Mississippi Tensions High As Showdown Nears

Mayor, Alderman Slated to Answer List Of Negroes' Demands

Natchez, Miss. — Racial conflicts headed for a showdown here Wednesday as the deadline neared for this ancient city's reply to the Negro demands for immediate integration of all facilities.

The mayor, John Noser, imposed a 10 p.m. curfew on the town Tuesday night and also banned the sale of whiskey in an effort to keep a firm clamp on the boiling tensions. The mayor and the Board of Aldermen were scheduled to meet Wednesday night to decide what to do about the Negroes' 13 demands.

The Negroes demands include additional Negro policemen, an end to alleged police brutality and desegregation of schools and other public facilities. Another demand calls for the city to denounce publicly the Ku Klux Klan, which is reportedly strongest in Natchez.

List

The list of demands was drawn up after the car of NAACP local leader George Metcalfe was bombed last Friday. He was injured in the explosion, set off when he turned on the ignition.

Some Negroes and whites are known to be carrying arms. At Jackson, Miss., Gov. Paul Johnson indicated he would order the National Guard into Natchez if the situation warranted.

Charles Evers, state field director of the NAACP, told Negroes at a rally Monday night, "If we don't get what we want Wednesday, meet me here early Thursday."

Des Moines Deltas Report Highly Successful National Confab in L.A. Despite Riots

The 28th National convention of the Delta Sigma Theta sorority convened at the beautiful Ambassador hotel in Los Angeles, Calif., on Aug. 14-19. The 1500 delegates were made very aware of the appropriateness of their theme, "Decisive Action for Freedom" with the Los Angeles rioting in the background.

Mrs. Dorothy Simms of 127 Hull avenue, headed the Phi chapter (Iowa) delegation as voting delegate. Mrs. Chrystal Peavy served as alternate with Mesdames Clara Bayles and Catherine Williams of Des Moines and Mrs. Helen Lemme of Iowa City, attending as visiting delegates.

NAACP Supports Union Stand Vs. Negro Strikebreakers

Richmond, Va.—At the request of the United Hatters, Cap and Millinery Workers International Union, AFL-CIO, the NAACP is assisting the union in its efforts to prevent the use of Negroes as strikebreakers in a long and bitter strike by the union against the M & B Headwear Co. here.

Addressing a mass meeting on Aug. 26 sponsored by the union and the Virginia State NAACP Conference, Herbert Hill, NAACP director for labor programs, stated that "strikebreaking by Negroes not only hurts the cause of Negro workers but does great harm to the interests of the entire Negro community."

"Strikebreakers are themselves victims of discrimination," he said, "and their anti-social actions only lead to further abuses of Negro workers by employers."

Negro Beaten, Gov. Offers \$1,000 Reward

Montgomery, Ala.—Gov. George C. Wallace Wednesday, Aug. 26 offered the state's largest reward, \$1,000, for information leading to the conviction of the persons who mutilated an elderly Negro.

He is an eighth grade student at Warren Harding Junior high.

NEWS In A Nutshell

Los Angeles, Calif.—About \$300,000 worth of merchandise stolen during rioting in the south Los Angeles area has been recovered, police said last week. The loot included television sets, typewriters, liquor, radios, appliances and other merchandise.

Dallas, Tex.—Thirteen white instructors accused of trying to "incite students" of Bishop college to take part in civil rights demonstrations were ordered last week to leave the campus. Dr. Milton K. Curry, president of the predominantly Negro school, fired the instructors Aug. 19 shortly after a noon-hour demonstration. He said the instructors, mostly from eastern colleges, "apparently came down here with a social revolution in mind."

San Francisco, Calif.—Police received a frantic telephone call Thursday, reporting that nine fezz-wearing Negroes armed with rifles got out of three cars near the Anza school yard. Officers, fearing the worst, rushed to the scene and found a drill team composed of members of the all-Negro Imperial Council of the Ancient Egyptian Arabic order of Nobles of the Mystic Shrine. They were practicing for a parade.

Springfield, Mass.—Picketing at City Hall and a cross burning kept tensions high last week while this New England community awaited a promised followup to the largest civil rights demonstration in its history.

Las Vegas, Nev.—A stream of stars whose names dot the Las Vegas show marquee dropped in on a massive party given for Louis "Satchmo" Armstrong by the Riviera hotel last Aug. 19 on the occasion of his 50th anniversary in show business.

New York—New York Supreme Court Justice Morris E. Spector last week ordered that funds totalling nearly \$18,000, held in a trust for Rep. Adam Clayton Powell (D-N.Y.) at the interracial Freedom National bank, be turned over to Mrs. Esther James, 68, as partial payment of a \$46,500 libel judgment. The \$18,000 reportedly had been raised at cocktail parties here and in Washington, D.C., to help the controversial congressman pay the defamation of character judgment.

