

Aldo Leopold
CONSULTING FORESTER
Madison, Wisconsin

Tucson, Arizona,
June 1, 1933.

Mr. Paul L. Errington,
Biology Building,
Iowa State College,
Ames, Iowa.

Dear Paul:

Just a line to express my satisfaction with your gracious letter to Seth Gordon. This thing had been weighing on my mind a lot, but does so no longer.

I like the way your idea of environmental pressure is developing, as indicated in your comments to McAtee. It seems to me that you are on the trail of something really important.

With best regards.

Yours, as ever,

Aldo Leopold
