Mr. Aldo Leopold,  
Old Soils Building,  
Madison, Wisconsin

Dear Mr. Leopold:

I am submitting to you for criticism my manuscript on population vulnerability after having revised it according to your previous suggestions. If you are in favor of it in its present form please return it with whatever comments you may wish to make; if you think it still has glaring shortcomings better keep it until I see you again.

I was hoping to get to Madison this week but can't make it now. I am leaving for the East for the Science meetings about the middle of next week, and will be back sometime after New Years. I haven't any specific plans after that time, but Bill Schuenke and I wish to make a trip into Wisconsin to confer with you and Grange and to look over some of the quail areas. I shall get in touch with you soon after returning.

Very truly yours,

PLE:EB
