Rare World Coins Displayed at Bank

An array of world coins is on display at Iowa State Bank, East 7th and Locust streets, in Des Moines, until April 16th. The public is invited to see the comprehensive display that shows the coins of most of the United Nations' member countries along with the coins' names and the respective country's flag. The display has a definite educational value and should be worth a special trip to the bank. School age children are urged to see the display. Those interested in coin collections will also be interested.

James Farmer Gives Speech at Drake

James Farmer, former national director of the Congress of Racial Equality (CORE), spoke at an informal Drake University convocation at 11 a.m. Tuesday in the Drake Auditorium.

Farmer's speech, was sponsored by the Drake Student-Faculty Council convocations committee.

Farmer helped form the first chapter of CORE at the University of Chicago in 1942. He was born in

FARMER

Texas and received a bachelor of science degree in chemistry from Wiley College when he was 18 years old.

He then studied for the ministry at Howard University's School of Religion, earning the bachelor of divinity degree when he was 21. Farmer declined ordination, however, and began his career in social action as race relations secretary of the Fellowship of Reconciliation.

Thought Man Was Stealing Gasoline, Fires Shotgun on Him

A Des Moines man who was shot in the head about 10:45 p.m. Sunday with a 20-gauge shotgun while he was in the back yard of 1243 12th street, remained in critical condition, Tuesday at Broadlawn Polk County hospital.

Victim of the shooting was Harold Sylvester Hickman, 22 of 1428 Dixon street. Police identified the man who fired the shot as Newell Brown of 1243 12th street.

Police said Brown told them he saw two men in his yard and thought they were trying to steal gas from his truck, so fired at them from the second floor of his house. Police questioned Brown and he was released early Friday. No charges have been filed.

Hickman was being treated at Broadlawn Polk County Hospital.

Police said that after the shooting, Hickman and Herbert White, 18, of 931 16th street, who was with him, tried to start a car parked on Carpenter avenue, just north of Brown's house.

The car did not start, they said, and Brown, who had run to the street, caught White.

White was being held early today for investigation.

Hickman, police said, ran and was found on the lawn of a house at 11th street and Mary avenue, about a half-block away.

Says Chenoweth Has Done Very Little About Earlier City Job Promises

Des Moines City Manager Tom Chenoweth was accused of allowing discriminatory patterns to persist in city government. The charge came from Dr. Robert M. Johnson, member of the Des Moines Commission on Human Rights and Job Discrimination at the commissions monthly meeting last Wednesday.

Patterns

Commission member Dr. Robert M. Johnson said Chenoweth has "made promises" but he added: "Until the color of things changes I will not be lulled to sleep by any promises which sound more like a politician than a city manager."

Dr. Johnson did not specify the "discriminatory patterns." His comments came during the monthly commission meeting.

Promised

Commission members have met with Chenoweth recently to discuss recommendations on city employment made in a commission report more than a year ago.

The manager has promised to make changes in city hiring practices which will minimize the possibility of racial discrimination.

Report

Chenoweth asked for a report from the commission shortly after he became manager here in 1964.

The report, which implied that some discrimination exists in personnel procedures, was submitted in February, 1965.

Chenoweth promised changes in personnel procedures in a letter to

DR. JOHNSON

the commission this February but made no comment on the implication that some discrimination exists.

Commission members in particular have cited the Fire Department, which has no Negro members, and the relatively few Negro applicants for high-level city jobs.

Roundup Rally, Tea to Kickoff NAACP Membership Drive

The Des Moines branch of the National Association for the Advancement of Colored People will hold a "round-up rally" from 4 to 6 p.m. Sunday, Apr. 17 at Willkie House, 900 17th street. Guest speaker will be Julius Williams of Kansas City, Mo., Region IV executive director of the NAACP.

Co-Chairmen

The announcement came from Malcolm C. Hogan, 4302 Wakonda parkway and the Rev. Kenneth McNeil, 917 16th street, pastor of Burns Methodist church, co-chairmen for the 1966 membership drive. A tea will follow the rally with Mrs. Thelma Clark, chairman, assisted by Mmes. Bessye L. Green, George C. Morris and Leola Hubbard.

