Stands Up in Convertible, Hits Head on Mailbox, Dies Three Hours Later

Waterloo, Ia.—Police are still investigating the circumstances around the freak accident which early Saturday morning took the life of a 16-year-old high school girl here. Victim was Sally Mae Sailor, daughter of Mr. and Mrs. Joseph Sailor of Waterloo.

Services will be held at 2 p.m. Saturday at Mt. Carmel Baptist church with the Rev. R. S. Ruckett officiating. Burial will be in Fairview cemetery, M. F. Johnson funeral home will be in charge of arrangements.

Miss Sailor, a freshman at Logan Junior High school, was fatally injured Saturday when her head struck a mailbox while leaning out of an open car.

Early Reports

Early police reports said Miss Sailor was in a car driven by Charles Edward Robinson, 17, of Waterloo, in which another youth and two other girls were passengers. Police said Robinson told them that as he neared a curb to let Miss Sailor out she stood up in the car and turned to

grasp a door to brace herself for the stop. She appeared to have lost her balance and leaned so far out of the moving car that her head struck the mailbox.

Still Investigating

Robinson then drove the injured girl to the hospital. He and other occupants of the car were being questioned by police who were trying to determine if the incident was an accident.

Miss Sailor's mother was enroute to Denver, Colo., at the time of the accident but was notified and she returned home. The accident occurred about 1:30 a.m. and she died about three hours later at the hospital.

The Bystander contacted its Waterloo news correspondent but was told by long distance telephone that there was no further developments.

Besides her parents, Miss Sailor is survived by four sisters and three brothers.

Council, Rights Commission Will Discuss Drafted Fair Housing Ordinance Friday

A proposed fair-housing ordinance, termed the "Most far-reaching piece of legislation" in Des Moines in years, will be discussed at a meeting of the City Council and the Des Moines Commission on Human Rights at 9 a.m. Friday.

To Legal Dept.

The ordinance, drafted by the Commission at the request of the council was referred to the City Legal department to be put in to proper form by a Council vote of 5-0. The ordinance was presented by Dr. Robert M. Johnson, chairman of the Human rights commission.

The proposed ordinance was approved by the Des Moines Human Rights Commission on Saturday.

Contents

The proposed ordinance would make it unlawful for any real estate broker, salesman or agent, or any owner, to discriminate against any person "in the showing, selling, leasing, subleasing, renting, or otherwise transferring . . . the title . . . for housing units or building lots.

It would apply to all housing units in Des Moines offered for sale, lease or rent by "any means of public offering"—listing with a broker, advertising, posting signs—with the following exceptions:

The rental of a two-family house when the owner lives in one part.
The rental of less than four rooms in a one-family dwelling occupied by the owner.

Religious institutions, such as nursing homes, which offer facilities "exclusively or primarily" to its members or which select occupants "to promote the religious principle for which it is established or maintained."

"The proposed ordinance would make it unlawful for any lending institution to discriminate in lending money, guaranteeing loans or accept-

DR. JOHNSON

ing mortgages to buy, construct, rehabilitate, repair or maintain any housing unit because of "race, color, religion, ancestry or national origin."

Also Persons

It also would be illegal for any person to "aid, incite, compel, coerce, or participate" in acts declared to be unlawful housing practices under the ordinance, to prevent enforcement or compliance with any of its provisions, and to defy any legal order of the commission.

Under the proposed ordinance, the commission would receive or initiate complaints charging housing discrimination within 60 days after the alleged unlawful practice.

Conciliation First

The commission would make an investigation of each complaint. If the investigation showed a complaint was justified, the commission first would try to eliminate the unlawful housing practice by means of conciliation and persuasion.

Details of conciliation proceedings would not be made public, but the

Negro Babies Need Homes. Look for Adoptive Parents

"Every good gift and every perfect gift is from above." JAMES 1:16

The Fred Winstons of Ottumwa and the William Parkers of Waterloo have taken children into their home and found adoption to be a rewarding experience, enriching and broadening family life. They have participated in a practice ancient in origin but relatively new to Negroes in this country.

Attitude Changing

Adoption as a method of obtaining children has been largely overlooked by the Negro. Traditionally the childless Negro couple was expected either to bear this sorrow gracefully or perhaps make their home available to children of relatives, but this attitude is changing. Many couples are childless by choice, but many more are not. Hence the upsurge of interest among Negroes in this method of enlarging their families.

