School Board Ordered To Let Him Play; Will Appeal Case

Waterloo, Ia.—A 17-year-old married high school student won the first round of victory last Thursday, Jan. 20 when District Judge Blair Wood issued an injunction commanding the Waterloo School Board to let the student play on the East High school basketball team.

(Bulletin—The Waterloo School Board announced Tuesday it will appeal Judge Wood's ruling to the Iowa Supreme Court.)

School Supt. George Hohl said the order asked by Ronald Green will be obeyed and Green will be allowed to join the basketball squad immediately. He was one of the stars on the team last year which lost only one game during the season.

Up to Coach

Whether or not Green will be allowed to play any games will be up to Coach Murray Wier, said the superintendent.

School officials did not decide immediately whether to appeal Judge Wood's ruling to get final clarification on a board policy forbidding married pupils from taking part in extra-curricular activities such as sports and clubs.

Refusal

Green, a regular on last season's Waterloo East team that went to the state tournament, was married last summer. His bride, Sharon, is 16 years old. School officials subsequently refused him permission to join the team this season, and Green filed suit.

After 50 Years Working for the Railroad, W. C. Buice Is Enjoying His Retirement Days

BY FRANCES E. HAWTHORNE

Because a few friends express misgivings and apprehension as retirement approaches, some people find it difficult to adjust not having their regular job to go to work.

But not so with William C. Buice of 1070 17th street.

Mr. Buice retired on June 30, 1965 after 43 years as a pipe fitter and sheet metal worker, first class, with the Rock Island railroad. After six months of retirement he says, "It's wonderful!"

Doesn't Miss It

"Some people told me I would miss going to a job, but I don't," Mr. Buice said. "It's nice not having to get up at 5:30 in the morning; and after 50 years, I can rest a while."

"It's nice when you have planned for it and don't have to worry about the finances with retirement benefits and social security. And if you have no indebtedness and your home is paid for, you would be surprised how well you can do," he explained.

50 Years

Mr. Buice's 50 years of railroad work began in 1915 when he learned the pipe-fitting and sheet metal work as a helper for the Missouri Pacific Railroad at North Little Rock, Ark., not too far from his hometown, Conway, Ark.

He left the service of the Missouri Pacific Railroad on July 1, 1929 and was employed a month later by the Rock Island railroad, coming to Valley Junction (now West Des Moines). In 1936 the Rock Island terminal was moved to Des Moines.

Affiliations

Mr. Buice was among the company's most efficient and dependable mechanics in that line. He saw the decline of the steam locomotive and the arrival of the diesel engine, which was quite an improvement over the old steam engine.

He was among the charter members of the Rock Island Credit Union where he served as director and is presently serving as chairman of its auditing committee. He was also a

BUICE

member of the Sheet Metal Workers International Association, Local Union No. 1 in Kansas City, Mo.

Fraternal

Active in fraternal affairs, Mr. Buice was a past master of the former Cedar Valley Lodge No. 44, F. & A. M., Past Grand Worthy Patron of Electa Grand Chapter O.E.S., and is active in North Star Lodge No. 2, F. & A. M., which absorbed Cedar Valley members.

Finding time to serve his church and community Mr. Buice is a longtime member of Corinthian Baptist where he has served as Superintendent of the Sunday school, chairman of the Board of Trustees and at present is church treasurer. He has been a member of the Y.M.C.A. for 40 years and is a charter member of the new building at 1st and Locust street. At one time he served as chairman of the board of the old Crocker Y.M.C.A.

Retirement Years

A member of the NAACP for over 35 years he is past president of the Monarch club, Inc., and now is its treasurer.

In his retirement years Mr. Buice is looking forward to an active but

Alabama Democrats Drop 'White Supremacy' Motto

Birmingham, Ala.—The state Democratic Executive Committee, ruling body of the Democratic Party in Alabama abandoned its "white supremacy" motto Saturday rather than risk the threatened loss of Negro votes in this year's election. The slogan was struck from the official

party emblem on a voice ballot despite angry cries from states righters, who demanded a record vote.

Loyalists

The committee, with national party loyalist members in firm control had decided on a secret ballot

to meet the white supremacy issue, but agreed on a voice vote after a motion to table the rule change had been beaten on a secret paper ballot, 40-31.

