Dixie Acquittal Proves Need For U. S. Action, John Morsell Asserts

New York—The acquittal of Tom Coleman, charged with the killing of Jonathan Daniels, the young white seminarian, in Hayneville, Ala., demonstrates anew the need for Federal action "to assure that justice will be done when American citizens are assaulted, bombed and murdered in reprisal for their civil rights actions," John A. Morsell, assistant executive director of the National Association for the Advancement of Colored People, said here, Thursday, Sept. 30.

The NAACP, he said, has drafted legislation providing for indemnification of victims of hate violence and is seeking to have it introduced in Congress.

Chicago—James S. Braxton, 51-year-old Sanitary District engineer whose qualifications for a higher position had been questioned by the district's personnel director, was last week named assistant chief engineer in charge of administration.

Rep. Powell Resigns Pastorage Of Harlem Church In Feud Over Dismissal of Dr. King's Aide

New York City—Last week Rep. Adam Clayton Powell, announced his resignation as pastor of Harlem's famed Abyssinian Baptist church where he has pastored since 1937.

The announcement climaxed a threatened revolt centering around Rep. Powell's opposition to a proposed visit to Harlem by the noted civil rights leaders, Dr. Martin Luther King, Jr. At the heights of the so-called revolt of various church members Rep. Powell reportedly dismissed the youthful Rev. Wyatt Tee Walker, 36, former top aide now on leave to Dr. King.

Dismissal

Rev. Mr. Walker had been appointed acting minister by Dr. Powell but was notified of his dismissal when he made a public statement to the press disagreeing with Dr. Powell's publicized warning to Dr. King to stay away from Harlem.

Rev. Walker's dismissal caused deep resentment among portions of the membership.

Abyssinian Baptist church which has been described as having the largest membership of any Protestant church in the world, was founded by its present pastor's father, Dr. Adam Clayton Powell, Sr., now deceased.

President Names W. Branton Assistant to Atty. General

Washington, D. C. — President Lyndon B. Johnson named Wiley Branton as Special Assistant to the Attorney General to step up voter registration and consolidate several civil rights agencies, it was announced Friday.

Functions

White House Press Secretary Bill Moyers revealed that functions of the President's Committee on Equal Employment Opportunity and the President's Council on Equal Opportunity would be transferred to Cabinet departments which have the power to get prompt action. The recommendations were made by Vice President Hubert Humphrey and concurred in by President Johnson.

Assistant

In announcing the President's appointment of Wiley Branton, Moyers said:

"The President met this morning with Mr. Wiley Branton, who is the Executive Secretary of the now-terminating Council on Equal Opportunity. Mr. Branton, at the President's and Vice President's request is going to become Special Assistant to the Attorney General.

Strengthen Agencies

The reorganization of various agencies to strengthen the civil rights efforts of the government was reported by Moyers as follows:

1. The Civil Service Commission will assume responsibility for insuring that the Federal Government in its employment, promotion and other personnel policies does not discriminate on the basis of race, creed, or color.

That will be done according to the Vice President's recommendation by Executive Order.

2. The Secretary of Labor, Mr. Wirtz, who has been Vice Chairman of the President's Committee on Equal Employment Opportunity, will assume the responsibility for reviewing discrimination complaints and insuring compliance by Government contractors with nondiscrimination principles and procedures.

Mass. Negro Enters Mayoralty Race

Springfield, Mass.—For the first time in the history of Springfield, Massachusetts, a Negro has announced his candidacy for mayor. Rev. Charles Cobb, resident of Springfield for fourteen years, made the announcement on Aug. 30th because, he said, "I felt it was important to get the story told."

Although his candidacy was precipitated by the incident of July 17th, Rev. Cobb maintains that he has tried not to conduct the campaign on the issue of civil rights alone. He is running on a platform which also includes improving city management "so that it concerns itself not just with drawing lines, but with the welfare of the people of this city." He feels also that urban renewal and industrial development have been seriously lacking in Springfield, as a result, he claims, of the social climate prevailing in the city.

The primary will be held on Monday, Oct. 4th.

