100 Black Men May Have Died In Tests

Rev. Jesse L. Jackson and Schlitz President Robert A. Uihlein enjoyed a laugh after signing the Historic Pact between the Brewing Firm and Operation PUSH last week.

Wider minority role pledged

PUSH, Schlitz reach terms

Operation PUSH, the Chicago-based Black activist group, and the Jos. Schlitz Brewing Co. last week signed an agreement pledging the brewing firm to upgrade minority job opportunities in its plants and to channel more of its business to minority-owned firms.

The covenant, which climaxed three months of negotiations between Schlitz

representatives and those of the Rev. Jesse L. Jackson's organization, calls for Schlitz to direct 15 per cent of its wholesaling franchises, insurance contracts, and other miscellaneous contracts to minority-owned firms. The pact also pledges the brewing firm to set aside 15 percent of its annual charitable contributions for Black-oriented charitable organizations.

In addition, the agreement provides that minorities will comprise 15 per cent of Schlitz' work force. Schlitz employs minorities at 14 per cent of its labor ranks now, but the covenant means that minority employees will also be assured fair representation at all job levels.

In signing the agreement at Schlitz' Milwaukee offices last Thursday, both Jackson

and Schlitz president and board chairman Robert A. Uihlein hailed the event as a landmark for minority participation in U.S. business.

Last May, a spokesman for Operation PUSH officials were considering calling for a boycott of Schlitz beer if its demands for a larger piece of the Schlitz corporation's action for minority people were not met.

A Schlitz spokesman said at that time that there was "no proposed action" against the brewing firm on Operation PUSH and Schlitz officials as "amicable."

He added that Schlitz was only the first of a number of large businesses in the country with which Operation PUSH planned to negotiate to achieve better minority job opportunities and a larger share of business for minority enterprises.

GOP Column

By Stanley Scott
Assistant to the Director of Communications

For The Executive Branch
(In this continuing series of articles prepared exclusively for the National Black News Service, a Black Republican tells why black voters should cast their ballots for President Nixon.)

Several weeks ago I attended a small cocktail party. A man came up to me and began to chat. As the conversation progressed he asked me what I thought of Sen. George McGovern. When I answered him—he had this rather puzzled look on his face. He finally spoke up and said "you mean to tell me you are a Republican?"

This brought home a point. Most Americans identify the Black voter with the Democrats by a margin of 72 per cent to 9 per cent.

Webster's defines equal as being "free from extremes." You would have to agree that 72 to 9 is pretty extreme.

This country was built on the two-party system. Yet, for the blacks, the figures seem to indicate the extreme—the extreme being only a one-party affiliation.

When I look at the figures—I find myself thinking the Democrats don't need to worry about the Black vote—with 72 per cent of the Blacks claiming Democrat party affiliation—why should they?

Why is it that Blacks consistently vote for the Democrats? For most of us that is easy to answer.

Tuskegee Study Still Under Fire By Black Leaders

By Michael D. Petit
National Black News Service
Washington, D.C. (NBNS). — It now appears that more than 100 black men may have died as the result of a criminal experiment conducted over the past 40 years by the U.S. Public Health Service in Macon County, Alabama.

The by now infamous Tuskegee Study, in which more than 400 black men were denied treatment for syphilis so that doctors could document their bodily deterioration and death, is under investigation by the U.S. Department of Health, Education and Welfare. A report is due in November.

Originally, when the experiment was first revealed last July, the U.S. Public Health Service confessed to seven deaths attributed directly to untreated syphilis.

Now, according to a report issued 26 years ago by the very doctors carrying out the bizarre experiments, there is documentation of 28 deaths. These deaths came from autopsies performed on the bodies of 92 men out of the more 400 involved in the experimentation.

If this fatality rate of 30.4 percent is extended to cover the entire number of men who went untreated for syphilis, the actual toll would be an almost unbelievable 107.

Not since the world recoiled in horror at the Nazi experiments on Jews during the Second World War has there been such a scandal involving scientific experimentation on human beings.

It has now been established that only 74 of the 431 or more involved in the experiment survived. The grim count continues in an effort to determine how many of the 357 or more died as a result of or be treated for the venereal disease.

Also as incredible is the fact that the experiments went on for 40 years without protest from those involved or publicity.

Reports written during the past 40 years indicate that the doctors believed the men they picked were so ignorant that they had to be

treated like children.

Rewards in the form of automobile rides in chauffeured limousines and assistance for their own burials were offered with the of denials if the men were unco-operative.

