Mr. W. B. Grange  
U. S. Biological Survey  
Washington, D. C.

Dear Wallace:

I am sending you another manuscript, "Wild Life Management; An Integration of Ends in Land Use," for your criticism. This was prepared primarily as the concluding chapter of my thesis but may also be published separately, perhaps in American Game.

Have you received the Wilson Bulletin paper on "The Nesting and the Life Equation of the Wisconsin Bobwhite," which I sent you some time ago? This is not to be taken as a reminder that I want it back, for I know that you are spending much time in the field. However, I thought perhaps this paper had gone astray and I had better ask you about it.

Yours sincerely,

Paul L. Errington  
In Charge, Quail Investigation