Chicago, Ill.—Gospel singer Mahalia Jackson emerged from a "long, dark year," returning to the concert stage for the first time since she suffered a heart attack more than a year ago. An audience of 1,200 at a Port Huron, Mich., auditorium rose in a standing ovation as Miss Jackson made a brief reference to the heart attack which felled her on Sept. 15, 1964, in Chicago. Before the concert, she admitted being "a little scared," but warmed to the audience by intermission and finished strong.

Washington, D. C.—Mrs. Thurgood Marshall, wife of the U.S. Solicitor General and Mrs. George E. C. Hayes, wife of the prominent Washington attorney, are listed among vice chairmen for the United Nations Concert slated for Dec. 12 in Constitution Hall.

Lagos, Nigeria—The United States will get its first woman and Negro astronauts "when we find a woman or a Negro with the right qualifications," American Spaceman Gordon Cooper said last week. St. Louis, Mo.—A fast talking confidence man posed as a policeman and used his glib chatter to bilk a mid-town widow out of \$9,000—in cold cash! American Negro Elevated After 90 Years; Assigned To New Orleans District

Rome, Italy—On the eve of his historic trip to the United States Pope Paul VI, papal leader of the Catholic kingdom, announced Saturday the appointment of a Negro bishop, the first in 90 years, and the first American Negro to be named.

Appointment of the Very Rev. Harold R. Perry to be Auxiliary Bishop of New Orleans by Pope Paul was made jointly by the new Archbishop of New Orleans, the Most Rev. Philip Hannan and the former Archbishop of New Orleans, the Most Rev. John Patrick Cody, now Archbishop of Chicago.

Arrival

Pope Paul arrived in the United States early Monday morning for a hectic one-day official visit climaxed by his address for "peace" before the United Nations and his meeting with President Johnson in New York City.

The Most Rev. James Augustine Healy, son of an immigrant Irish planter and a Georgia slave girl, was the first American Negro to be named a bishop of the Catholic Church. He served as bishop of the Portland, Maine, diocese from 1875 to 1900.

"Surprise"

Father Perry, 49, born in Lake Charles, La., was present at the news conference when his appointment was announced by the two archbishops. "It was a surprise to me," he said. "I learned about it only yesterday."

Newsmen asked whether Father Perry was the first U. S. Negro Roman Catholic Bishop. Archbishops Cody and Hannan consulted some books and then Father Perry said:

First

"I am the first Negro bishop. The others did not consider themselves Negro." And Archbishop Hannan said, "We welcome the first American-born Negro bishop."

Father Perry, who served as rector of the Divine Word Major and

Minor Seminary at Bay St. Louis, Miss., from 1958 to 1964, was in Rome to participate in consecration ceremonies of another newly named bishop from the Divine Word order, Carlo Lewis, Auxiliary Bishop of Panama.

Divine-word Post

Father Perry, a member of the Divine Word missionaries order, was named superior of the southern province of the order, headquartered in Bay St. Louis, in 1964.

In New Orleans, the news of Father Perry's selection to be an auxiliary bishop came as a surprise to archdiocesan officials.

"This is terrific," said Father Elmo Romagosa, the archdiocesan public relations director. "But we didn't have the slightest idea that we were getting another bishop."

information, Academy Award winner Sidney Poitier has a question: "If you had an Asroc, would you eat it, wear it or buy it a leash?"

Unless you are a member of the U. S. Navy, you might have trouble identifying an Asroc, but as Poitier now knows, it is the very latest type anti-submarine rocket-torpedo.

Poitier is currently starring with Richard Widmark in Columbia's "The Bedford Incident," based on Mark Rascovich's best-selling novel. James B. Harris directed and co-produced the picture with Widmark.

The Des Moines Chapter wishes to make public the fact that it nor any member had any knowledge of, or part in a "Des Moines Report."

Apple Pie

Cool weather calls for hearty desserts—such as this tender, juicy Apple Pie—served warm.

Serve the all-time favorite, Apple Pie, for dessert tonight when hungry children trip in from school. It doesn't take long to make—and how pleased your family will be.

The recipe for the crust makes golden color and tenderness as easy... well, as easy as pie. The pretty design is no trick at all. Make one like it or draw upon your imagination plus a cookie cutter for your own version. Be sure, though, that there are openings in the top of the crust to let out flavor-laden steam from the baking apples. Press the top and bottom layers of pastry together and there'll be no spilling over of savory juices.