Historic

As a result of the historic decision the official party emblem which goes on the ballot in Alabama will carry a drawing of a crowing rooster with the word, "Democrats," at the top, and "For the Right" below the figure of the rooster.

Supreme Court Denies Watts Claim of 'Gross Negligence' Calif. Commission Disagrees

Los Angeles, Calif.—A California advisory committee said Saturday the governor's commission report on the Watts riots is "a bitter disappointment" that "prescribes aspirin where surgery is required."

The committee accused Mayor Samuel W. Yorty and Chief of Police William H. Parker of "gross negligence" in advance of August's Negro riots that left 34 persons dead and caused \$40 million damage.

The report deplored "absence of constructive steps to avert a riot, and the lack of preparation for dealing with one when it occurred."

It concluded that the governor's commission report "white-washed" Chief Parker.

The advisory committee consists of 14 Californians appointed by the Civil Rights Commission and headed by Episcopal Bishop James A. Pike of San Francisco. Three members, including a Los Angeles municipal judge and state assemblyman, are Negroes. Such unpaid committees have been established in all states.

High Court

Washington, D. C.—An appeal that contended hundreds of persons arrested after rioting last August in the Watts area of Los Angeles were not provided adequate council, was rejected Monday by the U. S. Supreme court.

The appeal was filed by the Legal Defense Fund of the National Association for the Advancement of Colored People. It said the Los Angeles County public defender's office had been swamped by the load of providing legal counsel for indigent persons among about 4,000 arrested.

D.M. Postoffice Set For Modernization

Des Moines is among 104 cities included in the first phase of a massive, nationwide postal modernization program announced by Postmaster General Lawrence F. O'Brien, Postmaster John P. McNerney said today.

New mechanization scheduled for Des Moines includes: Letter Sorting Machine and Facer Cancellor. Postmaster McNerney said the new machinery will be contracted for by the end of this fiscal year—by June 30.

Elect Gladys Hurt Chairman Of Willkie Poverty Group

The Willkie House service area of the anti-poverty program elected Mrs. Gladys Hurt of 1931 Leyner street as chairman and also designated her to represent the Willkie House group in the Polk County Community Action Council. By-laws were also adopted as the group officially organized last Thursday night.

Mrs. JoeAnne Cheatom of 1105 Fourteenth place was elected vice-chairman; Mrs. Josephine Jones of 947 Sixteenth st. was elected secretary-treasurer.

Mrs. Marri Johnson of 2407 Garfield ave., urged that all members be allowed to vote.

"If we care and want to help, I think we should be able to vote," Mrs. Johnson said.

Mrs. Myrtle Myers of 732 Twenty-seventh st. said, "There are a lot of apartment houses in this area that are owned by non-residents. We want them to participate if they're interested in this area. If they're not interested in this area, we don't want them to come in and vote against any projects we might have to raise the standards in some of these apartment houses."

"There are some people who don't care how you live or where you live. This article is designed to protect people in the Willkie area from that," Mrs. Myers said.

Could Be Officers

Later, leaders of the group said that non-voting members could serve as officers of the organization.

The next meeting of the Willkie group will be at 8 p.m. Feb. 24 at Willkie House, 900 Seventeenth st. The Willkie area is bounded by

Twenty-eighth street on the west, University avenue on the north, Keosauqua way on the east and Ingersoll avenue and High street on the south.

Woodland Area To Meet Friday

An anti-poverty meeting is scheduled for the Woodland Service Area at 7:30 p.m. Friday, Jan. 28 at Macedonia Baptist Church.

That group plans to adopt by-laws and elect officers that night.

The Woodland Area is bounded by 24th street on the east, 28th street on the west, High street on the south and Kingman boulevard on the north.

West Des Moines Forms Group

Another neighborhood organization which could receive federal anti-poverty funds through the Polk County Community Action Council moved toward formation Thursday night, Jan. 20, as a West Des Moines group was named.

After two speakers explained that such a body was practically the only means by which a low-income area could make itself heard, about 30 persons, gathered at the Mount Hebron Baptist Church, began formation of the West Des Moines Betterment League, elected officers and formed committees to draft bylaws and a list of needed projects.

The group was formerly known as The West Des Moines Improvement Council.

Mrs. Dorothy Pryor of 200 8th street was elected chairman. Mrs. Victor Monoz was elected secretary.

