TUSKEGEE NORMAL AND INDUSTRIAL INSTITUTE

FOUNDED BY BOOKER T. WASHINGTON

FOR THE TRAINING OF COLORED YOUNG MEN AND WOMEN

GEORGE W. CARVER

DIRECTOR OF RESEARCH AND EXPERIMENT STATION

TUSKEGEE INSTITUTE, ALABAMA

March - 23 - 28.

My beloved teacher and friend, Dr. Tammul:-

You and Mrs. Tammul here last Sunday? I can scarcely realize it, to me it seems like one of those delightful dreams that we have occasionally, too good to be true.

I trust you reached home safely, I wish you could have seen more of the work that I am trying to do.

I am so glad that your health is being conserved so that you can go on inspiring and instructing young people.

I meet quite a number of students who have been at Ames, and without a single exception, they say they have been in your class or wished they had.

I presume the young man went his way, I hope he will do well. I have asked Dr. Moton's office to send you some pictures of the school.

I was greatly pleased to have your approval

the possibility of utilizing the palm for the making of paper.

I believe it can be made a worthwhile industry here in the South.

I find so many wonderful possibilities here in the South, indeed I believe the South is the richest section of the United States in undeveloped resources.

With so much love to your aunt

Mrs. Tammel,

I am sincerely yours,

G. W. Barber.
