And Experiment Station.

Dr. L. H. Pammel,
Ames, Iowa.

my Dear Professor Pammel:-

It is always pleasing to me to note the progress made in your department. I do not know of any department of the institution that has made as permanent and satisfactory progress as yours. Despite the many disadvantages under which you have labored, is one of the best ^{tests as to the} values of the person in charge, and I look forward to a still greater progress in the future.

With best wishes to yourself and family, I remain,

Yours most truly,

Geo. W. Carver