Favorable Position

A Negro couple interested in adoption, contrary to his white counterpart, is in a very favorable position. The supply of Negro babies available for adoption is far ahead of the demand. Some agencies, as little as 10 years ago reported that for every white Protestant child they had available for adoption, there were sometimes close to 50 prospective families.

Other Factors

Religion and location, too, can make a big difference in how easy or difficult it will be for a couple to adopt a child. Catholics, for instance, may find it somewhat easier than Protestants, whereas for Jews it is a near impossibility. Orientals, Mexicans and Italians may find babies only in certain parts of the country. Negroes may be able to adopt a child almost as soon as an agency can complete the study.

Constant Search

For social agencies in Iowa the search for good homes is a constant one, despite the fact that there are many Negro couples who would be interested in adoption. While the reluctance to go to an agency for help with this problem is gradually diminishing, the availability of babies for placement is rapidly increasing.

Policies Re-examined

For years the study itself was a major hurdle, not overcome by many. Unrealistically high standards rendered to permanent childlessness many couples who would have made good parents. This was probably because there were so few babies. However, with the changing ratios, adoption agencies have felt the need to revise policies and procedures surrounding the study, to reexamine the study itself and to be more helpful in appraising adoptive applicants and more realistic with their expectations.

Warm Understanding

This shift has been quite rapid, but many of the old concepts of requirements linger. Some of these mistaken ideas have been pointed out earlier in this series. It may come as a surprise to many, but the really emphasized things are no longer amount of wealth, educational achievement, quality of housing or social position. It is not the ability to provide for a college education for the child. It is not the number of years training one has in child rearing, nor the mastery of scientific techniques. It is not the expectation of certain religious training for the child. What is really important is the warmth and understanding present in the home.

Necessities

Adoption is a possibility regardless of race religion or economic status. If you have the willingness and the necessary ability to care for a child, if your home can offer the love, understanding and strength necessary to rear a child, you will find that most adoption agencies will have a special welcome mat out just for you.

More Parents

In future articles more Negro adoptive parents will be interviewed to further illustrate that adoption has its place in the scheme of things. A parent is one caring for and fostering a child, and there are two ways to become a parent—procreation and adoption. Both of these methods are divine.

Strong Anti-Discrimination Public Accommodations Ordinance Passed in Mo.

The Kansas City, Mo. City Council has passed a strong anti-discrimination Public Accommodations Ordinance including barber shops and beauty parlors. The measure introduced by Negro Councilman Bruce Watkins, was enacted by an overwhelming 11-2 vote.

Leonard H. Carter, NAACP Regional Secretary, hailed the passage

of this measure as a great step forward in the continuing struggle for first-class citizenship in America. The measure prevents discrimination in hotels, motels, restaurants, taverns, theaters, amusement and recreational parks, swimming pools, bowling lanes, hospitals, business, technical and commercial schools and in other establishments licensed to do business with the public.

Panelists Emphasize Iowa Does Have Much Racial Discrimination

Two Des Moines speakers emphasized during talks at the Young Republican League of Polk County last Thursday that Iowa does have racial discrimination.

Speaking on a panel were Atty. Robert A. Wright, president of the Des Moines branch of the NAACP and Ernest Russell, executive director of the Des Moines Human Rights Commission. Other panelists were Rev. Robert Keck of St. John's Methodist church and Atty. Paul Moser.

Wright said he felt "let down" in talking to some members of Iowa's Congressional delegation in Washington, D. C., last month because they did not seem to consider civil rights a problem in this state.

"I think they just had always assumed that there was no problem in Iowa," he said.

Law Little Used

Russell said that until recently there had been little use made of Iowa's law against discrimination in public accommodations, such as motels and restaurants—not for lack of discriminatory policies but because Negroes did not go to places where they expected to find discrimination.

In drawing boundaries for school attendance, Russell said, school officials may have followed lines of Negro housing ghettos without thinking in terms of segregation.

American Friend Service Photos

A photographic exhibit of the work of the American Friends Service Committee, entitled "For More Than Bread," will be presented by the AFSC in the assembly hall of the Iowa Power and Light Building, 9th and Walnut, from Sept. 23 through Oct. 6. The exhibit can be seen Monday through Friday from 8:00 a.m. to 5:00 p.m.

The exhibit, processed by the New York firm, Compo, consists of 190 photos ranging up to five feet in size. The exhibit was designed by Paul S. Buck with text by James S. Weaver of the information staff of the Quaker organization.

