

February 9, 1933

Mr. Franklin J. W. Schmidt,
Hartley, Iowa

Dear Frank:

I am sending you at Hartley the box of bands from the Minnesota Fish and Game Department. I trust that you will receive them o.k.

I am very glad to learn that you got into some good trapping weather and stand a fair chance of getting some bands placed. I think you are wise in staying up there until the end of the week to take advantage of weather conditions.

I am half-way planning to be up around Ruthven this week-end; in this event I may run over to Hartley to see you. Do not plan on this, however, for things may not work out that way. At any rate I trust that I will be able to see you in Wisconsin in about three weeks or so.

I had a good talk with Professor Wagner and he is of the opinion that you are not taking a great deal of course work that requires absolutely regular class attendance. I am quite sure that he would be willing to cooperate to the extent of making possible for you to spend a couple weeks or thereabouts doing this banding work even after the University has officially started.

You might leave word with some person, such as the postmaster, at Hartley as to where I might find you in case I arrive Saturday or Sunday.

Very truly yours,

PLE*B
