Police and Patrol Use Gas and Clubs to Halt Demonstrations

Lorman, Miss. — Student demonstration at Alcorn A. & M. College aimed at trying to unseat the president of the all-Negro school went into its third day here Tuesday when Highway Patrol dispersed some 2,000 Negroes Tuesday night with tear gas. The violence erupted when the patrol men tried to clear a highway.

The fighting broke out at the edge of Alcorn A. & M. College campus, scene of two days of demonstrations by civil rights forces seeking to depose J. D. Boyd, president of the Negro school.

The patrolmen stepped out along the road, holding carbines across their chest. A few walked into the crowd, a Negro shoved a trooper and tried to seize his rifle.

As they struggled, another trooper slugged the Negro on the head with a billyclub. The crowd roared.

A Negro youth leaped onto the hood of a parked car and threw a soft drink bottle into the face of the patrolman who wielded the billyclub.

Reinforcements then surged into the crowd, adjusting their gas masks as they ran. Voles of tear gas grenades arched into the crowd and burst, sending choking fumes into the chill night air.

The patrolmen followed up with more grenades, pitching some into the tin roofed grocery which has served as a rallying point and into a nearby cafe.

The Negroes, screaming, cursing and choking, scattered into the darkness behind the grocery store.

Dr. King, Belafonte End Tour Of European Cities for SCLC

Atlanta, Ga.—Dr. Martin Luther King, Jr. and entertainer Harry Belafonte have just ended a triumphant tour of three European cities—Paris and Lyons, France, and Stockholm, Sweden, in behalf of the Southern Christian Leadership Conference.

The tour's first night was an overwhelming success when 5,000 persons filled the Palais des Sports in Paris and received the gala civil rights program with unanimous acclaim.

The Paris affair was sponsored by a group of American citizens in Paris and representatives of the French Protestant Church.

Festival

The movement festival was a gigantic effort to support, both financially and morally, the work of Dr. King and SCLC.

Dr. King was introduced by Professor Jacques Monod, Nobel Prize winner for Medicine in 1965, and Belafonte was presented by noted French singer, Yves Montand.

The successful tour reached a ringing crescendo in Stockholm, Sweden, when the sponsoring group, the Martin Luther King Fund, prepared what was described as the most illustrious reception ever accorded the civil rights movement by a European nation.

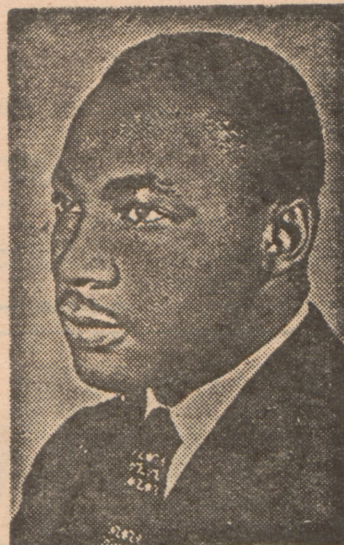

King Gustav

Prime Minister Tage Erlander served as host. King Gustav elegantly and courteously received Dr. and Mrs. King and Mr. Belafonte.

First Case; Launches Attack On Housing Discrimination

New Bern, N.C.—A hearing for a declaratory judgment and for an injunction against the Housing Authority of the city of New Bern was held in the Federal District Court of the New Bern, North Carolina Division, Friday, March 25th.

Attorneys of the NAACP Legal Defense Fund argued that the Housing Authority is using leases, which

are in violation of the U.S. Constitution; unfair negotiations with tenants; is evicting tenants without granting fair hearings; evicting tenants on grounds that they have illegitimate children; segregating on the basis of race, charging Negro tenants more; and failing to accept tenants on grounds that their children are under two years of age. This is the first case of its kind.

Mrs. Harper Named Master Teacher in K. C.

Atchison, Kas.—Mrs. Evelyn Regina Harper, reading specialist in the Atchison high school, was one of seven Kansas teachers who received the 1966 Master Teacher award Tuesday, March 29, at a dinner held at the Kansas State Teachers' college in Emporia.

Each year, the college selects outstanding educators in the state to receive this award.