There was even a social lodge created in which the men and their families gathered for socializing. It was called the Miss Rivers' Lodge named for Eunice Rivers, a Public Health Service nurse responsible for keeping track of the men used in the Tuskegee experiment.

Excerpts from a 1946 report, in which the doctor's convicted themselves in displaying a callous and detached attitude toward the suffering of the men being denied treatment, included grim scientific analysis of the side effects of syphilis:

"Examination (autopsy) did reveal evidence of hardening of the arteries more frequently in the syphilitic than in the control (nonsyphilitic) group."

"The syphilis exhibited more loss of vision at all ages than did the controls."

"It is clear that in the absence of treatment the person infected with syphilis, even though he may escape the late crippling manifestations which lead directly to death, still runs a considerable risk of having his life span shortened by other fatal conditions."

"In addition, he can expect to experience more manifestations of ill health of all kinds than do uninfected persons."

A number of survivors of the experiments and families of some who died have entered law suits to collect damages. Both U.S. Senators from Alabama — John J. Sparkman and James B. Allen — have sponsored legislation to give participants or their survivors \$25,000 each.

The Alabama Attorney General's office is also checking to determine if the Tuskegee Study, begun in 1932 and continuing to this day, violates a 1927 state law requiring treatment for syphilis victims.

Black Voters To Re-Elect The President Meet Saturday

The Iowa committee to "Re-elect the President" has invited a group of black voters for a briefing and luncheon at the Hotel Savary Saturday September 23rd beginning at 11:30.

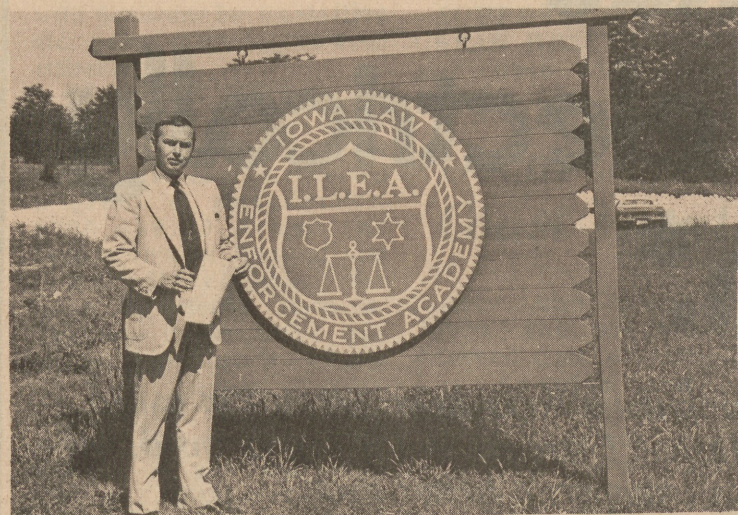

Representative from in and out of Des Moines have husbands and fathers.

We saw unemployment rise to a 10 year high during Nixon's Presidency. And many of the people pushed on relief and into bread lines because of the Nixon-engineered joblessness are blacks — the last hired and the first fired. In urban centers where blacks reside, the unemployment rate has more than doubled the highest rate of unemployment experienced by all others.

been invited to attend. The program will consist of briefings by representatives of Republican State Central Committee Senator Jack Miller Committee's and Committee to Re-elect the President.

The delegate who attended the National Convention will speak. James B. Morris has been asked by Churchill T. Williams, State Chairman to head the group.

Nixon is guilty of causing the loss of jobs by our brothers and sisters, and at the same time allowing prices to rise out of sight. Meanwhile, he has supported welfare for the rich corporations like Lockheed, has allowed big business to rack off huge windfall profits in the Wage-Price freeze and in wheat deals.

Jack Woodard, Republican candidate for Polk County sheriff, announced a proposal for professionalizing the sheriff's office.

Woodard Has Plans For Sheriff's Office

DES MOINES, IA — Jack Woodard, Republican candidate for Polk County sheriff, released a proposal for professionalizing the sheriff's office, during a press conference Wednesday morning at his campaign headquarters.

Training, recruitment, and job security were the three areas of neglect cited by Woodard that demand improvement to achieve truly professional law enforcement "Academy

(ILEA) offers a basic law enforcement course, a refresher course, and a command course for officers.

"I will require that every new deputy attend and be certified in that basic course within his first year," said Woodard.

