(Two eggs in nest of Prairie  
Horned Lark's nest Apr 9th)  
My first observation of the  
nest of this bird.

While in Des Moines on Apr 5th  
I had a list of 54 and Kenneth  
had a list of 56 but he had 17  
which I did not have and I had 15  
which he did not have but our total  
list together was 71  
To day (Apr 9) I am just 20 ahead  
of this same date last year.

Your friend,

*Walter*

P.S:- Dr Hornaday will be our  
banquet speaker at the I.O.U.  
meeting in Des Moines. Wish you  
could be with us also.

Excuse haste.