Savage Assault On Memphis Tot

Memphis, Tennessee and Arkansas authorities have conferred in an effort to pinpoint the blame for a savage assault on a 9-month-old Memphis boy.

The child, Patrick Johnson, was hospitalized with a possible fractured neck, a broken arm and leg, a severe burn of the sex organs and some 30 to 50 wounds on the abdomen, apparently caused by an ice pick.

The baby's mother, 19-year-old Mrs. Amy Franklin Johnson, said she had left the infant with relatives in Arkansas and picked him up August 15. The injuries already had been inflicted, she said, but she didn't take the child to a doctor because she thought he would recover.

Doctors said drastic surgery would be required to keep the infant alive.

Cities Trade Union Hiring Barriers on Construction Sites in Cincinnati, Ohio

Cincinnati—The National Association for the Advancement of Colored People issued a stern warning today that laws against racial discrimination in employment must be enforced to avert a deepening racial crisis in the large urban centers of this country.

In testimony before the Ohio Civil Rights Commission, Herbert Hill, NAACP director for labor program, stated that the "level of unemployment among Negroes has reached and in some cities exceeded the general level of unemployment during the Great Depression of the 1930's."

The NAACP called on Cincinnati and the Ohio Civil Rights Commission to fulfill its responsibilities and "suspend further construction on all projects under its jurisdiction until such time as open non-discriminatory hiring practices as required by law are established."

Attention

Calling attention to the law which President Johnson signed on Aug. 26 for a 3.3 billion dollar Public Works and Economic Development Act, Hill stated that "Negro wage earners . . . will be denied full and equal participation in this new public construction program because the craft unions in the building and construction industry, with a long tradition of either exclusion of or discrimination against Negroes, retain control of job opportunities in the industry."

Qualify

More than any other group, Negro workers qualify for work in this program, but they will not be able to share in employment opportunities "because of the collusion be-

tween building contractors and construction labor unions which gives these unions job control," he said.

In his testimony, Mr. Hill specifically cited the agreement between the Mechanical Contractors Association of Cincinnati and Local 329 of the Plumbers Union, AFL-CIO. The agreement, he said, requires an "exclusive hiring hall arrangement which in practice results in the exclusion of Negro workers from employment opportunities."

According to recent NLRB rulings, such exclusive hiring hall arrangements are illegal, he pointed out.

The non-enforcement of the entire body of federal, state and local anti-discrimination law and executive orders "is directly contributing to the growing civil rights crisis in . . . major urban centers," Mr. Hill warned.

Racial Bias

Mr. Hill placed Cincinnati's record of racial discrimination by building trades unions before the Commission. In the Plumbers Union, the Asbestos Workers Union, the Pipefitters Union, the Rodmans Union, the Millwrights Union, the Sheetmetal Workers Union, the Structural and Ornamental Iron Workers Union and the Lathers Union there are no Negroes. There is one Negro in the Glaziers Union.

During the next decade, Mr. Hill concluded, "Cincinnati will be the site of major public construction involving billions of dollars of federal, state and municipal funds." He said it is inconceivable that Negro citizens and their allies in the civil rights protest movement will submit passively while the racist practices of past years continue.

Gordon Parks already enjoys the professional esteem of foremost photographers throughout the world for his magnificent photo-documentary reportage on such subjects as the Brazilian slum boy Flavio, crime in the U.S., the Black Muslims, and Harlem gangs. What is electricity? THOSE FIRST GREAT WORDS

Electricity is the magic of a tape recorder. Electricity is the friendly glow of outdoor lighting. It's the convenience of electric power tools. Electricity is probably 30 to 40 household servants in and around your home . . . five or six times as many as you had just a generation ago. With electricity doing so many useful things for you, it stands to reason that your bill is higher today. But the actual cost per kilowatt-hour of electricity is a full 30% lower than it was a generation ago.

Yes, electricity is many everyday wonders. At today's low rates, it's your biggest household bargain. Faithfully yours, from

I would like to take this opportunity to personally express my sincere gratitude as a member of Council and as a citizen of Des Moines for the eleven and one half years of loyal and unselfish service Mayor Iles has given to our City. hanon set a new precedent in school desegregation cases Aug. 14 in ruling that the Oklahoma City Board of Education must take positive and affirmative steps to eliminate racial segregation in public schools.

Hearing

The ruling followed a hearing on a desegregation report prepared by three education experts who were hired by the NAACP Legal Defense and Educational Fund on behalf of the Negro plaintiffs in the court action.