MISS DEB

... answers questions about Junior Miss etiquette, grooming and interests.

Q. A friend of mine has telephoned. She keeps me on the phone for hours at a time and my family is wild. How can I cut it short without cutting off her friendship?

A. A telephone is definitely a family affair. Hour-long chats rate zero in the family popularity poll. If your pal is wound up for a long session, plunge in at the first comma, make a date to see her soon (like tomorrow after school) and tell her you really want to talk about it then.

Q. Does baby sitting include K. P.? One of my "clients" always leaves a sink full of dirty dishes—even tells me to mop up the floor. Since there are three active children I think I have enough to do just "sitting." Do I have the right to say no?

A. Yes. Settle the chore question before you accept the next assignment. Your client should tell you what chores she expects you to do aside from caring for the children. If you don't mind—and many girls don't—fine. If you do—or

if you feel it interferes with your primary responsibility of supervising the children—parents will appreciate your being frank about it. Of course, as an employee you always have the right to accept or refuse a baby sitting assignment.

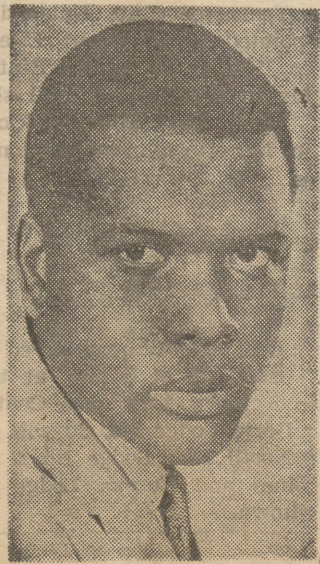

Q. My mirror tells me my figure isn't too bad, but I do have a tendency to slump. I try to remember to square my shoulders, but as soon as I stop thinking about it, my shoulders begin to droop.

A. What you need is a sticky reminder. While you assume your very best prom-queen posture, have your mother put a strip of adhesive tape across your back from shoulder to shoulder. Every time you start to droop, a gentle tug from the tape will remind you to keep 'em square.

(For answers to other questions on grooming, beauty and baby sitting write for your two-in-one guidebook "Sitting Beauty." Send 25 cents, plus 10 cents for handling to: "Sitting Beauty," Box 551-P, Kimberly-Clark Corporation, Neenah, Wisconsin.)

also served as co-ordinator for the march.

Proclamation

A proclamation issued Saturday by Mayor Charles Iles declaring Sunday "Human Rights Memorial Sunday" in Des Moines was read. The proclamation urged citizens "through prayer and under appropriate observance to express their sympathy for the bereaved families of Birmingham." A letter was also read from Gov. Harold Hughes, who was out of the city.

Before leaving the city Gov. Hughes said he is "fully in accord with the goals of those who will take part. I join them in deploring the Birmingham incidents and the racial injustices these incidents symbolize."

"I fervently hope that we in Iowa may continue to work together to achieve a level of human dignity whereby men may take their rightful place among each other without regard to race, creed or color."

Supporters

The march and program was supported by 10 church groups in Ames, the Iowa Council of Churches, The Des Moines Council of Churches, United Church Women, the NAACP, CORE, Des Moines Commission on Human Rights, Des Moines Association of Club Women and local peace groups.

Student of the Week

BY FRANCES E. HAWTHORNE

This series is open to junior and senior high school students in Iowa who are in good standing with their school and community.

(SECOND IN A SERIES)

This week we present a pretty young lass who proves that brains can be combined with good looks. She is Peggy Marie Spates, 13-year-old daughter and only child of Mr. and Mrs. Rufus Spates, 1244 13th street.

Peggy, who is an 8th grade student at Washington Irving Junior high school, last year was among four classmates receiving superior scholastic awards. In addition she won a similar award in her last year at Nash elementary school, where she won four Citizenship awards and merit certificates.

Peggy musically inclined like her father who is well known in the community with his Spates Combo. Her mother is a beautician. She has been taking piano lessons six years and her tastes in recordings are both classical and rock 'n' roll.

Her favorite subjects in school are history, language, art and music. She plays clarinet in the school band. Her hobbies are collecting—records and rocks. With her parents and other relatives she has traveled extensively

on annual vacations. Several years

PEGGY SPATES

ago she attended the Seattle World's Fair as guest of her grandmother who lives in Wichita Falls, Tex.

