

Tuskegee Ala.

6-19-99

My dear Prof. Pammel.

I thank you very much for your
concessions and additional suggestions
& will not be able to get my paper in
until you return, & think I am working
on the specimens now & laid out
17 for you sub. last.

I hope you will have a very
pleasant trip west, & know you will
make it profitable if everything is
favorable for you.

I think you will find that I have
some very interesting Cer.

With very wishes to all.

Sincerely yours

Geo. W. Cameron.