90 Per Cent

Although there is segregation in 90 percent of the city's schools as a result of residential patterns, the board indicated it felt no obligation to take action to correct the situation.

In Saturday's ruling the court adopted recommendations in the experts' report which included a trans-

HEALTH FOR ALL

SALUTE THE SURGEONS, TOO

We hear a good deal about the spectacular leaps and bounds, and

fer policy which would enable Negro children assigned to predominantly Negro schools to obtain, for that reason, transfers to predominantly white schools.

Zones

The Court also ordered the combination of zones for two pairs of high schools to further desegregate them and set a teacher hiring policy that by 1970 will result in integrated faculties for all Oklahoma City schools.

Presently, 18 per cent of the city's teachers are Negroes, but most are assigned to predominantly Negro schools. The plan's goal is for each school to have approximately 18 per cent Negro teachers.

runs and touchdowns frequently scored in medical progress. We hear less about triumphs in that other arm of the healing science: surgery. Yet surgery has made impressive gains too.

Gall Bladder

For example, better surgery has been chiefly responsible for reducing whatever danger once existed in gall bladder disease. Not only have surgical techniques improved; so has the science of anesthesia, and so have methods of applying it. Gains have also been made in preventing and controlling the infection that too often accompanies surgery. Result: better recoveries, fewer deaths.

Adults are almost the exclusive victims of gall bladder disease. It afflicts children seldom, infants almost never. In recent years it has attacked women at a lower rate than in the past; no one so far has found out exactly why. Childless women seem more exempt than those who have given birth one or more times.

Gallstones

Living to a ripe old age is, statistically, one of the most likely ways of developing gallstones. By age 75 they are present in one of three people. But this doesn't mean that they

cause serious illness at the same rate. In the majority of cases the worst damage done is an occasional attack of indigestion.

Liver Damage

Some doctors hold that the presence of gallstones and gall bladder infection may cause serious liver damage, resulting in total failure of that organ. For this reason, doctors are apt to recommend immediate surgery if an infected gall bladder starts causing severe pain. For adults who have repeated attacks of abdominal pain, your Christmas Seal association suggests a prompt visit to the doctor to assess the cause of the trouble and recommend whatever measures may be called for.

If I were a teacher or school principal I suppose I would say, "Welcome to another school year." As far back as we can remember since our youngsters began school, we cannot recall it raining on opening day. Perhaps we have dropped a few school years. Despite the gray overcast damp skies the children flocking to school, brightened the out-of-doors and the classrooms were a varied, burst of color. And of course, as on opening days, many parents, who had neglected to register their children prior to that time, stood wearily in line, watching the clock some hoping they would get through in time not to be too late for their jobs.

While we are at it, we want to remind you that Monday, Labor Day is a holiday; Children will have a brief respite from school studies and so will yours truly from newspaper duties. The office will be closed Monday; consequently, we will have a one-day deadline next week, with Tuesday noon as usual for phoned in news. If you have news earlier, won't you take time just to bring or mail it in to the Bystander, so you will be assured of its publication next week? We will appreciate your giving us a carefree, work free holiday Monday, just as we are sure you will be enjoying yours.

Earlier this week Mrs. Virgil Winters, teacher at Park Avenue Elementary school dropped by to tell us about a wonderful trip she had this summer. As she is a member of Sigma Gamma Rho and yours truly of Beta Phi Beta, we took a few moments to rib each other about being 'social outcasts'. However, while she was visiting in Oklahoma City, Okla., she visited sorority sisters on the campus of Langston university and renewed her affiliations with its chapter.

We learned for the first time that

one of the church reporters has since moved out of town, when we got a letter from her earlier this week. She is Mrs. Richard Smith who formerly called news regularly for New Jerusalem, now Goodman Temple Church of God in Christ. She also is a close friend of one of my younger sisters.

She wrote: Hello, and how are you and family; fine we are hoping. I'm writing to order a subscription of the Bystander for a year . . .

"We've been living back here for about three weeks and am just now getting around to writing. We're living in one of my Dad's houses and have had to put in a bathroom and are yet in the process of remodeling the kitchen and having it covered with siding.

"I'm going to see Orabell as soon as I get things organized."

Mrs. Smith new address back in her home town is RR No. 3, Vandalia, Mo. They live on a 180-acre farm.

Remember that Monday is a holiday and that there will be a one-day deadline for phoned in news next week. Have a wonderful safe holiday, won't you?

