A. B. FUNK
IOWA INDUSTRIAL COMMISSIONER
RALPH YOUNG, DEPUTY

RAY M. SPANGLER, SECRETARY.

O. J. FAY, M. D. MEDICAL COUNSEL.

My dear Dr. Weeks:

In the following list, ~~checks~~ are placed before names of water species for which you sent me arrival dates. Will you kindly indicate which of them are rare and which are uncommon ^{at Emmetsburg} by writing, after ^{or before} the name of each of these, either "rare" or "not common;" as the case requires? *And return to me?*

And oblige
Nettie S. Funk

 Ruddy turn stone r

We finally obtained promise
 of arrival dates - from reliable
 observers - from northern Wisconsin,
 also, from western Kansas. Are, therefore
 rejoicing in having them for
 25 localities in the N.C. Section.

As a means of celebration, my
 doctor put me to bed to rest
 it out. "But it's worth it!"
