

Copy to Mr. Errington

PERSONAL AND CONFIDENTIAL

New Soils Building  
June 5, 1934

Dr. R. L. Webster  
Zoology Department  
State College of Washington  
Pullman, Washington

Dear Dr. Webster:

I have your letter of May 30.

The following is my confidential appraisal of Logan  
Bennett:

He is an excellent field naturalist and would make Grade A material for executing a life history investigation, but I have no positive evidence of his being willing to organize or plan a series of investigations or to teach, and I have definite information that his ability to write is limited. If you want him for studying game birds, you could do no better. If you want him for the faculty position which you previously wrote about, I would advise you to consult Dr. Paul L. Errington, his superior officer at Iowa State College.

Yours sincerely,

ALDO LEOPOLD  
In Charge, Game Research
