Sherman - Clayton Co

Questionnaire For a New Birds of Iowa

During the past several months I have been assembling information for a revised list of the Birds of Iowa. This list
will incorporate the recent changes in nomenclature as given in
the new A. O. U. Check-List (1931). The status and distribution
of all species occurring in the state at the present time will be
given, and rather full details of the occurrence of rare or accidental species.

A species (or subspecies) to be included in the state list gi ust be represervations as not necessary to attempt to recognize these is one which of s. unmi accidental occurrence that their being seen is improbable are included in the state list is urgound in the field. An asterisk before the come extinct in Minnesota within recent years. The narm in the American Ornithologists' Union Check-List for known as given.

RECTIONS FOR RECORDING DATES. Summer Spring: give date when first seen, we common, and first nest with fresh eggs. Fall: when last seen. Transient Visitants—Spring and Fall: when seen, when common, and when last seen. Permanent Residents—First nest. Winter Visitants—When first seen in the fall or winter and last seen in the spring. Use separate sheets for reporting spring and fall observations.
