Dear Mr. Leopold:

I have been notified by H. A. Schutte, Secretary of the Wisconsin Academy of Sciences and Letters, that he has in his office a package of cuts made to illustrate my "Wintering of the Wisconsin Bobwhite" paper. These cuts, I suppose, pertain to the winter mortality graphs. Would you mind having them retrieved at your convenience?

Sincerely yours,

Paul L. Errington

Dear Dr. Errington:

The cuts mentioned above are now at our office.

Do you want us to hold them here or shall we send them to you?

Merry Christmas.
