Black Monday Rally Broken Up

Report No Major Incidents: Arrest

Chicago, Ill. -- Police moved in quickly and without major incident to break up a "Black Monday" rally here Monday. Several thousand persons, most of them Negroes, had gathered in Civic Center Plaza at noon for the rally in support of demands for more jobs for Negroes in the construction industry.

Stay Away

In advance of the rally, the Coalition for United Community Action, made up of Negro groups, had called on Negroes to stay away from jobs and schools to attend. There were no major incidents and only one arrest.

Picket Signs

Several participants carried pickets signs reading "Dump Daley", referring to Mayor Richard Daley and "Hire Black Men."

The Rev. Jesse Jackson, head of Operation Breadbasket, which is part of the Southern Christian Leadership Conference, appeared at the rally along with several others who had just been in court for a hearing arising from construction site arrests.

Percentage

He told the crowd that there were only 2,800 blacks among the 90,000 construction workers in Chicago, Ill., while Negroes make up 42 per cent of the city's population.

He asked, "Why go to school to get educated, to get knowledge you can't use?"

"We don't work for the sake of work, we work for money."

"The unions did not trust business in the 30s and blacks don't trust unions in the 60s," he said.

During further business the branch also elected delegates to attend the Iowa State Conference of Branches which will convene on Oct. 17-19 in Ottumwa, Ia.

Black Students Protest Lack of Voice at School

Cedar Rapids, Ia. -- The absence of any black students as class officer candidates at Washington High school here last Thursday prompted an impromptu rally. In response a hurriedly arranged meeting with school officials was held. The rally had followed the schoolwide election of officers.

Assistant Principal Paul Beck said it was decided that the black students will form a committee that will prepare a proposal to give them official representation in student government.

School Nurse Betty Blakeley, who is black, was asked to take part in the discussions by the black students. She said they wanted a line of communication between the blacks and the student forum.

There are about 650 blacks in the student body of nearly 1700 at Washington high.

Governor Heads Recruiting Effort For Boy Scouts

Boy Scout officials in Iowa are looking forward to an exciting event here Tuesday, Oct. 7, according to Monroe Colston, District Scout Executive. This will climax a state-wide effort headed by Governor Robert Ray, to recruit new boys into Scouting.

On Tuesday, Oct. 7, each youngster will be invited to his elementary school to hear and see scouting and then given an opportunity to sign up with a Cub Pack or Boy Scout Troop. Officials are hoping to enroll up to 3,000 new scouts that evening.

At its meeting Tuesday evening the Des Moines branch of the National Association for the Advancement of Colored People, passed a resolution opposing the confirmation of Judge Haynesworth. Included in the resolution was the sending of letters to Senator Harold Hughes and Senator Jack Miller, advising them of the organization's stand.

President

The meeting was held at Willkie House, 900 17th street. Mr. James B. Morris, Sr., presided in the absence of the president who with his wife is on a tour of Europe. An executive board meeting preceded.

Building Trades Classes Start

"They kept coming and kept coming. Finally we had 22," was the comment made by an observer as the first classes for the Building Trades Preparedness program got underway here Tuesday, Sept. 16.

Dick Oggero, the observer, is the chairman of the committee which conceived the pilot program, the first of its kind in the nation. The class, which cover 20 weeks for a total of 80 hours, is designed to prepare its students for apprentice programs, management areas and upgraded jobs skills through construction trades.

Remarkable

"It really was remarkable, the turnout we had," Oggero said. "We were pleased with the quality of students; someone remarked that we had half of last year's football team at East High."

"The Students are enthusiastic over the program. We have some older hands along to guide the class and who also want to improve their own math," he said.

Ambitions

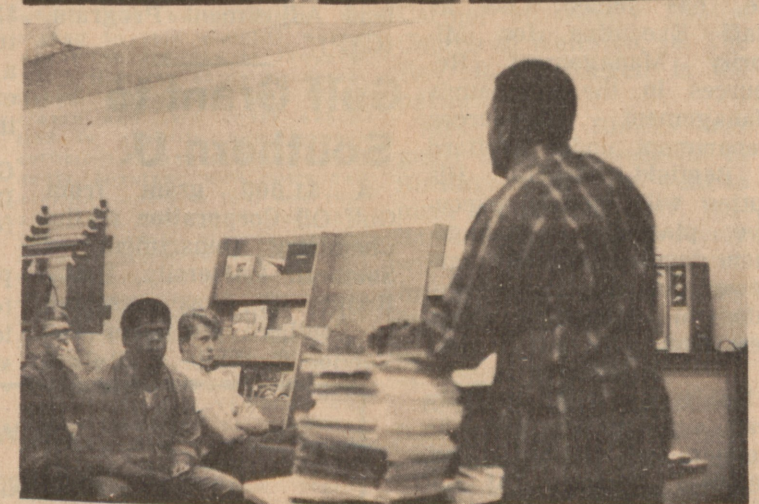

Oggero noted that in the class there were several who

Black Coalition Summit Called

PITTSBURGH, PA. -- The Black Construction Coalition, which is demanding more jobs for blacks in the construction industry, called Friday for what it termed an emergency summit meeting of similar groups in nine other cities across the country.