President Names Lisle Carter Assistant Secretary of HEW

Washington, D. C.—President Lyndon B. Johnson announced Saturday the appointment of Lisle C. Carter of New York City as Assistant Secretary of the Department of Health, Education and Welfare. Mr. Carter becomes the first Negro to hold the rank of Assistant Secretary in the history of HEW.

The President's appointment of Carter came shortly after the history-making appointment of Dr. Robert C. Weaver to the Cabinet as Secretary of the new Department of Housing and Urban Development. Besides Mr. Carter, two other Negroes hold the Assistant Secretary rank in major departments, George L. P. Weaver in the Department of Labor and Dr. Andrew Brimmer in the Department of Commerce.

Mr. Carter, 40, is presently an Assistant Director of the Office of Economic Opportunity. Before his appointment to that position in November 1964, he served as a Deputy Assistant Secretary in the Department of Health, Education, and Welfare.

U.S. Registrar Assigned to Birmingham After Pressure

Birmingham — Finally responding to repeated urging by the National Association for the Advancement of Colored People, the Southern Christian Leadership Conference and others, Attorney General Nicholas B. Katzenbach has agreed to send a task force of 20 Federal examiners to speed registration in the Birmingham area.

Intensive Drive
Last October, when the NAACP launched its intensive drive to enlarge the number of registered Negro voters in the city, Dr. John

Nixon, president of the Birmingham NAACP Branch, and W. C. Patton, the Association's field director for voter registration, called for assignment of Federal registrars. This request was repeated both by the NAACP and by the SCLC which began, in January, a series of demonstrations.

Co-operation
Meanwhile, the NAACP drive, which enlisted the cooperation of churches, civic associations and other organizations, succeeded, by December 1, in adding approximately

GIRLS LEARN WHITE-COLLAR SKILLS IN NEW INDUSTRY TRAINING PROGRAM

Culver City, Cal.—"This work is meaningful; I can see the results," commented a tall Negro who is actively involved in an unusual project to train underprivileged girls for jobs.

John Harris is instructor in a Hughes Aircraft Company program to train 20 young women from the center of Los Angeles' poverty areas to be secretaries and clerk-typists.

Goals
The real goal of the 30-week program is, of course, a job—"and for some of these girls a secretarial position will mean the first white-collar job in their family history," Harris said.

But he already has seen many results of the program, such as better grooming (achieved by lectures on cosmetics and dress), better voices (lectures on telephone manners), (each girl must punch a time clock),

and better skills (although more than half are high school graduates, some girls have looked for jobs for months or even years without success).

Other Ways
"Being under-privileged in terms of money is only a small part of the problem," he said. "It's being under-privileged in so many other ways that builds the barrier. I can see that most of these girls will qualify for jobs but it's hard to convince them that they can be successful. Some have been rejected so many times that they don't believe success is possible."

The Hughes program is one of those conducted under contract with the Economic and Youth Opportunities Agency, the Los Angeles arm of the federal Manpower Development Training Program.

TRAINING COURSE FOR HOME HEALTH AIDES-HOMEMAKERS — TO START FEB. 7

A course for training additional Home Health Aides-Homemakers to work in the Des Moines-Polk County Home Care-Homemaker Service is set to start Feb. 7, at the Argonne Armory Building, East First and Des Moines Streets, according to Dr. Julius S. Conner, City-County Health

Director. The course will train 11,000 names of Negro voters to the rolls, without the aid of Federal registrars. In the county about 42,000 Negroes are now registered. Although they constitute 31 per cent of the population of Jefferson County, Negroes are only about 21 per cent of the registered voters. The NAACP campaign is designed to correct this imbalance.

In Washington, Mr. Katzenbach said the registrars would be assigned to Bessemer and Fairfield as well as to Birmingham. All these cities are in Jefferson County which is the 37th county to which Federal examiners have been assigned under the Voting Rights Act of 1965.

5-Day Course
The five-day course will be taught

by members of health and casework agencies; physicians, educators, public health nurses, home economists and caseworkers will instruct the Home Health Aides-Homemakers for their work in homes with families in time of illness or disability. Certificates will be provided by the Department of Adult Education, Des Moines Public Schools, on completion of the course. There is no fee charged for the training and no allowance is paid to the trainees attending the course.

Contact
"Interested persons should contact Mrs. G. I. G. Shambaugh, the Home-maker Services' Director, at the Health Department, Argonne Armory Building, as soon as possible," Dr. Conner said.