"Present experienced and qualified deputies should take the refresher or command course. All deputies ought to be certified in one of these ILEA courses."

NAACP Resumes Schedule

The Des Moines Branch of the National Association for the Advancement of Colored People will resume its fall schedule by meeting at 7:30 Tuesday, Sept. 26, at the Wilkie House.

Delegates for the state

convention to be held in Fort Dodge in October will be selected.

A movie on Youth Employment will be shown.

Mr. Charles S. Crook, Jr., first Vice-President will preside.

"Soulful Blacks" Want To Build 'New Africa'

About six weeks ago a group of young Blacks

made a presentation to the Board of Directors at Black Theology Center for the purpose of promoting revolutionary education and culture.

This talented group comprised of artists, photographers, models, actors, actresses, and brothers and sisters "off the Block," with ages ranging from 16 to 24. They decided it was past time to rid the community of the evils that oppose Black Survival. The

proposal was considered and accepted, with facilities and office space made available, providing the needed springboard.

Since then the black community has become very much aware of the Soulful Blacks. According to group spokesmen, "The purpose and philosophy of the group stems from the daily lives of the black masses. Freedom for our people by any means necessary is our main objective."

The group has also said "we must regain the pride, respect and love for each other lost in chattel slavery (past) and economic slavery (present). We support all groups and methods committed to the building of a 'New Africa.'"

Culture & Education
Culture and education has been the main focal point for the Soulful Blacks. They believe that through experiences in the white schools of America Blacks are being deprived of knowledge of self and a education relevant to their survival.

With lots of hard work and sacrifice a show about 2½ hours has been put together presenting African Culture, Political Education and Entertainment. There has been two shows at Robert's Lounge (Early Sept. and Aug. 7) consisting of skits depicting the fatal effects of Heroin, the police in the black communities and negroes who sell out.

The sisters who are all sizes, shapes and skin tones model African Material showing the beauty of Black women and erasing the stereo-type of one particular kind of a beautiful woman. In fact the last show was dedicated completely to the Black Woman.

The show has lots of political content pointing out the contradictions between Black peoples needs and desires and the selfish interest of Whites.

The group feels that by setting correct examples for the younger blacks and winning the support of all segments a new culture and education will evolve in which Black children will live the new awareness.

Angela Leaves Moscow, On Way To Berlin And Cuba

(The following dispatch was prepared exclusively for the National Black News Service by Ninel Streltsova of the Novostia Press Agency, one of the official press organizations of the Soviet Union.)

Moscow — (NBNS) — It is fortnight since Angela Davis and her friends, Kendra Alexander, member of the Central Committee of the Communist Party of the U.S.A., and Franklin Alexander, member of the party's National Council, alighted from the plane and step on Soviet soil. It seems as if it was only yesterday, recalled Angela.

All the days of the American communist's stay were tightly packed with meetings and more meetings. Her Soviet friends wanted to show as much as possible to Angela.

She managed to visit Moscow, Tashkent, Samarkand, Leningrad. She spent several hours in Ulyanovsk, Lenin's native town and in each city she made thousands of new friends.

Angela never parted with her notebook. She looked at things, asked questions, specified and jotted down

something. "I shall never forget the exciting meeting with the Soviet people," she admitted. "We have grown fond of the Soviet people."

On the eve of her departure, Angela visited the Patrice Lumumba Friendship University where young people from Asian, African and Latin American countries study side-by-side with Soviet young men and women.

Angela and her friends were greeted by representatives of the People's Republic of Bangladesh, Sierra-Leone, Chile and the Lebanon on behalf of the students.

"We very well understand the excitement you feel when meeting Soviet people," said Eliana Alvarez, a student from Chile. "For we constantly feel their hospitality and cordiality. How wonderful it is that there is a country like the Soviet Union on our planet exclamation."

Angela said: "We have always known and know the priceless assistance which the Soviet people extend to the peoples fighting for their national liberation. All those who are struggling against racism, colonialism and imperialism

have never doubted and do not doubt who their real friend is."

On that same day, Angela, Kendra and Franklin were guests of the young Muscovites. The children proudly showed them around the magnificent Palace of Young Pioneers.

"My dear wonderful children of the Soviet Union," Angela said to them. "You spoke here about my courage and staunchness, but how could I be but staunch having so many remarkable friends?"

"I am very happy that my visit to your country ended with this marvellous meeting. I am happy because I will be able to take home with me this feeling of joy which you have instilled in me and to pass it on to the children of my country, to those victims of hunger, poverty and oppression."

