Virgin Islands Income Climbs

St. Thoas—Budget Director Morris de Castro reported that revenue for the U. S. Virgin Islands in the first three months of the current fiscal year, June-September 1964 totaled \$4,411,434, compared to \$3,295,615 collected over the same period in 1963.

Lay Cornerstone for Bethune House in D. C.

Washington—The National Council of Negro Women laid the cornerstone Nov. 12 for Bethune House, a moderate income housing project it will build with government financing.

First of Its Type

The \$570,000 project—believed to be the first of its type to be developed in this country by a women's organization—will be located in the 400 block of Chaplin Street, S.E.

It is named for the late Mary McLeod Bethune, founder of the NCNW and Bethune-Cookman college at Daytona Beach, Fla. Mrs. Bethune was born in 1875 in a South Carolina cabin and achieved national fame as a confidante of Presidents. She served in various official capacities under Presidents Coolidge, Hoover, Roosevelt and Truman.

Bethune House will provide modern living accommodation for 43 families at monthly rentals ranging from \$95 to \$110. Expected to be completed by next April, the air-conditioned project will have off-street parking and a day care center for about 50 children.

FHA Loan

The project, financed with an FHA loan, is the first to be built in Washington under the non-profit section of the 1961 Housing Act.

Credit for the idea of Bethune House goes to Judge Marjorie M. Lawson of the D. C. Juvenile court, a trustee of the council.

The cornerstone-laying ceremony was a feature of the council's 29th annual convention held at the Sheraton-Park hotel.

NAACP to Fight New Calif. Housing Law

San Francisco—The NAACP intends to challenge the constitutionality of California's new housing law prohibiting any public agency in the state from imposing a ban on discrimination in the sale or rental of residential property, Mrs. Tarea Hall Pittman, NAACP West Coast regional director, announced this week.

The new non-discrimination ban, popularly known as Proposition 14, was approved by voters in the Nov. 3 election.

Key Provisions

It amended the State Constitution with this key provision: "Neither the state nor any subdivision or agency thereof shall deny, limit or abridge, directly or indirectly, the right of any person who is willing or desires to sell, lease or rent any part or all of his property, to decline to sell, lease or rent such property to such person or persons as he, in his absolute discretion, chooses."

Mrs. Pittman stated that "it is the intention of the NAACP to test the constitutionality of Proposition 14 as quickly as the necessary papers can be prepared."

Nobel Peace Prize Winner Strikes Back At J. Edgar Hoover

Washington, D.C.—F.B.I. Director J. Edgar Hoover electrified the nation last week with an extremely critical attack on 1964 Nobel Peace Prize winner, Dr. Martin Luther King, Jr., by calling him "the most notorious liar in the country."

Hoover, who will be 70 on his next birthday and will celebrate more than 20 years as head of the F.B.I. made his charge in an extraordinary three-hour interview to a group of women reporters here on Nov. 18.

Criticizes King

Hoover criticized King for asserting that FBI agents in Georgia had failed to act on Negroes' civil rights complaints because they were southerners.

The FBI chief said: "He (King) made a speech in which he advised Negroes not to report civil rights violations to our Albany, Ga. agents because they were all southerners."

"The truth is that 70 per cent of the agents in the South were born in the North and four out of the five agents in the Albany, Ga., office are northerners."

Appointment

"I asked my assistant to make an appointment for Dr. King to come here and get this clarified. He refused to come. King is the most notorious liar in the country. Yes, that is on the record."

"We have had remarkable success in our civil rights cases, but to hear individuals like King you wouldn't think so. In 1960 we had 1,398 civil rights cases to investigate and 3,340 in 1964."

Dr. King Replies

Dr. King, who was vacationing in the Bahamas Islands, where he had gone to write his acceptance speech to the Nobel Prize committee, answered Hoover's attack by saying the F.B.I. chief "is a man faltering under the heavy burden and the criticism of his office."

Appeasement

The noted integration leader struck back at Hoover by accusing the FBI of "following the path of appeasement of political powers in the south."

And he said that "if this continues, the reign of terror in Mississippi, Alabama and Georgia will increase rather than subside."

The Nobel Peace Prize, said he, was certain that Hoover "would not have made such a vicious accusation (against me) without being under extreme pressure."