Women employed for the Service will be selected from graduates of the course. Only graduates of the course will be assigned by the Home-maker Service. Also, each trainee will be given a physical examination, including a chest x-ray, prior to assignment as a certified Home Health Aide-Homemaker.

Supremacy

SEE FRONT PAGE Since 1904

Since 1904, the emblem had carried the motto "White Supremacy . . . For the Right," accompanying the picture of the crowing rooster.

Some Negro civil rights leaders had threatened to leave the party if the white supremacy motto stayed. And in the opinion of some party leaders, the loss of a potential 150,000 to 175,000 Negro votes would mean the election of more Republican office holders in a state where the G. O. P. has shown significant signs of growth in recent years.

Gov. George Wallace, although not a committee member, had flown to Birmingham with the announced intent of speaking to the assembled party leaders. He left abruptly for Montgomery after the first test vote showed that old line party regulars were in charge and states rights committee members in the minority.

Negro Slain in Street
Argument in Ala.;
White Cattleman Held

Camden, Ala.—James T. Reeves, 46, a white cattleman and farmer was charged with shooting to death David Colston, a Negro, about 32, of Camden in a street argument which followed an auto collision.

Wilcox County Sheriff P. C. Jenkins said Reeves apparently bumped into the rear of Colston's car and Colston got out and argued with Reeves. Sheriff Jenkins said Reeves, who was alone in his vehicle, didn't get out and shot from inside the car with a .32 caliber pistol.

Roy Wilkins, executive director of the National Association for the Advancement of Colored People, said in New York Sunday night the N.A.A.C.P. would enter the case.

Colston's brother, Paul Thompson of St. Albans, N. Y., an N.A.A.C.P. member, appealed to the civil rights organization to investigate the matter.

Thompson said his brother belonged to no civil rights organizations. "He was a good, church-going man," he added. "He wouldn't bother anyone."

Sheriff Jenkins said the incident had "no business at all with civil rights." He said neither person involved was, to his knowledge, involved in the civil rights movement.

Farmer Asks Unity Between Rights, Anti-Poverty Group

New York—At its Thursday Community meeting, Associated Community Teams, Harlem anti-poverty agency, heard James Farmer, former national director of the Congress On Racial Equality, and presently director of a national anti-poverty organization which is to deal with problems of Negro education and employment, explain how "the civil rights movement and the anti-poverty war must act in concert—and complement each other."

During his speech before more than 200 of ACT's Harlem Domestic Peace Corpsmen, the former rights chieftain explains how civil rights gains must be put into perspective with the fact that Negroes are "three times more unemployed than are white people."

Bishop Thomas Writes On Minister Recruiting

The family and the local church are crucial factors in recruiting ministers according to the Methodist Bishop of Iowa.

Bishop James S. Thomas of Des Moines, writing in the February Iowa News Edition of Methodism's Together magazine, called upon parents

BISHOP THOMAS

"to help open doors through which some young person might hear and respond to God's call to Him" and asked church leaders to "make our local church the kind of community of love that will both produce preachers and be the kind of church that preachers will want to serve."

Bishop Thomas' remarks on recruitment came in an article in which he said, "All of our efforts (in ministerial recruitment) will come to focus in the Convocation on the Ministry at Grace Church, Des Moines, on Feb. 25."

HEALTH FOR ALL

KILLER IN THE NIGHT

That cheery glow of warmth from the gas heater can make all the difference on a frigid winter night when the central heating has been shut off until morning.

It can make all the difference between waking up and not waking up in the morning—between life and death. In spite of laws regulating the use of gas heaters in most communities, each winter still brings a tragic harvest of fatalities due to carbon monoxide poisoning.

Disaster

This disaster can happen when the heating device is defective or not properly vented to the open air, or when there is no supply of fresh air in the room. The sleeping victim can become asphyxiated and die without regaining consciousness. If he is lucky enough to be awakened by symptoms of carbon monoxide poisoning should warn him to get out of bed and take the first immediate step necessary to save his life—the

opening of a window or door to admit some fresh air.

Symptoms

Making a physical effort won't be easy. The symptoms include not only headache, faintness, dizziness, ringing in the ears and nausea, but also a tremendous lethargy and loss of purpose. Despite a possible feeling of "Oh, who needs to bother", any suspicion that there is carbon monoxide in the air should make one summon every ounce of will power to get out of bed, turn off the guilty appliance, and ventilate the room.