It's a little early yet but Peggy already is pretty definite about what she wants to do later in life—to be a teacher or missionary.

Bars White's Bias Lawsuit

Atlanta, Ga.—A federal judge has ruled a white man ineligible to sue for desegregation of a downtown hotel saying the man is not directly affected.

In granting a motion of the hotel to dismiss a suit brought by a white

Atlanta resident, Henry M. Henderson, U. S. District Judge Lewis R. Morgan ruled Tuesday that such an action properly must be brought by a Negro.

The judge said he could find no record of a court's taking jurisdiction in an action where the complainants claim to have been only indirectly affected by racial discrimination against others.

This delightful picture had to be timed to the split-second. In a movie you'd catch the whole story.

Every Family Needs Its Own Cinematographer

Yes, every family not only needs its own cinematographer, but every member of the family ought to be one. It is an impressive title, but really just means one who takes pictures with a movie camera.

There's no better way to keep a record of family life than in full color home movies that reproduce all of the brilliance and motion of the activity or scene that caused you to want to take pictures.

We're especially excited about home movie-making for all members of the family since we heard about a new camera that came on the market just a few weeks ago. It's the movie version of the familiar fixed focus or box still camera (except that it has a better lens) and it is priced at under \$30. Not much under, just a little. Made by a well-known manufacturer, it's practically foolproof, it's so easy to use.

With this camera you make one simple setting of the lens, wind the motor, and shoot. And, there's a guide on the front to tell you which setting to use, according to the way the weather is.

Birthdays, weddings, graduations, holidays, and all the little every day things that are the material from which happy memories are made—will be kept fresh, colorful, and full of action in your movie films.

Everybody's Favorite Chicken and Gravy and Biscuits

You can't beat a good chicken dinner for popularity, especially an old-fashioned chicken fricassee. Choose the plumpest stewing chicken you can find, so you'll have plenty of rich gravy. Be sure you get all that chickeny goodness by adding generous sprinklings of Ac'cent* to both fowl and broth. Ac'cent brings out all the natural, full flavors, not only of chicken, but in the vegetables and gravy as well. For the final perfect touch, surround the fricassee with your special hot biscuits or dumplings, bathed in that luscious gravy. A sprinkling of Ac'cent added to the dry ingredients before making biscuits or dumplings works wonders, too! An ideal vegetable accompaniment of course is golden corn-on-the-cob . . . be sure to have all three shakers handy . . . salt, pepper and Ac'cent . . . when you serve it, and don't spare the butter.

Old-Fashioned Chicken Fricassee
Cut fowl in serving size pieces; wash thoroughly; place in heavy kettle. Add 6 cups boiling water, 2 teaspoons Ac'cent, 1 onion, quartered, celery leaves, a few peppercorns and 1 small bayleaf. Cover; simmer 2 to 3 hours or until fowl is tender, adding 1½ teaspoons salt during last hour. Remove chicken to hot platter; strain broth and use to make gravy.

Corn-on-the-Cob
Add Ac'cent to cooking water, using 1 teaspoon per 4 ears of corn. *Ac'cent is pure monosodium glutamate.

Last week after the paper came out it seemed to be our very pleasant occupation to receive some very nice compliments. Usually when the phone rings after the paper comes off the press, we cringe a little wondering who is calling to complain in gentle reproach or as some do, in not so gentle terms.

To make a long story short one of our first calls came from Mrs. Barbara Williams, president of the Phi chapter of Delta Sigma Theta sorority who wanted to pass along comments of her sorors and their pleasure at their picture and story . . . Another call came from Mrs. Clara Bayles, who also attended the Delta convention in New York City. Then little kind notes arrived from Deltas, Mmes. N. R. Olphin and Leonard Peavy.

Our other compliments came in the form of a thank you note from Mrs. William Joan Parker of Waterloo, Ia. She wrote "Just to thank you for your part in presenting the story of adoption and the Parkers. My only addition to the well done coverage would be to emphasize the love and fulfillment people are missing by not taking children that can bring love and happiness into a home."

"My husband and I have talked about having a family picture taken for so long but you know what happens when you procrastinate. Will you help us to secure a copy of the picture that was printed in the Bystander along with the "Adoption story?"

Our co-author of the article on the Parkers, Mrs. Valetta Fields, corre-

spondent from Waterloo, Ia., echoed the same sentiments in a short postscript added to her news column.

