7703 Floyd Curl Drive
San Antonio, TX 78284

January 10, 1984

Dear Dr Bartke,

As I can not attend the ASA Council Meeting, enclosed please find the Report of the Future Meetings Committee .

This Report is exactly the same sent for the August 7, 1983 Meeting (see copies). At that time, I informed you that Dr Raj, from Chapel Hill, North Carolina, was willing to host the 1989 ASA Annual Meeting. As I told you previously, I do have the information concerning physical facilities, hotels, etc, as well as information concerning institutional support (See copy of Dr Raj's letter dated July 8, 1983).

Please inform me if Dr Raj's proposal is approved at the March Meeting of the ASA Council in order for me to communicate with Dr Raj.

With best regards and best wishes for 1984,

Sincerely,

Eugenia Rosenberg, M.D.

American Society of Andrology

MEMORANDUM

TO: Officers and Chairmen of Committees of the American Society of Andrology

FROM: A. Bartke *A.*

RE: Reports and Council Meeting

Meeting of the Council of the American Society of Andrology will be held at the Los Angeles Hilton, 930 Wilshire Blvd., Los Angeles, CA on Tuesday, March 13, 1984 immediately preceding the annual meeting of ASA. I am planning for the meeting to start at 9a.m. Lunch will be provided and we will finish in time to attend the evening social get-together.

It would be best if you could plan on arriving in Los Angeles on the 12th and I apologize for the inconvenience and expense that this may cause.

Please let me know whether you expect to be able to attend the Council meeting by completing the enclosed form and list any items you would wish included in the agenda.

It is very important that the Council Members can familiarize themselves with your reports prior to the Council Meeting. Therefore I would like to ask you to mail your reports to me not later than February 15. This will allow time for their distribution to Council Members.

If your report is longer than 2 pages, it would be very helpful if you could provide me also with a shorter version for distribution at the annual business meeting.

I wish you all the best in 1984 and look forward to seeing you in Los Angeles.

*Report sent

Dear Dr. Rosenberg,

We would be pleased to have you review abstracts for the 1984 Meeting of the American Society of Andrology to be held in March, 1984 in Los Angeles.

The deadline for receipt of abstract is September 1st. I expect to have you receive your packet of abstracts to review by September 7th. You should send me your scores on the abstracts by September 21st. The local committee will have to finalize the program by October 3rd in order for the program to be published in the February Issue of Andrology for the Annual Meeting.

Thank you in advance for this service.

Sincerely,

A handwritten signature in cursive script that reads 'Richard Horton'.

CALL FOR ABSTRACTS

1984 ANNUAL MEETING
LOS ANGELES HILTON, LOS ANGELES, CALIFORNIA
MARCH 13-16, 1984

Enclosed are forms for submitting abstracts for the program of the 1984 meeting of the American Society of Andrology. Note that the abstracts should be returned to Richard Horton, M.D., Chairman of the abstract review committee, by September 1, 1983. The abstract must be typed within the designated space on the form. PLEASE RETURN THE FORM UNFOLDED together with the photocopies and other materials requested. If additional forms are needed, please complete and return the form below.

SEND TO:

Gerald S. Bernstein, Ph.D., M.D.
LAC/USC Medical Center
Women's Hospital, Room 3L33
1240 North Mission Road
Los Angeles, CA 90033

Please send me _____
additional abstract forms.

NAME: _____

ADDRESS: _____

1984 Annual Meeting - March 13-16, 1984; Los Angeles Hilton, Los Angeles, California

PLEASE READ INSTRUCTIONS CAREFULLY BEFORE TYPING. Membership in the Society is not a requirement for submitting an abstract.

ABSTRACT MUST BE RECEIVED ON OR BEFORE SEPTEMBER 1, 1983.

1. The abstract should be type-perfect so a photocopy may be produced for the program. Please use this form.
2. Indicate preference for presentation: () oral only
() poster only, or
() poster or oral.
3. Mail the abstract, copies, and items requested using air mail (foreign) or first class (U.S.A.) mail service.
4. The abstract form must be submitted together with seven photocopies.
5. Enclose the following:
 - a) a stamped, self-addressed postcard with the title of the abstract on the back. This will be mailed back to you indicating receipt of the abstract;
 - b) a stamped, self-addressed envelope. This will be used to notify you of the decision regarding your abstract acceptance;
 - 3) 3 x 5" index cards, one for each author giving his/her title, full name, and institution on the front and the abstract title and full list of authors on the back.
6. The senior author should sign below indicating that the material in the abstract will not be published or presented prior to the 1984 A.S.A. Meeting.

