Geo. W. Carver,
DIRECTOR DEPT OF AGRICULTURE
AND EXPERIMENT STATION.

TUSKEGEE, ALA., ¹¹⁵~~304~~ May 17 - 1900

Prof. S. H. Pammel,
Ames Iowa.

My dear Prof. Pammel,

Thank you for the advice given & am
monographing my ^{Ala.} Collection of fungi, & am
following the method of our paper in the Acad.
of Science, giving a few notes on distribution
and destructiveness. Will this be O.K.? To whom
can I refer doubtful specimens, & would like

May 17, 1900

to have the Cercos. specimens determined.

Do you know of any work on Zephyranthes
Atamasca. I have a nice lot of it, & am
going to send you some when it dries.

I have the puccinia, unedo and one leaf with
Aecidium on it. I have not collected this
before. Quite a large number of my
specimens have been determined by Prof.
Eagle, of Auburn Ala. and some published.

Any information will be thankfully
Rec. I may come here this summer.
Love to all. Very truly Geo. W. Coker.