Pressure

"This pressure," he said, "has come on the racial front and from the

NEWS In A Nutshell

Tallahassee, Fla.—Florida A. and M. university will not be abolished in the "foreseeable future" as was indicated at the State Board of Control meeting in Gainesville last month—so said the board members at their meeting here recently.

Topeka, Kans.—Authorities last week charged a white man with kidnapping a young Negro girl whom searchers looked for 10 days since she disappeared the week before. The girl, 7-year-old Gladys Johnson, was abducted as she stood on a residential street here with her younger brother and sister. Arrested was William Frederick Zimmer, 46, a railroad engineer of Kansas City, Kans. Her body was found last Friday.

Boston, Mass.—Atty. Gen. Edward W. Brooke of the Commonwealth of Massachusetts has emerged from the recent elections as the victor by a plurality of almost 1,800,000 votes—a switch of nearly two million votes from the President's tally in the Democratic column in Massachusetts. No other Republican in the country won by as many votes.

Washington, D. C.—Thomas Augustine, veteran Labor Department employee, has been appointed a regional director of the agency's Bureau of Apprenticeship and Training. The position pays \$16,500.

Denver, Colo.—Mrs. Fannie Kemp, who was probably Colorado's oldest resident, died last week at the age of 107.

Los Angeles, Calif.—Irving Wallace, author of "The Man," a current best selling novel about the first Negro President of the United States, last week was given the George Washington Carver Memorial Institute Supreme Award of Merit and Honorary Fellowship for "outstanding contribution to the betterment of race relations and human welfare."

Wilberforce, Ohio—Dr. Charles Wesley has resigned as president of Central State college after served the institution in that capacity for 22 years.

Washington, D. C.—Clay Claiborne, the Republican National committee aide accused of a pre-election attempt to get Negro voters to write in the name of Dr. Martin Luther King, Jr., for President was still on the GOP payroll last week.

Sacramento, Calif.—William Henry Thompson, 32, was arrested last week in connection with the theft of a quarter million dollars in government property, including walkie-talkie radios and other expensive electronic equipment.

No Negro As Priesti

Oakland, Cal.—Negroes are entitled to membership in and every blessing of the Mormon Church—except priesthood, the president of the two-million-member denomination said here.

President David O. McKay, 91, of Salt Lake City, answering questions at a news conference, was asked if the priesthood rule ever would be changed.

"Not during your lifetime or mine," McKay answered.

Washington — An estimated 21 southern Congressmen will lose their jobs if Section 2 of the 14th Amendment of the U. S. Constitution is enforced, NAACP Legal Defense Fund attorneys told the U. S. District Court here today.

Secretary of Commerce, Luther H. Hodges and Director of the Bureau of Census, Richard M. Scammon are defendants in this case which seeks to protest voting rights.

Legal Defense Fund attorneys Nov. 18 asked the District Court to deny the defendants' motion to dismiss.

Dr. Abram J. Jaffe, director of the Manpower and Population Program at Columbia University's Bureau of Applied Social Research, told the Court that it is possible to enforce Section 2.

Never Tried

Since the Bureau of Census has never tried to enforce Section 2 under modern conditions, Dr. Jaffe stated in an affidavit, it would be "premature and unrealistic" to conclude that the Bureau could not accurately measure denial and abridgment of the right to vote.

Section 2 of the 14th Amendment provides that:

"When the right to vote . . . is denied to any of the male inhabitants of such state, being 21 years of age . . . the basis for representation (in Congress) therein shall be reduced in

proportion which the number of such male citizens shall bear to the whole number of male citizens 21 years of age in such state."

Current interpretation includes women citizens.

The Legal Defense Fund ultimately "seeks a declaration of the defendants' duty to comply with Section 2 when they compile, compute, prepare and transmit the decennial apportionment of Representatives in Congress."

States Affected

The action, if successful, might subtract four representatives from Virginia; two from South Carolina; two from Georgia; one from Florida; three from Alabama; two from Mississippi; one from Louisiana; and six from Texas, according to Dr. Jaffe.

On the other hand, states of the North and West might gain Congressional representatives.