Michael Dismond, a coalition leader, said requests for meeting have been sent to groups in Chicago, Cleveland, New York, Detroit and five other cities he declined to name.

They call them the "golden years" because they're so darned expensive.

Jones, 30, Found Guilty of Charges; 3 Other Pleas

Wednesday, Judge J. P. Denato, who heard the case, ruled in a similar case that evidence presented by the County attorney did not prove a case of bootlegging and dismissed it.

Undoubtedly, this along with other cases either tried or awaiting trial will be dismissed.

He said however that the evidence does support other offenses such as violating the liquor control act. Thus, the indictments may be dismissed and new ones charging the proper offense, returned.

In the first trials involving bootlegging cases, Lowell T. Jones, 30, of 1238 13th street, was found guilty of bootlegging here Tuesday in Polk County District Court. After a two-day trial the jury deliberated about two hours before returning its guilty verdict.

Jones will face sentencing Thursday, Oct. 2 and could get up to a year in jail.

Three Plead Guilty Three others, also indicated by a grand jury Aug. 26--pleaded guilty to vice charges, waiving trials.

The arrests subsequent trials have resulted from a police crackdown on vice activities in the city, particularly in the Model Cities area.

Key Defense

Key to Jones defense was testimony from Karen Susan Phillips, of 1147 14th street. She said she spent June 7 shopping with Jones, and that he was away from the scene of the sale. After the verdict Miss Phillips ran from the courtroom in tears.

Another vice trial started in Polk County Court Monday but was halted after Terri Bachman, 23, of 1227 Aurora avenue, changed her plea to guilty.

Charges

She is charged with selling liquor June 6 at 1230 10th street and will be sentenced Sept. 26.

Barbara Jean Carr, 36, of 1256 E. 18th street pleaded guilty to selling liquor Apr. 18 at 1751 E. University Avenue and will be sentenced Oct. 3.

John Woltz, 22, of 1537 44th street, charged with illegally selling prescription drugs -- methamphetamine -- pleaded guilty and will be sentenced Oct. 3.

Offer I.S.U. Black Students 2 Choices of Cultural Centers After Demand for Fast Action

Ames, Ia. -- Following a demand by black students for quick action Iowa State University officials Friday offered the Black Student Organization (B.S.O.) two possible facilities for a "black cultural center."

Two Choices The university said it would purchase a two-story frame duplex south of the campus from a private owner or rent the second floor of a house owned by United Campus Christian Ministry, an inter-denominational group. Officials had been given until Friday noon to make a decision after the B.S.O. gave them an ultimatum, "we are tired of talking."

Acquittal The demand for quick action on the black cultural center came at a time when black students at Iowa State reportedly were disturbed by the acquittal of Elizabeth Aronoff of Ames in the shooting death of Willie Muldrew, a Negro football player and former B.S.O. president.

Attack Mississippi School Law

Would Subsidize Private Schools

WASHINGTON, D. C. -- The Justice Department attacked a new plan for what can easily be called "private schools" under a new Mississippi statute. The department asked a federal court Monday to overturn the new law which would allow Mississippi to support pupils in segregated private schools.

Ask Reversal

Atty. Gen. John N. Mitchell said the government complaint, filed in Federal Court in Jackson, Miss., urged that a state signed into law by Gov. John Bell Williams last Friday overturned. The complaint charged that the law would "have the effect of encouraging, facilitating and supporting a system of private schools operated on a racially segregated basis" in violation of the 14th amendment.

Defendants

Named in the government action were the state of Mississippi, and the Mississippi Educational Finance Commission, which would administer the tuition loan program. In seeking the court ruling, the government said the program was set up "for students who are actual residents of Mississippi and who attend non-free elementary and secondary schools."

Purpose

The purpose and effect of the new statute, the complaint said, "are identical to the purpose and effect" of a 1964 tuition grant statute overturned by the federal court last Jan. 28.

