Now is the time for the majority and the minority to join hands in harmony to work on our City Government.

I have lived in the Fourth Ward over 27 years. I have served the Community and the City of Waterloo for about 20 years, because I am concerned with the young, the middle-aged and the Senior Citizens — all people, majority or minority.

Having lived and voluntarily served in this community, I am aware of the needs and I feel I am capable of dealing with this community and its needs.

I am concerned . . .

. . . about the living conditions of the Fourth Ward.

. . . about the development of our downtown that will certainly affect the Fourth Ward economically.

. . . about the open spaces (vacant lots) and their utilization in the Fourth Ward.

. . . about the types of services rendered in the Fourth Ward.

. . . about equality in the Fourth Ward.

. . . about the wishes and the rights of the people in the Fourth Ward.

. . . about hazardous waste

I respect our City Government and I am willing to take a stand to become a part of the decision-making process of our community.