Western States

California might gain three; Massachusetts two; Illinois, three; Michigan, two; Pennsylvania, Ohio, Connecticut, Maine, Missouri, Minnesota, and Nebraska and other states would gain one each, Dr. Jaffe said.

The Plaintiffs

The 22 plaintiffs are both Negro and white. They are from six northern states: Pennsylvania, Massachusetts, Missouri, Illinois, Ohio and California; and three southern states: Virginia, Mississippi and Louisiana.

Desegregates McComb, Miss. Hotels, Restaurants, Stores

McComb, Miss.—Twenty Negroes, led by state and local leaders of the National Association for the Advancement of Colored People, quietly desegregated two hotels, a movie theater, restaurants and drug store lunch counters here, Wednesday, Nov. 18.

This was the second successful NAACP venture in desegregating public accommodations in Mississippi. Last July, immediately after passage of the Civil Rights Act, a special committee of the NAACP Board of Directors broke longstanding racial barriers in restaurants and hotels in Jackson, Biloxi, Laurel, Meridian and Gulfport. Other tests are planned for additional Mississippi cities.

Watched Silently

In McComb, white townspeople watched silently as the group entered the establishments in a test of the law. All were served without incident. A force of 40 state patrolmen and 20 FBI agents joined local police in watching over the group.

Several Meetings

Charles Evers, NAACP Mississippi field director, who headed the group, noted that Negro leaders had had several meetings with leaders of the white community regarding desegregation prior to formulation and release of the statement.

Business places desegregated included the lunch counter in Woolworth's and dining and rooming facilities in the Continental Hotel and Holiday Inn Motel.

Testing

Testing of this town of 14,000 residents, which has been the scene of frequent bombings and burnings in

Negro neighborhoods in recent months, was authorized by a resolution passed by the Mississippi State Conference of NAACP Branches in its meeting two weeks ago.

Other participants in the testing mission included Mrs. Doris Allison, Jackson NAACP president; Mrs. Nina Denson, Mrs. Lacey, Miss Pearlina Lewis, Mrs. Jeanie Bell, Bobbye Talbert, Robert Blow and Mack Robeck, all of Jackson.

Local residents taking part included the president of the McComb NAACP and his wife, Mr. and Mrs. Charles C. Bryant.

Warren report raising serious questions about the effectiveness of the FBI.

King branded as irresponsible a charge by Hoover that King lied about actions of federal agents in Albany, Ga.

"Apparently, Mr. Hoover is faltering under the awesome burdens, complexities and responsibilities of his office," King said. "If he had thought it out, he would not have made a statement so in variance with the facts."

Denial by King

Hoover, at a news conference Wednesday in Washington, said King had advised Negroes not to report any civil rights violations to the FBI office in Albany because the staff members were southerners. And he said King would not make an appointment with him to receive proof that four of the five agents in Albany were born in the north.

Denied Flatly

King denied this flatly, saying his secretary had searched his mail and phone records in vain for any such request to meet with Hoover.

"I never advised Negroes in Albany not to report to the FBI," King said. "On the contrary, we reported every incident. But we were dismayed by the fact that nothing was ever done."

"I have nothing but sympathy for this man (Hoover) who has served his country so well."

New York Approves Coretta Scott King In Freedom Concert

New York—Last Sunday evening was the Town Hall debut of a beautiful and gracious lady who performed a magnificent program of narrative and song that charted the course of the civil rights movement from "Montgomery to Washington."

She was Mrs. Coretta King, mother of two and wife of Dr. Martin Luther King, chief architect of the Montgomery boycott and recent Nobel Prize winner. Mrs. King's program consisted of traditional songs interspersed with comments on the events that sparked the Montgomery boycott and ultimately led to the March on Washington. Perhaps, the single most poignant moment in her evening came the rendition of Langston Hughes' poem "March on Washington," both as a song and poem.

Demonstrate in Canada Against Award to Biased U.S. Utility

Montreal, Canada—What probably was the first CORE demonstration in Canada was conducted here on November 13 by 32 pickets from CORE groups in Syracuse and Utica, New York.

They picketed the Queen Elizabeth Hotel, where the World Congress on Public Relations was presenting an award to the Niagara Mohawk Co., major upstate New York utility, "for presenting the best public relations image." The two CORE groups have been campaigning to get Niagara Mohawk to adopt a fair employment policy.

