Dear Mr. Leopold:

It seemed like old times to see your signature on letter in this morning's mail.

I am interested in the Errington paper, and I also thank you for the added information regarding the other S.A.A.M.I. fellowships. I regard the fellowship phase of the Institute's game restoration work as perhaps its most important contribution to the general cause, and I am not unmindful of the fact that the idea was wholly yours.

With all good wishes, I remain

Sincerely yours,

Allen Davis  
General Manager.