The awards were presented by Dr. Don E. Davis, president of the College of the Ozarks in Clarksville, Ark., who was guest speaker at the dinner.

MRS. HARPER

The Master Teachers were nominated for their awards by local teacher associations and school faculties and were selected from approximately 90 nominees in the state of Kansas.

This is the second honor recognizing Mrs. Harper for excellence in her profession. In November, she was named the 1966 Kansas Teacher of the year by Adel F. Throckmorton, state superintendent of public instruction, and is the Kansas candidate for 1966 National Teacher of the Year.

Mrs. Harper received the 1966 Wichita Urban League's Award on Saturday, March 19, at Wichita.

Big Tax Payment By Telephone Company

A check for \$266,068.75 is on its way to the County Treasurer from Northwestern Bell Telephone Company, according to J. E. Trabert, the company's district manager. It covers the first half of the company's 1965 operating property tax. The year's total is \$532,137.22. The current year's payments are 42.63 percent greater than for 1960, only five years ago.

Northwestern Bell has property in each of Iowa's 99 counties. The payments are credited to the various taxing districts in which the property is located—a total of 3,272 different tax districts. The company's total Iowa property tax payments this year are \$7,281,603.83—almost \$3 million greater than five years ago, the company manager points out.

HEALTH FOR ALL

NOT SO RARE

The medical profession in general isn't taking enough interest in a very troublesome disease, according to an eminent citizen whose right to discuss the matter would be hard to dispute.

Dr. Carl Muschenheim, an authority on tuberculosis, points out that TB is by no means a "rare or even uncommon disease". Writing in a medical journal published by the American Thoracic Society (medical section of the National Tuberculosis Association), he suggests that TB sickness and death rates might decrease faster if doctors, particularly internists, considered the disease as much a matter of their concern as the ailments they commonly deal with.

How can this be made to happen? One effective way, he believes, would be to get people who run hospitals to "revise obsolete rules which prohibit the admission into general hospitals of patients who need care for tuberculosis."

Sealing Off

The idea of sealing off TB patients from the rest of humanity is a throwback to old times when treatment consisted mainly of fresh air, bed rest, and prayer. Today's treatment, using potent drugs, greatly reduces infectiousness. Infection is still a danger from people with TB who haven't been detected and

treated, but not from those hospitalized under modern drug therapy. Along with the "overspecialization of hospitals, says Dr. Muschenheim, goes a tendency to underemphasize TB in medical training.

Active

At present 110,000 Americans have active tuberculosis, more than 50,000 new cases are reported yearly, and about 10,000 former patients relapse. Your Christmas Seal organization believes, with Dr. Carl Muschenheim, that "a re-awakening of interest, particularly in the academic sector of internal medicine, will hasten the rate with which unnecessary death and disability from tuberculosis will disappear from the world". For a timely pamphlet, "Facts About TB and RD," ask your County TB and Health Ass'n., or write to the Iowa TB & Health Ass'n., 1818 High St., Des Moines, Iowa 50309.

Artists' Paintings For N.W. Bell Calendar

Iowa artists are being invited to submit paintings for reproduction in Northwestern Bell Telephone Company's 1967 Appointment Calendar. The invitation is similar to one a year ago when 66 Iowans submitted 176 entries for consideration of which three were selected for the 1966 calendar.

While announcements have already been mailed to both professional and amateur artists, additional copies are available at the Northwestern Bell business office. The brochure suggests that a wide variety of both contemporary and historical scenes of the Upper Midlands would be appropriate and that all techniques, mediums and sizes will be considered. Entries must be submitted by May 31, 1966.

The company has been producing daily appointment calendars for a number of years. The 1966 calendar, which is the second to use reproductions of paintings, has had widespread favorable comment from individuals in all walks of life, according to the company announcement.

Easter Egg . . .

An Ancient Symbol

Primitive man fed on the eggs he found in fields . . . Eggs were more than just food however! An egg could generate life. So he revered it as a symbol of life.

Today, egg production is an important part of the economy of every country. Eggs are a major staple food—rich in proteins, minerals, fats and vitamins . . . but the ancient, mystic regard for the egg survives.