More Active

The local branch has set a goal of 1,000 members by June 30 when the sign-up campaign is scheduled to end. The membership list at present

MRS. CLARK

is about 800, according to Hogan and McNeil.

The co-chairmen said jobs, housing and school segregation are three areas in which the chapter will concentrate its efforts during the year.

Nahas Says He Will Seek Stronger Housing Ordinance

Councilman George J. Nahas made it known last week that he will seek formal City Council action to strengthen the Des Moines ordinance against discrimination in housing. Nahas's statement came after a meeting of the Des Moines Commission on Human Rights and Job Dis-

310 Union Hall, Second and Broadway (across from Firestone plant), from 9 P.M. to 12 midnight. An excellent dance band will play for the guests. M. W. "Penney" McDonald is chairman.

Existing Ordinance

The existing fair housing ordinance adopted in 1964, outlaws racial discrimination in the sale or rental of housing—but apartments with six or fewer units are exempted.

The council has considered making the housing ordinance applicable to all housing units in Des Moines except owner-occupied rooming houses and duplexes.

The existing ordinance also has no

Dr. Leach, President-Elect of Mich. Academy of G. P.

Detroit—Dr. Jesse L. Leach, a 1914 Meharry Medical college graduate and a practicing physician in Flint (Mich.) for more than 45 years, has been unanimously selected as president-elect of the prestigious Michigan Academy of General Practice. The announcement of his selection was made during the recent annual meeting of the academy at the Sheraton-Cadillac hotel.

First

The first Negro to be elected to the post, Dr. Leach is a longtime member of the organization's board of directors. His name was placed in the running by the Genesee county chapter of the American Academy of General Practice, and the state group's officials and House of Delegates gave unanimous approval.

In addition to being an alumnus of Meharry, he is also a graduate of Walden university and holds the A.B., and M.D. degrees. From 1915-16, he was associate instructor in post mortem pathology at Meharry, and a medical inspector for the Nashville board of education.

War Veteran

A veteran of two years' service as a surgeon in World War I, he was discharged with the rank of captain. Next May 20, he will observe his 46th year as a Michigan resident.

WIFE OF MISS. NAACP HEAD SEEKS HIGH COURT REVIEW OF DISMISSAL AS TEACHER

Washington—The NAACP Legal Defense and Educational Fund today asked the Supreme Court to review the case of a Mississippi school teacher, fired after she and her husband had been active in the civil rights movement.

11 Years

Mrs. Noelle M. Henry, wife of Dr. Aaron Henry, Mississippi State president of the National Association for the Advancement of Colored People, had taught in the Coahoma County, Miss. school system for 11 years. She sued the school board in 1962 after it failed to renew her teaching contract.

Arbitrary

In its petition to the Supreme Court, the Legal Defense Fund, which is a separate organization from the NAACP, alleges that the school board's action in denying Mrs. Henry employment was arbitrary and violated her constitutional

Another Negro Runs For Mayor's Post in Major Northern City

Newark, N. J.—All predictions for the outcome of Newark's mayoral race were knocked into a cocked hat today by the announcement that Kenneth A. Gibson has entered the race. This new development creates the distinct possibility that Newark, New Jersey may become the first major American city to elect a Negro mayor.

The announced candidate, Kenneth A. Gibson, has long been considered one of Newark's most dynamic Negro leaders. He has an impressive record of leadership in this city's civil rights, anti-poverty and civic affairs.

Non-racial

Gibson's intention of running a non-racial campaign parallels the approach used by Carl Stokes, a Negro, who came within 2,000 votes of winning the mayoralty of Cleveland, Ohio, last November. Cleveland has a 33% Negro population, whereas Newark's population is 53% Negro.

Surprise

Gibson's announcement came as a surprise in some Newark political circles. Although rumors of his intention to seek the mayor's seat had circulated through the town during the latter part of 1965, Gibson later issued a statement that he was not seeking public office at that time but would devote his time to helping the campaign of former Democratic Assemblyman George C. Richardson, candidate for Councilman from the Central Ward.

