

April 28.

Dear Paul -

Unless you've already ordered the book for Mrs. S. Please let me send her one. Let me know at Madison whether you have. Also should you ever want any order thru me as I get 40% off. I forgot to mention this.

Mr. Parker gave me a favorable account of your progress - he didn't say so in so many words but I gathered that a good many people who "noticed your Ph D" at the outset now had much confidence in your efforts. This is between us of course.

Yours

As