For example, the practice of coloring and eating eggs at Easter is of ancient origin. It was practiced by early Egyptians at every Spring Festival: the egg being regarded by them as a symbol of Renewed Life—preceding our custom by over 4000 years.

Cake of the Month

It's a Happy Easter indeed when bonnets and cakes alike can be decorated with lovely and colorful flowers. Plenty of time to see the Easter Parade, too, when you bake your cake with the new instant yellow cake mix that's unbelievably faster to mix than ever before. A Lemon Cream Frosting covers tops and sides of the layers, while hyacinths bloom around the sides of the cake in pale green and lavender frosting. A lovely tribute to a very special day!

Hyacinth Easter Cake

1 package Instant Swans Down Yellow Cake Mix
Lemon Butter Cream Frosting

Prepare cake batter according to package directions. Pour batter into two 9-inch layer pans, which have been lined on bottoms with paper, and bake in moderate oven (350° F.) 25 to 30 minutes. Cool. Spread Lemon Butter Cream Frosting between layers and over top and sides of cake. Smooth frosting flat on top and sides for decorating.

Lemon Butter Cream Frosting

1/2 cup butter
1/4 teaspoon salt
3 1/2 cups (1 pound) sifted confectioners' sugar

Cream butter until soft. Add salt and part of sugar gradually, blending after each addition. Then add egg yolks and grated lemon rind; blend well. Add remaining sugar alternately with milk, until of right consistency to spread, beating after each addition until smooth. Makes 2 1/2 cups, or enough frosting to cover tops and sides of two 9-inch layers.

Prepare an ornamental frosting by combining sifted confectioners' sugar with a little water. Tint some of this green and some lavender. With the green frosting, write "Happy Easter" across top of cake. Outline hyacinths around sides of cake, using lavender frosting for the flowers and green for the leaves.

2 egg yolks, unbeaten
1 teaspoon grated lemon rind
2 tablespoons milk (about)

MIX TRICKS: You can make this luscious cake quick like a bunny, when you follow new package directions for this truly instant cake mix. With only one mixing step required, you may use either spoon, rotary beater, or electric beater to combine the package contents all at once with fresh eggs and water. The creamy, fluffy batter bakes equally as well in two 8-inch or 9-inch layer pans.

Easter vacation is here and college students from all over the nation take a breather from studies and return home to visit family and friends. Here at home the public schools dismissed last Friday for spring vacation giving both students and teachers alike a well deserved break in the long post-Christmas school session.

We talked to several parents around town recently and in the course of conversation, naturally inquired about their college age youngsters. And all reports were good. Mrs. Willis Gaines of 677 26th street, says their only child, Judy Gaines, who is attending Clarke college on a scholarship, will be home this week. "It will be good to see her. We really miss her. Sometimes I go in her room and just sit. But she is doing wonderful at school."

That we can easily believe considering the wonderful record she made while attending St. Joseph Academy here.

Mrs. Stanley Griffith, 1608 44th street, chatted about her oldest daughter, Phyllis, who is a freshman at their alma mater, Flisk university in Tennessee. Miss Griffith reported some very good grades during the past months.

Mrs. Barbara Parkey, 3004 Amherst street, says her oldest son, Kenneth Jr., is doing well way out on the West Coast in Los Angeles, Calif., where he is attending junior college and concentrating on his first love, music. Many local residents remember young Parkey for his piano renditions on various programs and events.

It was a pleasant surprise to note on the cover of a recent Iowa magazine, the young lady who help set Valley High school Girls basketball afire last year and whose team went all the way to the semi-finals in the state tournament. If you saw the

picture and read the accompanying story, you know that she is a student at Iowa's newest collegiate institution, Dennison college. And of course, the school has a basketball team. She is Colleen Bowser.

If you happened to be watching WHO-TV at 12:30 p.m. last Saturday, you would have seen the Monarchs Combo, composed of three students from East and two from Tech. The televised program featured Junior Achievement.

In the group was George Clinton, Jr., son of Mr. and Mrs. George Clinton, Sr., of 725 S.E. 26th court. Young Clinton who is a junior at East high works parttime at Young-Kers from 6 to 7:30 a.m. school days and from 6 a.m. to 2 p.m. on Saturdays.