20 Years

For nearly 20 years, he served as economic committee chairman, Genesee County Medical society. As a matter of fact, he was instrumental in helping to organize the chapter, and was one of its first directors. He has served as its secretary-treasurer and was chapter president for two years.

Among other academy posts was service as delegate, vice speaker of the Congress of delegates and currently, membership on the board of trustees. He also is an active member of the Michigan State Medical society's public relations committee, and has served as a junior and senior delegate of the group.

penalty clause. The council has not discussed adding such a clause.

Commission member Dr. Robert M. Johnson said he was amazed at the City Council's "energetic leadership" on the housing ordinance. "Such a forthright role of leadership could really minimize the problems in this community," he added.

The original ordinance was highly controversial. Nahas, who strongly supported the original ordinance, said Wednesday he does not expect as much controversy on an attempt to strengthen the ordinance.

Attitudes Different

"Attitudes are a lot different now than they were two years ago, said Nahas. "People are much more understanding and much more willing to co-operate."

Nahas said he has talked with real estate men and builders who "don't seem to object" to a strengthened ordinance. "The ordinance hasn't caused them nearly the problems they thought it would," he added.

150 Families

The Oakridge urban renewal project, recently approved by the council, is one of the reasons for seeking a stronger ordinance. The project will displace an estimated 150 Negro families.

Nahas said the council "wouldn't want to place any impediments in the way of those seeking new homes."

Relocation of some Oakridge families is expected to begin late this year.

PROTESTS AT ALCORN COLLEGE MERIT APPROVAL, WILKINS SAYS

New York—Demonstrations exposing conditions at Alcorn A & M College, the Mississippi state college for Negroes, "merit approval," Roy Wilkins, executive director of the National Association for the Advancement of Colored People, told Charles Evers, NAACP field director for the state, in a telegram dispatched on April 6.

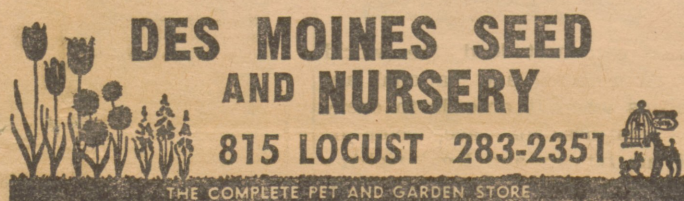

Protesting against low academic standards, excessive restrictions on student activities, poor food and other conditions, the college students and others in the City of Lorman where the school is located staged a series of demonstrations under the

leadership of Mr. Evers. They demanded, among other things, the dismissal of Dr. John D. Boyd, president of Alcorn.

In an effort to halt the demonstrations, 175 state highway patrolmen and 250 National Guardsmen were summoned. They broke up the demonstrations and cordoned off the campus. A score of students were injured in the melee. By the end of last week an uncertain calm had returned to the campus.

Wife Shoots Husband after Quarrel over Couple's Seven Children Easter Clothing

An argument over Easter clothes had a near tragic ending here Saturday for a Des Moines couple, resulting in the husband being hospitalized for a bullet wound and the wife charged with attempted murder.

Charge

Euric A. Fountain, Jr., 36, was listed in fair condition at Broadlawn Polk County Saturday after he was shot at his home at 1358 E. Hutton street. On the same day his wife, Norma, 32, was charged with assault with intent to commit murder in connection with the shooting. She was freed on \$5,000 bond and is to appear for a hearing Apr. 29.

Officers said Fountain was shot in the groin in the kitchen of the home about 7:30 a.m. Saturday with a .32-caliber automatic pistol after the couple had quarreled.

Argument

Officers said the Fountains argued Friday night and she then fired a shot into the kitchen door. A second argument occurred Saturday morning over Easter clothing which was to be worn by the couple's seven children, police said.

Fountain apparently ran from the home after he was shot and was found lying in the front yard by witnesses.

HEALTH FOR ALL

FAMOUS WORDS

"Strange thing about Edgar. Ran into him just a few weeks ago and he looked great. Said he hadn't needed to see a doctor in years. Now all of a sudden he's got this nasty whatchamacallit and he's laid up till Goodness knows when."