The pickets journeyed to Montreal by auto. They were relayed a half-hour at the border, when Canadian immigration officials detected the picket signs in the cars.

Labor Depart. Okays On-Job Training in Iowa

Mt. Pleasant, Ia.—An on-the-job training contract for which \$91,586 is allowed under the Manpower Development and Training Act has been signed with the Mt. Pleasant, Iowa, Division of the Emerson Electric Company of St. Louis by the Bureau of Apprenticeship and Training of the U. S. Department of Labor. This manufacturing facility was recently established in Mt. Pleasant.

Taylor F. Custer, Regional Director of the Bureau, said that 165 persons from the ranks of the unemployed will receive 29 weeks of training as utility assemblers. The company, which will pay \$257,522 in wages to the 165 trainees, will begin with groups of from 10 to 20 trainees depending on the speed of recruitment and the availability of qualified persons.

MRS. WILSON RE-ELECTED TO HEAD MISSOURI NAACP

Columbia, Mo.—Delegates to the annual meeting of the Missouri State Conference of Branches of the National Association for the Advancement of Colored People recently unanimously re-elected Mrs. Margaret Bush Wilson, St. Louis attorney, to a third term as president.

Civil Rights Leaders Resent Hoover Attack on Dr. King

Washington—Within 24 hours after FBI Director J. Edgar Hoover's unprecedented attack upon Dr. Martin Luther King, Jr., as "the most notorious liar in the country," leaders of the nation's major civil rights organizations rallied to Dr. King's support and expressed to President Johnson their resentment of Mr. Hoover's characterization of the Nobel Peace Prize winner.

Spokesman

Following an hour-long session with the President here, Nov. 19, NAACP Executive Director Roy Wilkins, spokesman for the group of six rights leaders, told newsmen: "We made it plain that we disagreed with Mr. Hoover's characterization and that we solidly back Dr. King. We explained that Negroes are not satisfied with the performance of the FBI in civil rights matters. They feel that they are not getting adequate protection whether the agents were born in Mobile or Minneapolis. The issue is not where the agents were born, but their performance in the discharge of their duties."

No Comment

Wilkins said that the President "listened but made no comment."

Earlier in New York City, Wilkins said he was in no position to comment on the accuracy of remarks attributed to Dr. King by Hoover about the southern origin of the FBI staff in Albany, Ga. However, he added, "the opinion of Dr. King about the lack of protection by the FBI in the struggle for Negro rights is shared by millions of American Negro citizens. It doesn't matter where the agents came from, the results of FBI activity for the Negro minority is nothing."

Also Attending

In addition to Wilkins, the White

House conference was also attended by Whitney M. Young, Jr., executive director, National Urban League; James Farmer, national director, Congress of Racial Equality; A. Philip Randolph, president, American Negro Labor Council; Miss Dorothy Height, president, National Council of Negro Women; and Jack Greenberg, director-counsel, NAACP Legal Defense and Educational Fund.

Dr. King was in the Bahamas where he was reported preparing his acceptance address for the Nobel Peace Prize. He denied Hoover's charge and said that the FBI director "has apparently faltered under the awesome burden, complexities and responsibilities of his office."

Governmental representatives present who heard the leaders' expressions of indignation included Acting U.S. Attorney General Nicholas Katzenbach, Mr. Hoover's superior in the Department of Justice; and

KRISTIN HUNTER'S FIRST NOVEL SHOWS BIG TALENT

New York City—A new Negro writer has appeared on the literary scene, who is most promising, and who, judging by her first effort is going to be a writer of great stature. She is Kristin Hunter, a native of Philadelphia, and her first novel "God Bless The Child" (published by Charles Scribner, \$4.95), has left critics with a new set of adjectives.

Miss Hunter has written that very human story about Negro life—what every Negro knows from the inside, but very seldom sees on paper. Her characters have depth and sensitivity, though most of all they have

Built-In Kitchen Ranges from SMALL HOMES GUIDE

Today an oven can be tucked into a wall of the kitchen and located at the height that is most convenient. Burner units can be as close to or as far away from the oven as the housewife desires. Built-in ranges, in either gas or electric models make this possible. They offer more flexible kitchen planning, allow the creation of the type of cooking center best suited to the individual's work habits.