He also was one of the five priests in East High's most ambitious musical production, "The King and I." Another school mate, Jeanne McKee, played the part of the lady-in-waiting and was the makeup artist. She is the daughter of Mr. and Mrs. LeRoy McKee.

Mr. and Mrs. Loyatus Clark, 1114 10th street, are being besieged by illness again. Mr. Clark was released from Northwest hospital recently and Mrs. had her turn at the hospital three days later when she entered Methodist hospital for minor surgery a week ago last Thursday.

You will remember that Mr. and Mrs. Clark followed one another to the hospital last year on four different occasions. The Clarks who enjoyed some 20 years of relatively good health and in Mrs. Clark's words, "We are overdoing this hospital bit."

Mrs. Lucille Hamilton Hosts the 8 of Us

The 8 of Us finally got together again after six members got down with the flu, one with pneumonia and the other almost escaping.

Mrs. Lucille Hamilton entertained the group lavishly recently. At snack time they devoured a luscious pumpkin pie with gobs of whipped cream.

Lucky numbers, gorgeously wrapped were won by Mrs. Earline Parrish, Sylvester Parrish and Carrie Colbet.

Monday the club met with Mrs. Lillian Scales and Bob Hayes as hosts. Gathering at the usual time they sat down to roast turkey, dressing, cranberry and jello salad, mixed vegetables and hot butter rolls. A lemon and peach filled angel food cake was served at snack time.

Someone asked Mrs. Hamilton if she would like to be a regular. She replied affirmatively. Members were told, "All those in favor of her becoming a member, please stand on your eyebrows."

Next meeting will be with Mrs. Sidney Hawkins and Mrs. Joburness Kelso as hostesses.

THREE TO GET READY

THE MORGAN TRIPLETS, Nashville, Tenn., keep busy as they wait for a medical check-up at the March of Dimes Birth Defects Center, Vanderbilt University Hospital, Nashville. Now almost six, Dennis, left, David, center, and Darryl were born with hydrocephalus (water on the brain), a defect which can cause severe mental retardation, blindness and even death if not controlled by medical experts. More than a quarter of a million babies are born each year in the U.S. with serious birth defects. Contributors to the March of Dimes support 57 treatment and research centers across the nation to help such children.

Easter Egg Hunt Is Custom Older Than Christianity Itself

When your children search for colored eggs this Easter, they'll be renewing a custom far older than Christianity.

Eggs represent the new life that returns to earth every spring—around the time of Easter. The custom of exchanging eggs as part of the celebration began in ancient times. The ancient Persians often dyed eggs in the colors of spring and gave them to their friends as gifts. Some early peoples believed that the earth had hatched from a giant egg.

Elaborate Decorating

The early Christians of Asia and other eastern lands exchanged eggs at Easter. They colored the eggs red.

Elaborate decoration became the rule in some eastern European lands. The Ukrainians are famous for their beautifully decorated Easter eggs. Each village makes its own design—fir tree, horses, priests' robes, flowers, bell towers, crosses, chapels, etc. Residents of Czechoslovakia, Poland, Lithuania, and other lands also are known for their highly decorated Easter eggs.

Lenten Fast

In England, friends often exchanged eggs at Easter, although nowadays these usually are chocolate eggs. The Irish break the long

Lenten fast by eating eggs at dawn on Easter.

Germans color eggs green on "Green Thursday" — the Thursday before Easter—and carry the eggs all day for good luck. On Easter Monday the young people have an egg-rolling contest.

Priest's Blessing

In Italy, a priest blesses the eggs on Easter. The eggs occupy the center of the breakfast table, with other dishes arranged around them.

In The Netherlands, children go from door to door during Holy Week, collecting Easter eggs. Young and old alike play games involving eggs on Easter Monday.

In Greece people tap red eggs together as a greeting when they meet on Easter. The first person says, "Christ is risen," and the second replies, "He is truly risen."

Exchange

In Bulgaria, on Easter Saturday, people exchange eggs and baked almond cakes. In Hungary, boys sprinkle girls with water on Easter Monday and receive Easter eggs in reward.

Customs vary from land to land, but colored eggs have been associated with springtime since the dawn of history.