Suggestions

Your Christmas Seal association suggests: If you should be present at the scene where some one has been affected by carbon monoxide or any gas poisoning, your first necessary steps are: (a) move the victim into fresh air; (b) if breathing is poor or pulse has stopped, give artificial respiration; (c) summon medical aid by phoning police emergency service, a hospital, or a doctor.

Derek was born with water on the brain, a serious birth defect which endangered his sight, his mind and even his life. Surgeons at a March of Dimes Birth Defects Center inserted a "shunt" tube under his scalp to drain excess fluid which caused pressure on the brain. Today, Derek is able to keep up with his normal sisters in all their activities. Contributions to the March of Dimes help support 57 Birth Defects Centers across the nation for care and treatment of problems similar to Derek's.

Cool and Glamorous Refrigerator Dessert

This is one of the pretties found in JUST DESSERTS, the newest booklet from the Beet Sugar Testing Kitchen. For a free copy of this 32-page treasure, write to Nancy Haven, Western Beet Sugar Producers, Inc., 2 Pine Street, San Francisco 11, California.

APRICOT RING-AROUND

- | | |
|----------------------------------|-------------------------------|
| 1 cup beet or cane sugar | 1 envelope unflavored gelatin |
| 3 eggs, separated | 4 tablespoons lemon juice |
| 1½ cups peeled, cut-up | 1/4 cup whipping cream |
| fresh apricots (takes 8) | 12 ladyfingers, split in half |
| 1 tablespoon butter or margarine | |

Beat together in top section of double boiler 2/3 cup of the sugar (use either beet or cane), egg yolks and apricots. Place over boiling water and cook until thickened, about 10 minutes, stirring frequently. Remove from heat; add butter or margarine. Soften gelatin in lemon juice, then stir into hot custard; cool until partially set. Beat egg whites until foamy; gradually add remaining 1/3 cup beet or cane sugar, beating to make a stiff meringue. Fold into custard with cream, whipped until stiff. Set ladyfingers around edge of small tube pan (or use a ring mold with paper collar to add depth). Spoon in apricot mixture; chill until set. Unmold on serving plate; decorate with apricot halves and mint leaves. Top with whipped cream, if desired. Serves 8 to 10.

January, the baby of the New Year is bowing out and February the holiday month steps sprightly into the picture. Parties flare again and special days are there to be celebrated; so are special weeks. There is Negro History week, which begins with the second Sunday in February, covering Valentine's Day, Human Relations Sunday and Week, Brotherhood Week, Lincoln's Birthday, George Washington's birthday, and if you scrounge around you probably could come up with a few other special days or weeks . . . in February.

This is Y.M.C.A. week so if you have a few moments why don't you stop in at the Y for a brief look-see and tour, as they have invited you.

During the football season they talked about Iowa Hawkeye fans, but it seems that their partisan tenacity and ferociousness was matched by Drake basketball fans last Saturday afternoon during the game with Wichita. My husband and two sons were among the throng and they reported that at one point police had to be brought in to quell the furor of the crowd who were throwing debris and what have you on the floor in protest of a referee's call. In addition it seems they sat near a man who throughout the game continuously called the referee what names he could command in a loud, angry voice.

It seems that the display of unbridled emotions in public becomes more prevalent everyday. It is paralleled by the flaunting of indifferent and callous unconcern for those around them. The hit and run accident in which some motorists drove around the fallen victim substantiate that.

When the pictures of the four Drake coeds appeared in the daily paper earlier this week we glanced at the picture, and even though we saw the name Georgene Dixon, it did not ring a bell.

A few hours later Mrs. Catherine Thompson, 1168 11th street, phoned to call our attention to the picture

and story. She is Miss Dixon's hairdresser and when she saw the young lady last week she had told her about the contest. When Mrs. Thompson saw the picture she immediately rang up Miss Dixon to congratulate her.

We immediately tried to contact Miss Dixon and left our name and phone number when we learned she was out. Hardly an hour had passed before her uncle, Mr. Everett Mays, 701 Hull avenue, called about his niece and her picture. We assured him that our attention had been focused on the picture and the following day Miss Dixon, with her soft gracious voice, returned our call, as it had been "too late" the previous evening to do so.

