seeking to

register, she was arrested. John M. Brooks, director of the Association's entire voter registration drive was threatened with arrest "for loitering."

When Brooks countered with strong argument, the officials turned on Miss McCoy. She was released on \$250.00 bond and is being represented by James Sharp, Jr., local NAACP attorney.

Meanwhile, Brooks told registration officials that he would be back with more Negroes seeking their right to vote.

Brooks, and an assistant John Edwards, are in this state directing a series of registration drives.

★ ★ ★ ★ ★ FORTY YEARS AS EDITOR

In November, I will have been editor and publisher of the Bystander for forty years. That's a long time and I often wonder how I have been able to continue so long.

In that time I've been interested in raising the level of the Negro in Iowa. Certainly, forty years ago it was not at a high level.

But during that time, I have been in the midst of the many changes which have come to pass much because the Bystander has stood solidly for those changes. For instance, forty years ago only one Negro woman was employed in an office either public or private. In fact, for years practically every Negro girl started her career at the Bystander office. No longer is this necessary.

It just occurred to me, and I have decided to publish my 40th anniversary edition on November 8 which will include sponsors in a two page ad. Clubs, lodges and churches will not be solicited to participate as most of them do a pretty good job in other areas. However they will not be excluded. On the other hand individuals will be asked to participate.

Many an individual has remarked what a fine job the Bystander has done. Here is an opportunity to repeat that by participating in this my 40th anniversary—call the office AT-8-1904 for details.

Trees and shrubbery are beginning to display a distinct change of color altho it yet but a token of the glorious mantle they will later splash across the Indian summer scene. . . . Football patter and scores begin to sprinkle through the atmosphere and the great clash between the greats of baseball draws nigh. . . . And more and more brief, insignificant stories of snow falls in the northern and mountain states take up room in the newspapers. . . . Soon, we too, shall be closeted in the warmth of our homes sitting before a cheerful hearth aglow with burning logs. . . . The time of another seasonal change is near at hand.

For those who have taken vacations or taken in all the pleasures of the out-of-doors during the fleeting summer months, they will have memories by which to warm themselves during the long winter siege.

Undoubtedly the most traveled young lady in the city this year is Peggy Spates, who entered her first year of junior high at Washington Irving at school's opening. Peggy first went to Los Angeles, Calif., with her mother, then boarded a train by herself and made another trip to Wichita Falls, Tex., where she joined her grandmother and cousins, for a trip to the Seattle World's Fair. Yes, it is true that she has much to talk about and remember.

Parents of young children know what it is to overhear some conversation of the younger set. Recently our youngsters were discussing their classes and teachers at their new school, Moulton school. Finally, one of the boys spoke up and told our oldest daughter, "Too bad you don't have physical ed." "Who's he?" she countered.

REP. POWELL A BAD EXAMPLE

When men are placed in positions of importance (out in front) they are bound to be shot at for their mistakes. That's why Congressman Powell of New York is being shot at and it's ridiculous to raise the race issue to cover up his mistakes.

When Congress convened in 1961, Rep. Powell was the ranking member of the committee on Health, Education and Welfare. There was opposition, of course, and there was talk of changing the method of selecting chairmen of committees. But the late Speaker Sam Rayburn said "things will go on as before" and Powell became chairman.

Rep. Powell is an educated man and a minister. He should know how to act with decorum and in accordance with the rules governing his position.

But on the contrary, he has been a disgrace to his race, a fraud upon his constituents in Harlem and a public official no sane person should emulate. Many a congressman would be called to task for the antics he has performed but official courtesy and the possibility of being charged with race baiting have held it up.

As a glorified minister of a large congregation in his district, Rep. Powell is a hard man to beat. But the Negroes and professional politicians of his district in Harlem do the race a disservice for sending to Congress a representative who misrepresents them and makes them like it.

In the meantime Negroes must not be sucked in to raise the race question to aid an unworthy person or cause without good cause.

DANGEROUS POLITICAL DEMAGOGS

Gov. Ross Barnett of Mississippi (he is the man whom Jackie Robinson criticized President Kennedy for associating with) came to Iowa last summer and in typical segregationist fashion extolled his belief in constitutional government. Evidentially he made quite an impression on Iowans for George Mills, writing in the Des Moines Register, reported that Gov. Elbe said he had not received one letter of protest against turning the Mississippi flags, which Iowa soldiers captured during the Civil War, over to Gov. Barnett.