WHY NEGRO STUDENT POPULATION DWINDLES

Speaking before the Walnut Hill area anti poverty group, Dr. Phillip Hubbard, academic dean of the engineering department at the University of Iowa, said that there were less Negro students at the university now than when he was a student during the 1940's. And this in spite of the rise in student population from 10,000 then to 16,000 now.

There is one explanation which accounts partially for what he says. Prior to the U. S. Supreme court school decision of 1954 and the one which held that states must provide equal education within the confines of the state border, many Negro students come from southern states, particularly Texas and Oklahoma. But now that they are able to pursue in their home states all courses to graduate level, there is less reason to come to Iowa. Some states paid tuition for their Negro students to do graduate work both at Iowa City and Ames.

Of course, all the lack of students cannot be attributed to this change in admission of Negroes to integrated schools in the south.

Too few Negro students go from Iowa high schools to its universities and colleges. Some are taking the easy schools because their preparation in high school has not fitted them adequately to keep their grades up. For this reason, parents who wish their children to go to college must watch them more closely in the grades. Competition for a place in the student body gets tougher each year.

Dr. Hubbard has performed a service by calling attention to this situation. He is certainly a good one to do so having gone through the elementary schools and on to Iowa to become a teacher in that school.

STRIKES GETTING WELL OUT OF HAND

The people of this country are being plagued with same troublesome strikes, crippling the war effort and discommoding the public without notice.

The recent strike in New York was an example. There have been strikes (legal and illegal) in plants manufacturing goods for the war effort and in the space program.

Only last week the Brotherhood of Firemen and Engineers struck light railroads, again discommoding a lot of people, slowing up the economy and hindering the flow of traffic in many areas.

In the New York transit strike, the union head who called the strike defied the court suggesting that he should drop dead only to die himself; and as a part of the settlement, the fines and penalties assessed against the union and leaders were withdrawn.

In the railroad strike, the president of the union refused to obey the order of the court either before or after the strike commenced until a personal appeal to end the strike had been made by President Johnson.

Some unions have made great contributions to America's growth even though selfish in many respects. But today there is disregard of law and order has reached the point where some have no respect for constituted authority thereby damaging the prestige of the courts and the laws passed to deal with labor difficulties.

Now that teachers and public employees, along with almost every conceivable segment, are being unionized, it behooves authorities to insist that they follow the rules designed to deal with labor-management. And once the strike gets to the court stage, participants should be dealt with in the same manner as any other law violator.

THE WRONG WAY TO GET RESULTS

The disturbance by the students at Alcorn College in Mississippi presents an excellent example of an administration which maintains itself by providing them mediocre facilities in order to keep "in" with the state officials who dictate what goes on at the school.

We cannot go along with those students who throw rocks and bottles at police and highway patrolmen. It smacks at irresponsible conduct which hurts any cause.

Southern U. Takes Small College Track Division of Texas Relays by Storm

Austin, Tex.—Southern university track team came to the Texas Relays here last weekend and rewrote the record books. They furnished most of the headlines for the annual track classic that is the fore-runner of all the major track events around the country.

The windup pace was as torrid as on Friday, when one national collegiate and five meet marks were set. One of the new marks was rewritten and four others tumbled.

4 Baton Events

Southern, winning four baton events in its class and setting records in five in the two-day meet, will need a truck to take its watches, clocks and trophies home to Baton Rouge, La.

A vote was taken for the outstanding team in each division and even an Alabama office seeker couldn't have failed to cast a ballot for the Negro school, headed by Olympian Theron Lewis (the outstanding individual).

The climax of two days of heroics came in the mile relay when Southern ignored lack of competition and blazed four times around the track in 3 minutes 4.7 seconds to miss the world mark by two-tenths of a second.

60-Yard Margin

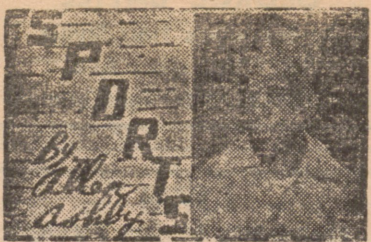

The same four lads—Webster Johnson (:46.7), Anthony Gates (:46.4), Robert Johnson (:46) and Lewis (:45.6) hold a share of the world mark. Being this good while winning by 60 yards was the surprise.