Pictured here is a built-in oven and electric model burner unit placed side-by-side. Burners are built into a counter-top which means storage space close at hand. A split-burner arrangement affords in-between work space. Oven has anodized copper finish on the door. Also available in stainless steel or baked enamel.

The picture at left shows two electric ovens and a warming drawer located on one side of the kitchen. Opposite is the four burner and griddle surface unit. An important safety device is the controls on top of the unit and out of the youngsters' reach. Griddle top swings down when griddle is not in use.

The J.F. Kennedy Legacy

By Roy Wilkins, Executive Director, National Association for the Advancement of Colored People

A year ago the nation was suddenly and tragically deprived of a gifted and gallant leader. In the twelve months since the assassination of President John F. Kennedy the luster of his name and achievements has shown with increasing brightness. He embodied a new and pervasive spirit in our land—a spirit of hope and faith and confidence in

Burke Marshall, head of the Justice Department's civil rights division, a purpose in life. There is very little of the utter despair one finds in most of our present day novels, but rather, the other side of the coin, a Negro, who by her own bootstraps and efforts, pulls herself out of a desperate environment. It is a plus for Miss Hunter that you will not find any of the old stereotypes in her book.

Bishop Thomas Speaks in Chicago

Methodism must begin again, according to Bishop James S. Thomas of Des Moines.

Bishop Thomas opened the national Methodist District Superintendents' Convocation in Chicago Nov. 13 by stating that Methodism's mission is to see "our country and our church as if they were new."

"Methodism began as a great adventure," he said. "When seen in terms of its earlier settings, it placed no limits on its goals. America was to be won for Christ—all of America. It is not our business to recapture the great words of Methodist history, but to begin again, in terms of our vastly different culture, on a mission no less adventurous and demanding. . . . This means a love of the spirit which motivated our fathers, but a change in language, in approach, in goal."

Shattered Barrier

In his brief administration President Kennedy moved impressively toward attainment of the American dream of equality. His election shattered the barrier that had restricted the Presidency to white Protestants. He initiated a comprehensive civil rights program to lift the burden of inequality from the backs of the nation's 20,000,000 black citizens. He proposed the abolition of poverty in the world's most affluent society. He sought to diminish the threat of nuclear annihilation. He encouraged the arts and sciences and commerce. He left a rich and enduring legacy not only for his fellow Americans, but also for all mankind.

Rights Bill

In his first appearance before the Congress of the United States, President Lyndon B. Johnson called for early enactment of the civil rights bill as a monument to the memory of President Kennedy. On July 2, a little more than one year after President Kennedy had submitted the bill to Congress, President Johnson signed it into law. The Kennedy-Johnson triumph was ratified by a consensus of the American electorate on Nov. 3.

No Turning Back

John F. Kennedy set the nation on a course from which there can be no turning back. There could be no more fitting monument to him than enactment of the liberating legislation which he sponsored. It is for us to attain fulfillment of his goal in practice and spirit as well as in law. This is the most pressing task now confronting the American people. This is the precious Kennedy legacy.

Fable: Boy With Sticks

A FABLE about a boy with a bundle of sticks he wanted to break has its meaning for today's home craftsman. Unable to break the bundle, he asked for advice. His father told him to break each stick separately.

The beginning home handyman too often feels he should buy numerous tools and much material. Doing so often is frustrating, so the experts advise him to "take it easy," buying just essential tools and materials and learning their use and application in simple projects.

Lumber dealers are good sources of tools needed in the home workshop, and they can advise the beginner which ones he should obtain first. They can tell him also about basic materials to have on hand. Among these is Masonite Tempered Presdwood, an all-around panel that wears like iron, is free of splinters, knots and grain, and is low in cost.

Getting back to the fable, the handyman needn't buy even a 4 by 8-foot panel for his beginner's project, for his dealer usually has short lengths available, and their price usually is a bargain. Gaining confidence in the use of a few fundamental hand or power tools, the home craftsman can make a success of his initial undertakings and then branch out to build an under-stairs project, line the old coal bin, and build some basement or kitchen cabinets.

He'll do well to break just a single faggot at a time.

