Dear Barry:

You have satisfactorily answered the method of handling fractional pages. I have asked the Iowa State College whether they would care to publish this MSS. as a technical publication, and shall probably have an answer from them in the near future, after which I will let you know promptly whether to go ahead with the additional chapters in The Waltonian.

I appreciate your efforts on my behalf, and at the same time I hope you appreciate my desire to get this published in the best form that I possibly can.

With kindest regards,

Yours sincerely,

ALDO LEOPOLD

Dear Paul: I appreciate your wire of September 20 and hope Dean Buchanan can let me know his decision as soon as convenient. I will, of course, be glad to revise the manuscript.

A. L.

Greetings!