Angela then said goodbye to Moscow, from where she is going to Berlin, Sofia, Prague and then to Cuba and Chile. She will then return to New York where she intends on taking an active part in the election campaign of her party, the Communist Party of the United States.

Letter To The Editor Criticizes 'Militants'

Dear Sir:

To the extent that your newspaper performs the primary objectives of any true newspaper, i.e., to inform, educate, enlighten and entertain, your paper is to be commended.

To the extent that consciously by placement of pictures, editorializing in supposedly - objective news articles, selection of editorialists and columnists such as "Kambui Yero" and "Kalonji Lumumba" — who present (especially "Kambui Yero") a negative, reactionary and actually racist and anti-American viewpoint, you promote further alienization of the races. I think you are to be condemned.

"Kambui Yero" (whoever he is) in his July 27 and August 17 columns published in your paper speaks of "...we black Americans (must) ...support National Liberation Struggles of Oppressed People the World over ... we are fighting the same enemy the oppressive government of the United States— corrupt to the core ... violent armed struggle ... with the correct political line is the only solution toward winning complete emancipation and

PANTHERS RAP ANGELA FOR LACK OF INVOLVEMENT IN BLACK AFFAIRS

OAKLAND, CALIF. — (NBNS) — The official newspaper of the West Coast faction of the Black Panther Party has criticized Angela Davis for what they called her refusal to involve herself with black people.

The newspaper said Miss Davis refused to involve herself with "the programs of black organizations and people."

Letter To The Editor Criticizes 'Militants'

Dear Sir:

"Kambui Yero" (whoever he is) in his July 27 and August 17 columns published in your paper speaks of "...we black Americans (must) ...support National Liberation Struggles of Oppressed People the World over ... we are fighting the same enemy the oppressive government of the United States— corrupt to the core ... violent armed struggle ... with the correct political line is the only solution toward winning complete emancipation and

overthrowing the enemy of all man - kind— the U.S. government." He goes on to say that "All Black prisoners are victims of American Social Injustice" and speaks of "racist capitalist class oppression" in the U.S. as being the "root cause" for suffering of Black people in "this evil system." (The underlining mine for emphasis).

Now, all of the above sounds to me like a page perhaps out of the Communist newspaper, "Pravda," rather than reading it in an American paper!

While it is true there are many things wrong with America and our political and economic system, I still firmly believe that it is the best on earth; that it has more freedom and opportunity and equality and self - government than any other system and, in general that there are a great many more things RIGHT with this country than there are things WRONG!

You also seem to print rather frequent pictures of Angela Davis, a self - avowed Communist sympathizer, together with words indicating she is some kind of heroic symbol of "black revolutionary

forces." Well, she well may be being used by the Commies to further THEIR own aims but I doubt very much if she speaks for any sizable portion of the Black community of Polk county or America. It is my firm belief that the vast majority of Black people are good, God - loving, American citizens who believe in this republic of ours and that they realize that America is truly the most democratic and revolutionary country in history. The Communists and their philosophy represent only the same old, tired, and truly reactionary, dictatorial and non - democratic system that has existed for centuries!

Those who advocate racism and or political extremism— whether they be black, brown, white or whatever color God gave their skin— do no service to the cause they hope to attain. The Rev. Martin Luther Kings, the Supreme Court Justices Thurgood Marshalls, The Senator Brooks and may other Black Americans do more for the cause of justice and freedom in one day alone than all of the Angela Davises, "Kambui Yeros" and others of this like will accomplish in their combined LIFETIMES!

Sincerely,
Gerald (Ged) Buckles,

Kitty Weston A Big First

Miss Kitty Weston is congratulated by Chief Warrant Officer, George E. LeBlanc following recent ceremonies in which Miss Weston became the first black woman officer candidate to be processed through the Des Moines Navy Recruiting Station. Miss Weston, 24, is a graduate student in Education at Drake University and a native of

Winston-Salem, North Carolina. She will report to Newport, Rhode Island in June to begin 19 weeks of Officer Candidate School prior to receiving her commission as an Ensign in the United States Navy. Miss Weston has been a Des Moines resident since 1966 when she began undergraduate studies at Drake.

Des Moines Girl Tours With Platters

Lolita Fonza, daughter of Mrs. Harrie Fonza and the late Harrie Fonza has been touring all over the country entertaining with the Platters. They have been to North Carolina, a tour in Bermuda where the Black British gave a warm welcome, and they will soon make a tour to England. Lolita has been singing for 7 years and is making a big comeback this year.