If you are hurried, order a baker's pie and pop it in a low-heat oven just before dinner is called.

Everyone is convinced that Apple Pie is good eating. Ever consider, though, that it has important nutrient contributions? The enriched flour in the crust contributes extra B-vitamins, food iron and protein. The apples add more vitamins and minerals.

Feature Apple Pie at your next dessert party. Trim the pie with wedges of sharp Cheddar cheese and serve along with a bowl of grapes and a dish of salted mixed nuts.

APPLE PIE

2 cups sifted enriched flour
1 teaspoon salt

1/2 cup shortening
5 to 5 1/2 tablespoons cold water

Sift together flour and salt. Cut or rub in shortening. Sprinkle with water, mixing lightly until dough begins to stick together. Divide dough in half and let stand while preparing Apple Filling. Roll out half of pastry to circle 1/2 inch thick and line pie pan with it. Fill with Apple Filling.

Roll out other half of pastry to circle to cover pie pan. Place on top of Apple Filling. Trim and flute edges. Cut design in top pastry. Bake in hot oven (450°F.) 15 minutes. Reduce to a moderate oven (350°F.) and continue baking 30 minutes, or until apples are tender.

Apple Filling

1 1/2 cups apples
3 tablespoons melted butter or margarine
1 teaspoon cinnamon

1 tablespoon lemon juice
1 cup sugar (about)
2 tablespoons enriched flour

Peel and slice apples. Mix lightly with butter or margarine and lemon juice. Combine sugar, flour and cinnamon and mix well with apples. Arrange evenly in pie shell.

Makes 1 9-inch apple pie.

The countryside has donned its resplendent wardrobe of autumnal colors. The brilliant hues of golds, oranges and reds against the fast fading greens, can never be duplicated on human canvas. It can only come from the palette of nature. Although each season has its own particular beauty, it seems a quirk of nature that the greatest brilliance and splash should paradoxically also be a dying out, the prelude before naked winter. However, the world series is here and for a moment in time summer will be here again—out at the old ball park.

I was surprised last week with an interesting call from my brother who is stationed in Fort Polk, La., not too far from the area where the recent hurricane tolled such disaster. The call was interesting in that it was an amateur radio-phone hook-up. For some time my brother had been trying to contact an amateur radio ham operator, with a strong enough set in Des Moines. My brother was using the Air Force Radio set at Fort Polk which he operates. The radio operator in Des Moines contacted us by phone and I could hear my brother talking and the Des Moines operator relayed my messages to my brother.

It was my first experience at hearing how message are relayed and the lingo that is used among operators. Naturally, I have heard television versions, but the real thing, is something else.

Some people have odd streaks of luck, or bad luck, whichever side of the coin of fate lands heads up for you. With Mrs. Stanley Griffin, 1608 44th street, it is cars.

Her latest involvement with the mechanical machine on wheels was that her own personal car was stolen. Seems she was late rushing to work and as she pulled onto a parking lot, a man stepped up and told her he was the attendant and would park her car for her. When she came out later for lunch she

saw the car was nowhere on the lot. Yes, it had been stolen! She notified the police.

However, later that same evening the car was found and returned to her. We wonder what the fate of the vehicle would have been if it had been a late model one.

Miss Lynda Walker, Drake student, regaled us recently with her experiences at the Girl Scout camp near Gary, Ind., last summer. City born and reared this was her first opportunity to live in the rough and serve as counselor (mostly sports and swimming) to young girls hailing mostly from buzzing metropolitan Chicago, Ill.

It seems the bottoms of three small lakes was overgrown with weeds and she and the girls had the cheerless job of cleaning it and pulling out the weeds. In addition, all the boats needed to be painted and caulked and were taken out one by one on the lake to test them for leaks. One day alone in a boat she said she was caught in a whirlpool and the boat just went around and around in circles. The girls and other staff members stood on the shore and shouted directions while she frantically tried to get out of the eddy. After a while she managed the seemingly impossible feat.