It's early in the season, so these human hotrods should be something in another month if they revisit the Drake Relays, where they set three baton marks a year ago.

Texas Southern

Southern won the two-mile relay here in 7:27.1, paring 3½ seconds off the old mark, and ran :39.9 in taking the 440 relay, rebreaking a mark it set in the preliminaries.

Some fine performances by others, including Texas Southern in the college division (it won the 880 after Southern set a record in the prelims), were overshadowed.

The big fight has come and gone.

In spite of the way it was played down in the United States just about everybody who writes for a big daily or news syndicate was there at ringside. Why? Maybe they were secretly hoping that the big champion would get his ears pinned back. How they didn't know, but just wanted to be on hand if it did happen.

Fight experts and analysts discovered that the champion could go fifteen rounds at a pretty fast pace and still be in there.

The guy took a real body beating that would have made a lot of fellows weaken.

Low Blows

We were not too surprised at the number of low blows that Clay absorbed and the fact that nothing was done or said about it. We recall that a lot of people lost money when Joe Louis fought Tony Galento because they believed that Galento would foul Louis injuring him so that he couldn't continue.

Fouler

Under the rules as they are now a boxer who has been fouled has so much time to recuperate but if he can't the fouler wins the fight. This was passed on as an aftermath of the first Max Baer-Max Schmeling bout back in the thirties when Schmeling became the first boxer to win the heavyweight crown while sitting on the floor yelling foul.

The explanation of the referee that low blows are merely a part of the fight was a bit ludicrous. But the champ did not complain because he said he didn't think it would do any good.

We never could rate Clay as a great puncher. A hard hitter, yes, but not a great puncher. So his failure to stop the tough Canadian was not really too upsetting.

We still say that whether you like

'Racial Taboos Slowly Disintegrating,' Says Arthur Ashe in Look Magazine

New York—Arthur Ashe, the Negro tennis star whom the American Davis Cup team is banking on to help upset Australia, thinks that "race taboos are slowly disintegrating."

In an article in the current issue of Look Magazine, Ashe says, "People take me for what I am; they don't prejudice me ethnically or skin-wise or anything."

Ranked No. 2

The people who do judge Ashe—the tennis experts—have ranked him No. 2 among this country's amateurs behind Dennis Ralston. But the Look article points out that until Ashe upset the world's top player last year, Australia's Roy Emerson, his

game was marked by inconsistency.

"At that point, I became a changed man," Ashe says in the article. "It really gave me the confidence I had lacked. I could tell myself, 'You can beat anybody in the whole world.' Believe me, that makes a lot of difference in the way you play out there. After that, everything in my game clicked into order."

No Tennis Bum

Ashe, a student at the University of California at Los Angeles, vows, "I'm not going to become a tennis bum." He plans to continue playing tournament tennis indefinitely after graduation this June, but he also plans to enter the business realm and stay there, Look says.

PRESIDENT JOHNSON CHATS WITH MIKE GARRETT, FOOTBALL HERO

Washington (Special) — President Lyndon B. Johnson gave a warm greeting to Heisman Trophy winner and All American football hero of the University of Southern California, Mike Garrett, at the White House Friday afternoon.

Garrett was brought to the White House by his friend, Congressman Edward R. Roybal, Democrat of Los Angeles. Mrs. Ella Sigur, mother of Mike Garrett, and Austin Hogan, Roybal's Administrative Aide, were also present.

Reception

Mr. Johnson presented Garrett with a tie clasp bearing the Presidential monogram as a memento of his visit to the White House. Deeply touched by the warm reception, Mike Garrett removed his cherished football pin bearing his number, 20,

and gave it to the President.

Garrett, who has four sisters and a brother, is a sociology major at Southern California and plans to do social work after playing five seasons with the Kansas City Chiefs of the American Football League.

Award

The District Attorney of Los Angeles has also presented Garrett the citizenship award for his outstanding work with the children and youth in his area. Right now the 21-year-old halfback is concentrating on picking up enough credits to graduate.

Garrett said of the occasion, "I was so excited that the only thing I remember the President saying to me was that he was proud of me." Needless to say, his mother was very proud to share with his this joyful occasion.