Those are famous words: "Haven't needed a doctor". Not necessarily last words, praise be, or there'd be no population problem. Not all the happy optimists who breeze along year after year without medical supervision are headed for a sick bed. But the point is that although we may be as young as we feel, we're not always as healthy as the absence of aches or pains may suggest.

Insurance

A medical checkup is a form of insurance. Chances are your doctor, year after year, will pronounce you in fine shape and chase you away. But "chances aren't good enough to steer by when your health and the future welfare of yourself and your

family are concerned. You've got to know.

Certain Ailments

Certain ailments, including tuberculosis, emphysema, cancer, diabetes, high blood pressure, heart disease and others, can be present in the system for a considerable time without making themselves felt. The longer detection is delayed, the more difficult the job of treatment.

And if (as is likely) there's nothing to detect or treat, it's certainly worthwhile knowing that.

TB Test

Good old Edgar, who felt great one month and was down with something or other the next, might have kept well and perpendicular if he hadn't avoided his doctor for years. Your Christmas Seal association suggests an annual medical check-up, including a tuberculin test or a check X-ray, for everyone in the family.

Not Renewed

In the trial of Mrs. Henry's suit, Coahoma County school officials testified that her contract was not renewed because her husband was a defendant in a libel suit and was also facing morals charges.

Savages Perform Brain Surgery

It would seem impossible that primitive man could perform Brain Surgery. Yet unearthing skulls, thousands of years old, show evidence of TREPHINING—an amazing operation by which the human skull is perforated so as to remove a portion of the bone.

Trephining is performed today to relieve the brain from pressures brought upon it by tumors... however, ancient man believed that all his ills were caused by demons lodging themselves in the human body. He assumed that Migraine, Insanity, Epilepsy were ills of the head, so a hole there, he reasoned, would force the evil spirit out—to seek residence elsewhere.

There is a wide distinction between primitive ways and the scientific course followed by modern medicine. There is also a wide range of improvements rendered by the pharmacy that keeps abreast of the times. At Williams Pharmacy you'll find up-to-dateness a vital part of our business... You'll favor, too, we hope, the quick and friendly service we maintain at Williams Pharmacy, 1103 University Ave., PHONE: 243-1253.

The courts denied attorneys' attempts to prove that the charges against Dr. Henry were part of a pattern of harassment for civil rights activity.

Pineapple Cereal Cheese Cake

Pineapple Cheese Cake with Crunchy Cereal Crust solves the dilemma of the hostess who wants a dessert for evening refreshments that is filling, satisfying, but not too sweet. The crispy texture of the wheat and barley kernels makes a pleasing combination with the soft, pineapple-flavored filling. Breakfast cereals are excellent for ingredient use in recipes, because they are inexpensive, add flavor and texture, and make important nutritional contributions of protein, the B-complex vitamins, minerals.

PINEAPPLE CEREAL CHEESE CAKE

Wheat and Barley Kernel Crust

2 cups ground wheat and barley kernels ½ cup melted butter or margarine
½ cup sugar

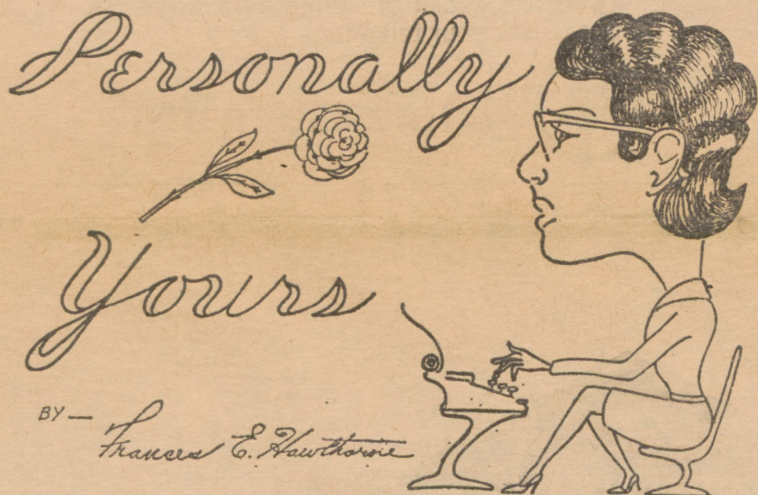

Combine ground wheat and barley kernels, sugar, cinnamon, and melted butter or margarine. Mix thoroughly. Press ¾ of mixture into bottom of 9-inch spring form pan. Reserve remaining crumbs for decorating top of cheese cake.

