Mr. Milton F. Hulburt
Reedsburg
Wisconsin

Dear Mr. Hulburt:

I note with gratification that you and other residents of the Reedsburg area are feeding quail. You apparently appreciate the fact without my telling you that this is the ~~best~~^{best} way in which you can expect to encourage the quail in your, or any other, vicinity, that is, in the North.

You mention something in your letter about taking pictures. I would certainly appreciate any good pictures that you might obtain, because I have practically none of any value. In case you get some especially good pictures I would like to use some of them for my final report, due in about a year. Of course due credit will be given you for any pictures so used.

I am not familiar with the contents of the article in the Baraboo News, so I am taking the liberty of sending you a reprint from a recent issue of American Game. This might contain something of value to yourself and to those similarly interested in ~~quail~~ wild life.

If I find myself about Reedsburg at any time in the future, I shall try to drop in and see you.

Yours sincerely,

Paul L. Errington