DECOLONIZATION COMMITTEE WANTS ACTION IN SOUTHERN AFRICA

UNITED NATIONS, N.Y. — (NBNS) — A special committee of 24 on decolonization has asked the General Assembly to request all States to discontinue all military, economic and other collaboration with Portugal, South Africa and the illegal minority regime in Southern Rhodesia.

The committee also sought a call for moral and material assistance to the peoples of colonia territories in their struggle for freedom and independence.

Other recommendations demanded the cessation of wars to suppress national liberation movements, and the withdrawal of all foreign troops and military bases from colonial territories.

The committee said that military activities and arrangements and foreign economic interests posed major obstacles to decolonization and economic and social justice.

Last winter, the Burkes heated their home electrically for \$27.89 a month.*

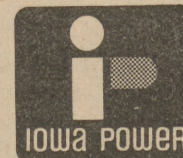

Mr. and Mrs. William Burke live in Commerce, Iowa. Their home has 1,820 square feet on the first floor and 1,820 in the basement . . . both of which are heated with electric baseboard heating units. During the five coldest months last year, their average heating cost was \$27.89 per month. We asked the Burkes to tell us about their electric heating. Here's what they said:

"We've had most all other kinds of heat, but I like electric heat best. It's even heat, a lot cleaner, and you have a thermostat in each

room. I think it's a safer heat. When I'm asked if it's expensive, I say no, not if you're insulated for it. It's a cheaper, a better heat."

When you consider the cost of a heating system, consider the value. Electric heating is cleaner, quieter and more flexible than any other system. It's the only system that will be as modern years from now as it is today.

Curious? Mail in the coupon! Let us provide you with an individually-prepared estimate of the electric heating cost based on your house plans. No obligations. Just the plain facts . . . then you decide which is best.

I would like to know more about electric heating. I understand there is no obligation.

For the past 15 months a group of inner city citizenry has worked diligently every Thursday evening developing plans for a much needed free medical clinic which would serve the poor and disadvantaged of the inner city area. This group composed of 8 inner city residents, 1 representative of organized labor and a representative each from Mercy Hospital, Lutheran Hospital and the College of Osteopathic Medicine comprise what is known as the Inner Urban Community Health Center Board. It has been the job of these twelve committed volunteers to sift through and solve the, what can at times, seem like insurmountable problems of setting up a public project of this nature and scope. But, despite the various difficulties and pitfalls, these people were able to obtain commitments from the citizenry for free building space, medical personnel, laboratory and administrative services which would amount to approximately \$206,900.00 in reimbursable expenses had the board had to rent or hire these services.

AFTER THESE COMMITMENTS WERE OBTAINED, the Inner Urban Board now set to finding possibilities for attracting federal funds to finance the services for which they had not already received free commitments. A proposal was then submitted seeking federal aid for the project.

THE BOARD OF INNER URBAN DISCOVERED at this time that there were two other smaller groups in the city working to establish or upgrade health centers in their areas.

AFTER A SHORT TIME representatives of these three groups formed a non-profit corporation known as the Central Iowa Health Service, Inc. This membership included 3 representatives from each health center area, 3 representatives from hospital administration (Mercy, Lutheran and College of Osteopathic Medicine and Surgery) and a representative of organized labor. This agency's purpose was not to run any particular health center but to coordinate and provide quality and accessible health service as well as attract financing for health service projects. But each individual health center was to retain its autonomy of operation with decisions for its staffing etc. being made by the area citizenry.

AT ABOUT THIS SAME TIME the Community Development Agency of the City of Des Moines received a grant of approximately \$200,000.00 from the Department of Housing and Urban Development for financing Health Services. This was money which was attracted through the efforts of the Inner Urban Community Health Center Board. However, the CDA saw fit to give the entire grant to Central Iowa Health Services, Inc. who had done nothing to attract it, totally overlooking the hard working Inner Urban Center people who actually did the work and obtained the commitments that attracted the grant.

THIS APPARED TO BE QUITE UNFAIR until the Central Iowa Health Services Board decided to accept the money and directly channel it into the Inner Urban Area Center by subbing out a contract for health services to the Inner Urban Center. To this move, CDA has answered a flat negative. They maintain that the contract stipulations which Central Iowa Health Services agreed to when they accepted the money does not permit this type of move. They insisted that Central Iowa Health Services must run the Inner Urban Center if they are to get the money. As was stated earlier, running individual health centers was the responsibility of citizenry of the area, not of Central Health Services, Inc.