Filling

1 (8 ounces) package cream cheese
2 teaspoons grated lemon rind, optional
1 cup well-drained crushed canned pineapple
2 cups small-curd dry cottage cheese
1 cup heavy cream

2 envelopes unflavored gelatin
¾ cup cold water
2 beaten eggs
1½ cups sugar
1 teaspoon salt
½ cup milk
2 teaspoons vanilla
¾ cup pineapple juice

Soften gelatin in cold water. Combine eggs, sugar, salt, and milk in top of double boiler. Cook over hot water, stirring constantly, until mixture coats a metal spoon. Remove from heat. Add gelatin; stir until dissolved. Cool. Add vanilla and pineapple juice to cream cheese; stir until smooth. Blend in lemon rind, pineapple and cottage cheese. Whip cream and fold into mixture. Pour into crumb lined spring form pan. Sprinkle top with reserved crumbs. Chill overnight. Garnish. Yield: 12 servings or fills one 9-inch spring form pan.

The unexpected Easter showers and gloomy skies were brightened by the pretty spring costumes in hue and style, worn by church goers Sunday morning. Of course, as we mentioned last week, there are some churches who unofficially frown on the practice of Easter outfits. And considering the tragic happening in one Des Moines family, there is reason to put less emphasis on this commercial aspect of celebrating Easter.

As young friends played basketball in our back yard Saturday with our youngsters, we heard it repeatedly asked, "Do you have an Easter outfit?" or "What did you get for Easter?" We also wonder how many families create a strain on their

financial budget trying to clothe the family in complete Easter outfits. The whole commercial aspect seems to cloud the religious emphasis that should be given to the occasion.

We had a lovely Easter card from Mrs. Agnes D. Snow of Emporia, Kans. She penned a brief note which read: "Greetings from Dayton, Ohio! We are here to spend a few days with my husband's young brother and family. An all expense trip is a new and thrilling experience for us. Weather is real cool and Wednesday snow came so fast. Nothing like Kansas. Just had to share our joy with others." And she signed it appropriately, "Your faithful reader."

There was the cutest little girl modeling on Mary Jane Chinn's TV show last Friday. It was the first time we have seen a Negro model although we may have missed some. Anyone know who she was? If so give us a ring or drop us a line.

WATCH REAPPRAISALS
IN OAKRIDGE PROJECT

When the city was considering the Oakridge project some months ago, a professional firm of appraisers was hired to appraise the property in the area.

Following the appraisal, property owners were notified, in a rather synical manner, that they should make no improvements on their property as sales would be on the basis of that appraisal without regard to the later improvements.

In the meantime, many of the properties have deteriorated as a result of that warning to make no further improvements.

Last week the council hired the same firm to bring the appraisements up to date because the city would begin purchases very soon.

Naturally, the land values have increased; the buildings, in some cases are less valuable. In either instance, owners should ascertain the original appraisal and check it with the reappraisal so that any loss in value will not be charged when the city purchases the property.

ANTI POVERTY YIELDS
TO POLITICAL PRESSURE

During the period when farmers and sharecroppers move or make new contracts for raising crops, a large number of families in Mississippi found themselves without farms to work on or money to rent or purchase a home. These people moved to an area where tents were provided while efforts were made to relocate them.

Very little was done to help them in spite of the millions being dished out to run the anti-poverty program. Officials said technicalities prevented them from coming under the program. Naturally these people became restless.

Somebody got an idea that it would produce results if some of these people went to Washington, camped near the White House so as to emphasize their dire need for help.

That help was not forthcoming. They were ignored. Again anti-poverty never came to the rescue.

It was charged that communist influence led these people to come to Washington so as to embarrass the administration (this, of course, is the classic charge). Some say that Senator Stennis of Mississippi refused to give his blessings to help these people and the anti-poverty heads refused to budge.

