

Copy to Dr. Errington

New Soils Building  
April 24, 1934

Mr. Charles L. Horn, President  
Federal Cartridge Corporation  
Minneapolis, Minnesota

Dear Mr. Horn:

This letter is first of all to acknowledge my gratification in learning of your wide interest in the literature bearing on the history of modern conservation problems. You have gone much further than I into this field and I will appreciate your guidance for my own efforts from time to time.

Secondly, this is a reminder asking you to send me the correct titles of the following:

Imley. "American Letters."  
Author? "History of the Norman Conquest." Containing data on management systems then in vogue.  
Malthus? or Price? Containing analogies between game populations and human populations.  
Childrus. Title? Describing a trip from St. Joseph to Salt Lake in 1857.

The next time I get to Minneapolis I am going to take advantage of your invitation to see your library.

With kind regards,

Yours sincerely,

ALDO LEOPOLD  
In Charge, Game Research