Our feeling of general well-being was further heightened Friday evening when Moulton P.T.A. held its successful ice cream social, which surpassed all expectations for those who had worked on various committees and in other capacities. Voluntary donations were good and mothers baked cakes and cookies to be served with the ice cream and also for the cake walk, which turned out to be the most attractive feature of the evening for both children and parents.

Mrs. Maryetta Singleton, 1323 10th street, had baked three cakes each topped with a different frosting. However, her children won three cakes in the cake walk that night. The Wong children also won three cakes, walking away with some of the prize ones—as far as looks were concerned . . . Mrs. Diane Kitchen, stood for quite a while and watched the proceedings but refused entreaties of the 'hawkers' to join in the festivities and probably win a prize. However, after a while she relented with the comment, "Oh, well I have a dime, but I know I won't win." She nearly fell over and took some good natured kidding when she won for that round—a huge yellow cake.

Monday morning, along with hundreds of other ladies, we spent some time at the United Campaign meetings for captains and block workers. Among the captains this year are Mesdames Jack Parker, Harry J.

CONGRATULATIONS
TO LABOR

CONVENTION DELEGATES

The national convention of the AFL-CIO has for years passed resolutions calling for no racial discrimination in the labor movement. The organization has maintained civil rights department and attempted to secure results on the local level but with little success. President George Meany has given his support.

The annual meeting of the Iowa AFL-CIO, meeting in Cedar Rapids last week, passed strong resolutions calling for complete integration in locals and pointed the finger of guilt at some groups which have been guilty of excluding Negroes from membership and apprenticeship training. It passed without a dissenting vote.

The delegates are to be congratulated for facing up to a problem which they had shied away from in past years. It remains for them to use their influence in the local organizations to implement the resolutions by seeing that some Negroes are brought in as apprentices and journeymen.

Naturally, a resolution by the labor movement will not change things overnight, but if an honest effort is made and a prompt beginning gotten underway, the noble resolutions will have been worth the effort of those who engineered their passage.

Recently Mayor Iles has announced that he would appoint a committee to work for better opportunity in employment of Negroes. If the committee is geared to and actually does a practical job, union leaders could be of great value.

The Bystander hopes that both of these moves will actually do a job rather than talk a lot and educate.

DES MOINES AUDIENCES
PRAISE "BLACK LIKE
ME" AUTHOR

John Howard Griffin, the author of the book, "Black Like Me," was guest speaker at the Greater Des Moines Chamber of Commerce last week—a program which brought a record crowd which sat intently for an hour listening with rapt attention to a message which seldom gets before chamber members.

Likening race hate in America to the Nazi terror against Jews in Germany, Dr. Griffin placed responsibility for Hitler's rise on the apathy of the so-called better class who allowed the reign of Hitler to produce the most devastating war in history.

His experience of having lived as a Negro taught him the damage racial segregation does to both Negro and white people; that Negroes no longer were willing to go on with second class citizenship; that the mob was no longer a deterrent to his fight for full equality NOW.

For those who say Negroes must earn their rights, he said no one has the authority to accord or withhold rights and privileges which the constitution gives every citizen.

Des Moines made Dr. Griffin available to several audiences, television and radio appearances which afforded many citizens an opportunity to hear a first hand account of a white man who talks from experience as a Negro.

COUNCIL MOVES FOR
HOUSING BIAS ORDINANCE

The city council has before it a proposed fair housing ordinance which, at its request, was prepared by the Human Rights Commission.

The proposed ordinance would make it unlawful for any real estate broker, salesman or agent, or any owner, to discriminate against any person "in the showing, selling, leasing, subleasing, renting, or otherwise transferring . . . the title . . . for housing units or building lots, excepting some groups from its operation.

The Human Rights Commission would hear complaints—determine if there has been a violation, offering the respondent an opportunity to be heard. If the commission finds the complaint was justified, an effort would be made to negotiate a settlement.

If this fails, public hearing would be conducted where the respondent would have an oppor-

TOPPS ROOKIE ALL-STAR TEAM
TWO NEGROES ELECTED TO 1963

New York — Two leading Negro major league baseball players were elected to the 1963 Topps Rookie All-Star Team it was announced last Monday. They are: Jesse Gonder, Catcher, New York Mets and Tommy Harper, Outfielder, Cincinnati Reds.

City on Oct. 24 when they will receive engraved trophies and other awards.

HEALTH FOR ALL

Out, Darned Spots!

With measles vaccines fully developed and Government-licensed, one more contagious disease can fairly be described as on its way to being "scratched" from the list.