If ever anti-poverty program should have moved to help people, this was one. And if it can't help people so situated, they have no reason to exist.

SHADOW BOXING FOOLS
SOME; NOT US

Dr. Robert Johnson recently charged that the city of Des Moines continued to practice racial bias in the hiring and promotion of its employees. (Jens Grothe, a member of the council, made the same charge last year). Dr. Johnson is a member of the Human Rights Commission.

City manager Tom Chenoweth denies the charge and says the city hires people on the basis of qualification only.

This, no doubt, is his policy but a lot of stubborn employees under him don't carry it out.

The Bystander can not buy this rejoinder for as of today there are no Negro employees in many departments. For years, every Negro employee of the garbage or street department who retired is replaced by a white person. Of course, the fire department is the sore thumb on the whole hand.

When a vacancy is to recur, they slip some friend in to work on a temporary basis who fills the job until a permanent appointment.

Unless this situation is reversed, the evidence of hiring on the basis of qualification falls flat. As we have said on many occasions, the post office department made that claim for years and still only a couple of carriers and clerks were employed. With a change of the post master, who meant what she said, the number has increased ten fold. The internal revenue service is another example; several busi-

ness houses and factories likewise.

The only concrete evidence that employees are hired on the basis of qualification only is to hire some. Others have done this. The city can if it will.

And now comes the baseball season. All the experts in and out of pool halls are picking probable pennant winners. Since we spend our time in and out of those places we can qualify as an expert. So we pick the Chicago White Sox in the American league. Because no national league team has won two in a row since 1958 we pick the Giants over there. You know we were half right last year.

We can't believe that the Los Angeles Dodgers two man pitching staff hasn't been working out some when they were holding out. They might win 50 games between them again but don't bet on it.

This season will mark the debut of a Negro umpire in the major leagues. Emmett Ashford who has been of major league caliber has finally been accepted as one of the big boys.

Should have been there long ago. Now we wonder if some club owner will have guts enough to take advantage of the baseball know how and leadership ability of men like Ernie Banks, Maury Wills and Willie Mays when they are through playing. The same thing might be said of other sports. Jim Brown would probably make a fine coach as maybe would Lennie Moore of the football league.

Then there are others. Bill Russell in basketball is just one more. So often when our guys retire they are soon forgotten while other people stay in the sport in which they starred. How many of you can even guess the whereabouts of Larry Doby, Monte Irvin, Don Bankhead, Don Newcombe, Hank Thomas or Bill Bruton. Yet all of these guys played a major part in their teams pennant winning when they were playing.

Tennis

We are glad the American public has finally discovered Art Ashe. But maybe his draft board will get there first. If it doesn't we may have a chance at the Davis cup this year. There must be some more good Negroes coming up. Wonder why we don't hear of them? Maybe we don't get the right literature. But here at home tennis players who want to be really good are scarce.

Track

It won't be long now until the Drake Relays; can't wait to see what happens if Drake gets the usual quota of Negro schools; and they used to pass this one up.

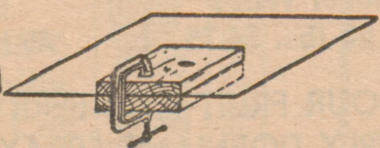

Now we go into spring football. We shall have to see a couple of Iowa University practice sessions. So we can make our remarks about the new coach and team in general.

Arthur Ashe Appointed
Executive Trainee by
Philip Morris Inc.

New York, N. Y.—The appointment of amateur tennis star Arthur Ashe, of Richmond, Virginia, as an executive trainee for Philip Morris Incorporated, was announced today by Joseph F. Cullman, 3rd, President of the company.

Ashe's training with Philip Morris in the United States will be directed toward management, marketing and sales in those divisions of the company manufacturing chewing gum, razor blades and men's toiletries. In his tennis travels out of the country, Ashe will also work with the company's overseas affiliates.

Ashe joins Roy Emerson, Manuel Santana and Rafael Osuna in the company's executive training program. Emerson works for Philip Morris (Australia); Osuna for the company's Venezuela affiliate, C. A. Tabacalera Nacional; and Santana in Europe.