When we talked to Mrs. Joseph Wimberly, 2720 Amick avenue, earlier this week, she told us that she had taken her husband back to Veteran's hospital where he was scheduled to undergo surgery Wednesday.

Last week we were among those attending the annual installation dinner of the Women's Auxiliary of the United Federation of Postal Clerks. The event was held at Michael's restaurant on Fleur drive. It has been held there the past three years but somehow we have a feeling that this year may just be the last. Somehow there was such a flow of bone chilling cold air along the floor of the groups' private room that it had us all complaining and vowing never to set foot in the place again.

G.O.P. BIDDING FOR MINORITIES IN CITIES

Chairman Bliss of the Republican National Committee is working on plans to secure more votes in the thickly populated cities where the Democrat strongholds have enabled them to carry state and national elections in recent years.

He has invited chairmen from states with large populated cities to conference to devise how the job can be done.

During the past two presidential campaigns, Negroes have been practically ignored as a part of the national organization. Prior to then Negro newspaper supporters and prominent Republicans were called to national headquarters for conferences which helped them feel they were a part of the machinery and were recognized as such.

The campaign of 1960 saw the beginning of an elimination of these contacts; it was made to total in 1964. The Republican party has an opportunity to make substantial gains this year but they will not if the John Birch Society leaders get control of the party machinery as was done in 1964.

President Johnson is making a record with minorities which cannot be ignored but must be met with a practical constructive program.

"AN EQUAL OPPORTUNITY EMPLOYER" AN INVITATION

A casual glance at advertising being placed by many large national corporations in newspapers show that they include the statement "an equal opportunity employer." Some local corporations do the same when in quest of employees. This is notice to the readers that the concerns subscribe to the policy and are willing to so inform the public.

This invitation places an obligation upon minorities to present themselves for employment. If they are not qualified, they must do so before making application; if it is a job where a man may begin at the lower level and work up, he should take the job and strive for promotion.

There are men and women who are underemployed because of their race. Some fear reprisals if they ask for promotions, contenting themselves with standing still doing what they have been doing in past. There is no longer reason to fear. Others have broken out of the pattern. Minorities can do likewise.

CASPER SCHENK

Casper Schenk, formerly a resident of Des Moines, died in California recently.

An able lawyer with broad background, he was vitally interested in civil rights. He was one of the founders of the Des Moines branch NAACP and served on its board and legal redress committee for many years. He was one of the founders of the Des Moines Interracial Commission.

Schenk was in the fight for civil rights when the cause was not particularly popular. Some will remember that he was a stalwart supporter in the fight on segregation in the theatres and eating places which was climaxed by the victor which stopped Katz Drug store from discrimination; others followed suit.

He joined in opposing discriminatory legislation, the most notable being defeat of the intermarriage bill in the Iowa legislature. It was he, along with Harvey Ingham and George Woodson, who made the argument before the committee which eventually killed the measure.

Schenk, along with the late S. Joe Brown, George Woodson, Harvey Ingham, over the years never passed up an opportunity to challenge racial discrimination and an equal chance for minorities to live and prosper in their chosen fields. These men, along with many others both dead and living, helped make life easier, more secure in Des Moines and other areas in Iowa.

Chrysler Appoints Don M. Thomas

Detroit—Appointment of Don M. Thomas as a personnel staff executive in Chrysler Corporation's personnel placement, recruitment and development office was announced today by Robert F. Bowers, director of personnel relations.

Thomas, a native of Oberlin, Ohio, joins Chrysler Corporation from

Well sir, that was a mad scramble from the Drake game to a TV screen to watch the Iowa game. Both Drake and Iowa U. posted what were called upset wins over strong conference rivals. But upset, or not, they helped to put both teams on the right track with hopes for a possible title still alive. Of course, the roughest part of the season schedule is still ahead for both teams but who looks around corners.

Iowa State made it a clean sweep by coming in on the winning side but they can't have too many title hopes with four losses.

In both the Big Ten and the Missouri Valley the ultimate winner can lose two or three games and still come through. Now we see that analysts are explaining the large number of Negro basketball and football players by the old story of bigger hands, feet and larger arms, better co-ordination than that possessed by white athletes. That same argument was advanced by people when Negroes were running away with sprinting and broad jumping titles. But when the white boys began to stage a comeback we used to wonder if they had developed a special breed of white runner and jumper.

