Geo. W. Carver,  
Director Department of Agriculture  
And Experiment Station.

TUSKEGEE, ALA., Jan 18 - 1901

My dear Prof. Pennell,

I have both of your letters, and will try to send you some specimens.

I fear I will have to wait until I can get fresh ones, as it seems almost impossible to keep the insects over, hence I have an almost endless amount of trouble with my Cryptos.

I shall bear in mind the thirst and prices.

You stated you had shipped or rather mailed my separates the same date of your letter. Jan. 11

I have as yet not Rec. them.

Yours Very truly

Geo. W. Carver.

Ans.
