Geo. W. Carver,
DIRECTOR DEPT OF AGRICULTURE
AND EXPERIMENT STATION.

TUSKEGEE, ALA., 8-2-1897

My dear Prof. Pennell:-

Under the new act, and the great multiplicity of papers, and the non acceptance of my paper for publication, leads me to believe that the Academy of Science does not care for papers of that nature, and it seems to me to take any of your valuable time in looking over a long list of matter that will probably amount to practically nothing.

I am getting along nicely, having plenty of work to do, and a most excellent opportunity to study fungi. I have just returned from the sea shore at Old Point Comfort Va. had an excellent trip and made some valuable collections of fungi etc. With best wishes to all, I am yours most truly.

Geo. W. Carver.
