

7-C

May 20, 1924.

Professor G. W. Carver,  
Tuskegee, Alabama.

Dear Professor Carver:

I have your letters of May 12 and 14 and the samples of colors sent to me. I am, indeed, glad to get this for the college collection to be preserved in the museum. I am planning to place this in such a place that it can be put on a board and show off to good advantage.

I shall write you a little later in regard to the celebration of my thirty-fifth year of service in Ames.

Yours truly,

P/T.
