h R  
Prof. Geo. W. Carver,  
Tuskegee, Institute,  
Tuskegee, Alabama.

Dear Prof. Carver:

I am in receipt of your letter of January 11th, and I am having my secretary look up the park bulletins. It is likely that Mr. Merckens is starting with the current issues. I hope you will receive them.

Glad to hear from you. I note what you say about the 193 peanut products. I am noting this for the college history committee. If you have an account of this display I would like to get it.

Mrs. Pammel and I are down here for the winter to escape the cold weather. My post season's greetings to you, and with best wishes,

Yours truly,

P/H

Prof. Carver: I am mailing you copies of the park bulletins that we have on hand, and writing to Mr. Merckens again so that he will be sure and place your name on the list for the future ones.

Secy. Dr. Pammel