The government claimed both laws were enacted to allow Mississippi to provide financial aid to pupils in private schools and perpetuate "a state-supported educational system."

Slate Minority Enterprise Meeting At White House

Washington, D.C. -- Secretary of Commerce Maurice H. Stans today announced that the first meeting of the new Advisory Council on Minority Enterprise will be held on October 13 at the White House.

President Nixon announced formation of the 63-member Council yesterday. The President is expected to confer with the Council during its meeting.

The Council has been created as an advisory body to the Office of Minority Business Enterprise in the Department of Commerce. OMBE is mounting a national program to marshal and coordinate public and private resources to achieve greater opportunities for minority peoples in business ownership and management.

Federal Funds For Title 1 Drop in Iowa

Federal appropriations under Title I of the Elementary and Secondary Education Act (ESEA) showed a seven per cent reduction for the 1968-69 school year in Iowa. ESEA funds received by the Department of Public Instruction for distribution to local districts totaled \$14,741,865.

Distribution

R. F. Van Dyke, chief, Title I-ESEA, said the appropriations were distributed as follows: children of low income families, \$13,941,500; state schools for handicapped, \$410,089; state institu-

Flip Wilson Named Best Comic

Flip Wilson, who starred in his first television special on NBC Tuesday was named best comic of the year by the Negro Broadcasters Association, NATRA, at their recent convention in Washington, D. C. Flip received the Golden Mike Award, which last year went to Bill Cosby.

Flip's success, which has placed him among the top group of Negro entertainers, is the result of more than a dozen years of study and hard painstaking work. A thinking comedian, Flip considers his forte is story telling.

Four Arrested Minutes After Robbery Here

Three young men and a 15-year-old youth were arrested and charged with robbery early Friday, Sept. 19, a few minutes after a service station holdup in which one of the bandits threatened to shoot the station attendant, Clyde Stophet at Clark Service Station at 3720 E. 14th st.

Arrested

Besides the teenager those arrested were identified by police as Larry Dean Ashby, 19, who gave his address as 1173 7th st.; Harry Alonzo Allen, 21, who gave his address as 1423 8th st.; and Carl Lamar, 20, of 1017 Maple st., West Des Moines.

Bond

Lamar was out Monday morning after posting bond of \$10,000 on robbery with aggravation and \$1,000 larceny of a motor vehicle. Still in Polk County Jail were Allen and Ashby whose bonds were set the same as Lamar. Allen also had another charge, assault and battery from a different case.

Preliminary trial has been set for all three on Tuesday, Sept. 30, at 1:30 P.M.

Non-Whites Have More Strokes

MINNEAPOLIS, MINN. -- Chances of a nonwhite person having a fatal stroke are nearly two-to-one over whites, a federal study shows.

The chances of a nonwhite dying from hypertensive heart disease are much greater -- about four-to-one, compared with whites.

Those statistics were part of a report Friday by Dr. Stanley W. Olson, director of the regional medical programs service, Department of Health, Education and Welfare. He spoke at a conference here.

The stroke death rate per 100,000 white population is 65.2 compared with 118.8 for nonwhite. In deaths from hypertensive heart disease, the rate of 14.5 for white population increases to 56.5 for nonwhite.

Effective with the 1967-68 school year, still before Congress, is at 90 per cent of the 1968-69 levels for advance funding. There is still some chance of obtaining additional funds.

Charge Pentagon Failure in Promotions

Los Angeles -- Congressmen Augustus F. Hawkins (D-California) this week in a tersely worded letter to President Nixon charged the Department of Defense with failure to place black men in key policy positions and with maintaining double standards on manpower, personnel, and discipline.

Warnings

The Congressman further declared that recent eruptions at military establishments were "warnings" of still greater disorders directly related to policies of the Pentagon which "give almost exclusive emphasis to getting men into battle but too little attention to the human problems."

Rights Division

"Looking to the civil rights division of the Pentagon," warned Hawkins, "is not sufficient. The problem is in every single function of managing the military: Logistics, Research and Development, Budget and Finance, where key black policy-makers are totally absent."

Fencing Champ Has Writeup In Life Magazine

New York -- Ruth White, the scrappy 17-year-old fencing champion from Baltimore, is the subject of a two-page picture story in this week's issue of LIFE Magazine.

Last July Ruth defeated 74 others to become the youngest women's national fencing champion, and the first Negro to win a major fencing title. Next month she goes to Havana for the world championships.

She's also headed for New York University on a fencing scholarship.

"Fencing is physical chess," she told a LIFE reporter. "It takes a cunning mind. I'd like to see it less exclusive -- popularized and more competitive."

