Gainesville, Florida

Prof. Geo. W. Carver,  
Tuskegee, Alabama,

Dear Prof. Carver:

I read with much interest "A Scientist in God's Workshop". I am sorry that so many papers give you credit for having done your work at the State University. I am always glad to get this material for the College History.

We are enjoying this Florida sunshine and the flowers. The dogwood is just in its prime.

With our kind regards,

Yours truly,

P/H