NAACP PUSHES
UNEQUAL EMPLOYMENT

The NAACP continues to hammer away at the unemployment of Negroes in northern cities directing their initial effort in Cincinnati and Cleveland. Both are heavy industrial centers with a large proportion of Negroes.

Initial surveys show that the building trades have almost totally excluded Negroes from their unions even though many of their constitutions contain non-discrimination clauses. National leaders have collaborated with civil rights groups pledging support in their fight for civil rights, but in most unions, they have had little influence down among the rank and file where it counts.

According to news reports, integration is moving ahead smoothly in many places in the South which heretofore have been violently opposed to it in any form. Some are stepping up that which had been started previously.

This quiet integration comes because the civil rights law has required states and school districts to integrate or forfeit the federal grants that have become a large part of the operating costs of schools. It took the enforcement of the civil rights law with teeth in it to get this job done.

Unions have enjoyed great progress and leniency in recent years. It has not been so always. They have become powerful. Some of that power has been beneficial; some a convenient means of doing to the Negro what capital did to the unions in years gone by.

All the progress the Negroes make in civil rights means little if they are denied the chance to earn money to enjoy them. And to support equal employment at the top and deny it at the base is a mockery and an element of discrimination contributing to the restlessness everywhere — more so in the large cities where the problem is greater.

Des Moines has become a strong union city and with the system which concentrates power in a few public officials, the Negro fares worse. In fact, employment is the number one problem in Des Moines. Today, we are losing ground in certain areas. Its leaders should not wait for others to come in and solve their problems.

LIBERALS MUST
DOMINATE GOP

Splinter groups continue to plague the leadership of the Republican party. Chairman Bliss of the national committee has been cool to such organizations as the Free Society of which Senator Goldwater is a leader, the John Birch Society and others such as have been formed by Republicans who while parading as Republicans actually are in it to advance sinister causes.

Governor Scranton of Pennsylvania has lashed out at these splinter groups but concludes that there is room in the party for them but not as dictators. Governor Romney of Michigan refuses to tolerate them believing their presence hurts the party.

As liberal as the leadership of the Democratic party is today, at one time its leadership was not only reactionary, but also formed the backbone of the opposition to civil rights. Today, such men as Senator Russell of Georgia and Stennis of Mississippi, by virtue of their strategic position in congress, have great influence but remain in the organization only in order to dispense federal patronage in their state.

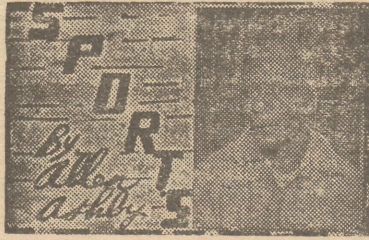

Thus, both parties have their bigots, their reactionaries, their troublemakers. But a leadership must be placed in and kept in control of the party which will direct the people toward a better America for all men. The Democrats shook off Dixiecrat leaders; the Republicans must not permit the Birchers and their ilk to lead their party.

BAD PRACTICE FOR
ORGANIZATIONS
TO FOLLOW

James Farmer, head of the Congress for Racial Equality (CORE) has announced that his organization has endorsed William F. Ryan, a Democratic candidate for Mayor of New York City.

While leaning heavily toward the Democrats over the years,

the NAACP has refused to make political endorsements. It is a dangerous practice and often serves as a weapon to break up perfectly deserving movements. We say this whether the endorsement is in behalf of Democrat or Republican.

We guess that just about everyone interested in football knows that the Des Moines Warriors, local pro-team, won their opening game last Sunday, beating a good Rock Island club in the rain.

Most pro-clubs can move the ball and will score points and the Warriors proved no exception to this. But the fans were wondering about their defense. That department headed by a couple of Drake boys, Primas Jones and Lou Proctor, aided by Moses Stephens who spends his off-season posing as a baby elephant, did alright. They may have a little trouble with a real passing team but that front line is going to be tough against any running game.

The nice thing about the whole deal was the fact that the club has several Negroes, and just about every Negro who could tell a football from a horn went to the game. They were there, teeth chattering like castanets wet, cold and really uncomfortable. But they were there. Let those guys break even in their next two games or win both and there will probably be 8,000 people at the next home game. Everyone says this town will support a winning club in any sport.

In a couple of weeks the wraps come off our Iowa college teams and we may see a few things we hadn't expected to see. The Iowa Hawkeyes could have a real good year and so could Drake. Don't know about Iowa State but they could be a sleeper. However, don't order any Rose Bowl tickets just yet. Better wait a while.