Nuisance

Ruth started taking fencing lessons five years ago.

"She was 12 and a nuisance around the house," LIFE reported. "To keep her occupied her mother suggested that she go down and get herself into a Saturday recreation program at the local Y.W.C.A."

Ruth tried the modern dance class, but it was full. So was the swimming class. She signed up for fencing.

Serviceman

Hawkins then reminded the president that the black serviceman "sees himself going back to civilian life where no one cares whether he risked his life for his country when he seeks a job...where there are no special efforts to assure him that life for him will be better...where he hears talk of equal opportunity but finds few evidences...in or out of the services."

Urged

The Congressman urged that the Pentagon place blacks in key policy positions and learn to listen to them, that it constitute a task force which would include informed blacks to advise on actual conditions and recommend solutions, and that it then respond positively to enlightened counsel.

CBS Names Morris DeLisser Staff Executive

NEW YORK, N.Y. -- Morris DeLisser, for many years life membership secretary of the National Association for the Advancement of Colored People, has joined CBS as Staff Executive for Minority Management Resources in the company's Management Resources Department under Clifford J. Benfield, Director. His duties will include executive placement, management development and manpower planning as they relate to minority group personnel.

Co-Director

DeLisser most recently was a co-director of the Cooperative College Development Program of the Phelps Stokes Fund, enlisting support and helping to maintain faculty strength for black colleges and universities throughout the United States. He attended Lincoln University, the University of Hawaii and the City College of New York, and earned his B.B.A. degree at the City College.

The position to which DeLisser has been named at CBS is a new one, reflecting both past and anticipated future growth in minority executive employment at the company.

WORKING OFF HUNGER

Catholic Relief Services has developed the "Food for Work" concept whereby wages are paid to laborers in food rations. Last year, needy persons helped in this way totaled 2,669,570.

BLUE LEMONS.....

by e. e. fate

Dylan's Gospel, "The Brothers and Sisters" (Ode Recordings) has been described by at least one local musician as being "the best recording of gospel-rock music that I've heard in a long time". Bob Dylan, high priest of rock in many circles has gathered some 28 singers, coupled them with his songs and come out with an album that has the compassion of perhaps the Edwin Hawkins Chorus and the youthful sound of the music from "Hair".

Surprisingly (to those not enthusiastic about Bob Dylan) the album is together.

The album includes such Dylan songs as "Lay Lady Lay", Mr. Tambourine Man" (sung with S-o-u-l), "Chimes of Freedom", "I'll Be Your Baby Tonight", and "Just Like a Woman". "My Back Pages" is a five minute, 11 second smash.

At Gilroy Stadium (Gary, Ind.) Festival Gary '69 featured Martha Reeves and the Vandellas (who are slated to appear in concert at Drake University's homecoming), and the Jackson Five--remember them on the Black Miss America pageant?

Raymond St. Jacques is again on the movie screen in "Change of Mind", the story of a white District Attorney who has had to undergo a brain transplant. The operation places his brain into the body of a black man.

In this movie you have a white man literally thinking Black! As a result he is attracted to the black widow (no pun intended), while his own wife and mother struggle to adjust and adapt to this new man. Duke Ellington wrote and performed the original score.

Drastic Shakeup In OEO Office

Washington, D.C. -- The Office of Economic Opportunity (OEO) is about to undergo a drastic shakeup of headquarters that reportedly will leave nearly 100 of the anti-poverty agency's employees without a job.

The shakeup disclosure was made suddenly and apparently without warning Sept. 17 in a memorandum from OEO Director Donald Rumsfeld to all 1,100 headquarters personnel. Attached to the memo was a list of about 900 people who will have definite new assignments.

Those not on the list, many in the \$15,000-to-\$20,000 salary range, were told they were being put in a pool, to be used wherever they were needed until their future was decided.

Both Races Petition For Okla. City Integration

WASHINGTON, D.C. -- The U.S. Supreme Court was asked Sept. 17 to uphold a U.S. District Court decision ordering a new desegregation plan for Oklahoma City public schools.

However, the District Court ruling which brought more desegregation was overturned by the U.S. Court of Appeals on Aug. 27.

Deadline

Associate Justice Brennan, acting as circuit justice in response to argument of NAACP Legal Defense and Educational Fund, Inc. (LDF) attorneys, overruled the Appeals Court on Sept. 2.

Justice Brennan gave LDF attorneys until Sept. 17 to petition the entire High Court in behalf of

those seeking integration in Oklahoma City.

Unusual

The case is unusual in that some white parents are joining Negroes in pursuit of integrated classes, in the lawsuit, while other whites are suing to stop the desegregation plan.