Another day she was painting trash barrels at the foot of a sloping hill near the lake shoreline when she had a visitor—a small skunk, who looked her over curiously before departing.

On the pleasanter side she reports that the girls were happy and looked forward to various experiences at the camp. She met several other counselors and staff members from around the nation. She and another girl from North Carolina were the only Negroes there but they all had a wonderful time.

One evening, according to the director's plan they departed for a night on the town, which turned out to be a trip to a nearby small town

THE NAACP HAS
DONE WELL IN 50 YEARS

Essentially, the hard core of the work the NAACP has done has taken place in the South and border states. But at the time of its beginning segregation and discrimination were strong in the North.

In spite of the civil rights law on the statute books discrimination in places of public accommodation was the rule. In Iowa Negroes had but few representative jobs: one in the city engineer's office, one in the county treasurer's office, a state house postmaster and a few policemen and of all two firemen.

All of this has been changed either by the NAACP directly or working through other groups to accomplish results. Racial discrimination is contrary to public policy and thus all the tools to bring Negroes up to first class citizenship prevail.

Today, the situation has changed tremendously for women, and for men except in the highly organized union trades. Education opportunities are such that no youngster, who wishes to pursue a course, need not fear that only he will determine whether he fails or succeeds.

Public accommodations are available without the least difficulty in first class facilities and also in some smaller ones which heretofore have dragged their feet in line without coercion.

The NAACP does not take credit for all these gains but the record shows that either it has taken the lead or worked closely hand in hand with those who have taken the responsibility of furthering the rights program.

Essentially, every Negro in Des Moines owes the NAACP his support whether he admits it or not for it has helped him get a better job, make more money, live in better housing and enjoy public accommodations without the embarrassment as occurred years ago. That support can best be expressed by joining the organization and attending its functions.

Saturday the Des Moines branch celebrates its 50th and the State Conference its 25th Anniversary. Don't be a free-loader and stay away because the tickets are not free.

POPE PAUL TAKES
PRACTICAL COURSE

Pope Paul VI came to America Monday in the interest of peace. Mindful of the atomic age, and the wars that are going on in trouble spots, the Pope felt that he owed the world his tremendous prestige in the interest of peace for all mankind.

Much has been written and said about the Pope's visit. It displayed before the world how the Roman Catholic Church performs some of its rituals which in the final analysis bear some similarity to that of all churches.

The Pope's predecessor was interested in better relations with other than Roman Catholics. Pope Paul has gone even further, for in this visit and others he has made, he has emphasized how and why men should live together in peace on earth rather than directing all of his energies toward the here-after.

Pope Paul is a greater Christian leader for having taken this forward step in helping men on earth solve their problems.

GOP STRIKES AT
JOHN BIRCH SOCIETY

Chiefs high up in Republican circles have announced that there is no place in the party for the John Birch Society. Coming from such men as Senators Dirksen and Morton, Chairman Bliss, and former Vice President Nixon, the pronouncements are meaningful.

Too long has America sat idly by and allowed such subversive right wing organizations, flourishing under the banner of patriotism, to parade in their campaigns of hate and illegal operations, taking the law in their own hands whenever the occasion arises.

Here in Iowa, the stinch of the organization is appearing; scandalous telephone messages are attacking innocent people. These groups help to divide the nation and thus weaken our whole structure.

They are picking up the pieces again and trying to guess what happened to the Hawks last weekend. We would have to say that we would have to say that Coach Burns is the finest coach we ever say of heard of whose strategy never seems to go according to plan. He has made some good calls with logic on his side, but they always turn out wrong. Of course, there have been times when we questioned his calls, but that is the privilege of a grandstand coach or quarterback and that didn't mean that the man had to be wrong. Just that we would not have done what he did.

Reasoning

The intentional safety in the Wisconsin game was probably a good call. Certainly the reasoning that promoted it wasn't bad. A good kick would have put Wisconsin in the hole. So the kick comes up short. The Badger quarterback throws a nine-mile pass and Iowa's 13-9 lead is gone just like that. And what happened to the running game that was so strong the week before?

With two line busters like Jerry O'Donnell and Silas McKinnie in there we don't think we would have passed on those two downs that preceded the safety. But again that is our Monday morning guess. Maybe if the Hawkeyes could have thought about it until Monday they would not have passed.