TODAY, IT APPEARS, THAT THERE MAY NEVER be an Inner Urban Health Center although building, committed staff and services have been waiting for nearly two months now to begin

operation. Even though everything stands ready to roll with the release of the Community Development funds, they continue to insist that CIHSI and nobody else must run this Center in order for them to release the money even though CIHSI is not equipped to do this service, and it was not part of their purpose.

MEANWHILE IT IS THE PEOPLE of the area who suffer, those who need the health care. It is clear that had it not been for the stubborn insistence of the CDA staff that an agency carry out duties which they were not organized to execute this health center would have been a working reality today instead of a hopelessly stalemated contract.

THE NEIGHBORHOOD PRIORITY BOARDS, THE Central Advisory Board and the individual council members have expressed support for the Inner Urban Community Health Center Board. Only the CDA staff holds out. It appears that once again the CDA staff has stepped outside their limited expertise in their blind insistence that CIHSI run this center. R. Keith Simpson, D.O., of the Osteopathic College of Medicine and Surgery and a spokesman for the Inner Urban Health Center Board, states that he feels it is time that we the people must get together and influence the CDA to stop insisting that CIHS run this center and release the money so that the Center can actually begin.

SIMPSON ALSO POINTED OUT that actually if CDA would give them the go-ahead the project would probably reap praise for the Community Development Project of Des Moines on a nationwide basis "for as far as I know it's the only project of its kind where local citizenry have been successful in getting actual commitments for service from the professional medical services and hospitals."

IN CONCLUSION, EVIDENTLY IT IS ALSO TIME FOR EACH OF US to realize that our priority boards and the CDA are merely puppetry and quite powerless to influence, let alone make decisions, when they can support a proposal wholeheartedly and it can be nullified by some petty finagling in the CDA. That is, unless we make ourselves heard and remind the CDA that they were hired to serve our needs and that they are accountable to us for their actions. Remember, there would be no community development money if there were no community!

SUPPORT THE INNER URBAN HEALTH CENTER and those who strive to establish it for our use.

MEMPHIS BUSING ORDER IGNORED BY SCHOOL BOARD

MEMPHIS — (NBNS) — The Memphis School Board, rejecting a judge's order to bus 13,789 school children, has decided not to buy any buses and what's even more interesting they don't have any buses.

The school system faces a fine of \$4,620 a day by now complying with the judge's order. The six white members of the board decided to forego buying or renting buses immediately and appealed the judge's ruling to the U.S. Sixth Circuit Court of Appeals.

The court turned their appeal down and ordered the busing to proceed as U.S. district Court Judge Robert McRae had ordered. The three blacks on the board opposed the action of the six whites, but were simply outvoted. Now all of the members of the board face fines and jail, if the judge decides they didn't comply with his order.

A Real Political Trial

Chicago, Ill. (NBNS) — A political trial, in every sense of the phrase, has been ordered for Chicago Alderman William Singer and civil rights activist Rev. Jesse Jackson by an irate judge.

Cook County Circuit Court Judge Daniel A. Covelli, making good on an implied threat two months ago, has ordered Jackson and Singer to show why they should not be held in contempt of court for leading a successful unseating of Mayor Richard Daley and his hand-picked 59 member slate at the Democratic National Convention floor.

Judge Covelli issued an injunction prior to the convention ordering them not to do just that. Now the issue will be taken to court in a trial Covelli scheduled for November 20.

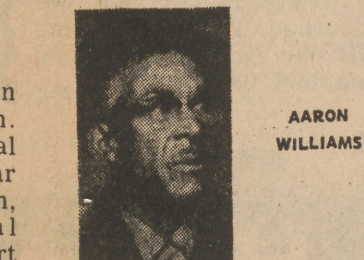

JORDAN WANTS CLARIFICATION ON PHILADELPHIA PLAN

NEW YORK — (NBNS) — National Urban League Director Vernon Jordan says he wants an "immediate, binding assurance by the Administration that it will not consider any changes in the Philadelphia Plan and will vigorously enforce it." "Press reports indicate that there is a reappraisal underway that could well result in watering down federal attempts to equalize job opportunities in the construction trades," Jordan said. "Any reversal of policy would be a stab in the back to black people and a betrayal of the black working man at a time of economic Depression in the black community."

