

Tuskegee Normal and Industrial Institute.

Geo. W. Carver,
DIRECTOR DEPT OF AGRICULTURE
AND EXPERIMENT STATION.

TUSKEGEE, ALA., 8-30-1900

My dear Prof. Pennell,

I see by the paper that your trip was quite a success and that you have returned. I succeeded in doing quite a deal of studying on our paper, but most of it was put upon looking it up and putting it in the Herbar. I found the specimens considerably scattered.

I do not see how I can go on with the paper as my micros. has no micrometer and the machine

eye pieces will not fit neither will the ^{8/30/1900}
Camera, and I do not feel able to get both
a mic. & camera this year.

I thought sure they would fit when I was
talking to you about them. I could use the
Nachet ~~to~~ microscope but it is not clear.

Mrs. Pennel and the children made
my stay exceedingly pleasant, kindly
remember me to them.

Best wishes
to Mr. Hodson
and others.

Yours very truly

Geo. W. Corcoran.