The U.S. District Court concluded that a failure to execute the desegregation plan of the Oklahoma City School Board would violate the constitutional rights of the Negro student by continuing the condemned and unconstitutional State-imposed segregation of the past.

The LDF is asking the Supreme Court to dispose of the case with "the least possible delay."

UCLA Regents Fire Teacher; Sees Legal Battle Looming

SAN FRANCISCO -- Miss Angela Davis, an acknowledged member of the Communist Party, was dismissed Friday from her post as acting assistant professor of philosophy on the Los Angeles campus of the University of California.

Face Battle

University regents, after two executive sessions, took the action in the face of a legal battle that some believed would be carried all the way to the Supreme Court.

Miss Davis, a 25-year-old Negro, majored in French literature at Brandeis University and was graduated from Brandeis, Magna Cum Laude and Phi Beta Kappa, in 1965.

Background

After graduate work in West Germany, she studied

Reply

Later in July, the University regents directed Chancellor Charles E. Young to ask Miss Davis whether she was a Communist. Her reply to his letter acknowledged party membership but questioned his authority to ask the question or "to deprive me of employment on such grounds."

Admit Political Pressures To Ease Desegregation
Assis. Atty. Gen. Jerris Leonard, the department civil rights Chief, admitted that political pressures had been brought to bear to ease the desegregation of schools in the south.

In a memorandum distributed to lawyers in the civil rights division, Leonard said, "All of us must realistically recognize that all government agencies are constantly subjected to political pressures from all sides of the political spectrum."

11th Hour
"We must avoid the 11th hour push whereby decision day, implementation day and school opening occur simultaneously as was true in the Mississippi cases," he said. "In my view, the request in those cases for a delay was a sound decision..."

Denial
Earlier, government sources had disclosed that Senator John Stennis (Dem. Miss.) chairman of the Armed Services

Committee and floor leader for pro-administration forces during the recent debate on the military bill, had pushed President Nixon for the Mississippi.

Stennis reportedly told the President he might have to return to Mississippi if the desegregation was ordered to proceed and would not be

available to lead the fight for Safeguard missile system.

A source close to Stennis said the senator did not say directly he would simply walk out of the defense debate.

RALEIGH, N.C. - Charging that the Hyde County Board of Education has precipitated "an educational catastrophe," a special committee of the National Education Association is urging the board to devise a desegregation plan which would not close formerly all-Negro schools.

8-Month Study
In its report summarizing an eight-month study of racial conflict in the Hyde County school system, the NEA committee recommends that the county's two black schools be used as elementary schools on a desegregated basis and that one white school serve as a high school for secondary pupils of both races. A fourth county school, on remote Ocrake Island, was not included in the study.

The committee therefore recommends that the school board meet with those citizens who favor a desegregation plan which would keep all schools in the county open.

Recommends
The committee recommends further that people chosen to represent the Negro point of view at the proposed meeting should be "acceptable to the black citizens."

Observing that in a county where blacks outnumber whites, it is "insupportable that the board of education should be comprised totally of white members," the committee urges the county board of elections to fill future vacancies with persons who represent the views of the county's black citizens.

In the area of school personnel, the committee recommends that staff members be released or demoted as a result of desegregation be selected on the basis of "objective and reasonable standards" rather than race.

Unsatisfactory
The NEA committee found the school board's desegregation plan unsatisfactory because the plan

was born in Washington, Ga., and had lived in Des Moines 42 years. She was a member of Shiloh Baptist Church.

Survivors include a daughter, Rebecca of Des Moines; two sisters, Mrs. Hattie Gladson and Mrs. Bertha Chandler, both of Cleveland, Ohio; a brother, Pimbell Isabell of Macon, Ga.

CAUGHT BARBER ADAM JOHNSON COMPLETELY OFF GUARD when I sought his views on Rev. Shopshire's skilled performance on the current political scene. The reason is that Adam and Myrtle Johnson just returned home from a visit with their granddaughter, Kay Lynn Sullivan (Mrs. Micheal) in Germany! They recommend flying the Lufthansa's 707 Jets.

Leaving Des Moines at 10:30 A.M., August 25, they were in Nuremberg, Germany before dark of the same day talking with Kay Lynn and her husband, Michael. The young couple live in Nuremberg. Michael is a free lance photographer and Kay Lynn a pretty haus frau. You will recall the two of them worked for Chicago's WIND Radio and Television Station where Michael was, of course, a photographer and Kay Lynn a program arranger. The two own a Fiat which Adam claims will hold four people and a package of cigarettes.

