Professor G. W. Carver,  
Tuskegee, Ala\_bama,

Dear Professor Carver:-

Some time ago there came to my office some more specimens of your splendid collection of fungi. I was away when the package arrived. I want to thank you for your kindness in this matter. I hope shortly to be able to send you some reprints and also a copy of our Conservation Board Report.

With kindest regards, I am,

Yours truly,

LHP/T.
