GEORGE W. CARVER  
Director Department of Agriculture  
and Experiment Station

Tuskegee Institute, Ala., Aug. 6, 1907

Dr. L. H. Pammel,  
Ames, Ia.

My dear Dr. Pammel:

I write to inquire to whom I can refer doubtful specimens of fungi for determination. I have a number of Phyllostictos<sup>a</sup>, Gloesporiums, Cercosporas, Pyrenomycetes, etc., that I don't find described.

Since the death of Prof. Ellis I have been very much at sea. Dr. Bitholomew<sup>an</sup> of Stockton, Kas. had a <sup>few</sup> number of them referred to him but for some reason has not determined them and from whom I get no reply. I shall be very grateful for any suggestion you may have to offer.

Trusting you and Mrs. Pammel and the children are quite well and tendering them my best regards, I am,

Sincerely yours,

Geo. W. Carver.  
director.

I should like to visit you while in your bungalow. I feel sure that you will enjoy the experience.