Adam and Myrtle hold international drivers' licenses! They can drive anywhere in the world, including Vietnam!

Nesting tidily in the Fiat the Johnsons and Sullivans motored 150 miles daily easily. They did not always use the autobahn! They were out to really see the country and its people. They traveled at least 600 miles during their stay. The most exciting city was Nuremberg states Adam as he reminds us "Where Hitler started his push!" Another pleasurable city was Elargen, another Rotherburt. They were also on the Danube!

MYRTLE AND ADAM COMPLIMENT THE PEOPLE OF GERMANY! "They are honest! We would leave our cameras or any items in the car — unlocked or locked—it didn't matter. There was no pilfering! Their prices are reasonable. They were fair throughout! Johnson added "A kid would remove the wrapper from a candy bar, walk a block and place it in a trash can! You never see a beer bottle or can on the street. Trash cans are plentiful and are used!"

BEAUTICIAN EDITH SHARP (MRS. WILLIAM) visiting in Giessen, Germany received a phone call from Myrtle Johnson! Adam, placing the call for his wife, astonished Edith's daughter (a male voice on the line, you know) asking "May I

speak to your mother?" MARIE NOWLING, ONCE AGAIN THE TALK OF THE TOWN! She certainly is for those who learned of her presence here for the James Brown Show. Now of Denver, the great Nowling is said to remain involved in a career! Here she is said to have been a most versatile entertainer — excellent in soft shoe, tap, ballroom and popular dances; produced and directed many plays and musicals; was an outstanding pianist and vocalist; contributed her talents freely to church and youth groups.

She retains her sylph-like loveliness her exotic good looks, and the sparkling personality. A longer visit will permit a few celebrations! Marie is the sister of the late well-known singer, George Brewer, Sr. and so the aunt of our Joan Cheatom and George Brewer, Jr.

PASTOR JAMES M. SHOPSHIRE'S POLITICAL CONTRIBUTIONS have won much prize for the spiritual leader of Burn's United Methodist Church. One member had this to say of his minister's civic role: "He is tremendous. His involvement was significant and to have pulled as many votes as he did! It is hoped that with the next election, we can get him on the board; if not him, then someone like him. We have to start somewhere. It takes a person with a certain boldness to break the ice, to show that it is something not impossible. And this is what he did."

After the election was over he didn't skulk away and say that's all. He continued to press for better schools for children of the community. It was due primarily to his efforts that the Bird-Grant Complex remained in the school bond issue. And other concerned Christians aroused the public and the local press took it up. I felt that his efforts were good for the community! Not only for what they accomplished, but the example that they set! Many other expressed praise for Pastor Shopshire's fine example of good citizenship.

Your professional beautician knows the answer...

Is peroxide needed to color unwanted gray hair?

Hair care and beauty experts know that the first traces of gray hair—and even slight fading of natural color after chemical relaxing—can dull a woman's appearance and make her look older than she feels. While most women hate these premature aging effects, many are hesitant about using permanent peroxide haircoloring which may change the natural hair color while coloring gray.

Professionally-trained hairdressers know the importance of their customers' preferences when unwanted gray becomes a problem. These experts also know that Clairol created semi-permanent Loving Care® hair color lotion without peroxide... to color only the gray without changing the natural shade. They also find Loving Care blends back color faded by chemical processing. Because of its mildness, Loving Care maintains healthy looking hair and lasts through a month of shampoos.

Whatever a woman's reason for wanting Loving Care for her hair, she is always wise to consult a professional beautician. Hairdressers are equipped with a family of fine Clairol products and the training to promise each patron the loveliest and most personalized haircoloring effects every time she visits her salon. If you dislike gray, and want no peroxide, why not ask your beautician to glamorize it with Loving Care?

Juicy canned Bartlett pears, sweet potatoes and chicken cook quickly in a savory orange sauce to make a delicious one-dish meal.

Easy to prepare, the chicken is browned and then simmered in pear syrup and orange juice. When almost tender, the pear halves and sweet potatoes are added. For a colorful accent, garnish with watercress or mint. Add a crisp green salad and the meal is complete.

Golden Pear 'N Chicken Fricassee
1 (1 lb.) can Bartlett pear halves 1/4 cup flour
1 (2 to 3 lb.) fryer chicken, cut into pieces 1/4 teaspoon garlic salt
1 teaspoon salt 1/2 teaspoon powdered ginger
1/2 cup butter 1 1/2 cups orange juice
1 (18 oz.) can sweet potatoes

Drain pears, reserving syrup. Add water to pear syrup to make 1 1/2 cups. Sprinkle chicken with salt. Sauté in butter in large skillet, browning evenly. Remove chicken. Stir in flour and seasonings. Gradually add orange juice and pear syrup, stirring until smooth and thickened. Add chicken. Cover and simmer 30 minutes. Add pear halves and drained sweet potatoes. Cook 15 minutes longer or until chicken is tender and pears and potatoes are heated through. Makes 4 to 6 servings.