Mary Church Terrell Club Holds Meeting

Mary Church Terrell club met Monday evening with Mrs. Goletha Trotter, 934 14th place. The program included Mrs. Josephine Pickett who related her family's camping and travel experiences in Canada.

As you gather around your feasting Thanksgiving table, with your families and relatives who have come from afar to visit and be with you, we hope that you will have a most Happy Thanksgiving day.

Thanksgiving is a time for gathering with the family and counting the blessings of the day, of the past year.

Among those who has so much to be thankful for this Thanksgiving are Mr. and Mrs. Mack Carson, 964 23rd street, who probably have more great grandchildren—11 of them—than anyone in Iowa. Last week we chatted by Alexander Gaham Bell invention with Mrs. Carson who talked warmly and enthusiastically about her great-grandchildren—eight boys and three girls.

We asked Mrs. Carson to give their parents (her grandchildren) names and where they live. In Calumet City, Ill., Mr. and Mrs. Dolen Bozeman have two sons. In Washington, D.C. Mr. and Mrs. Harry Thomas have a son; in Maywood, Ill., Mr. and Mrs. Jim Dandridge have a son and a daughter; in Los Angeles, Calif., Mr. Alfred Dixon has a son; and in Des Moines, Mrs. Hazel Riffe has two sons and a daughter and Mr. and Mrs. Clifford Watkins, Jr.,

have a son and daughter.

When her grandchildren and their offsprings (her great-grandchildren) aren't visiting her in person, Mrs. Carson cherishes a picture of five of her great-grandchildren, taken together.

She comments, "They are just darling! They have eyes just like new moons."

When Mrs. Delores Brewer, 3509 27th place, entertained one of her clubs last week she surprised them, on a chilly night with refreshments of hot jello served from punch cups along with cake. We are not claiming that she is originator of the idea, but it was a delightful drink. And if you have not tried it, do so.

From the looks of the weather at early presstime, we might have a beautiful Thanksgiving day. How did you withstand last Friday's buffeting? Or did you have to go out? It was a sharp contrast from the week before in which we had the last of the shirt sleeve weather. Old Man Winter made up for his late arrival by delivering a two-fisted barrage, extreme cold and gale-like winds that sent each air shaft piercing through anyone who dared face him.

"TURKEY TIME" Dessert!

WITH A WONDERFUL THANKSGIVING DINNER cleared away—there's still dessert to consider! Pumpkin Chiffon Pie—light, fluffy, elegant! And for a special touch, fold a half cup of tender, flaked coconut into the mixture before chilling, then glamorize the top with a drift of white flakes.

COCONUT PUMPKIN CHIFFON PIE

1 envelope (1 tablespoon) gelatin
1/4 cup cold water
1 1/4 cups mashed cooked pumpkin
3/4 cup evaporated milk
1/2 cup water
2 egg yolks, slightly beaten
3/4 cup brown sugar, firmly packed
1/2 teaspoon salt
1/4 teaspoon ginger
1/2 teaspoon nutmeg
1/2 teaspoon cinnamon
2 egg whites
1/2 teaspoon vanilla
1 cup Baker's Angel Flake coconut (toasted if desired)
1 baked nine-inch pie shell

Soften gelatin in cold water. Combine pumpkin, evaporated milk, water, egg yolks, 1/2 cup of the sugar, salt, and spices in top of double boiler. Cook over boiling water 10 minutes, stirring constantly. Add gelatin and stir until dissolved. Chill until slightly thickened.

Beat egg whites until foamy. Add remaining sugar gradually and continue beating until stiff. Fold in pumpkin mixture, vanilla, and 1/4 cup of the coconut. Spoon into cold pie shell. Chill until firm. Before serving, top with whipped cream and remaining coconut.

Note: 1 1/4 cups whole milk may be substituted for the 1/2 cup evaporated milk and 1/2 cup water in the above recipe. (ANS)

A POOR EXAMPLE IN HIGH PLACES

The controversy between Dr. Martin Luther King and J. Edgar Hoover, head of the FBI, is unfortunate. Both are highly respected citizens. Name calling does neither any good.