Well, many a one, including the Bystander did not like it. Undoubtedly the men who captured them did not. But, somehow too many people felt that the Civil War was over and if the return of the flags would help, what's the use? Thus Iowa had treated Mississippi pretty good.

Soon after the Governor's return home his state showed how it felt about constitutional government when three Coe (Iowa) College students were arrested simply because the group was interracial, held incommunicado for 28 hours and released without charges being filed. Later another group was arrested and met the same fate.

Following a year long legal battle, Justice Hugo Black has ordered the admission of James Meredith to the University of Mississippi. The governor is furious. He vows that there will be no integrated schools in Mississippi. He exhorts all officials to obey the mandate of the supreme court.

This is a serious challenge to constitutional government. It means that the Kennedy administration must carry out the law of the land or allow a bombastic politician to defy the government and get away with it. Here law and order meet a test which must win.

If Gov. Barnett can get away with his defiance of constitutional government, it will be an invitation for others to do likewise. It will make a farce of the constitution and weaken the position of America before world opinion.

No, the Civil War will never be over for men like Gov. Barnett.

Action Against Howard Johnson's Resumes

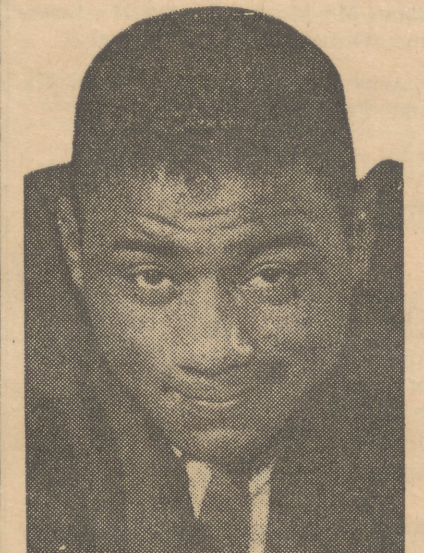

Raleigh, N.C. — Full-scale nonviolent action to desegregate Howard Johnson restaurants in North Carolina has been resumed by CORE following management's refusal to discuss the issue with a panel of leading citizens appointed by Governor Terry Sanford. Eleven of the twenty Howard Johnson restaurants in the state still refuse to serve Negroes.

Patterson or Liston. Tuesday?

Heavyweight Battle Expected to Draw Biggest Gate in History

One of the highly touted and biggest drawing gate heavyweight boxing matches will take place in Chicago, Ill., on Tuesday evening, Sept. 25. The protagonists are defending champion Floyd Patterson and erstwhile challenger Sonny Liston.

Pre-bout windiness has proved almost as strong as the proverbial nickname for the scene of the bout. Pre-fight bettors have given Liston a more than slight edge. Along with Liston, few fans give Patterson a chance. Conforming to previous 'verbal' form, Patterson has continued to train and said little.

PATTERSON

The two fighters are quoted in an article in the October issue of Esquire as saying:

Liston

Liston: "I jab to hurt. That's all. I don't believe in waiting until I get into trouble. I fight to keep out of trouble and I fight to get out of trouble. I fight my own fight. I always fight my own fight. It doesn't matter to me what the crowd is like whether they're for me or not for me. I don't pay attention to the crowd. I just go in and fight my fight. It doesn't matter who I ever fought. I felt he made just one mistake. I felt his only mistake was getting in the ring with me. The worst person in the world to fight is a scary person."

Patterson

Patterson: "No one knows me like I know myself . . . and with me my mental outlook for a fight is the most important thing of all. It is as important to me as my training and physical condition. I'll bring myself up to this fight, and if I'm very sharp—or let's just say sharp—that's all I need to win. Mental alertness is it. If I have to think what I'm going to do after a punch, or before a punch, I might as well give up. I will . . . train hard to get vicious for my fight with Liston."

No wonder this is one of the most talked-about fights in the history of boxing.

Des Moines Youth In Hurricane Hunt

Miami, Fla. (FHTNC)—Stanley J. Davis, air controlman first class, USN, son of Mrs. Mildred L. Davis of 1236 East 13th st., Des Moines, Iowa, is among the personnel of Airborne Early Warning Squadron Four which recently helped penetrate the trated the tropical storm "Celia" and obtained an accurate position and direction of the storm.

