

Tuskegee Normal and Industrial Institute

Geo. W. Carver,
DIRECTOR DEPT OF AGRICULTURE
AND EXPERIMENT STATION.

TUSKEGEE, ALA., 5-1-1908

My dear Prof. Pammel,

I am thinking of working up the Uredineae for my next paper, with some additional notes on Cer. ca. as some of the collections made last year remain undetermined. I have already made some fine Col. I have a very rare P. C. on *Zephyranthes atamasca*, I cannot find it listed anywhere, & in course as soon as I can find more will send you some. Have you any suggestions to make.

5-1-1900

I trust you are all well, will you
go away this summer?

When will the Acad. Rpts. be out?

With best wishes to all.

I remain yours most truly

G. W. Carrer.