Baseball

The American league race seems to be about decided except that the Chicago White Sox won't give up. They keep winning and look forward to their five games with the Minnesota Twins. They feel if they can take four of these five games they have a real good chance of coming through. But the Twins have that feeling that makes a winner. They think they can beat anybody and they feel everytime they start that they are going to win. They don't

Family Finances

If you're planning to borrow money or buy on time, be sure you're familiar with the following points:

- No matter what interest rate is quoted, find out the actual cost in money.
- Before signing any papers, check the figures as to their accuracy and don't leave spaces to be filled in later.
- Question extra charges that would increase the total cost of the loan.
- If you're to owe a firm other than the dealer you're buying from, find out if they are reputable.
- Find out what the penalties are for late payments.
- Don't skip the fine print. Read and be sure you understand.
- What does the contract say about repossession?
- Understand what security you are giving.
- Do not sign away legal rights or guarantees such as the right to refuse merchandise which is not as promised.
- Is there a provision for refund of interest on payments ahead of schedule?

Top Hurdler Signs
Grant With Southern

Baton Rouge, La.—Willie Davenport, often referred to as the "best hurdler in the world," has signed a track letter of intent to attend Southern University.

Davenport, who suddenly soared to fame by defeating Hayes Jones and Blaine Lindgren, with a spectacular 13.6 timing last summer, is still in the United States Army, and according to Southern University Track Coach Dick Hill, will be released in early September.

Coach Hill also announced the signing of nine other talent laden freshmen to bolster the returning 1965 Jaguar thinclads, defending champions of the National Association of Intercollegiate Athletics and of the Southwestern Athletic Conference.

Davenport defeated Jones and Lindgren in the finals leading down to the Tokyo Olympics, but as fate would have it, he viewed the games from the stands after he suffered a deep muscle pull while training in Tokyo.

Wilt Signs For
Reported \$105,000

Monticello, N. Y.—Wilt Chamberlain's new three year contract with Philadelphia has made the 7-foot-1 center "very happy," furrowed the brow of flight manager Gus D'Amato, elated the 76ers and deflated the rest of the National Basketball Association.

Chamberlain, the NBA's top scorer for the past six seasons, received a reported \$70,000 last year but his new contract was termed "the largest salary in organized sports" by Philadelphia co-owners Irv Kosloff and Ike Richman.

Although the managers, who signed the six-year NBA veteran at Kutztown's Country Club Tuesday, refused to disclose the exact terms of the contract, Chamberlain mentioned that it was "a substantial increase over last year and I'm very happy."

It should be noted that if Chamberlain is receiving the highest salary in sports as Richman and Kosloff contend, it must exceed the \$105,000 annual wage the San Francisco Giants pay to Willie Mays.

"That's the Spirit!"

know how but they feel they will win. When a club gets that feeling it is hard to beat.

Over in the National league the Dodgers are still riding their two-man pitching staff and Maury Wills feet plus some timely losses by their rivals to stay in front. But now comes the stretch month. Can they keep it up? We doubt it. Maybe the other Davis can come back and help

Local

We watched the local high school teams work out. Everybody says East is the team to beat but when we look at those big rangy boys at Roosevelt we wonder. How do those guys get so many of those fellows? North is about to be due to break through with a hot team. This could be their year.

Onward to Los Angeles!

(Dedicated to Progressive National Baptist Convention which will meet in Los Angeles on Sept. 7-12.)

The "rioters" have all been arrested—Insurrectionists have been subdued, A heavy curfew has been lifted—The "Angel City" is no longer confused.

Dr. Martin Luther King, Jr. has prayed—

Over the worst riot of this decade, Surveyed the havoc created by man—And offered a reconstruction plan.

The "Voice of America" has made it plain—

Where there's progress there is always pain,

That brotherhood must ever increase America still leads the way to peace. Shall "Progressives" retreat and turn back?

Shall messengers cowardly start to unpack?

We say no, a thousands times we say no!

With faith we shall arise and go. The ancient Sage of wisdom cries—A friend loves and serves 'til he dies.

A brother alone is born for adversity—

In God man has true security. We are not a fair weather organization—

Nor are we born to placid resignation,

We were conceived in dangerous soil—

We have grown through ruggedness and toil.

We must go if trains follow the rails—

So long as buses take the westward trails,

While jets take flight through the air,

We must go in faith and earnest prayer.

Laugh Lines

A Kindergarten teacher had her charges carving soap. As she went about the room they told her what they were making: "panda, dog, man, table, tree, gun, car."

One lad's work appeared to defy description.

"What's this?" she asked. "Soap flakes," said he.

Little Bobby had just returned from a birthday party. His mother asked, "Bobby, did you thank the lady for the nice party?"

"No," the lad replied. "A girl ahead of me said 'Thank You,' and the lady told her not to mention it. So I didn't."
