

December thirteenth,

1919.

Professor G. W. Carver,
Tuskegee Institute, Ala.,

Dear Professor Carver:-

This is merely to acknowledge your letter of December sixth. I called attention to the collection of fungi you are sending me in the Botanical Staff meeting to-day. I said it would be of great value because you are such a fine collector, and that the specimens passed through the hands of Ellis, Everhart, etc. Thanking you again, I am,

Yours truly,

LHP/EMT.