The abstract must be typed in the box above. The title will be in CAPITAL LETTERS, followed by the author's names, underlined; the first author listed should be the presenter. The name and address of the institution(s) should be given immediately after the author's names. EXAMPLE: SIGNIFICANCE OF ANTISPERM ANTIBODIES FOLLOWING VASOVASOTOMY. Eugene F. Fuchs and Nancy Alexander, University of Oregon Health Sciences Center, Portland, Oregon 97201.

American Society of Andrology

ANNUAL MEETING

LOS ANGELES HILTON, LOS ANGELES, CALIFORNIA
MARCH 13-16, 1984

The 1984 annual meeting of the American Society of Andrology will be held March-13-16, 1984 in Los Angeles. This meeting will provide a forum for exchange of ideas on both the basic and clinical aspects of andrology. A postgraduate course will be held on March 13 and will encompass the clinical and laboratory aspects of the evaluation of semen and its components. The scientific sessions in the three following days will be introduced by keynote speakers. The speakers and subjects will be: Dr. C. Wayne Bardin: "Use of Androgen Binding Protein and Other Markers to Evaluate Seminiferous Tubule Function"; Dr. Roger Gorski: "Sexual Differentiation of the Brain"; and Dr. Richard Marrs: "Andrological Aspects of "In-Vitro Fertilization". In addition to other activities, there will be a workshop on the effect of male genital infections on fertility and a symposium on the applications of releasing hormones and their agonists. Registration fees will be the same as for the 1983 meeting: (\$50 for members, \$70 for non-members, \$25 for students, residents, and fellows. There will be a \$10 bonus discount for registration prior to March 1, 1984).

The traditional social events of the ASA annual meeting are an opening night mixer, a wine and cheese tasting event held in conjunction with an evening poster session and the annual banquet of the Society. Special events for students include a special social mixer and a student colloquium. The meeting site, the Los Angeles Hilton, is located in downtown Los Angeles and is accessible by direct bus service from Los Angeles International Airport. The room rates are \$57 single, \$64 double. Three students can share a double at the rate of \$64 per room.

We invite you and your colleagues to attend this meeting and to submit papers for the program. Membership in the Society is not required to submit an abstract. However, members as well as students, residents, and fellows can register for the meeting at reduced rates. ASA members will receive additional announcements and registration forms later this year. If you are not a member but would like additional information about the 1984 meeting, or membership in the Society or would like to submit an abstract, please complete and return the form below.

ADDRESS: _____

American Society of Andrology

July 7, 1983

Eugenia Rosenberg, M.D.
Medical Research Institute
26 Queen Street
Worcester, MA 01610

Dear Eugenia:

I am writing to ask for your help in recruiting new members for the American Society of Andrology. As you know, a substantial increase in membership is critically important for the future of our Society. I believe that because of your standing in the field of andrology, a personal invitation from you will be very effective in persuading others to join ASA. I also feel that, because of the success of our Society in every area of its endeavors, the scientific caliber of our annual meetings and postgraduate courses, and the stature of the journal, it is now very worthwhile for anyone interested in the discipline of andrology to join ASA.

Please take the time to bring the activities and goals of ASA to the attention of your friends and colleagues and to extend to them your personal invitation to join the American Society of Andrology. You may wish to mention to them that the benefits of membership include substantial discounts in the subscription to the Journal of Andrology and the registration for the annual meeting.

You may also consider ASA membership as a gift to one of your colleagues, fellows or students. Student membership applies to all who are still in training and is only \$25 per year. Regular membership, at \$50, is a more substantial expense, but it is fully tax-deductible and it will represent a very important contribution to the growth and welfare of our Society.

I know how busy your schedule is, but please take a few minutes to consider who of your colleagues, associates, fellows or students still do not belong to ASA and approach them as soon as you can. If you succeed in recruiting even one new member, you will have made a significant and lasting contribution to the growth and function of our Society. Personally, I am counting on your help in strengthening the American Society of Andrology.

For your convenience, I am enclosing two membership application forms.