Hoover's designation of Dr. King as "the most notorious liar in the country" is an unbecoming expression of one man of another. Such public statements are the language of criminals, the ignorant and the gutter class. The public use of such terms is beneath the dignity of the office he holds.

The charge by Dr. King that FBI agents, operating in Georgia, were southerners and because of the fact of their anti-racial background they were not solving the bombings and other crimes against Negroes in Georgia, is difficult to prove.

Hoover has the files on his agents history and thus is in a position to know the facts of their background. Dr. King does not. By previous standards, an agent born in Georgia might be less inclined to inform against his neighbors but yet some of the northerners have gone South and become acclimated not only to the weather but also to racial prejudice. On the other hand, some southerners have come North and become strong advocates of racial equality.

We have marvelled at some solutions the FBI has been able to come upon in their work against racial crimes. The killer of Medgar Evers is a case in point. The defendant was not convicted, an instance which Hoover thought of when he said the judges and juries contributed most to lack of law enforcement.

There is much constructive work to be done rather than expend time and energy fighting among those who should be collaborating in the great team effort.

IOWA'S FOOTBALL HAS A MISERABLE SEASON

Iowa University football team has had the worst record in years: a record of 5 defeats and 1 win in Big Ten conference; 3 wins and 6 losses overall.

The fortunes of the team have gone down each year since Evashski left the coaching job to become athletic director. Burns, the present coach, was an assistant during the fabulous teams of Evashski.

All kinds of reasons have been advanced for the unsuccessful season. Some do not deal with playing on the field. Whatever the cause, they should be dealt with forthrightly so as to command a team which draws spectators and prospective players.

Football is only a part of college life and certainly not the most important. Students go to school to get an education. That comes first. And schools are requiring this more and more today. But football has become a great segment of the college life. It hurts nobody. It is clean sport, good recreation and excellent entertainment for the spectators.

Evashski, as athletic director, should have the remedy, because he filled the job successfully. If football is allowed to deteriorate, other athletic programs will do likewise.

SOFT PEDDLING STAND ON CIVIL RIGHTS

Nick Klotz, of the Washington bureau of the Register and Tribune, is writing a series of articles about Iowa's newly elected congressmen. The articles purport to let the public know what each one stands for as well as his background.

Last Sunday, the first one appeared which naturally started with Schmidhauser if the first congressional district. For some reason his views on civil rights were not included.

The views of all candidates running for congress on civil rights should be made known to the public as it is one of the foremost issues he will face for years to come.

Schmidhauser's position on civil rights are particularly important because he succeeds a man whose record was excellent. Even though the Negro vote in the district is not large, the question goes far beyond them but also to all citizens. And he will be meeting it in Washington.

Orange Blossom Classic Slated Dec. 5

Miami, Fla. — Orange Blossom Classic fans will receive an added treat prior to the football spectacular in the Orange Bowl Dec. 5.

Bob Hayes, "world's fastest hu-

man," will appear for pre-game honors wearing the Olympic track uniform in which he won two gold medals during the 1964 games in Tokyo, Japan last month.

Constant Threat

Hayes also is considered a constant threat to "break loose" for a long gain or touchdown while wearing his 17-pound fullback gear.

Miami Mayor Robert King High and Metropolitan Dade County Mayor Chuck Hall, together with other government officials and civic leaders, will salute Hayes during the brief pre-game ceremony for his amazing track feats.

3 Negro Stars Gain Berth on Coaches' All-America Squad

New York—Three Negro stars won All-America acclaim today as the American Football Coaches Association named its top three 75th annual Diamond Jubilee teams.

The trio was led by Gale Sayers, Kansas halfback, who was picked on the first team for the second year in a row. The other choices were junior halfback Mike Garrett of California and junior tackle Bill Yearby, both of whom made the third team.

The three elite elevens selected by the 512 members of the association were announced in the current issue (Nov. 28) of TV Guide magazine by Len Casanova, association president and University of Oregon head coach.

HUNTING REMAINS GOOD OVER THE STATE

Reports from State Conservation Commission field personnel indicate that pheasant hunting continues to be excellent in most areas of the state. Success is especially high among hunters using dogs.

The reports indicated, however, that the pheasants are becoming scattered and more difficult to find as the season progresses. Really top-notch hunting probably will be available again now that Iowa has enough bad weather to force the birds into bunches.