Well, if the guys are to have a winning season, they can lose just one more, what would you say? Maybe, they can make it.

Iowa State

There wasn't any question about what happened to Iowa State, Nebraska brought out so many Negroes they looked like Grambling or Florida A. and M. Where did they all come from? Well, a lot of them ought to be at Iowa University. We would place Nebraska as the nation's top team now, polls or no polls.

Drake

They tell us Drake has a regular crowd pleaser in a fullback named Brown who runs like a runaway truck and is just as hard to stop. And the people are going out to see the guy. As one writer put it Brown may not be the best fullback Drake ever had but he will do while we try to recall a better or more exciting one.

High Schools

Just can't pick these high school games. Tech just about ran Roosevelt out of the Drake Stadium a week ago and then turned up on the short end against North who had been flattened by Mason City. Then Roosevelt ties Lincoln considered by many to be the best team in the city. So where does that leave East? They dusted East Waterloo up there and that is no mean chore. Care to pick a winner in the City Series? Time was when coaches would rather die than have a Negro at quarterback. But now there are two of them at Tech and North. While we think of it we hope Jim Kirby's leg injury doesn't affect his track career.

Baseball

By the time you read this the Dodgers and Twins will be in the middle of the World Series. We remember we picked the Dodgers to win the National flag but we never did pick the Twins, to come through. Even in July and August we didn't believe what we were seeing and said no. Now, if you are a hunch better then take the Twins for the Series.

Drake Looks For
Happy Homecoming
In Football Saturday

Drake's "ball control" Bulldogs hope to make it a successful Homecoming Saturday by beating State College of Iowa.

The 1:30 p.m. football game in Drake Stadium is the 28th meeting of the old rivals with Drake boasting a 17-9-1 series advantage.

Last year SCI bounced the Bulldogs 41-14 and the Drakes still are smarting from that wound. It could be that things will be different this time, however, as the Bulldogs are 2-1 for the season while SCI is 0-4.

Nifty Halfback

Drake has a new star on the Bulldog horizon in Ray Brown, a 235-pound fullback who is as nifty as a halfback once he gets into the secondary.

In just three games, Brown has powered his way 350 yards on 50 rushes for a neat 7.0 average. Along with halfback Tom Ripmaster who has carried 40 times, he has helped the Bulldogs to 174 rushing plays, 72 more than the opponents.

MY ELEVATOR

This is my elevator—mine!
There are many other elevators, but this one is mine—
It is part of me—I am part of it.
We are one!
Together we help carry the burden, as up and down we go,
Letting passengers off at different floors
And trying at all times to please

each one.
We know there are three classes today—the good, the bad, the indifferent;
Some who say "thank you," some who don't, and some who seem to want the elevator all to themselves.
But we say, "Please make room for others," as we want to help all.
My elevator and I save many steps for you, my friend.
So please remember, elevator operators are human;

We work hard, too, and even though our work looks easy,
When the day is done, home the operator goes,
Tired, but happy in the knowledge that he has performed his duties well.
Remember, we all have our work to do—helping others as we would ourselves,
So my elevator and I are glad for the part we play and wish to say, "Thank you—come again."
—Bert Thomas, Elevator Operator

Says Negro Players
In Pro Football
From Small Schools

Chicago, Ill.—Of the 220 Negro players in professional football today more than one-third, or 80 of the Negro players, came from little-known Negro colleges, the October issue of Ebony magazine reports.

Tiny Grambling College in Grambling, La., leads the pack with 15 graduates playing professional ball, including All-Pro lineman Willie Davis of the Green Bay Packers.

The magazine notes that today there are more Grambling grads playing professional ball than there are Notre Dame grads.

Ebony credits the intense rivalry between the National Football League and the American Football League with the sudden interest in football players from all-Negro colleges.

With Negro players making up about 2 per cent of the total number of players in professional football today, the older National Football League has 140 Negro players while the American Football League has 80.

Obscure Negro colleges which are producing football stars include Jackson State, Florida A & M, South Carolina State, Allen University, Tennessee State, Fisk University, Morgan State and Alcorn College.