With warmest regards,

Andrzej Bartke, Ph.D.
President, American Society of Andrology

American Society of Andrology

February 21, 1984

TO: Officers, Council Members and Committee Chairmen of ASA
FROM: A. Bartke *Andrology*
RE: Council Meeting, March 13, 1984

Enclosed, please find the agenda for the meeting of the Council of ASA in Los Angeles. In addition to the sequence of the reports, I have listed the issues proposed for discussion by officers, Council members and Committee chairmen. These items are grouped by subject and listed under various committees, even though they will probably be discussed later during the meeting, under "new business." I thought this will give you a chance to prepare information, recommendations etc. on the issues related to the function of your Committee. If you would like to have more information on any of these items, please call me at 512-691-6677.

Enclosed also are copies of the reports I received as of this date. If you have not submitted a report, please bring at least 20 copies to the Council meeting and an additional 30-50 copies to the business meeting. If your report exceeds two pages, please prepare a shorter version (preferably one page) for the business meeting.

If you do not anticipate to attend the Council meetings and have not sent your report to me, please do it as soon as you can.

If your term of office ends in March 1984, I would like to urge you to prepare a "job description" for your office or Committee and give it to your successor and to the Secretary. This will be of great value in assuring smooth and effective function of the Society and I hope you will agree to make this extra effort.

SUMMARY REPORT
INTERNATIONAL LIAISON COMMITTEE
MARCH, 1983 - MARCH, 1984

During the past year, ASA invited the Presidents of the various andrology societies to participate in the annual ASA meeting in March, 1984. Although we were not able to assist the Presidents financially in travel to our meeting, arrangements were made to waive the cost of registration. The following Presidents were invited: Dr. Roger Abdelmassih, Brazil; Dr. Arif Adimoelja, Secretary-General, Indonesia; Dr. I.G.B. Amitaba, President, Indonesia; Dr. J.C. Czyba, France; Dr. Aldo Fabbrini, Italy; Dr. A. Galvao-Teles, Portugal; Dr. Robert Hudson, Canada; Dr. Bruno Lunenfeld, Israel; Dr. Cesar Nahoum, Brazil; Dr. Eberhard Nieschlag, ISA; Dr. Kyoichiro Ochiai, Japan; Dr. Jose Ma Pomerol, Spain; Dr. John Pryor, England; Dr. Fernando Scarinci, Argentina; Dr. Carlos Schirren, Germany; and Dr. Grzegorz Szymczynski, Poland. Seven of the above have indicated their plans to attend the ASA meeting: Dr. Abdelmassih, Dr. Adimoelja, Dr. Czyba, Dr. Galvao-Teles, Dr. Lunenfeld, Dr. Nahoum, and Dr. Nieschlag. Two Presidents indicated that they will not be able to attend: Dr. DaRugna and Dr. Scarinci.

During the past year, there have been three meetings of the Executive Council of the International Society of Andrology (minutes attached). These were held on March 24, 1983 in Philadelphia, Pennsylvania during the annual ASA meeting, on June 29, 1983 in Dublin, Ireland, during the Eleventh World Congress on Fertility and Sterility, and on October 14, 1983 in Bethesda, Maryland at the time of the annual Testis Workshop. It was apparent at the meetings that representatives of ASA have continued to play an active role in ISA activities.

ISA has grown to 15 member national societies (see enclosure). The national societies and their membership are as follows: American Society of Andrology (544), Argentina Society of Andrology (95), Brazilian Society of Andrology, British Andrology Society, Canadian Andrology Society (286), Societe d'Andrologie de Langue Francaise (175), Indonesian Society of Andrology (25), Israel Association for Andrology (49), Italian Society of Andrology (416), Japar Society of Andrology (370), Nordic Association for Andrology, Polish Andrology Society, Portuguese Society of Andrology (89), Spanish Association of Andrology (168), and the Swiss Society of Fertility and Sterility.

The Treasurer's report for ISA shows that, as of 11/18/83, the balance in the treasury was \$9,727.74 (U.S.). Income for the past year was as follows:

National Societies:	2,083.93
Individual members:	5,156.82
Sustaining members:	3,078.23
TOTAL	\$10,318.98

Expenses were \$591.24.

A major topic for discussion at each ISA Executive Council meeting was the plans for the International Congress of Andrology to be held in Boston, Massachusetts in 1985 in conjunction with the annual meeting of the American Society of Andrology. A Scientific Program Committee with representatives of both ISA and ASA has been appointed and plans are proceeding to organize the meeting. Extensive mailings have taken place to the various member national societies for further distribution to the members of their societies.