OBITUARIES

AARON WILLIAMS
Services for Aaron Williams, 65, of 932 Nineteenth Place, were held at 1 p.m. Saturday at the Maple Street Baptist Church with burial at Glendale Cemetery.

SAYINGS

By Carrie J. Busch
It's said united we stand
Divided we fall.
Our sons still holding our hand
When President sends a call.
For our sons to defend a foreign land.
Our sons are dying and going through hell.
The President is sitting on his Chair, saying, "All is Well."
He says it will all be over after awhile
As death stalks and takes our child.
For a short time "God" gave us a son.
"God" never intended for a child to be given a gun.
Murder is a crime
Yet our sons are given guns to shorten each other's time.

Lung Cancer Threat Double For Urban Blacks

By Page Townsend
National Black News Service

Washington — (NBNS) — Black Americans living in the central city face a lung cancer risk at least double that of people who live in suburban and rural areas.

According to a report prepared by the National Research Council for the Environmental Protection Agency, the increased incidence of fatal lung cancer is associated with the pollutants which typically are 15 times as great in cities as in rural areas.

Since most Black Americans — 18 million of the 22.5 million counted in the 1970 census — live in urban areas, the risk to the health of blacks is greater than the cancer risk for the rest of the population.

"Although not all studies are completely consistent," the National Research Council said, "it is clear that increased lung cancer mortality is generally associated with urban living."

NRC, the research arm of the National Academy of Sciences, said studies showed that the incidence of lung cancer decreased with the distance from the central city. It was highest in the city, lower in the suburbs, and lowest on the farms.

The New Iowa Bystander — Des Moines, Iowa

managed to set 8 NFL records during his career.

In explaining his success, he said, "You have to be dedicated to it and you have to deliberate and deliberate and you cannot think about anything but the specialty that you choose." Now that Sayers is in television, he should continue this pattern and succeed in it as any other field.

But for most of us football will be an emptier place without a man who "was married to it and loved it."

SPORTS CAPSULE

The report pointed to the combustion products of hydrocarbons such as gasoline, coal, wood and tobacco as the air pollutants which most probably cause lung cancer. Among these products are sulfur dioxide and the benzo-pyrenes, which are known to cause cancer in laboratory rats and other animals.

The U. S. track team regained some of the prestige it lost earlier in the short sprints by winning the 110 meter hurdles and the 400 meter dash, only to have a rather tragic disqualification. Rod Milburn who holds the world record in the high hurdles and whose two year string of victories ended in the Olympic trials, came back to take America's second gold medal in track. He grazed three hurdles but it did not slow his progress as he gained momentum continually, finishing with a clear victory.

Gale Sayers, running back of the Chicago Bears retired after failing to comeback from injuries. Sayers, who in only 68 games established himself as pro football's finest halfback, decided to call it quits after fumbling twice in a preseason game against St. Louis.

In an exclusive interview with the National Black News Service, Mr. Sayers spoke from his office as sport director of Channel 26 in Chicago. In commenting on the trials of coming back after an injury, he said, "One day it hurts, then the next day it feels good again, so you keep hoping and looking for that day."

For Sayers, football "afforded him the chance to have the fine relationships like he had with Brian Piccolo" while allowing him to do "something he really loved to do." Sayers also

participation in the games including the 4 x 400 meter relay. The U. S. relay team was virtually assured of a gold until this suspension and the makeshift team failed to make the finals.

American Eddie Hart who lost his shot at the title of the worlds fastest human when a mixup disqualified him in an Olympic qualifying round got a chance to show his stuff in the 4 x 100 meter relay. Hart received the baton with a four steps ahead of 100 meter champion, Valeri Borzoi of Russia, and maintained his

lead by running the fastest 100 meters of his life. The relay gold medal was admittedly no substitute for winning the 100 meters but Hart was not seeking revenge and he only wished he had not slowed up the last 15 meters thereby missing the world record.

Will (Cannonball) Jackman, 74, one of the black league's greatest pitchers forty years ago, died Saturday while visiting friends in Marion, Mass. Jackman starred for the Philadelphia Colored Giants after playing semi-pro in New England for many years. He acquired the underhand pitch which was his trademark while in Houston. He lived in Boston's South End and worked as a private chauffeur.

Willis Reed, star center of the New York Knicks, was declared not guilty of menacing and endangering an off-duty policeman. Reed denied the charges and had eyewitnesses testifying that the patrolman threatened Reed while holding a gun to his head. Character witnesses including teammate Bill Bradley spoke of Reed's "honesty, integrity, peacability, and respect for the law and order."