BROWN IS ENGLAND-BOUND

New York—Cleveland's grid great, Jim Brown, who is again thinking of retiring from professional football—to become a full-time actor—sails for England in April for the filming of "The Dirty Dozens."

Brown has a starring role in the film which centers on 12 army misfits who are given a chance to redeem themselves by carrying out a dangerous mission during World War II.

the champ or not he still can fight and it's going to take a good man to beat him. United States promoters should get in line and get some of the money that goes with championship bouts. Maybe they will get smart.

Track

The Texas Relays set off an excellent preview of what we will see at Drake later on this month.

Texas Southern and Southern U of Baton Rouge and maybe a few of those other schools down that way just about run everybody else off the track trying to beat each other. That was the way it was last year and it looks very much like it could happen again. And do you know the people in the stands really don't care about all of this being too excited at the prospect of seeing a red hot race. Where do all these fast runners come from? Well, again it is a cross country selection of runners who happen to be Negroes.

At Home

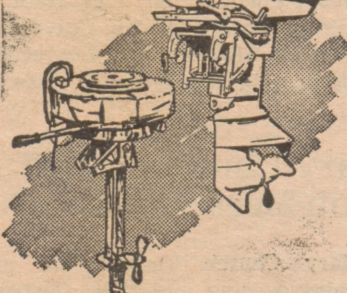

Here at home North's Jim Kirby is picking up where he left off last year. The guy has the makings of a top college runner. Big and fast he could become a great half miler; or maybe a quarter miler. We hope he comes along alright and gets good enough grades to get into college. He can, you know, if he wants to.

Insurance Counselor
Old Equity Life, Evanston, Ill

You can budget without being a bookkeeper. All that is needed is a little common sense and nine envelopes (marked Food, Clothing, Rent, Operating Expenses, Health, Savings — Insurance, Educational and Recreation, Church and/or Charity, and Miscellaneous).

On payday put the amount you think you need to cover each of these expenses in the proper envelope. Keep this up for several pay-days, trying to use the money in each envelope wisely.

At the end of a month or so, examine your "budget." You'll probably find that you have money left over in some envelopes, while others are empty.

This will tell you where you need more or can get along with less or where you need to spend more wisely. Adjust the amounts you need to place in each envelope accordingly.

Even if you pay by check, the same system will work except that you will have to do it on paper.

Why all the strife
For raiment and bread
We've lost the path
But God is not dead!
What has become
Of the vows that we made?
"Save me O Lord"
Each true Christian said
"My life I will bring
And lay at your feet.
In praise and prayer
That one day we'll meet."
Now what has become
Of that praise and that prayer?
Is it now we believe
That God isn't there?
Did He pay the price
For our sins once for all
Or just an installment
Till next we shall fall?
To come back to earth
To redeem us again.
By suffering, denial,
Agony and pain.
Go, look at that cross
Fall down on your knees
Now look at his hands
And his feet if you please.
Then let's pray again
And this time for true:
To offer our souls
And our bodies too:
For Christ died and rose
For me—and for you.

PRAYER

O God, I love Thee in the stars at night
Under the still eternity of sky;
Teach me to love Thee in the passer-by,
For Thou hast said that this is loving right.
I hear Thee in the stars whose silence sings,

And in the shout of dawn Thy voice
I know;
Teach me to hear thee in the joy and woe
Of men who speak of trivial earthly things.
I see Thee when the world is full of sleep
Walking upon the moon-path of the sea;
Teach me by all the tears of Calvary
To know Thee in the eyes of all that weep.
There are so many things that I would say,
God-soul of beauty, teach me how to pray!

Just Thinking

The qualities necessary for an enriched life are the giving of self to worthwhile activities, learning to be tolerant, giving recognition and approval to others, being sufficiently open-minded and flexible to mature and learn. These qualities result in happiness, harmony, contentment, and productivity.

Laugh Lines

"I can cure your husband of his habit of talking in his sleep," said the doctor.

"I don't want him cured," replied the wife. "Give him something to make him talk more distinctly."

Judge: "Are you sure the man was drunk?"
Officer: "Well sir, he was carrying a manhole cover, and said he was going home to play it on his Hi-Fi."