With regard to financial arrangements for the International Congress, responsibility for the budget has been assumed by the American Society of Andrology. It is hoped that sponsorship of selected activities will also be

sought from various organizations and agencies to help defray the expense of organizing the meeting. The Program Committee is attempting to obtain broad international representation and participation in the various lectures and symposia. The Executive Council of ISA has expressed its great appreciation to Dr. Robert Newton, USA, for his reports to ISA and for his excellent efforts as Chairman of the Program Committee for the International Congress.

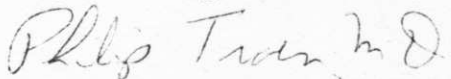

A second major item at ISA Executive Council meetings was the formation and initial report of the Bylaws Committee of ISA. The committee is chaired by Dr. Wayne Bardin (USA), and includes Drs. Nieschlag (F.R. Germany), Eliasson (Sweden), DeCastro (Brazil), Troen (USA), Fabbrini (Italy), and Tamaoki (Japan). It is planned to distribute suggested changes of the bylaws to the various member national societies at least a year in advance of the 1985 general assembly. It is expected that two types of changes will be made in the bylaws: those that are technical involving, for example, clarification of language or providing internal consistency and those which are philosophical relating to the mission and function of ISA.

A major concern has been the role of individual members in ISA. During the Executive Council meetings, it was clarified that the intent of the original bylaws was to provide a means of having individual members for ISA from those countries in which there is no member national society of andrology. Although individual members from other countries are welcomed, it is presumed that their role in ISA will be represented by their respective member national societies. It was emphasized that the role of ISA is in the nature of a federation of national andrology societies. This will also be clarified in the suggested revisions. It will also be necessary to change representation on the Executive Council since ISA has now grown to 15 member national societies. At the Executive Council meeting of ISA in October, 1983, it was agreed that at this time provision should be made for all member national societies to have a representative on the Executive Council. In addition, two Executive Council members at large would be elected from individual members from countries without member national societies. Changes reflecting these concepts as well as technical changes suggested by the Bylaws Committee will now be put in final form by the Committee for further review at the Executive Council meeting in March, 1984.

It was suggested that all member national societies of ISA use the International Society of Andrology as a central clearinghouse for scheduling events in the future. This would allow for more efficient arrangements and minimize possible conflicts.

In summary, it appears rapid progress is being made internationally in andrology. The ISA is playing an appropriate and responsible role in these developments.

Respectfully submitted,

Philip Troen, M.D.
Chairman
International Liaison Committee

REPORT OF THE DIRECTOR OF THE POST-GRADUATE COURSE
1984 Annual Meeting of the American Society of Andrology

Together with Dr. Gerald Bernstein, the Program Chairman for the 1984 Annual Meeting, we were able to organize a course on BASIC AND CLINICAL ASPECTS OF HUMAN SEMEN, a topic agreed upon during the last Council meeting.

The basic aspects of semen will deal with the morphologic and physiologic aspects of the spermatozoa and the physiology of the seminal plasma. The clinical aspects will deal primarily with clinical implications of sperm motility, with clinical implication of the constituents of seminal plasma, and with clinical implication of abnormal morphology of the formed elements in the semen. Also, a section on the interpretation of semen analysis from the viewpoint of a couples fertility potential will be presented.

A total of seven speakers will comprise the faculty. The speakers are well-recognized authorities in the specific areas of "seminology".

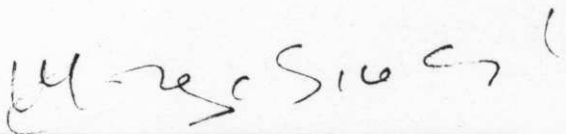

We are looking forward to a successful course.

Thanking you,

E. Steinberger, M.D.

JOURNAL OF ANDROLOGY

"REPORT OF THE EDITOR"

Marie-Claire Orgebin-Crist, Ph.D.
Editor-in-Chief

January 5, 1984

I. SUMMARY REPORT

On May 1, 1983 the Editorial Office moved from the University of Texas, San Antonio, to Vanderbilt University, Nashville, Tennessee. We published 54 manuscripts in 1983, for a total of 431 pages. The mean interval between submission and publication was 12.8 months.