In the annual meeting of the black college football powerhouses, Grambling defeated Morgan State 6-0 in Yankee Stadium. In this defensive struggle Morgan quarterback Edmund Burt was dumped seven times for 96 yards while Grambling quarterback Matthew Reed was intercepted twice. All the scoring witnessed by 6,397 in the Whitney M. Young Memorial Classic came in the second period on field goals of 26 and 23 yards by Richard Paul.

Finally a first-year man has made George Allen's Redskins. In his first tryout for the veteran-laden Skins, Herb Mul-key, a 23-year-old black, made the team. Mul-key, who has no collegiate experience and who borrowed \$200 to attend Allen's open tryouts in April, impressed with his speed and quickness.

Tommy Davis is still around and if you don't believe it just ask the Baltimore Orioles. Davis, who has always been handy with the bat, is contributing some timely hits to the pennant-contending Orioles. The two-time batting champion with a .296 lifetime average has been with eight teams in six years and has even managed a rock group and done some acting. But now he is doing what he does best, and that is hitting.

The metropolitan conference race makes me think back to the days when there just three teams and it was called the city series. East, West and North were the schools, and the annual East-West battle was the game of the year. North High was a sort of a stop sister, and was looked on as merely a stop between the big game and the end of the season. So everything boiled down to the one big game, and they had to play North High in order to get there, but the Polar Bears didn't really count. But, suddenly, along about 1917, North came up with what was called one of the greatest teams in Des Moines history. That was the team that people love to tell about, because it was just about the first integrated team that folks ever heard about. Just a forerunner of things to come. I am sure you have read and heard about that North team that was made up of five blacks, four Irishman, one Italian, and one Jewish boy. They went unbeaten until they lost to Mason City in what was, I believe, a post season game, 6 to 0. Then, with just about all of the members of that team back, North went unbeaten, rolling up scores that haven't been equaled since in a whole season by local high schools, not even Dowling. They also were undefeated the following year and beat East in one of those classic battles that people still talk about. The five blacks on that team were Joe Brown at end, Jenks Hunter at tackle, Curt Morton at fullback, John Drew at half, and Ralph Jones at the other half. Brown, Hunter, and Jones are deceased. I know Curt Morton is very much alive, and I don't know about Drew. But that was the turning point in city football. From then on, the East-West battle lost some of its luster, and the

East-North scuffle became the big game. Then, while I was in school, Roosevelt came on the scene, and was called the ROUGHRIDERS. Bus Davis, George Bourland and I played in the first game East played against them. I got in for one play. They were the city doormat for a number of years, but they cut a swath in basketball pretty soon. Their coach, Carl Harris watched a local semipro team of blacks use a sliding zone defense and have fantastic success with it in almost every game. The defense came a cropper a couple of times when a team from the Jewish Community Center showed us a fast break and got down the floor so fast nobody had time to set up any sort of defense. Well, Harris copied that thing on paper, and taught it to his Roosevelt team, and they began to beat the other high schools by scores of from 20 to 30 points to the opposition's five or six. They, too lost to a fast running team that didn't let them get set up when they finally got beat. But it was in the forties that Roosevelt really became a power in football in the city. True, they had upset East in the middle twenties, and started

the beginning of what has become one of the hot rivalries of its time. Roosevelt-East. That was the big game, replacing the others for quite awhile. Then Dowling, which hadn't been in the city series moved in, and they promptly started a bitter rivalry with Roosevelt that surpassed all the rest of them. And that's where it is today, but maybe in a couple of years the big one will be the Roosevelt-Hoover thing. Looks like it is building up.

But, do you know that while East High has been looked on as a place where there is little racial differences, it has been North through the years that has had the most blacks on the teams. Oh, I recall one year when East and North tangled there were so many blacks on both sides that you had to have a score card to identify the players. But, on the whole North had had the teams with the most blacks except Tech.

I am going to have trouble getting my all star teams together. You see, it was in the fifties that there became two teams, offense and defense. What am I going to do when I get to that team? Help!

UNITED NATIONS, N.Y.

(NBNS) — The worst forms of racial discrimination are prevailing in southern Africa, the sub-commission on Prevention of Discrimination and Protection of Minorities has concluded.

According to the commission, it found that this discrimination would have been eliminated if U.N. member states had applied U.N. sanctions against South Africa, Southern Rhodesia and Portugal to the letter.
