Dr. W. L. McAtee
Food Habits Research Division
U. S. Biological Survey
Washington, D. C.

Dear Dr. McAtee:

I am submitting to you for criticism the rough draft of a paper on "Technique of Raptor Food Habits Study," which paper is for publication in The Condor this fall.

Will you please pay particular attention to the sections on Field Observation, Stomach Examination, and Determination of Kills, in order to catch up any statements I have made which may be at variance with your own findings.

I wish to thank you very much for your prompt attention to the articles which I have already submitted to you, and I hope that you will not look upon these papers as being too much of a burden.

Yours sincerely,

Paul L. Errington
In Charge, Quail Investigation