In 1983, 84 unsolicited manuscripts were submitted. This represents an increase in comparison to 1980, 1981, and 1982 when 74, 62, and 77 manuscripts, respectively, were submitted. The rejection rate for last year was 51%, up from 33% in 1982. Between May 1, 1983 - December 31, 1983 the mean interval between submission of a manuscript and completion of the first review was 1.7 months. Fifty-three percent of the authors received the result of the first review within 1.5 months and 72% in less than 2 months.

The Journal is growing, but the quality of submitted manuscripts must be improved. It is important that the members of ASA support the Journal by sending first-rate manuscripts.

II. DETAILED REPORT

A. Status of Manuscripts Submitted

1. 1980 - A total of 74 manuscripts submitted
50 - Accepted
24 - Rejected
Rejection rate for 1981 - 32%
2. 1981 - A total of 62 manuscripts submitted
44 - Accepted
18 - Rejected
Rejection rate for 1981 - 29%
3. 1982 - A total of 77 manuscripts submitted
(Soupart Memorial Issue and Pisa Supplement not included)
46 - Accepted
23 - Rejected
7 - In Revision
1 - Withdrawn
Rejection rate for 1982 (based on 69 manuscripts) - 33%
4. 1983 - A total of 84 manuscripts submitted (Pisa Supplement not included)
30 - Accepted
31 - Rejected
23 - Pending
Rejection rate for 1983 (based on 61 manuscripts) - 51%

B. Reviewing Process

The mean interval between submission and publication for all manuscripts published in 1983 was 12.8 months.

Between May 1, 1983 and December 31, 1983 the mean interval between submission of a manuscript and completion of the first review was 1.7 months. Seventeen percent of the authors received the result of the first review in less than a month, 53% in less than a 1.5 month, and 72% in less than 2 months.

Twenty percent of the reviewers sent back their reviews within two weeks, 58% within a month, and 90% within 1.5 months.

The backlog of accepted manuscripts fills the first three issues of volume 5, thus, we are currently accepting manuscripts for publication in the July/August issue due to be sent to the publisher April 1, 1984.

C. Invited Reviews

In 1983 no review articles were published. However, six reviews have been promised.

D. Pisa Supplement

The proceedings of the symposium, "Therapy in Andrology," held in Pisa, Italy in 1982 had been scheduled for publication by Dr. Bartke as the December issue of the Journal. However, the reviewing process was not completed by the deadline. The proceedings will appear in April 1984 as a supplemental rather than a regular issue of the Journal. Publication of the supplement as a regular issue would have postponed the publication of the nine manuscripts already accepted by December 1, 1982 until the May-June issue.

A total of 26 manuscripts were submitted.

13 - Accepted

9 - Rejected

4 - Pending

Rejection rate for Pisa Supplement (based on 22 manuscripts) - 41%.

E. Editorial Board

During 1983 seven new members were added to the Editorial Board:

Anthony R. Bellve
Yves Clermont
Lawrence Dubin
Howard R. Nankin
J. David Puett
Leo E. Reichert, Jr.
Stephen J. Winters

At that time seven members were rotated off the Board:

Richard Amelar
Rudi Ansbacher
Martin Dym
Fernand Labrie
Thomas J. Lobl
Richard Sherins
Philip Troen

The full composition of the Board is:

Rupert P. Amann
Michael J. Bedford
Anthony R. Bellve
Yves Clermont
Lawrence Dubin
R. Donald Eward
Robert H. Foote
Jackson E. Fowler
Stuart S. Howards
Howard R. Nankin
C. Alvin Paulsen
J. David Puett
Leo E. Reichert, Jr.
Luis J. Rodriguez-Rigau
Sydney A. Shain
Richard L. Stambaugh
Anna Steinberger
Donald J. Tindall
Stephen J. Winters
L.J.D. Zaneveld

F. Item of Interest

Several members requested that the name of the journal, volume number, and date be printed on the spine of the journal. Lippincott agreed and this will be done starting with the first issue of Volume 5.

G. Item to be Considered by the Publications Committee

Manuscripts, the scientific content of which is considered excellent or very good by the reviewers, could be published rapidly and out of sequence. The membership would be aware of this in the hope that it would attract high quality manuscripts to the Journal.

