July 22, 1932

Mr. Cal Johnson, Editor
Outdoor America
222 North Bank Drive
Chicago, Illinois

Dear Cal:

It will cut some of my chapters on the Iowa Survey pretty severely to reduce them to 2,500 words, but if this is in addition to the space occupied by cuts, I think I can stay within your specifications. The copy for the September issue will be in your hands not later than August 5.

I have a few photographs and a considerable number of maps and charts which I think will help lighten up the material, and since I am writing it especially to order I will be able to avoid scientific dryness to a considerable extent. I cannot, of course, create a willingness to think in the readers of *Outdoor America*, but that is the thing we are both gambling on in all conservation work.

With best regards,

Yours sincerely,

ALDO LEOPOLD