From the beginning to end, crews rotate a 24-hour surveillance check on tropical disturbances such as "Celia" which normally form off the Florida coast this time of year.

Copyboy To Get \$1,000 Reward

Washington — George R. Tennille, 18, a copyboy for The Washington Post, has been awarded the Catherine L. O'Brien Scholarship by the Stanley Home Products company of Westfield, Mass. The \$1,000 award will enable him to study journalism at George Washington university.

Tennille was selected by Eve Edstrom, welfare reporter for The Washington Post, who won the O'Brien award for the best newspaper writing of interest to women, for which she received \$500 and the right to pick the recipient of the scholarship.

Charles Sifford Gets \$2,060 Purse

Dallas, Texas—Concluding his four day of competition with a sizzling 3-under-par 67 total, Charlie Sifford of Los Angeles tied Juan Rodriguez for third place and pocketed \$2,060 in prize money in the \$35,000 Dallas Open Golf tournament that was concluded Monday.

Not only was the Purse one of Sifford's largest in recent months, but it marked one of the rare occasions that the hard-driving tan golfer has appeared in a Southern golf tournament. He has also appeared in the Greensboro (N.C.) Open, becoming the first Negro to play in that tournament.

Sifford played top golf virtually throughout the entire tournament here. His poorest round was the third, when he shot a 5-over-par 75. He was tied for second place with Julius Boros, Bruce Crampton and Johnny Pott with 69 at the end of the first round.

The local head knocking season really opened up last week. People are still talking about the Drake-Iowa State game and the way Billy Harper made like a rabbit. They say State's Tom Vaughn was pretty good, also. The Bulldogs ought to have a good year and draw some good crowds. Iowa State will do well but we can't give them the Big Eight title.

Here at home our local high schools really went to it. The North-East battle was first up but it was just as much of a grudge battle as if it had been in November. We don't think either team is going too far this year but they could surprise us. East has a good defense and if North can shake their speed merchant loose, they may upset someone. Maybe he could go inside tackle and cut out to the sidelines. His speed would likely carry him past the first line backers and then it would be a race.

Tech has an all retreat backfield but anything just better not happen to Thomas or they will be in trouble. They must have had some duel at the Roosevelt-Ames game. Everybody got a chance to cheer. Tech may be the new city champs if they can take Roosevelt whom they have never beaten.

Just sort of waiting for Iowa to start things rolling. Anxious to see what they do. They could be a big surprise if they can keep their first 11 intact.

There were so many Negro in programs last week end that they got in each other way. Made one wonder where they came from. We hope to see a real championship battle between the winners of the two leagues. It would draw a big crowd and build up a real football world's series.

Logan Wins Net Tourney

Chattanooga, Tenn. — Miss Bennie Logan a 12-year-old Negro girl from Charlotte, N.C., last week became the first member of her race to win a U.S. Lawn Tennis Assn. title, when she defeated Miss Sheryl Smith of North Miami Beach, 6-1; 6-2, in the girls singles finals of a tournament here.

Although she was tagged "the darling of the tournament," Miss Logan a graduate of the R. Walter Johnson Tennis school in Lynchburg, Va., was underated at the start of play.

However, she defeated the tournament's top-seeded players enroute to the singles title.

Opening-Day School Boycott Effective

Syracuse, N.Y. — An opening-day boycott during which Syracuse CORE pickets marched in front of the 80% Negro Washington-Irving Elementary School kept over 900 of the school's 1100 students away.