H. Financial Report (April 1, 1983 - November 30, 1983)

Expenses:

Salary for Editorial Assistant	\$ 6,979.46
Staff Benefits for Editorial Assistant	1,053.88
Postage	993.71
Office Supplies	453.93
Telephone	279.54
Travel	<u>279.69</u>
Total	\$10,040.21

American Society of Andrology

REPORT OF MEMBERSHIP CHAIRMAN - RICHARD M. HARRISON, Ph.D.

January 6, 1984

In March 1983, prior to the Annual Meeting, we had 483 members. Since that time to the present we have processed 109 applications and have one application that is incomplete. The breakdown of these applications is as follows:

Regular Members

North America 44 Ph.D.
 22 M.D.
 7 Ph.D. + M.D.
 2 no advanced degree

Foreign 7 Ph.D.
 6 M.D.
 4 Ph.D. + M.D.

Student Members

North America 3 Ph.D.
 4 M.D.
 1 Ph.D. + M.D.
 1 D.V.M.
 6 no advanced degree

Foreign 1 Ph.D.
 1 M.D.

Totals: 92 Regular Members (17 Foreign)
 17 Student Members (2 Foreign)

Depending on the number of members that we lose through non-payment of 1984 dues, we may have 600 members by the 1984 March Annual Meeting.

Dr. Lonnie Russell (Ph.D. in physiology at S.I.U.) will be the new Membership Chairman beginning at the March meeting. All application received after March 10, 1984 will be processed through his office.

Happily submitted,

Richard M. Harrison

Endowment Summary

The endowment program has continued to develop during the last year. The Society has three active endowment areas: The annual meeting Speaker Endowment; The Student Award Endowment; The General Fund Endowment and Life Membership.

The 1983 donations to the endowment were as follows:

<u>Student Award</u>	1983	Total
Don Eward	\$1,000.00	\$3,000.00
Cash supplement for awards		
<u>Annual Meeting</u>		
James Nelson	1,000.00	3,000.00
<u>General Fund</u>		
Knoll Parmaceutical	1,000.00	
Dirk Propping		
Robert E. James	175.00	
Brian Cohen	20.00	
Eugene Samojlik	10.00	
Andrzej Bartke	50.00	
Tom Lobl	25.00	
Don Walker	15.00	
Mosocchi Kimura	30.00	
George Miner	50.00	
	1,385.00	2,560.00
<u>Life Membership</u>		
Rudi Ansbacher	1,000.00	1,000.00
<u>Interest Income</u>		
	528.95	891.95
<hr/>		
Grand Totals	\$4,913.95	\$10,451.95

The interest earned in 1983 on the Endowment was equivalent to the disposable income of an additional 35 members (\$15/member). Now that we have an endowment fund of \$10,000 a variety of new and safe investments become available to guarantee us a high interest income (ie. greater than the 8.9% current). With the new and vigorous leadership of the new treasurer we can expect the endowment fund to grow at a more rapid pace. In all 1983 saw accelerated growth in the endowment fund.

FUTURE MEETINGS COMMITTEE
REPORT

For the Interim Council Meeting of the
American Society of Andrology

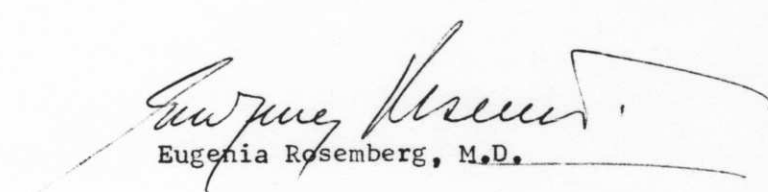

Sunday, August 7, 1983

Proposed dates, hosts, locations of future Annual Meetings of the ASA.

<u>Date</u>	<u>Host (s)</u>	<u>Location</u>
March 13-16, 1984*	Gerald S. Bernstein, M.D. Richard Horton, M.D.	Los Angeles California
April 27-May 2, 1985*	Robert Newton, M.D.	Boston Massachusetts
March 1986*	R. Donald Edward, M.D. Thomas Lobl, Ph.D. Rudi Ansbacher, M.D.	Grand Rapids Michigan
March-April 1987*	Carolyn J. Connell, Ph.D. Rupert P. Amann, Ph.D.	Fort Collins Colorado
March-April 1988*	Glenn R. Cunningham, M.D. Donald J. Tindall, Ph.D.	Houston Texas
March-April 1989**	Madhwa Raj, Ph.D.	Chapel Hill North Carolina

* Approved by Council

Dear Dr. Rosemberg:

I am sorry for having missed the San Antonio meeting. I had to cancel my plans at the last minute. My father came down with an inflamed prostate resulting in urinary obstruction and we had to take him for an I.V.P..