This may be even better news than is commonly realized. For measles never deserved its popular reputation as "just a nuisance," to be faced and gotten over with at the proper time.

510 Deaths

As recently as 1961, deaths from measles officially reported in the United States totaled 510. However, it has been estimated that instead of the 400,000-to-500,000 cases annually reported, the actual number has probably been eight to ten times as large. There may also be a number of additional deaths attributable to measles but reported as caused by other diseases.

Plague

In any event, this "plague of childhood" couldn't possibly disappear too soon for the common good. Is its first cousin, German measles, also fated to succumb? Unfortunately, that will have to take a little longer. "Unfortunately" because of the especially pernicious effect it can have on women whom it strikes in the early months of pregnancy—the damage it may visit on their unborn children.

Isolation

Yet the day of its defeat, too, may not be very far off. For the German measles virus was isolated a little more than a year ago, and the development of an effective vaccine can reasonably be hoped for in the not-too-distant future.

Beyond that, does another victory for medical achievement await just around the corner? Don't hold your breath for it . . . but don't bet against it, either!

Information Service of Polk County Tuberculosis and Health Association

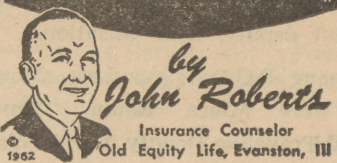

Rights Commission will be heard. Like most civil rights measures, fair housing measures have been debated and studied here and elsewhere for years. And while most people know what they provide, it does no harm for more people to express their views.

Family Finances

Are you planning to buy a new car on credit? Before you rush into installment buying, ask yourself, "Do I really need a new car immediately?" Then consider saving until you have enough money to pay cash.

Borrowing is an expensive business these days. For example, say you had \$800 on hand and wanted to buy a \$2,400 car. You'd have to borrow \$1,600. If the interest rate were only 5%, the loan would cost you \$120 over 18 months. The car would actually cost you \$2,520, and you'd have payments of \$95.55 a month.

On the other hand, if you put your \$800 in a savings account, and added a deposit of \$95.55 each month, at the end of 18 months, you'd have the \$2,400 cash you need for the new car, plus over \$220 in accumulated interest.

If you can, put off buying that car until you can pay cash. You'll be money ahead.

Sojourner Truth

The voters of senators from the mid-west are crucial to the passage of the pending civil rights legislation in Congress. Our state is part of the mid-west—not Dixie.

Someone asked, the other night, "Are you sure?" I am sure. This does not mean that Iowans are free from prejudice or that Negroes in Iowa are not affected by discrimination. Racism, in one form or another, reaches into the far corners of our nation.

Iowa is not Dixie because much of the prejudice and discrimination rests upon lack of knowledge, lack of contact, and acceptance of old myths.

When confronted by a specific situation clearly stated, Iowans respond for justice and human dignity. Our call for enforcement of the public accommodations law was answered in 1949.

The Congress of Racial Equality, Des Moines, chapter asks 10 Minutes For Freedom. This is a systematically organized on-the-spot cardwriting campaign to our Iowa senators to urge their active support of the 7-

strengthen our democracy, we are exerting every effort to see that our senators vote, "Yes!" for the 7-point civil rights package. Are we worth our salt if Iowa is recorded as voting with the Dixiecrats.

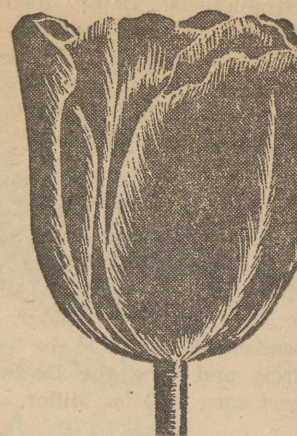

Let it not be said that Iowa also betrayed those who dared to stand and be counted in the south for freedom and human dignity now. Write, Wire, Telegraph, Telephone and Return to Washington!

As spokesman for the Iowa delegation to our senators, August 27th, I wish to report that our senators hold the narrow view that Iowa has few Negroes. The senators agreed their duty is to the majority of the citizens. This, I submit, is as cynical a view as may be found anywhere in the south. Do we wish to erase color as a test of worth or merit.

Among the marchers on that historic day, Aug. 28th was a certain Iowa housewife who dreamed of a course in Iowa history for two Iowa senators. The time is now. The course is ready. Every Iowan is eligible to teach.