Standing corn fields are producing the best hunting. Hunters are cautioned though, to ask permission before they enter these unpicked fields.

Judge Harrison gave him a concurrent five-day sentence on a charge of failing to leave his name and address at the scene of an accident.

Send Yours Today

From—With Gramercy Thanksgiving Day

As you observe Thanksgiving Day, again, where stars and stripes so proudly entertain the heritage of Pilgrims and their feast, may harvest blessings reappear and fall upon your home address and banquet-hall.

May your beloved ones be blessed today, across the miles with bonds that seal and pray with gramercy and love, Thanksgiving Day. And may you touch with sympathy, cold hands, in thought, with word or deed. Exchange a creed with some forgotten, lonely heart that stands alone without a friend, in silent need. And may you make a stranger's heart, somewhere, they will smile on you—

We Welcome Letters

The Bystander welcomes "letters to the editor," be they adversely critical or complimentary. However, all letters must be signed complete with street address and city.

feel less alone today, and more aware of ways that can be kind to solitude, with gramercy and love, Thanksgiving Day.

It isn't what you have in your pockets that makes you thankful. It's what you have in your heart.—Anon.

Really it is surprising what a little smile can do.

Wear one with your working clothes and with your Sunday best . . . Wear a cheery smile and you will always feel well dressed.

Doesn't really matter about quality and style—Even shabby things don't look so bad—worn with a smile.

Give a smile and take a smile, and say a word of cheer.

A smile won't grow old fashioned like the hat you wore last year. A smile suits any kind of face; a smile is always smart.

For smiles reveal the sunshine that is shining in your heart.

Oyster-Rice Turkey Stuffing Is Elegant

This Oyster-Rice Stuffing is a "must" for that turkey (or chicken) you're planning to roast. It's easy to make because there's very little chopping to do and no bread crumbs to bother with.

INGREDIENTS:

1 cup uncooked white rice
2 cups water
2 teaspoons salt
3 tablespoons butter or margarine

1/2 cup chopped onion
1 cup chopped celery
1/4 teaspoon black pepper
1/2 pint oysters
1/4 cup water or turkey broth

METHOD: Put the rice, water and salt in a 2-quart saucepan. Bring to a vigorous boil. Turn the heat as low as possible. Cover the saucepan with lid and leave over this low heat 14 minutes. Remove from the heat but leave the lid on 10 minutes.

While the rice is cooking, melt the butter or margarine in a saucepan. Add the onion and celery. Cover and cook over a medium heat until tender, stirring occasionally. Stir in the black pepper. Add the onion and celery to the rice mixture. Add the oysters and water or broth and mix gently.

This stuffing may be prepared ahead of time so long as the liquid is not mixed with the dry ingredients until the turkey is to be stuffed and cooked. The turkey should be stuffed just before it is placed in the oven. It should not be stuffed and refrigerated. Extra stuffing may be served in a separate pan or made into dressing balls. Allow 1/2

cup of stuffing for each pound of poultry, dressed weight, or 1 cup for each pound ready-to-cook weight. This recipe makes 4 1/2 cups of stuffing.

How to Bake the Turkey: Remove pin feathers from turkey and singe if necessary. Remove any bits of lung, kidney, etc., remaining in turkey. Wash and rinse inside and outside with cold water. Wipe dry. Rub cavity lightly with salt. Put enough stuffing into the neck of the turkey to fill it out nicely. Fasten the neck skin back with a skewer. Stuff cavity well—but do not pack stuffing tightly as it expands during roasting.

Shape wings ("akimbo" style), bringing wing tips on to the back. Place skewers across stuffing opening of turkey and lace shut with cord. Tie legs to tail. Grease skin thoroughly with fat. Place the turkey, breast down, on a rack in a shallow pan. If the bird is very large and difficult to turn, place breast up and leave in this position throughout the roasting. Lay fat-moistened cheese cloth over the turkey. Place in pre-heated 325°F. oven. Do not cover with a lid. Do not add any water. As cloth dries out, moisten with fat from the bottom of the pan. Roast until done, following the timetable below. Garnish turkey with frosted grapes made by dipping grapes first in beaten egg white, then in granulated sugar.