Model Cities Projects Questionable

The Model Cities planners are groping for projects for the area. What they do now is of long time importance and thus careful consideration should be given to each project.

The first program on the drawing board is a housing project to be located on University Avenue between 12th and 13th streets. This seems preposterous. First, the location is in an area where crime has flourished for months, proof of which were indictments of several operators in the area. They will not move because a housing project is built there.

Further, the area is surrounded by many of the poorer homes which would add to the undesirability of the location.

Another project suggested is a motel lodge on 6th Avenue which it is understood, would be another Holiday Inn.

This too seems questionable for Des Moines is already loaded with such projects two of which are on the same street and just a few blocks away. We can see this is only a step toward a fundamentally Negro motel. Experience shows that even in heavily Negro populated areas, hotel success is far from satisfactory.

It is not hard to spend money but it takes experienced business planning to invest in projects that are not sentimental but operated along good business practices.

Laws are Made for All to Obey

It is unfortunate that a hassle had to arise over the employment of a member of the Des Moines Human Rights Commission staff arising because he refused to be inducted into the service. And particularly since procedure rather than the real merits of the cause were involved.

The commission is in no position to carry an additional burden. Its status is somewhat shaky (as stated by the chairman several weeks ago).

As a matter of policy, the Bystander has no sympathy for a fellow who refuses to fight for his country. He falls in the class of those people who attempt to select to obey only those laws they want to abide by.

Unfortunately, there are too many people following this course either because of the power and influence they can exert or by claiming that they believe that it is contrary to their conscience and beliefs.

Many southerners oppose equal rights for Negroes because they have been taught that this was the thing to do. They believe it. We have laws against strikes but strikes in Cedar Rapids, now, and in Des Moines some weeks ago refused to obey court orders, thumbed their noses at the courts and got away with it. They, too, say they feel that in good conscience the law and the courts are wrong. They need not obey.

Both the man who refuses to serve his country and or refuses to obey the laws of the land are detrimental to the society, for if every fellow was free to do as he chooses, the country would be like a ship without a rudder. They violate the law just as the militants, the mobster or the professional criminal does.

Maybe Our Only Hope for Peace

President Nixon is trying to end the war by slowly withdrawing forces from Vietnam and placing more responsibility on the South Vietnamese army to carry on the war. Our supplies would still be furnished.

France quit the war in Vietnam cold turkey because they became convinced that to go further was too expensive in men and materials for what they won.

America and its allies have about come to the same conclusion. However, they hope to convince the other side that by with-

drawing troops, that they want the war to come to an end.

Maybe this is about the only practical approach tried so far realizing that a war cannot be stopped at once unless each side agree. It is hoped that some tangible results will follow the withdrawal of our forces convincing the other side that we want peace.

Willie Mays Slams 600th

San Diego, Calif.--Willie Mays of the San Francisco Giants whammed his 600th homer Monday becoming the second man in baseball history to reach that magic number.

The ball was retrieved from the stands and presented to Mays, who received a standing ovation. The homerun was Mays' 13th of the season.

The only other man to reach 600 home runs was Babe Ruth, who hit 714.

Willie Mays, who ranks third on the National League's all-time runs-batted in list, has never led the league in RBIs, according to an article in the current issue of SPORT Magazine.

Minn Twins Clinch Division Flag Monday

Kansas City, Mo. -- The Minnesota Twins clinched the American League Western Division title Monday night by beating Kansas City. The Twins had to survive a ninth-inning attack to win 4-3.

Meanwhile, back in Bloomington, Minn., home of the Twins, reports are that 27,000 of 28,000 tickets had been sold by Monday.

The Twins also will begin accepting tickets for the World Series if it's held here, this week.

SPORTS

With Allen Ashby

That was probably the biggest opening day crowd ever at Iowa last Saturday. The normal first game crowd is around 45,000 but this crowd beat that by a good margin. We would guess a lot of them came out of curiosity. They wanted to see if the blowup last summer had anything to do with the team. No doubt a few hoped the team would be great in spite of "those guys."

New Backfield

But as a friend pointed out to me when that squad vote was taken the fellows let some players go they should have kept. That was almost an all new defensive backfield put up for the Hawks.