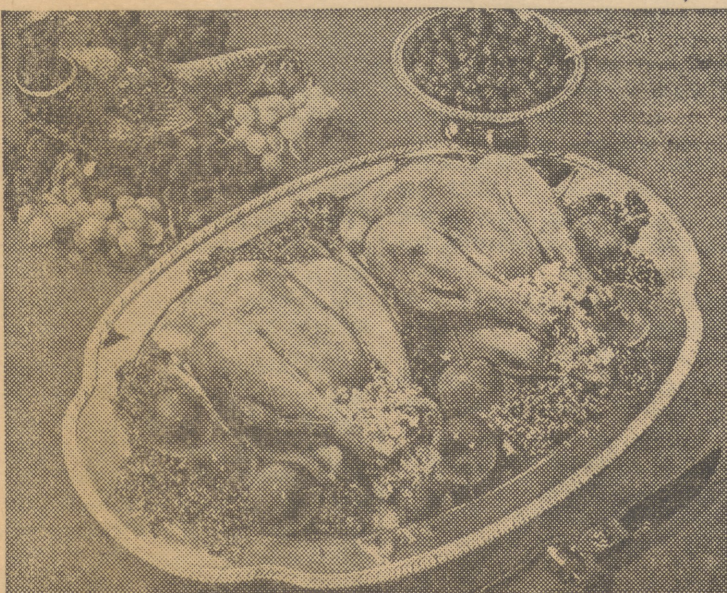

On the eve of the boycott, Wiley Robert Warr, local NAACP chairman; Malchester Reeves, the only Negro on the county board of supervisors and Jesse Epps, representative of the International Union of Electrical Workers addressed a protest rally sponsored by the latter union and attended by some 300 persons.

EDUCATION UP-TO-DATE

We teach the children Danish, Trigonometry and Spanish; Fill their heads with old-time notions, And the secrets of the oceans, The cuneiform inscriptions From the land of the Egyptians; Learn the date of every battle, Know the habits of the cattle. Know the date of every crowning, Read the poetry of Browning; Make them show a preference For each musty branch of science; Tell the acreage of Sweden, And the serpent's wiles in Eden; And the other things we teach 'em Make a mountain so immense That we have not a moment left To teach them common sense.

Thoughts for Today

Nothing is ever felt to be of value which is not won as a result of sacrifice.

—Calvin Collidge

A man must be both stupid and uncharitable who believes there is no virtue or truth but on his own side.

—Addison

The greater the intelligence, the more humble the individual because he realizes how meager is his knowledge compared with the ocean of intelligence in this illimitable universe.

—Brice Durbin

Laugh Lines

Two screwballs at a vacation resort rented a hotel boat and found fishing at a certain spot in a nearby lake. It was so good that they decided to mark the place so they could come back for more sport the next day.

At the dock, one asked the other, "How did you mark the spot?"

"I put a chalk mark on this side of the boat," was the reply.

"Boy, are you dumb," exclaimed the first idiot. "Maybe we won't get the same boat."

NEGRO MODELS ENTER NEW ERA

New York — Negro models, who have appeared in editorial pages and advertisements in newspapers, slick magazines, and point-of-sales materials, enter a new era this fall when they will be appearing on the nation's television screens in commercials.

According to Ophelia DeVore, president of the Grace Del Marco Model Agency, "this is a new day for the woman of color". Miss DeVore, who uses the term "women of color" to include Eurasians, Latin Americans, and others whom the agency represents, began urging the use of colored models some 15 years ago.

First Time

Negro models will be used for the first time in television commercials for Gillette razor blades; Artra Skin Tone Cream; Feen-A-Mint; and Sulfur-8.

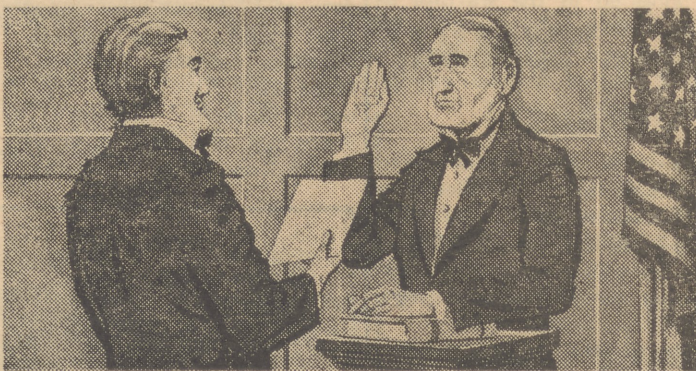

Miss Joyce Jones and Gene Romeo will appear in a Gillette television commercial depicting a New York City subway car, and the commercial will be shown throughout the United States.

It happened 100 YEARS ago

The oldest incorporated trade association in the country, the United States Brewers Association, was organized in 1862 . . . the same year that

IN IOWA, our famous civil war governor, Samuel J. Kirkwood, for whom many streets and public buildings are now named, was inaugurated for a second term. Throughout the state, the event was toasted with foaming steins of beer.

For then, as now, beer was the traditional beverage of moderation . . . light, sparkling refreshment that adds a touch of old-fashioned Iowa hospitality. Iowans have always enjoyed the good fellowship that goes with every glass.

TODAY, in its centennial year, the United States Brewers Association still works constantly to assure maintenance of high standards of quality and propriety wherever beer and ale are served.
