MEMORANDUM RE GAME MANAGEMENT SEMINAR:

No formal courses in game management are offered during summer school, because this season is my principal opportunity to do field work throughout the state. There are, however, several graduate students at summer school who wish to feel out the subject, and for their benefit it is proposed to organize an irregular seminar, without credit, to be called for evening sessions whenever game men are available to lead the discussion.

It is requested that Grange and Schmidt notify Miss Horn in advance whenever they have an evening in Madison. It would also be appreciated if Ernest Holt, Paul Errington, William Grimmer, Gilbert Gigstead, and other cooperators would notify me of possible opportunities to lead a seminar. The meetings will be held at my office, 2 New Soils Building, at 7:30 p.m. Any faculty members interested in discussing game questions will be welcome.

If you know of anyone wishing to attend this seminar, please send me his name so that he will receive notice of the meetings.