Now a defensive line can be steamed up to literally run over the other line and smash a good ground gainer and that line doesn't need to be experienced either. But that always helps. But your defensive backs must have some experience in order to function well. Those fellows playing as defensive backs might not have done any better than the fellows out there but one has to wonder. And we just don't think those scars have healed completely in spite of what people say. The potential is there for a good team, but so is the alibi ready made if the team isn't good. We gave the Hawks six games at the start of the season. Let's see how close we come.

Iowa State may become the big league team of the state. Or else Syracuse has been overrated. But we got a couple of eastern papers and they thought the Cyclones were real tough and could go far in the Big Eight. They also thought Obert Tisdale was a fine sophomore quarterback and thinks he will make his mark if he stays in one piece. Got to see them play at least once.

While Iowa and Iowa State were having troubles Drake were having all they wanted at South Dakota. But the Bulldogs managed to come through and now say they are glad to get a rest.

Here at home Dowling, the Number One team, had trouble getting rolling. But finally made it past Lincoln. North simply ran away from hapless Tech who hasn't won for so long they forgot how it feels.

East is going to have a long season also. Maybe they better be glad they won that first game. Most of our local high schools, especially Tech and East are having trouble keeping up the school pride. You know, father, big brother, uncle played on the teams before so I have to make it. But now the guy graduates from East or Tech and moves to another school district, so his son goes to Roosevelt, Hoover or Dowling, and the chain is broken.

bronchitis and emphysema is six times greater for smokers than for non-smokers.

These are the facts. For more of them -- about chronic bronchitis, emphysema, TB, other respiratory

(c) 4 blacks get work permits as iron workers from a local union;

(d) 2 Negroes become city firemen;

(e) a white renter keep from being evicted after entertaining nonwhites;

(f) 2 black college students get part-time jobs (as waiters) "meeting the public";

(g) Spanish-Americans get enrolled in adult education courses;

(h) blacks rent apartments and buy houses;

(i) Negroes and Spanish-Americans get served properly in restaurants;

(j) an Indian family rent a house;

(k) a black gain admittance to a carnival side-show;

(l) a black licensed practical nurse regain her job in a nursing home at the standard rate (rather than 15 cents an hour less);

(m) blacks buy beer at the regular price in taverns;

(n) --and many others who have been victims of discrimination.

STAND UP FOR YOUR RIGHTS (like these people did)! Get the job or promotion you are qualified

for *** Buy or rent the house or apartment you can afford, regardless of location ***

Don't be arbitrarily turned away from taverns, hotels, motels, theaters, night clubs, restaurants, barber shops, beauty shops, bowling alleys, or carnival side-shows ***

Don't just "give in" and settle for being overcharged for a beer in a tavern, or for dirty silverware or burned steaks in a restaurant, or for a sloppy haircut *** Don't be limited to service at taverns only on weekdays ***

Don't give up getting a job when a city civil service commission or a labor union unjustifiably refuses to certify your eligibility ***** Don't worry about your employer intimidating you because you have stood up for your rights *** Don't be turned away arbitrarily from job training programs or apprenticeship programs, or from membership in unions *** Insist on fair financing terms when buying a house *** Park your trailer house in the lot of your choice ...

If you feel that you have been discriminated against in employment, housing, or public accommodations because of your race, creed, color, religion, national origin, or ancestry -- then contact the IOWA CIVIL RIGHTS COMMISSION immediately.

Letters from Our Readers

A bit of prose . . . a line or two of poetry . . . a letter now and then to express thoughts in the minds of our many readers.

Send Yours Today

A NOTE TO THE TEACHER

Under another cover I am sending you today

A merry little fellow with a most appealing way.

He's never been away from me in all his years 'till now.

And it is hard to tear this leaf from the parental bough.

We know that you will smile at him, and by your kindness strive

To show him life is pleasant for a little lad aged five.

The hours will drag until I hear his footsteps on the stair.

And when he runs home every day, I will be waiting there.

I know you cannot love him half so fervently as we,

But he has special qualities as very soon you'll see,

Who knows in the long years to come what wonders he may do,

Because when he was a small boy he went to school to you!

—Ann Campbell, in Family Circle

Letter to Editor:

In your Sept. 18th copy of the Bystander, "News in a Nutshell," you mentioned a Mr. Oscar C. Howard as being the first Negro of the United States to be elected a member of a Rotary Club. My husband, Dr. Edward Martin, a podiatrist (deceased) was a member of the Rotary Club of Mason City five years ago.

Do you suppose he was the first? I thought you might be interested in this information.