Several departments at UNC are willing to support our organizational efforts in holding the ASA meeting. We have a "rejuvenated" Laboratories of Reproductive Biology (of which I am a member). As its director, Dr. Frank French has agreed to be supportive of this meeting. In the Department of Anatomy are several investigators interested in aspects of male reproduction. Drs. Stumpf, Sar and Kierszenbaum from this department will be helpful to our cause. Of course, from our department, we will be able to get all the support and services of Mrs. Marge Riddle, a Continuing Education Specialist, well versed in aspects of holding meetings. There has been considerable interest and support from the Department of Medicine and the Division of Urology. In addition, from the School of Pharmacy, investigators synthesizing various derivatives of gossypol for antifertility action in the male, have pledged to give any support they can.

With regard to institutional support, the Continuing Education Department of the Medical School has agreed to help us with preregistration, brochures, mailing and audiovisual needs. They will also help with hotel arrangements, poster sessions and accreditation.

In summary, there is enormous enthusiasm and support from individuals, departments and institutional quarters for holding this meeting at Chapel Hill.

I hope this answers the queries of the ASA Council. I will be happy to provide any other information that you may think necessary in this regard. Warmest regards,

Sincerely,

Madhwa Raj, Ph.D.

Dear Dr. Rosemberg:

Enclosed you will find a provisional schedule of the scientific program for the Third International Congress of Andrology to be held in Boston April 27-May 2, 1985. Unless there is a strong objection to this schedule it will be a final one. Of course, numbers can be adjusted in this schedule to accommodate the numbers of abstracts received and the final organization of symposia.

You will note that we have put a strong emphasis on symposia which will be two hours in length and have co-chairman as well as four speakers. It is possible that one or more of the co-chairmen may be a speaker. I have also enclosed a list of symposia subjects which will compose a good balance of both basic science and clinical aspects. This list is a distillate of all suggestions made by the program committee. The symposia will have both a local (USA) and international Co-Chairmen to facilitate organization of the symposium. I have not included the names of the co-chairmen as they have not as yet been finalized. However, these names will also be based on the program committee's suggestions and include a broad representation from the ISA.

You will note that there will be poster sessions on three of the mornings between 10-12 a.m.. It is hoped that this "prime time" presentation of posters will encourage those wishing to present papers to do it in this manner. In this way we hope to accommodate a larger number of presentations than could otherwise be possible. During these two hours we hope to have leaders taking a group to visit posters of a certain category.

Oral presentations will be given between 1600-1800 hours on Monday and Tuesday as well as during the plenary session. During the afternoon oral presentations there will be four simultaneous sessions.

On Thursday afternoon there will be a four hour symposia on the Oligospermic Male in Relation to In-Vitro Fertilization. This symposia will comprise both basic science and clinical aspects.

Just prior to the actual start of the Congress the American Society of Andrology Council will meet on Saturday afternoon. On Sunday there will be a postgraduate course ending at 1700 hours and on Sunday afternoon registration for the meeting will begin. In the evening there will be an opening reception.

On Monday, April 29th, the Congress will start with initial welcomes from the Presidents of the International Society of Andrology and the American Society of Andrology. This will be followed by the Sorono Award Lectureship and then a plenary session of six oral presentations. Between 1100 and 1200 hours the awards ceremony will take place with presentation of the Student Award, Young Andrologist Award and Distinguished Andrologist Award.

During the lunch hour throughout the week the ISA Council will meet twice and the ASA will have its business meeting.

On Monday evening it is hoped to have a reception by the Governor at the Hall of Flags in the State House. On Wednesday, May 1st, we will hold the banquet in the evening.

For those who wish to stay for the week-end following the meeting to do some sight-seeing in Boston and surrounding areas, arrangements will be made.

I invite you to send me any comments that you might have regarding this schedule of the scientific program and the final listing of symposia subjects. I hope to see as many of you as possible in Los Angeles at the ASA Annual Meeting.

Sincerely,

Robert A. Newton, M.D.
Program Chairman
III International Congress of Andrology
