

May 19, 1933

Mr. Ralph E. Yeatter,
School of Forestry and Conservation,
Univ. of Michigan,
Ann Arbor, Michigan

Dear Ralph:

I suppose that I won't have very many more occasions properly to address you as Mr. so I am taking advantage of it to the last.

I don't know what plans you may have for the summer, but if you have nothing in sight that pays cash, I would like to have you and Grace consider coming up to Ruthven, Iowa and working out of the wild life biological station that we are planning to establish. We could not give you any money, but arrangements for free board can be made, and you would have an opportunity to study Hungarians in fairly good country rather typical of northwest Iowa.

If you would be interested in such a possibility, please let me know.

Very truly yours,

PLE*B

Paul L. Errington,
Asst. Prof. Wild
Life Research