Then came the period in boxing when Negroes held all the boxing titles from the heavyweight to the bantamweight; at that time we were supposed to have a special inherited skill with our hands that made us better boxers. Then as he white boys gradually caught with our best Negro boys we wondered what happened to our natural talents. Had the white people stolen them? And so now it comes to the football and basketball areas. But how do these experts explain the fact that every so often the pendulum swings back the other way?

If we had to explain this upsurge of Negroes in the various branches we would say that only the cream of the crop of Negro athletes gets to show. The mediocre white boy can often be a substitute on his team but very few Negroes can. They have to be good or forget it. And if they are good they are just naturally stars or standouts. Hard work plus the fact that they are the best of their bunch usually pays off. But lets not have any more of this nonsense about large arms, bigger hands or feet and similar stuff.

This is the hardest part of the year to get out a column; there is a lull between all sports and we can't rehash a basketball game that was played last week. So we listened while a friend of ours told us about Ankeny High's wrestler, Jason Smith. This was probably the best of all the high school wrestlers around here and we ought to see him. Then we started looking up reports on the boy and by golly the fellow is good. Won the Suburban conference for 1965 title with all pins.

We understand that Roosevelt's Kim Whitney probably the first Negro to play on a Rider cage team, nearly went to Dowling. He would have made a big difference over there. As we always claim name the local high school sport, and sooner or later, a Negro will break-in.

In addition he and his wife, Orea, plan to travel and see some of the U.S.A. They spent Thanksgiving in Cleveland, Ohio with their nephews and nieces, Mr. and Mrs. Thomas Hall and Mr. and Mrs. Huel Harper and the Christmas holidays with a brother and his wife, Mr. and Mrs. Chester Buice of Chicago, Ill. Briefly—In Sports

London — "Hammering" Henry Armstrong, the only man ever to hold three world boxing titles at the same time, becomes the first Negro sports figure to be honored by the Anglo-Saxon Sporting club when he is cited at a dinner in the London Hilton Hotel, Jan. 17. Since retiring, Armstrong has switched to gentler pursuits and is now pastoring a church in California.

Philadelphia — They stopped the game and presented the ball to him in tribute as a crowd of 2,757 cheered noisily. That tribute paid to Wilt Chamberlain, the greatest scoring machine in basketball history, as he topped the 20,000 scoring mark in leading the Philadelphia 76ers to a 133-122 victory over the New York Knickerbockers. Chamberlain thus becomes the second in NBA history to crash the 20,000 mark—the first being former St. Louis Hawks' star Bob Pettit.

Elizabeth City, N. C.—Elizabeth City State Teachers college integrated its basketball team in reverse recently, when Terry Quinlan became the first white player on the team in the history of the school. Other starters are Leevon Lansden, Alexander Thweatt, Roy Belfield and James Williams.

Elston Howard Signs \$60,000 Pact with Yanks

New York, N. Y.—Elston Howard signed his 1966 contract Wednesday for an estimated \$60,000 to become the third member of the New York Yankees to agree to terms.

The catcher, who will be 37 next month, received the same salary as last year despite the fact that he played in only 110 games, many as a pinch hitter, and batted only .233, his lowest mark in 11 seasons in a Yankee uniform.

This is in line with General Manager Ralph Houk's stated policy not to cut the salary of a player whose work was affected by illness or injury last year.

Howard chipped a bone in his right elbow in a spring exhibition game, necessitating an operation which kept the former All-Star catcher out of action for more than five weeks.

Police Charge

Davenport, Ia. — William Cribbs, Davenport civil rights leader, charged Jan. 19 that Negroes had been mistreated by Davenport police in recent investigations of complaints.

He commented in connection with a closed meeting attended by city officials, representatives of the National Association for the Advancement of Colored People (N.A.A.C.P.) and a Catholic inter-racial group.

Police Chief Les Jurgens said the charges would be investigated.

Mayor John Jebens told reporters that instruction of policemen in race relations will be a part of a training program he is starting.

Civil rights leaders said an outside law enforcement official who is expert in race relations was needed for such training.

There were once three squaws. One sat on an elephant skin. One sat on a deer skin. The third sat on a hippopotamus skin. The squaw on the elephant skin had one son. The squaw on the deer skin had one son. The squaw on the hippopotamus skin had twin sons. This all goes to prove that the squaw on the hippopotamus is equal to the sons of the squaws on the other two hides.