A business education senior at UCLA, Mr. Ashe, 21, is the second-ranked amateur tennis player in the United States.

Escort Duty

"I have gone out on many escort assignments under Sheriff Hildreth. I have been on details, sometimes in charge of some, when President Truman came to town. Also President Eisenhower, the late Adlai Stevenson who was such a fluent speaker, Mrs. Eleanor Roosevelt, when she came to visit the NYA project here.

"Also, when Nikita Khrushchev came to Iowa, President Johnson and Vice President Hubert Humphrey. Mr. Humphrey I will not forget because when I shook his hand I told him not to forget us down in Washington, D.C. and he promised he wouldn't. I have pictures showing me posing with them all.

Not Easy

"That the nice side of the job; it hasn't always been easy but I do think it was worth it. And of course,

groes, staged a protest march down the boardwalk Saturday.

Two Hours

The two-hour demonstration, under an overcast sky and in a brisk wind, was completed without incident. A similar demonstration will be held today.

The demonstrators stopped in front of a hotel where they demanded higher wages and equal hiring opportunities. The hotel's manager is president of the Atlantic City Hotel-Motel Association.

C. O. R. E. recently broke off talks with the hotel association, claiming that it was "stalling for time" in negotiating for improved employment for Negroes.

YW Announces
Camp Schedule

The camp committee of the Y.W.C.A. has announced the following 1966 camp schedule. Registration by May 1 will mean a better opportunity of choice in camp periods. All are one-week sessions running from Sunday through Saturday, with sessions beginning on June 26, July 3, July 10, July 17 and July 24. Sessions are open to all girls in the third through twelfth grades and start on Sundays at 1:00 p.m. and ending the following Saturday at 2:00 p.m. Transportation by chartered bus is furnished with the fee.

Location

The YWCA camp is located eight miles northwest of Boone. It has 138 acres and accommodates 85 girls plus a staff of 20. Facilities include dining hall, recreation lodge, health lodge, modern craft lodge, outdoor chapel and a large swimming pool.

Program

The program includes crafts, swimming, nature lore, singing, camp craft, archery, canoeing, tennis, overnights, hiking, cook-outs and drama. Additional information may be obtained by calling the Camp Director at the Y.W.C.A. (244-5171).

I have escorted numerous funerals during the past years."

Equally proud of his career as a businessman, Mr. Tucker credits a teacher at Philander Smith college in Little Rock, Ark., where he completed his college preparatory work, with inspiring him to go into business.

Challenge

"This teacher challenges us one day. He asked us if we were just going out to get a job or going try to go into business and give someone else a job. I was inclined to go north."

So Mr. Tucker came north to go eventually into business. His first job here was with Oldsmobile garage sales and service. But for the past 35 years he has been in business for himself, operating parking lots. His first was an auto beauty parlor located at 517 Mulberry street across from the courthouse.

Business

Now he owns three parking lots at 917 Chestnut which runs from 9th street through 11th street, alley to alley.

During World War II Mr. Tucker served four years as a mechanic in automotive rebuilding at Fort Des Moines. Before that in 1935-37 he supervised the National Youth Administration program here creating projects that trained many youths in work skills. It was during these years that Mrs. Roosevelt came to town to inspect the local projects.

Community

Since much of Judge Tidrick's work is with juveniles, Mr. Tucker will be returning partially to a field that involves youth and will draw on his pre-war experiences with youngsters.

Active in community affairs, Mr. Tucker has been a member of St. and served a number of years as

Being a parent is a skill more delicate than being a violinist. A parent plays a human thousand-stringed instrument, and what he or she accomplishes through that instrument is important until the end of time.

FLYERS

TIP 1

Be careful not to fly your kite over or near radio or TV antennas or power lines!

TIP 2

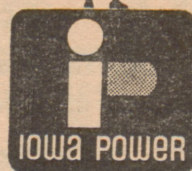

Be sure there is no metal in your kite, such as metal frame or tinsel tail!

TIP 3

Always use dry cotton string to hold your kite—never wire!

TIP 4

If your kite catches in wires, never climb power poles to get it!
